آناتومی عملی حواس ویژه

شامل مولاژ های چشم و گوش

دانشگاه علوم پزشکی و
خدمات بهداشتی درمانی هرمزگان

تألیف:
امیرحسام احمدی

پزشکی - مهر ۱۴۰۲

دانشگاه علوم پزشکی و خدمات بهداشتی درمانی هرمزگان

توجه:

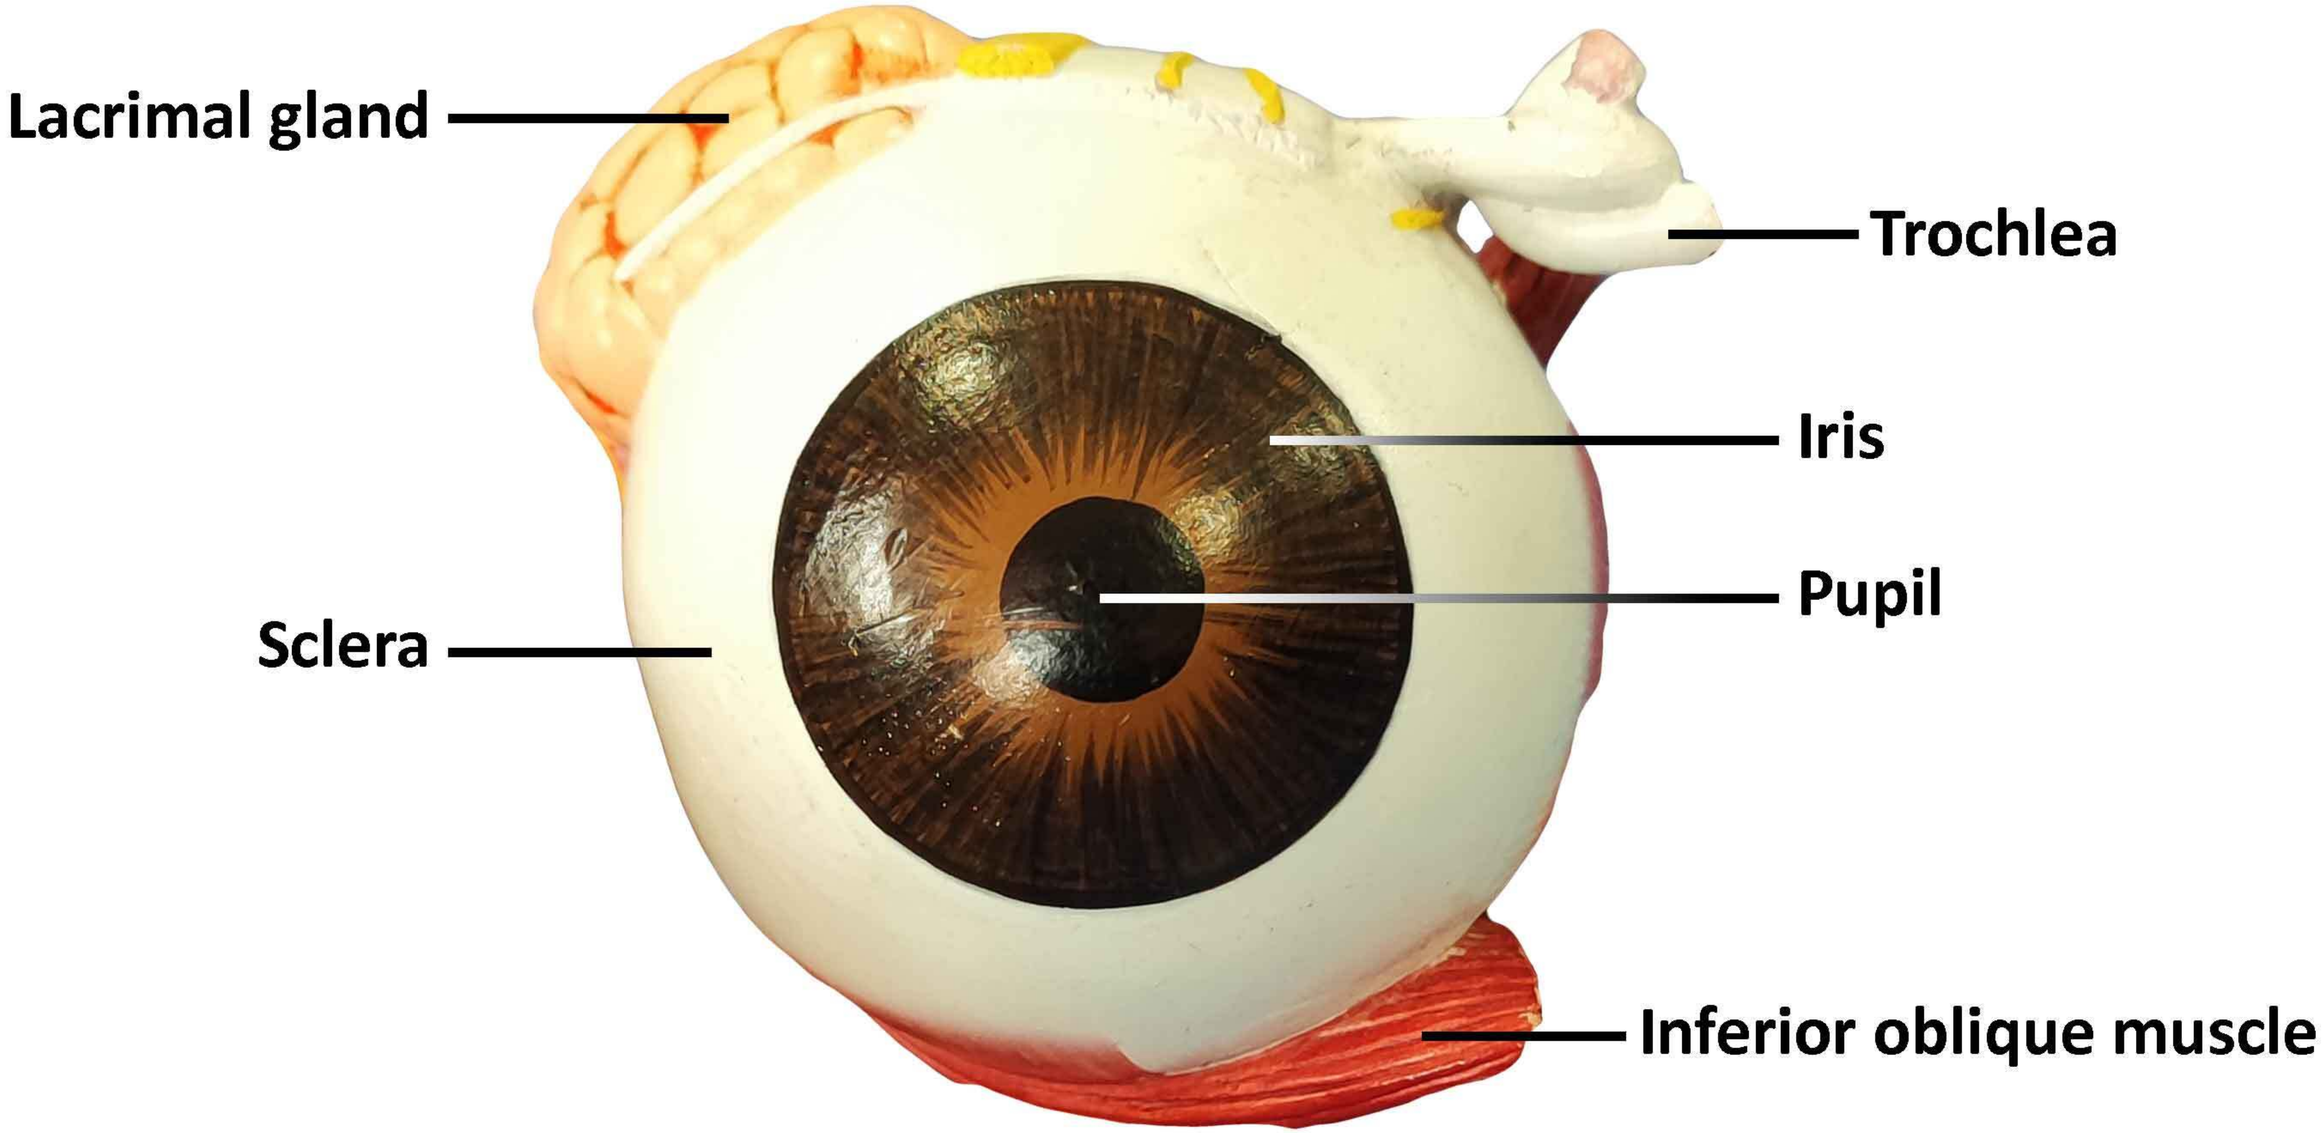

1. از مولاژ ها در نماهای مختلف عکس برداری شده و ممکن است ساختار های مشابه و تکراری را در چند تصویر مشاهده کنید.

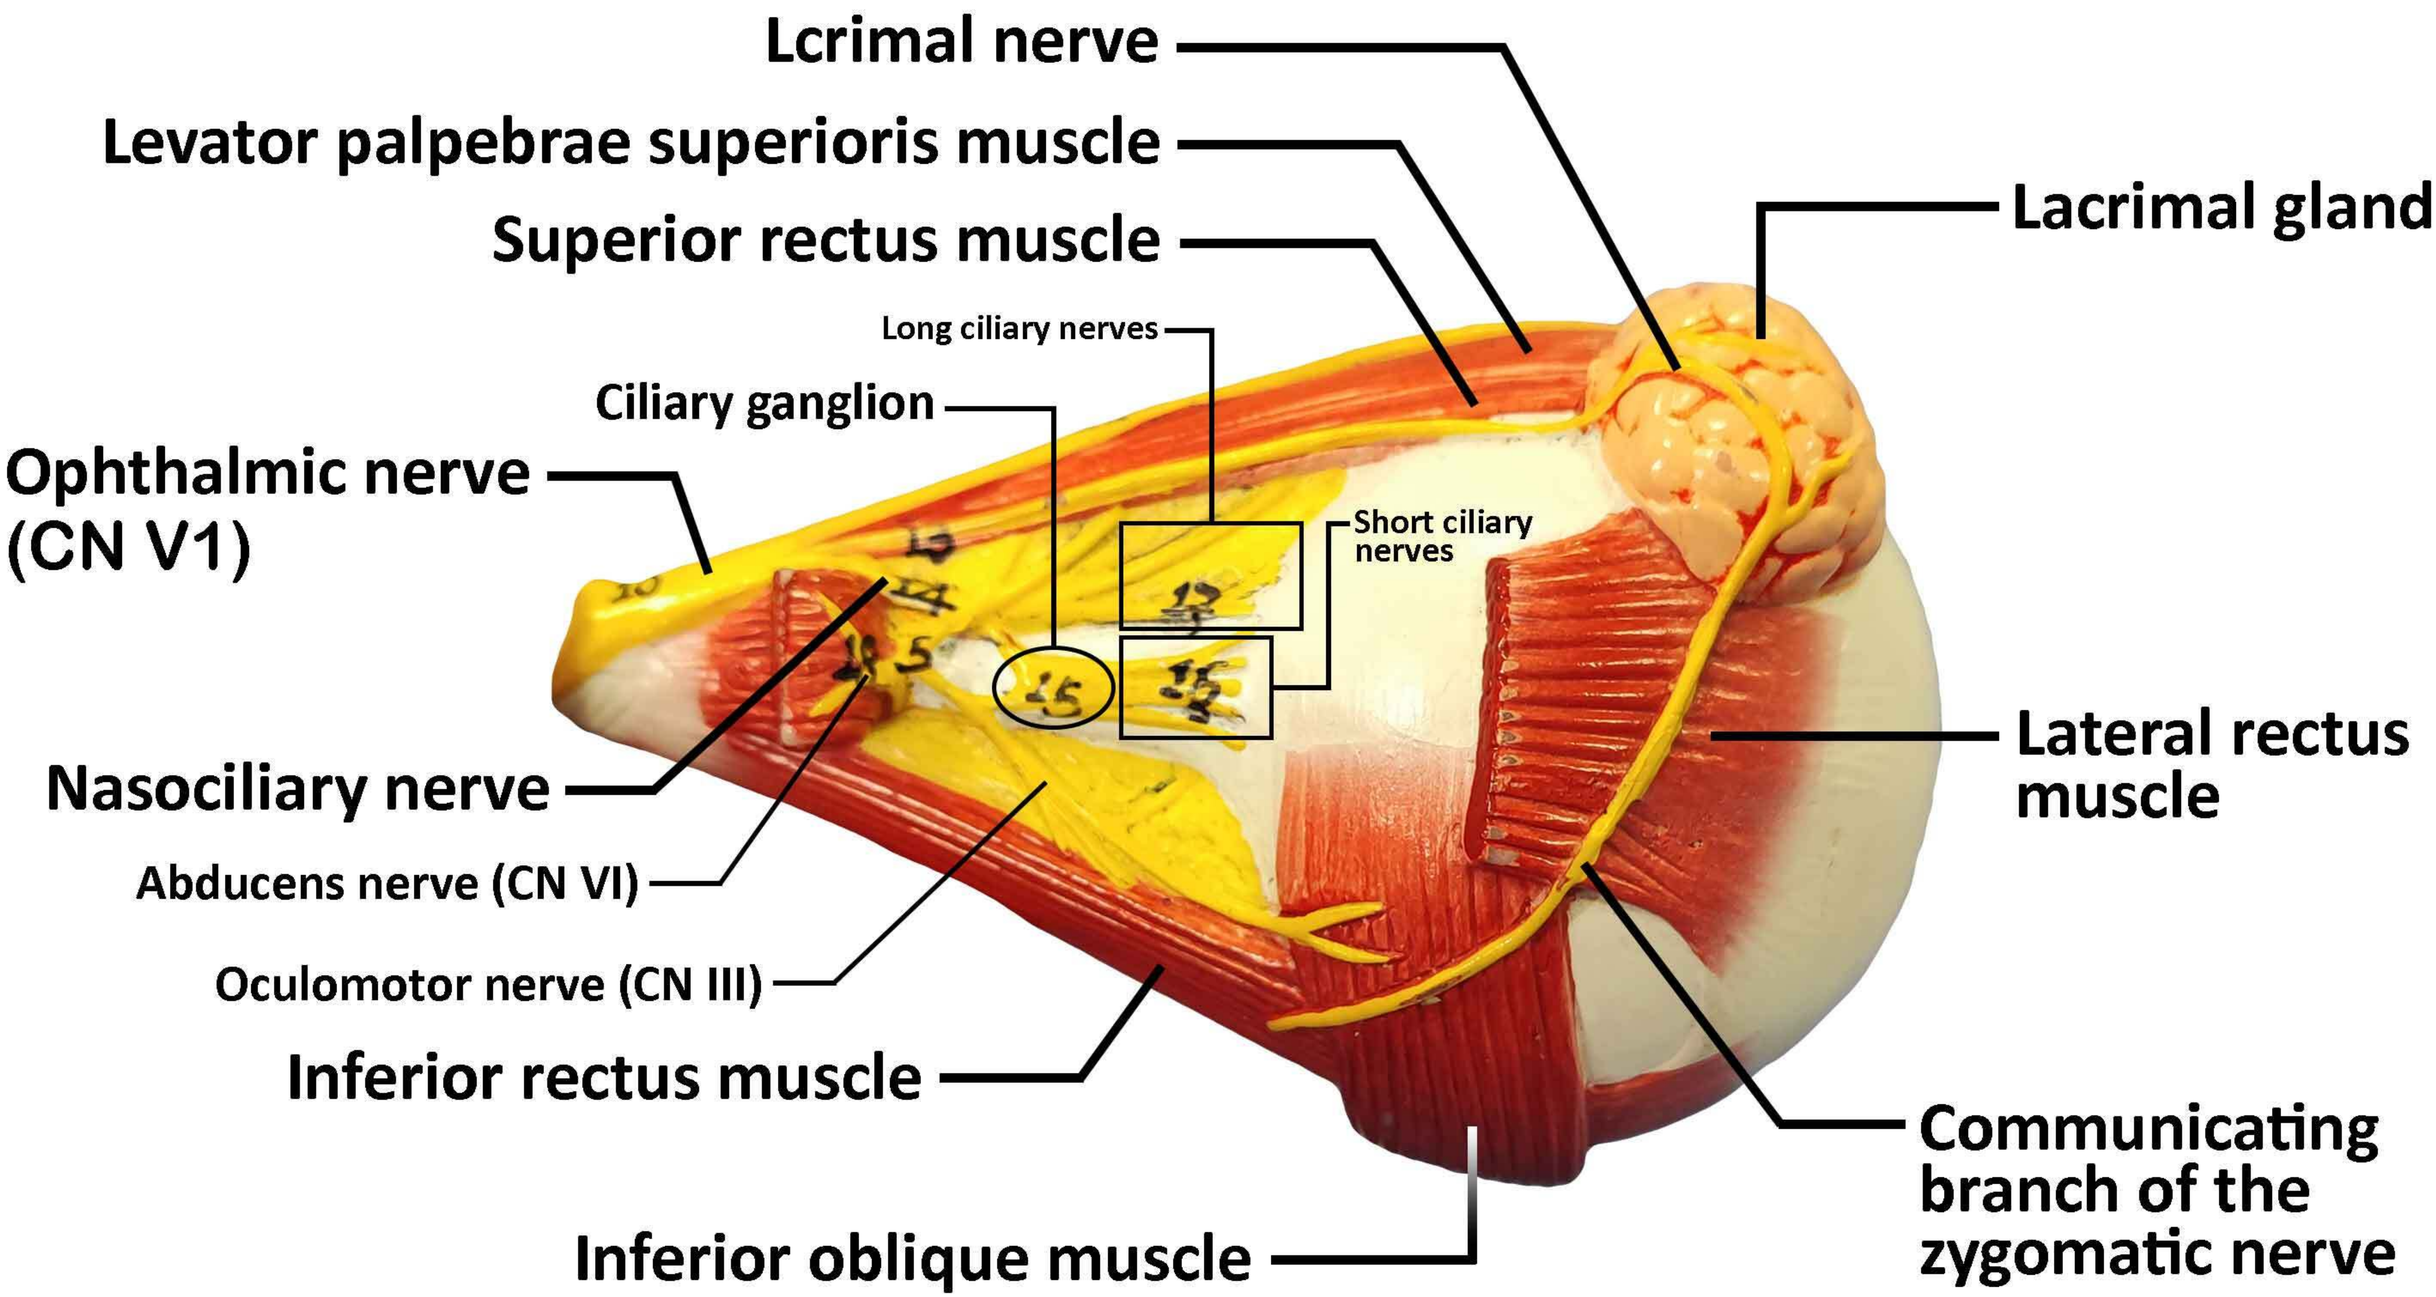

2. تمام تصاویر را به دقت بررسی کنید. چون امکان دارد ساختاری فقط در یک نما دیده شود و در سایر نماها قابل مشاهده نباشد!

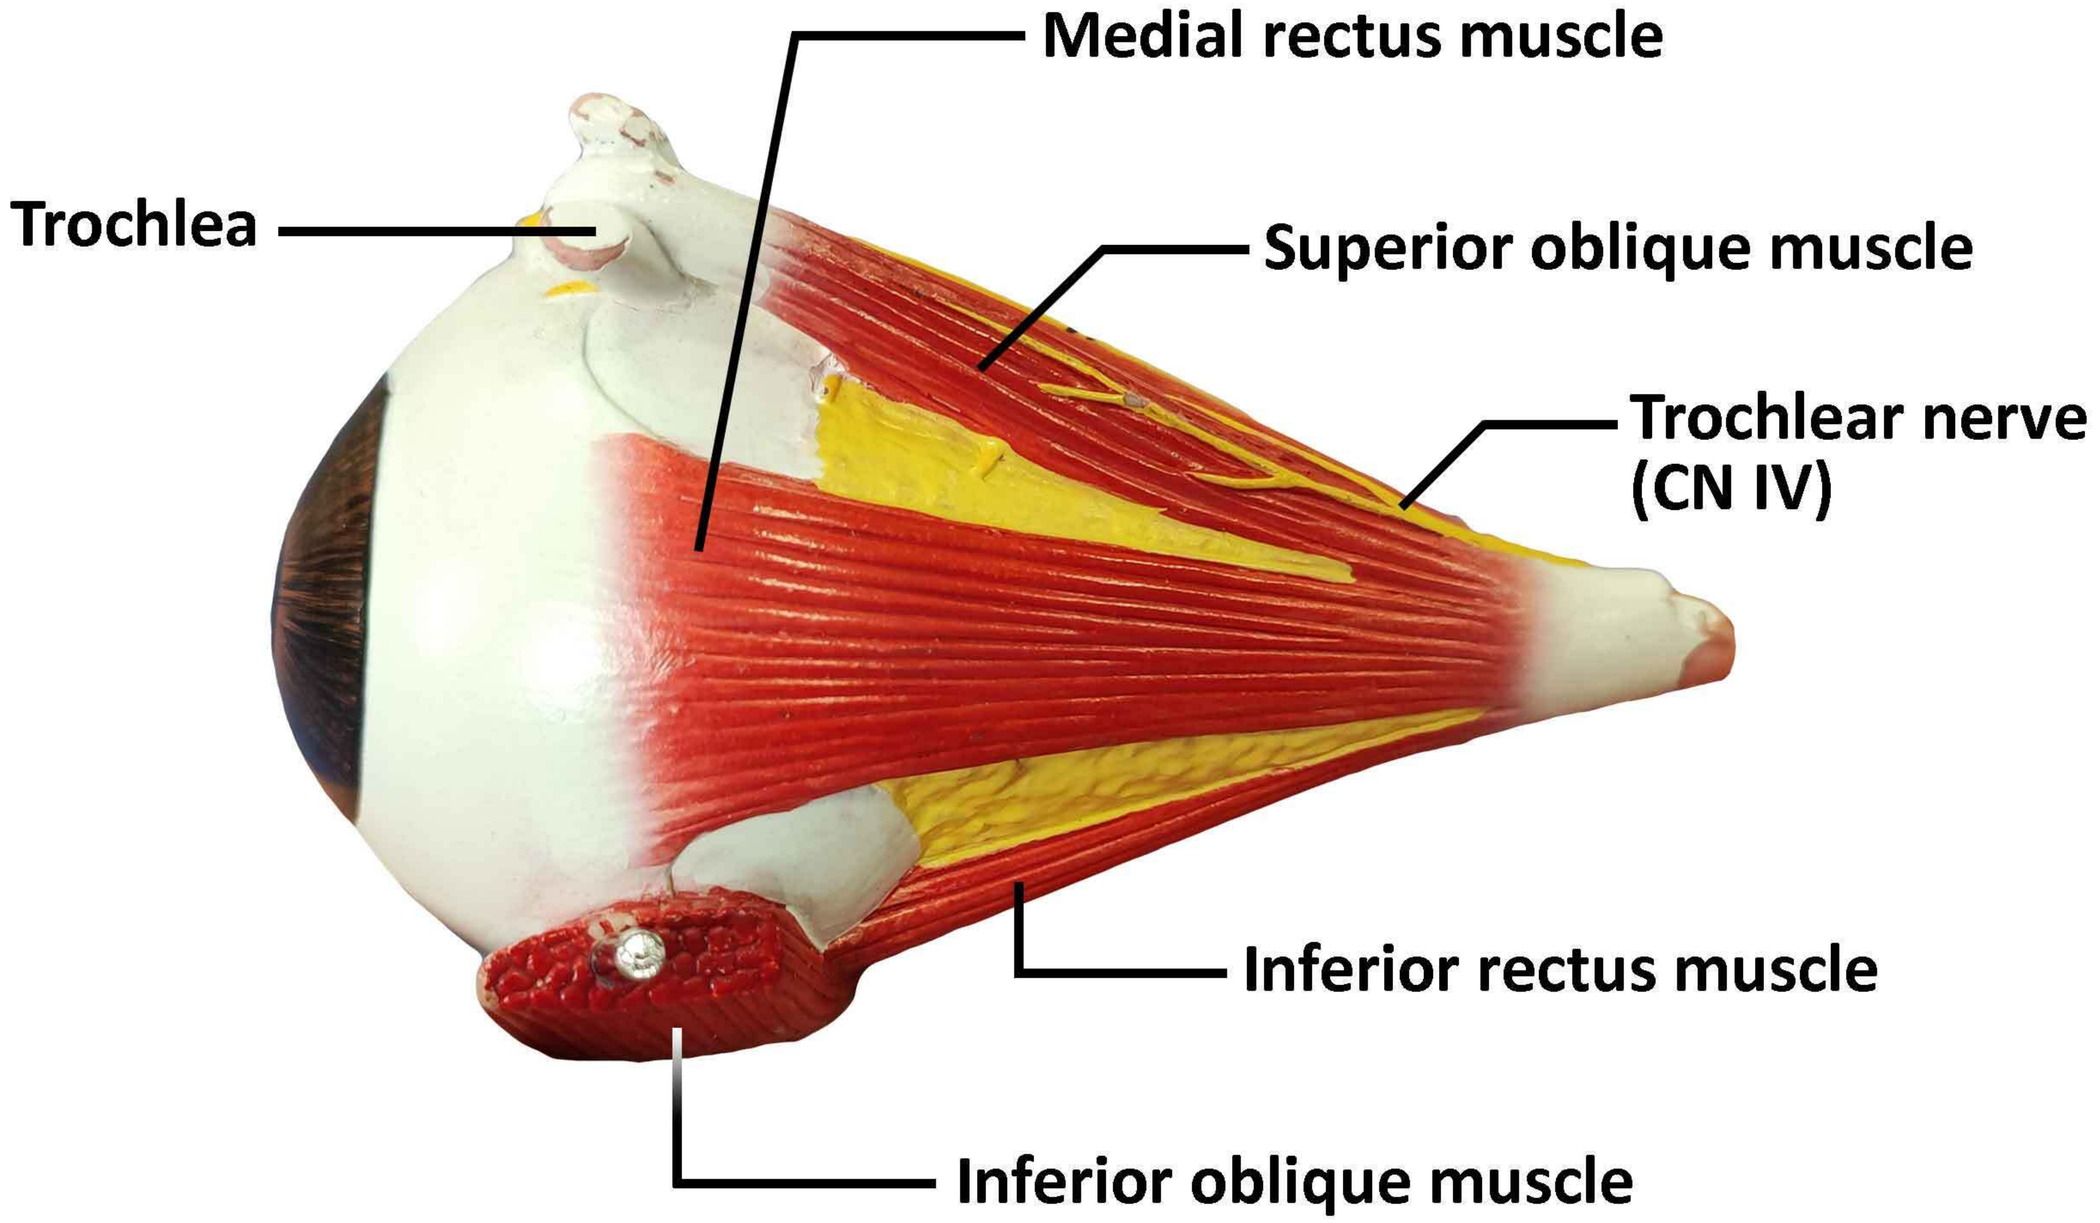

3. ممکن است در تدریس استاد به تمام موارد و جزئیات اشاره نشود. به همین دلیل سعی بر این بوده که تمام ساختار ها و جزئیات مهم علامت گذاری شوند.

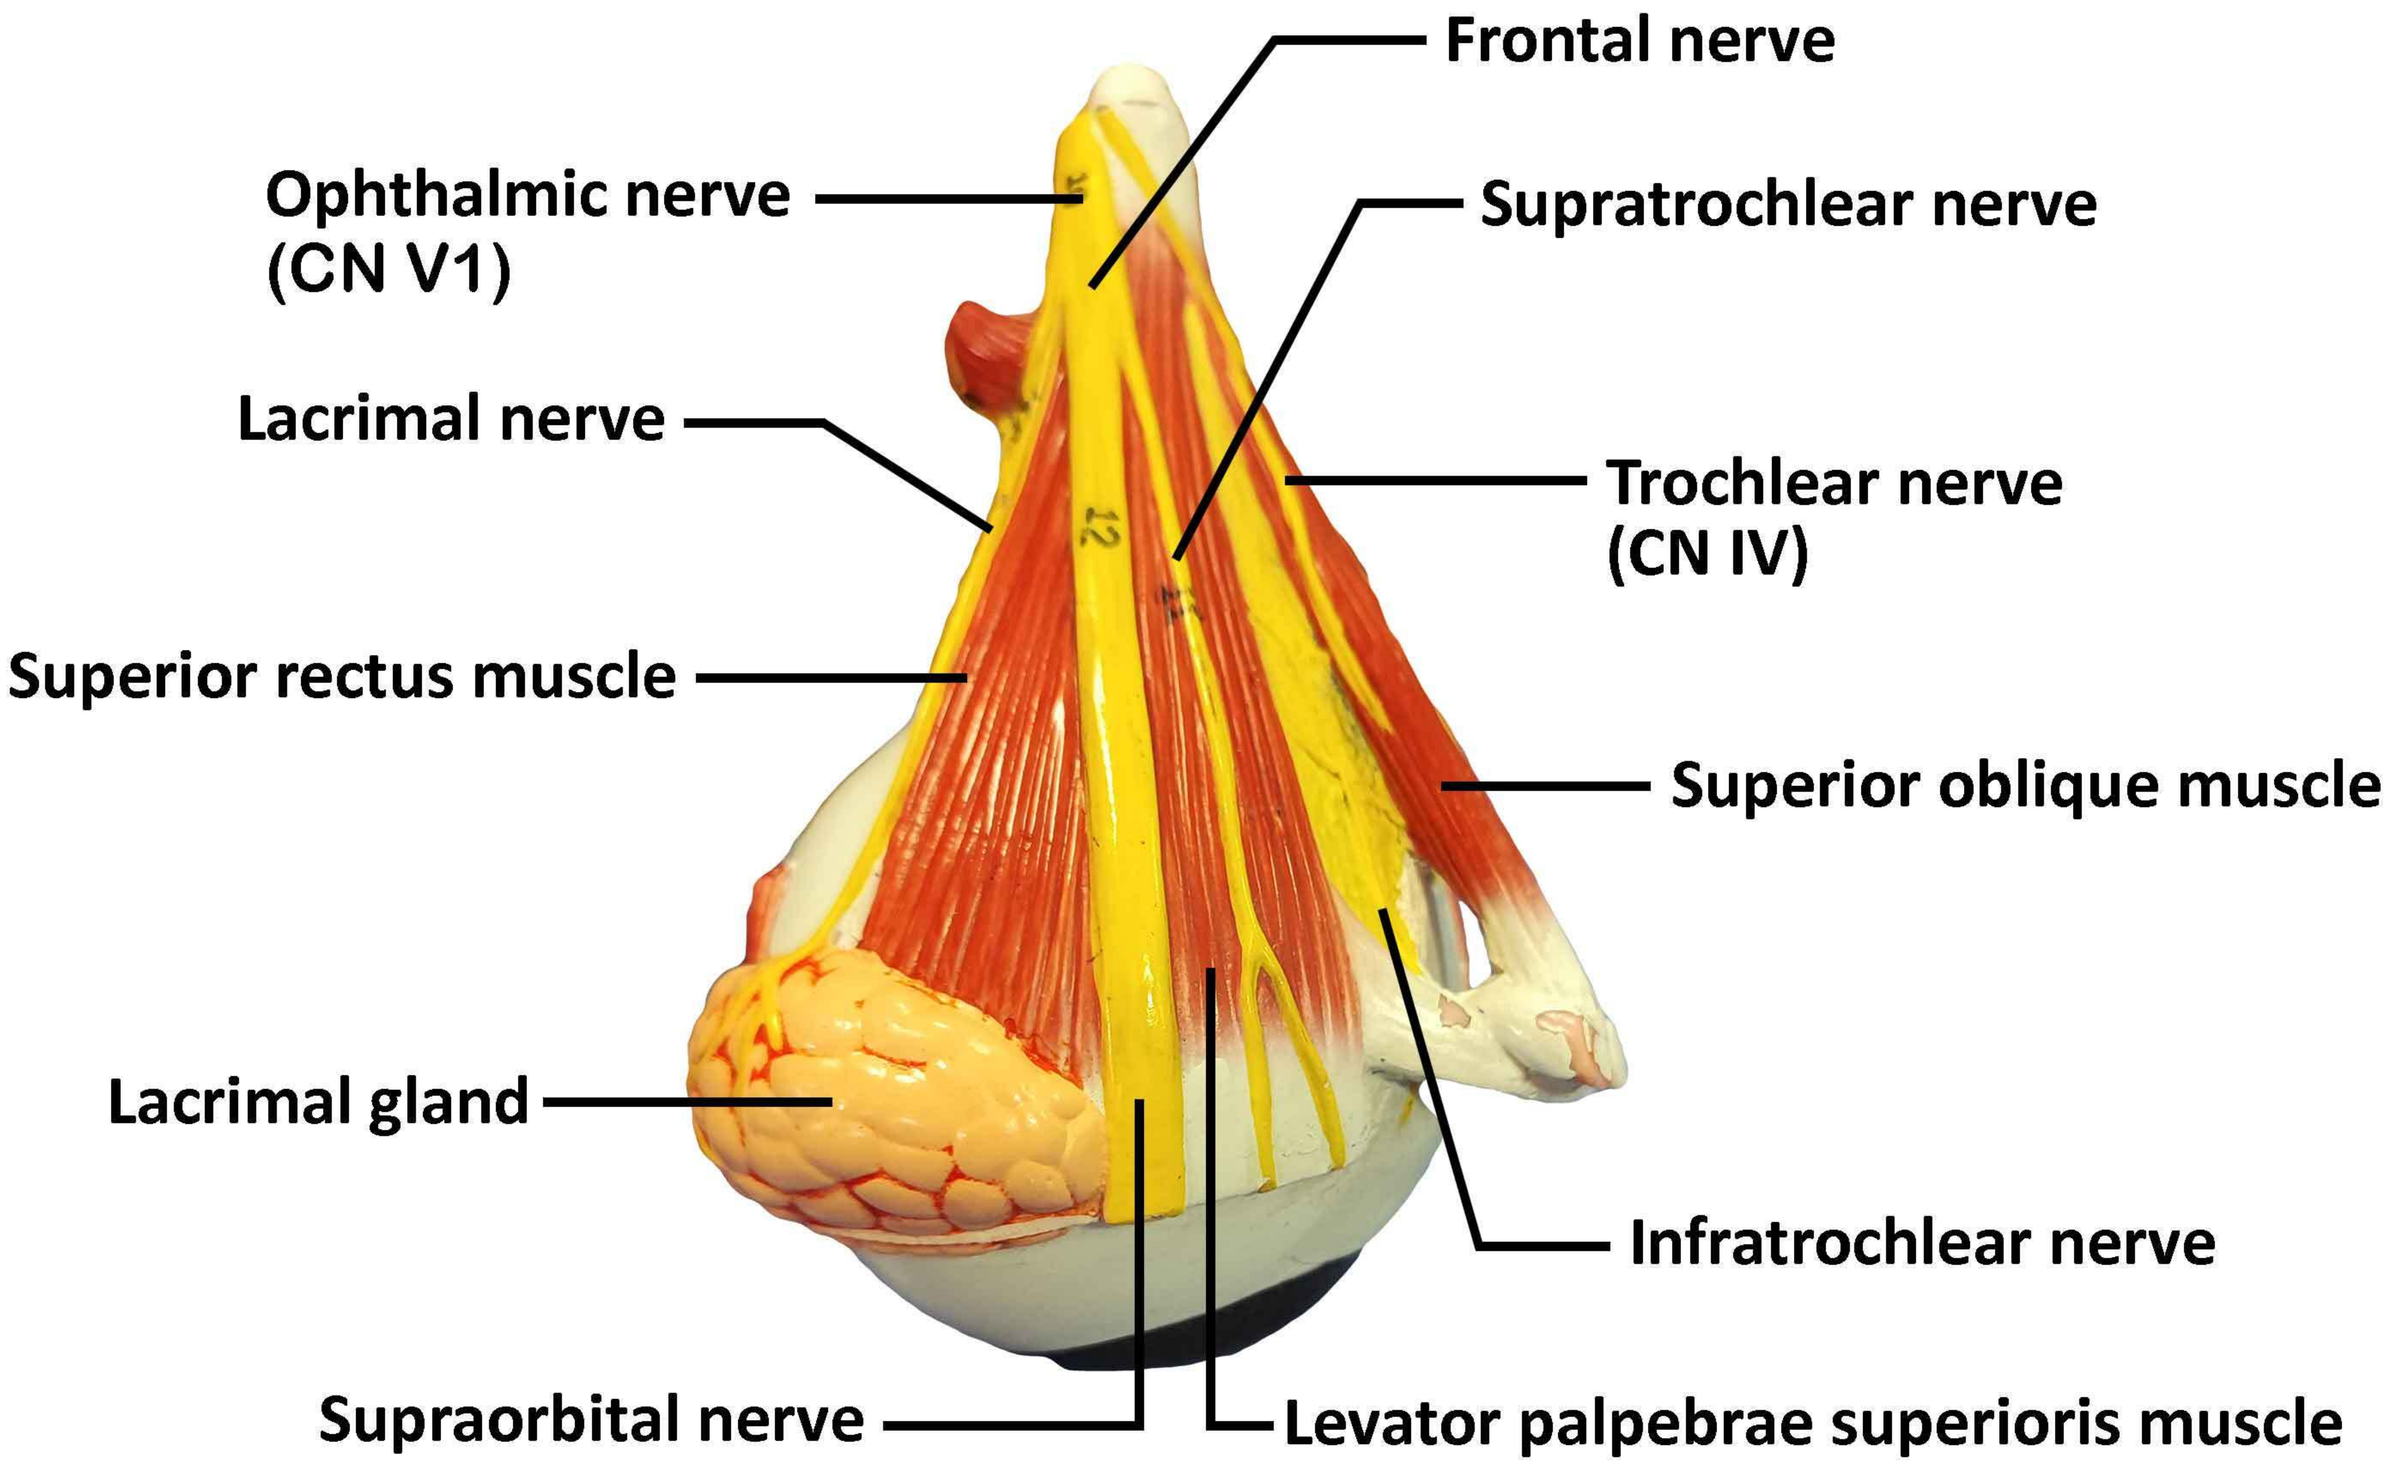

4. از بعضی مولاژ ها چند مدل مختلف وجود دارد و لازم است تمام آن ها را بررسی کنید. چون برخی ساختار ها در بعضی از مولاژ ها قابل رویت اند و در برخی نه!

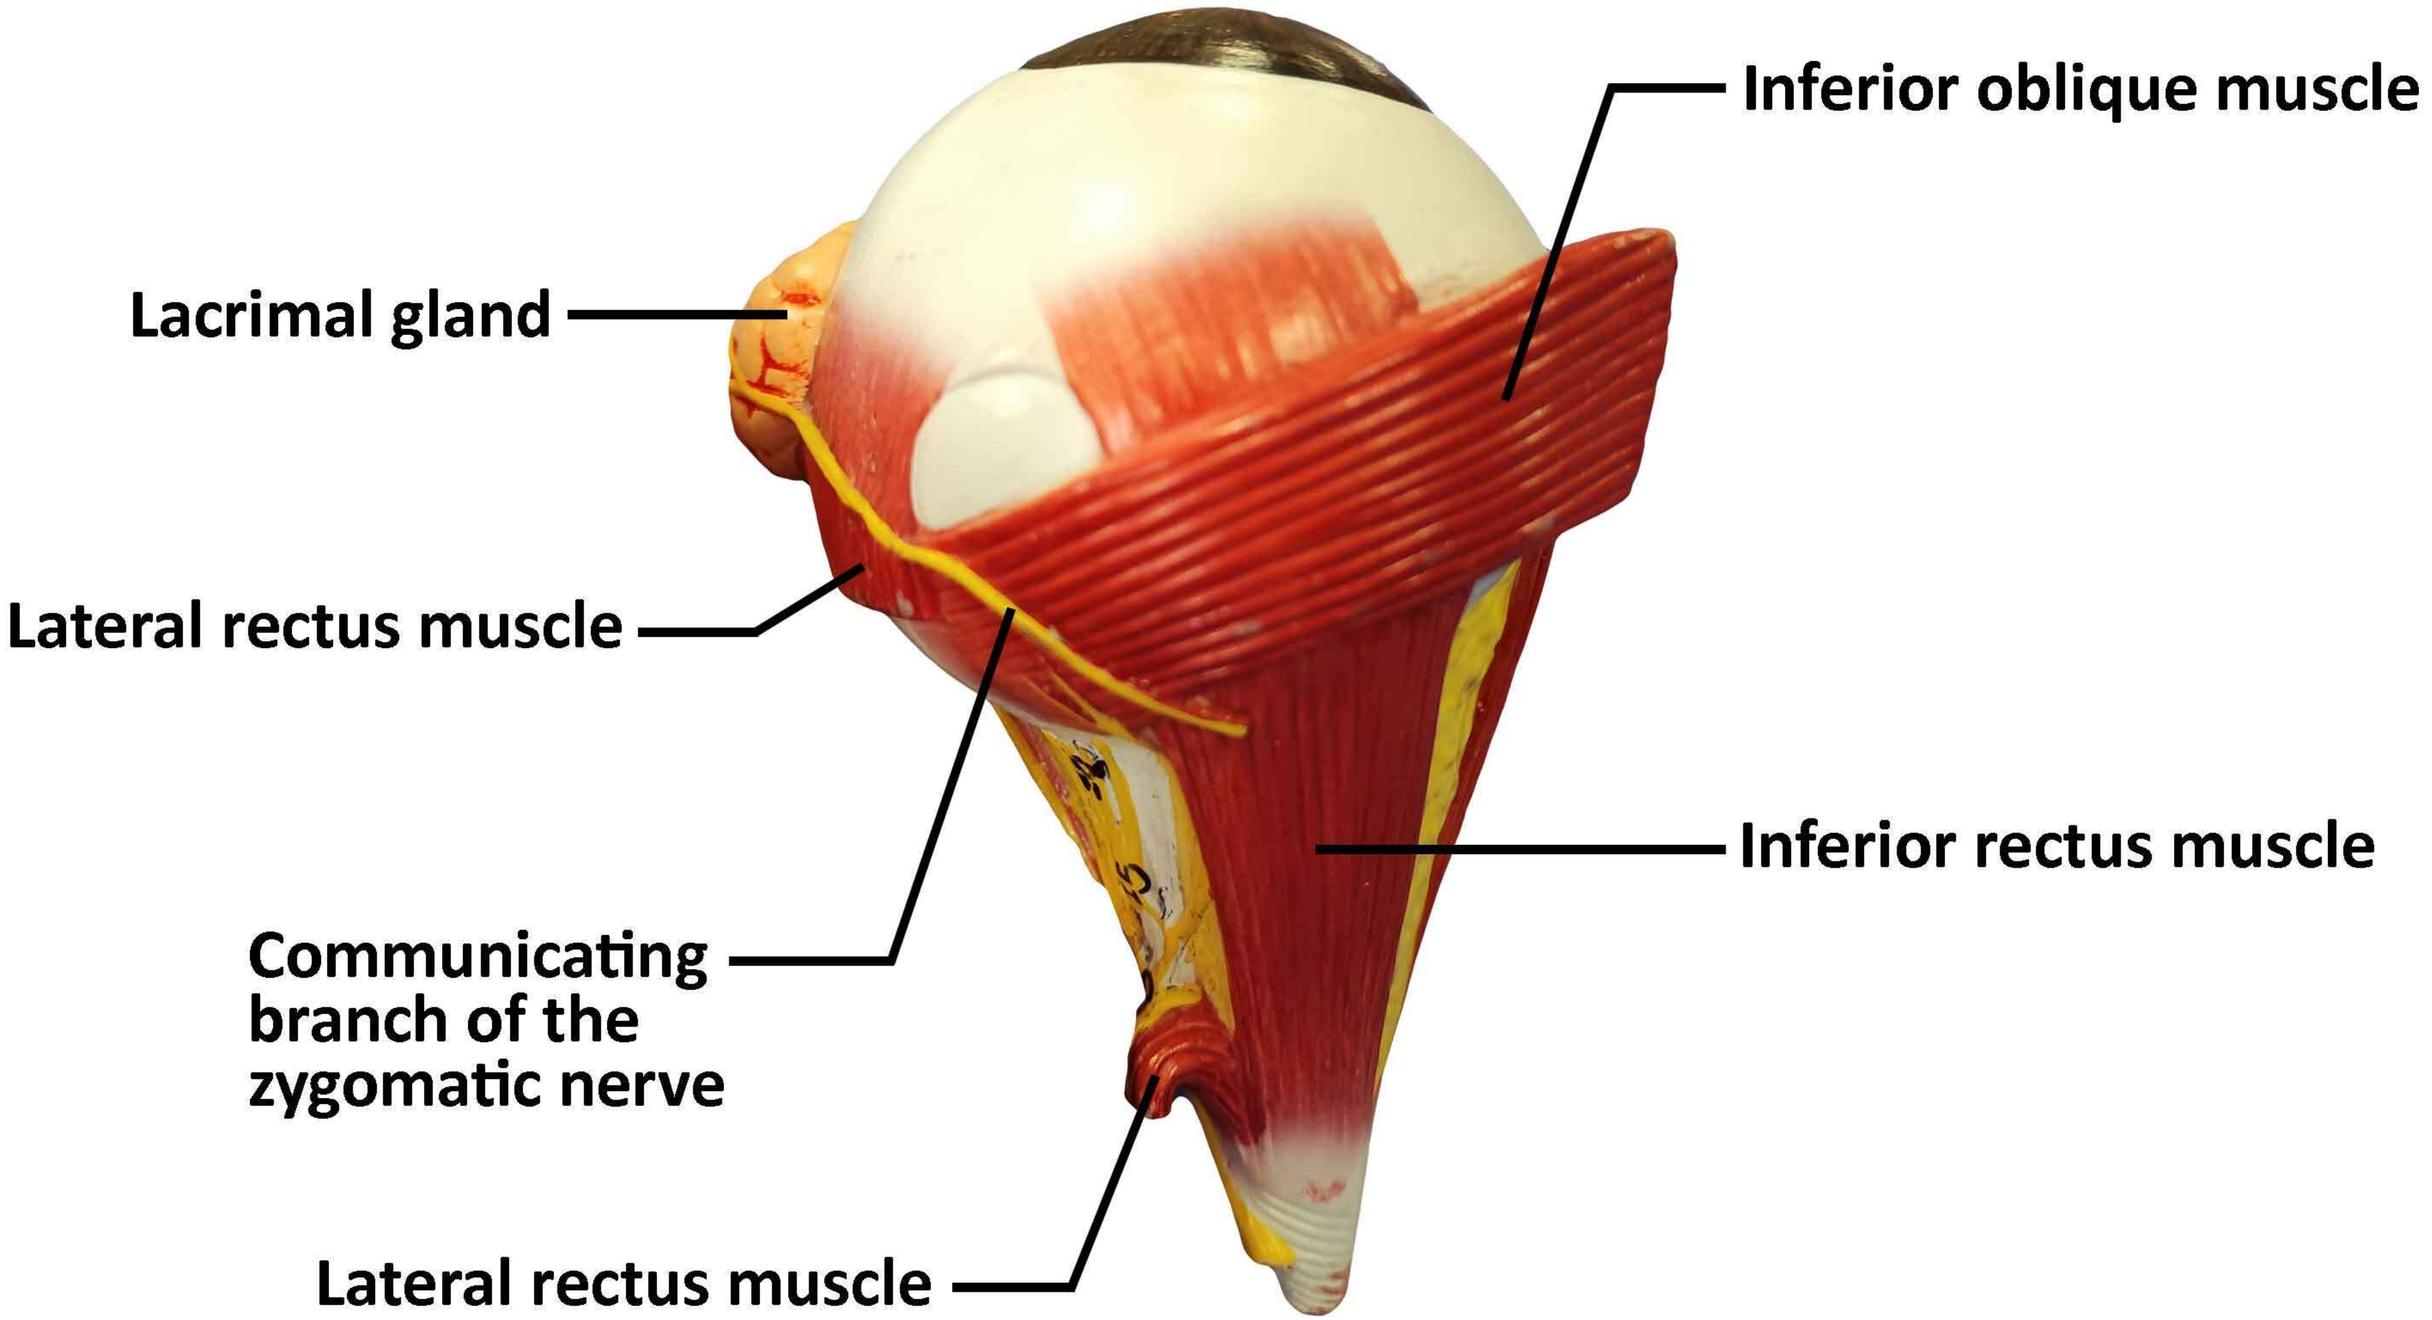

5. با توجه به اینکه اکثر ساختار ها نام لاتین دارند و ترجمه آن ها چندان مورد استفاده واقع نمی شود، نام تمام ساختار ها به انگلیسی نوشته شده است.

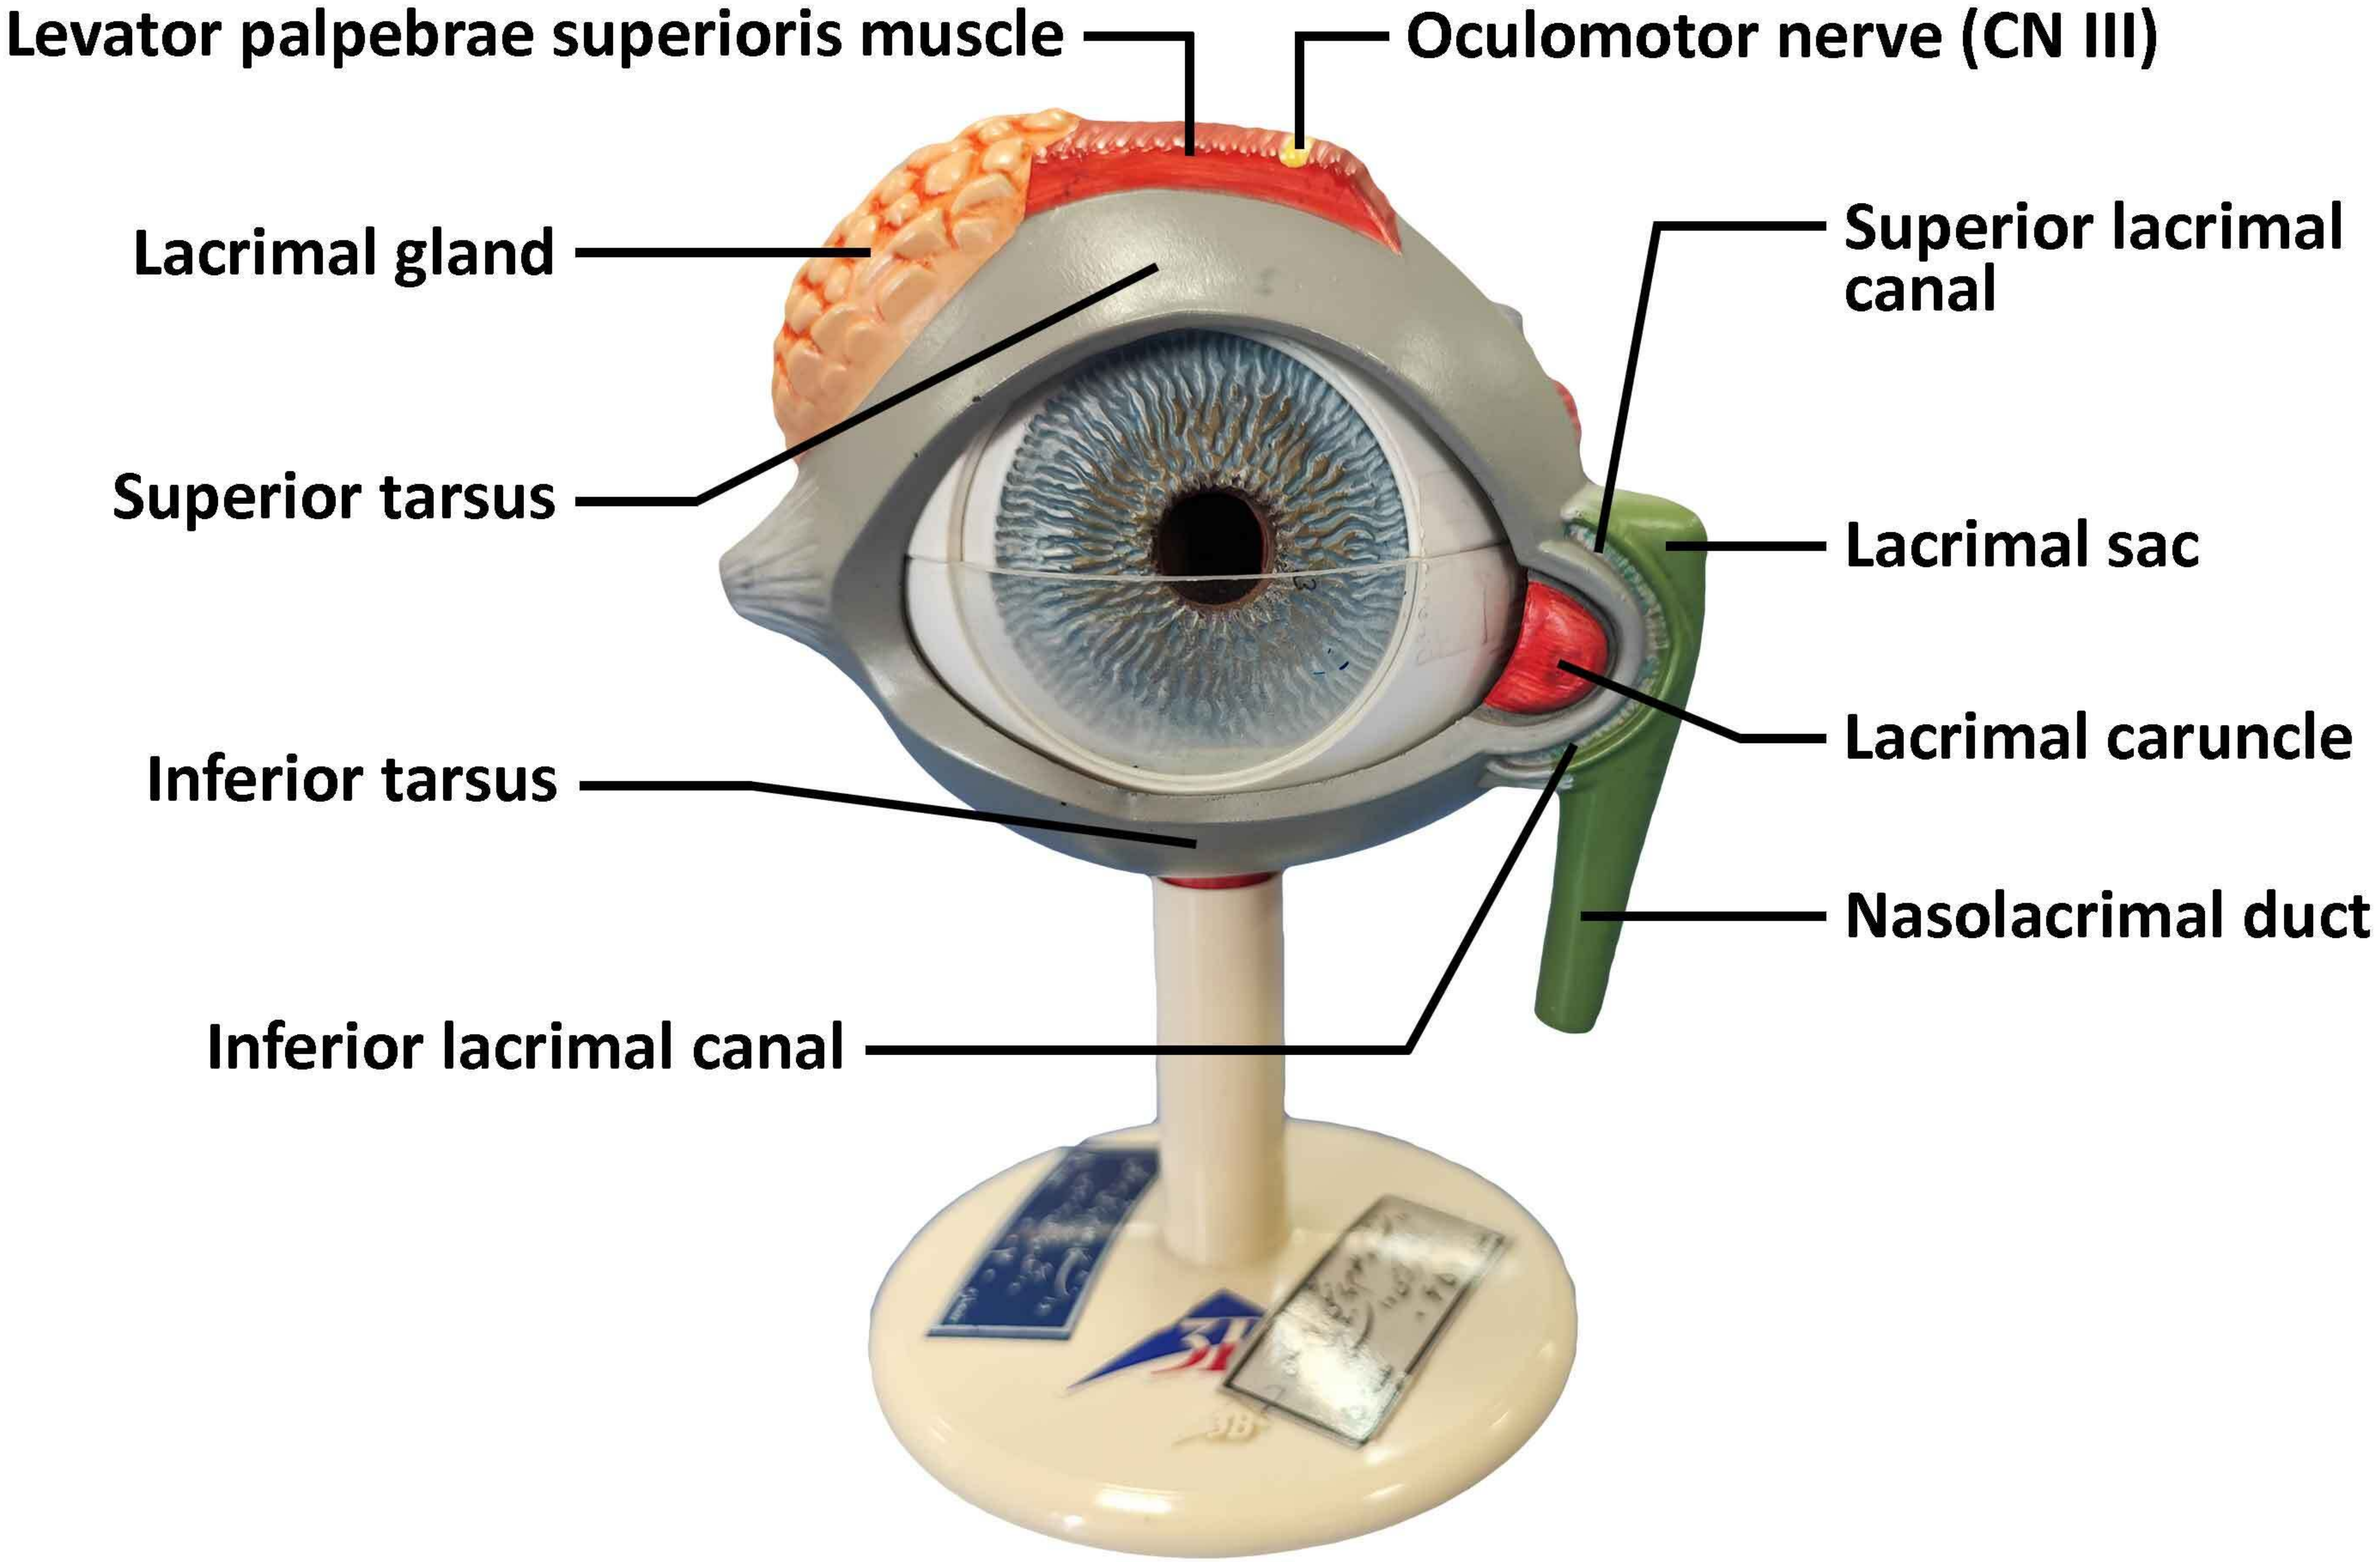

Lacrimal gland
Trochlea
Iris
Pupil
Sclera
Inferior oblique muscle

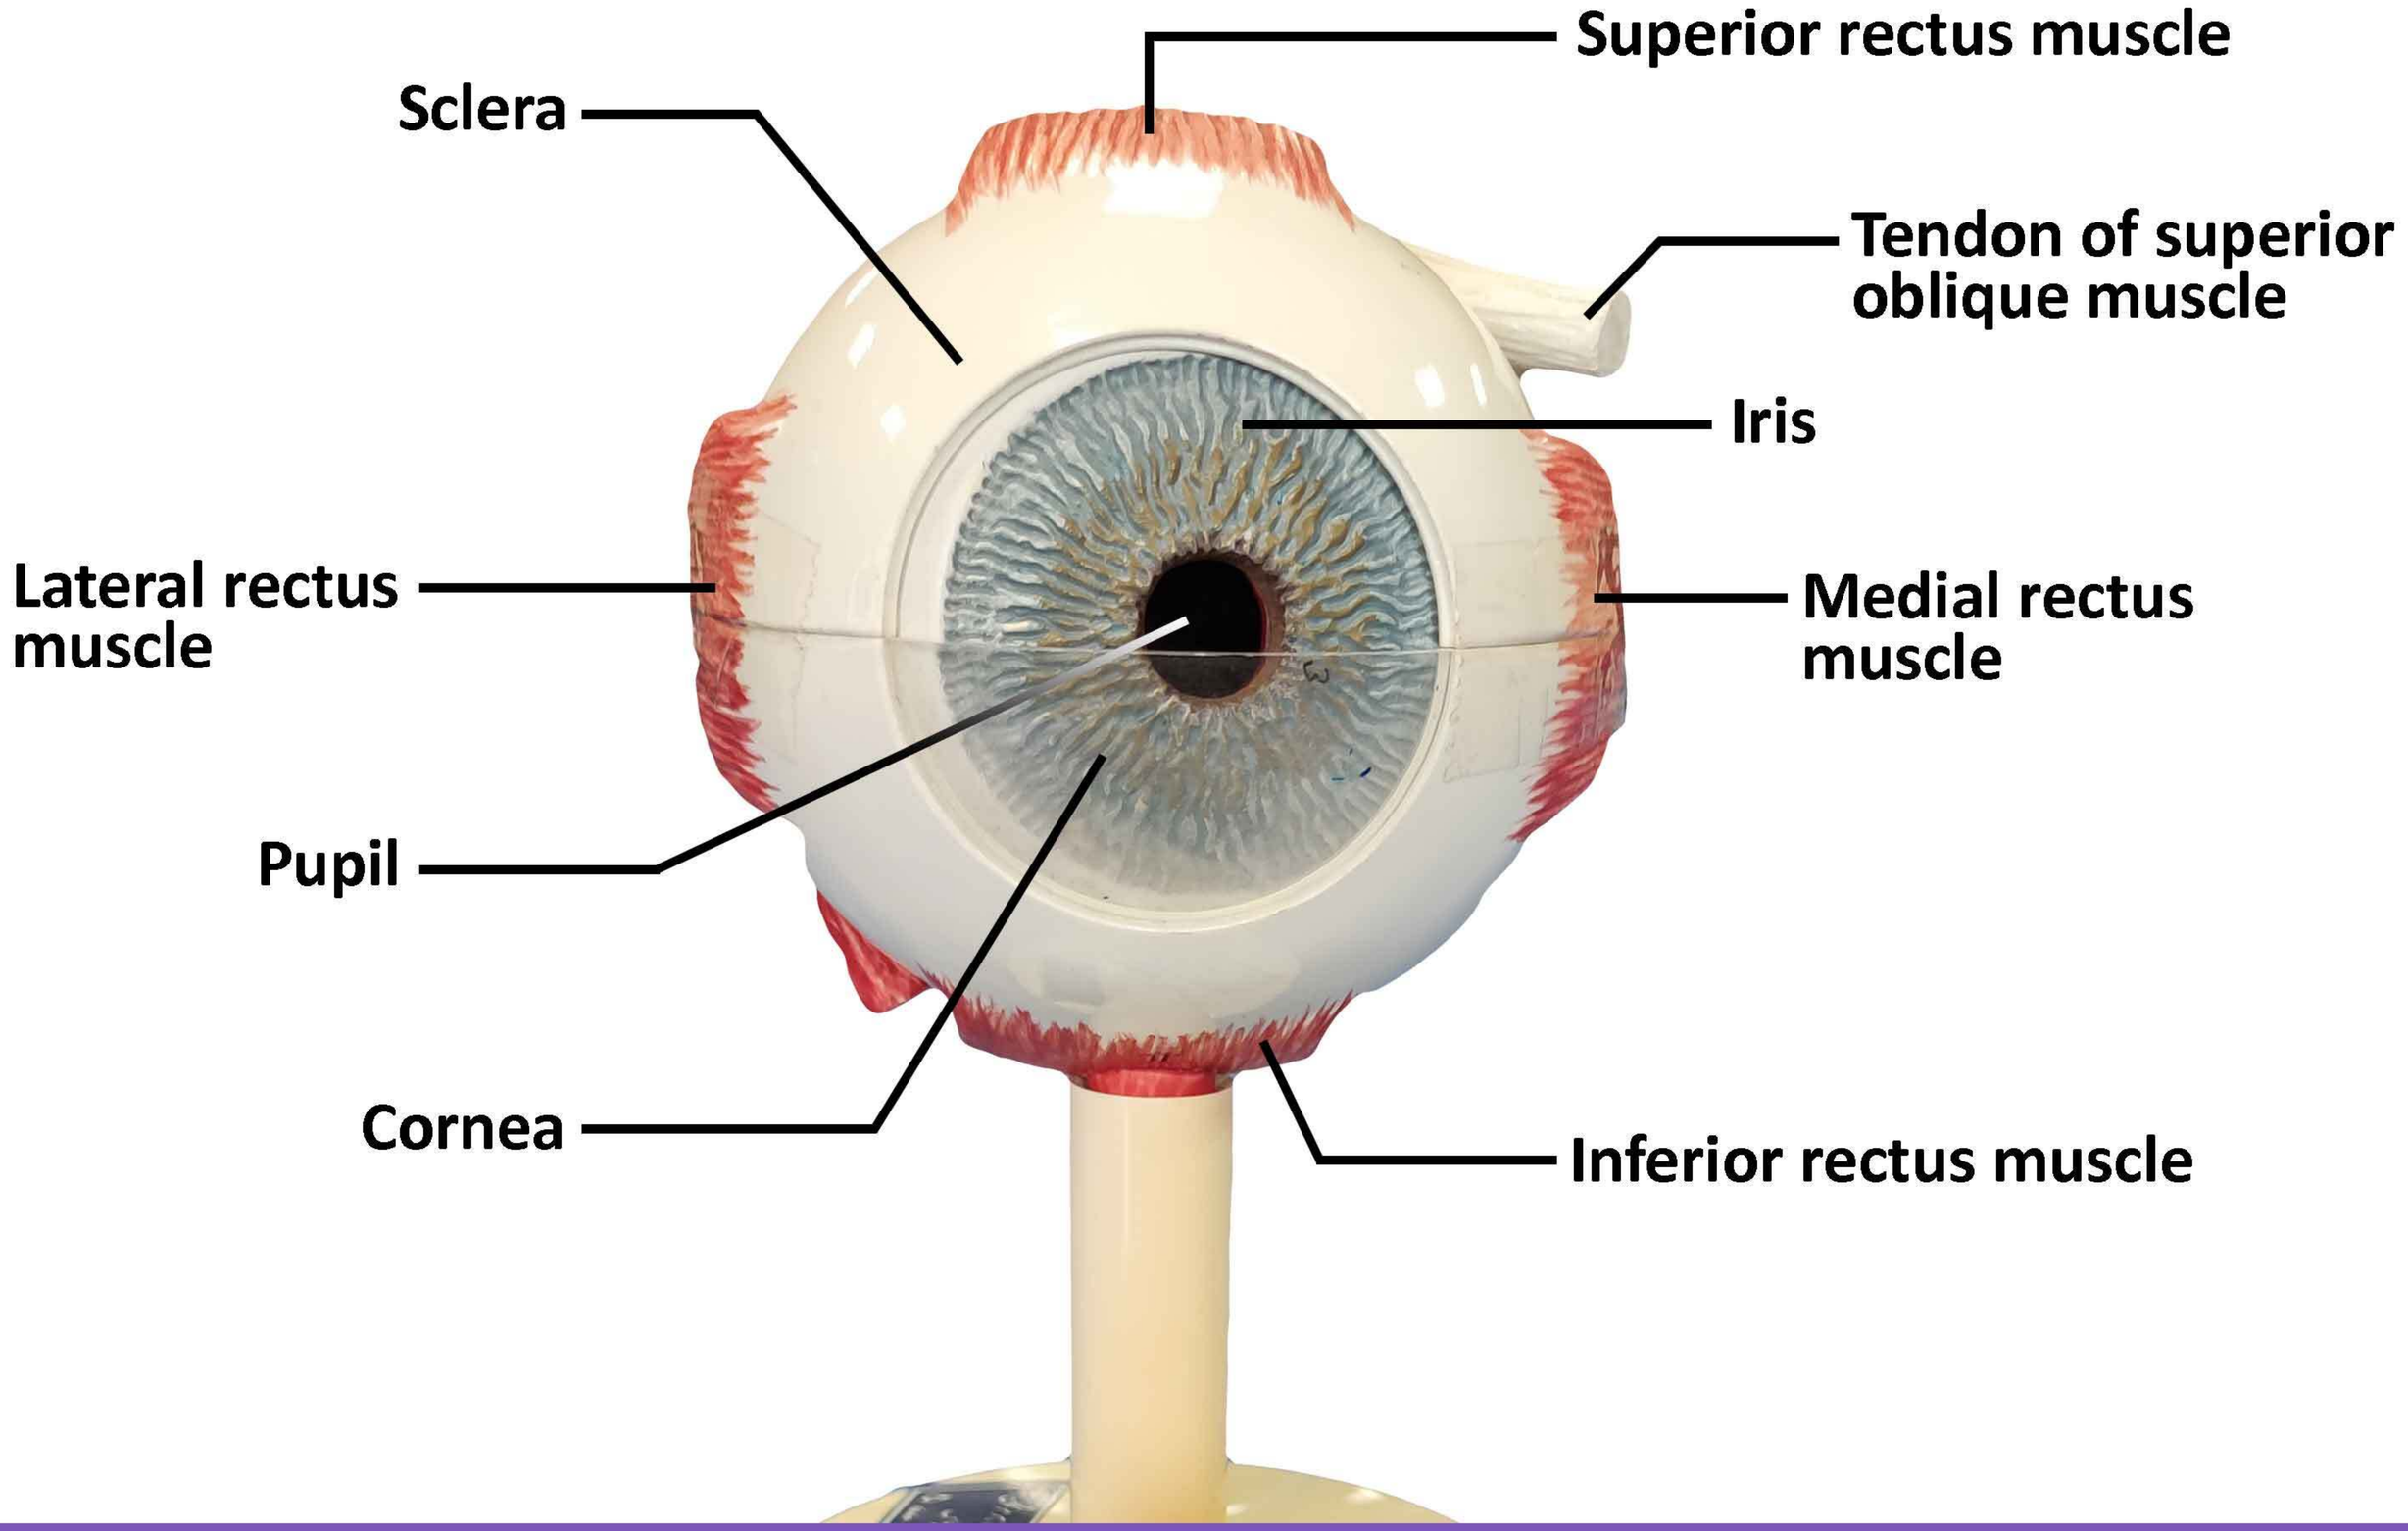

Lcrimal nerve
Levator palpebrae superioris muscle
Superior rectus muscle
Lacrimal gland
Long ciliary nerves
Ciliary ganglion
Ophthalmic nerve (CN V1)
Short ciliary nerves
Lateral rectus muscle
Nasociliary nerve
Abducens nerve (CN VI)
Oculomotor nerve (CN III)
Inferior rectus muscle
Communicating branch of the zygomatic nerve
Inferior oblique muscle

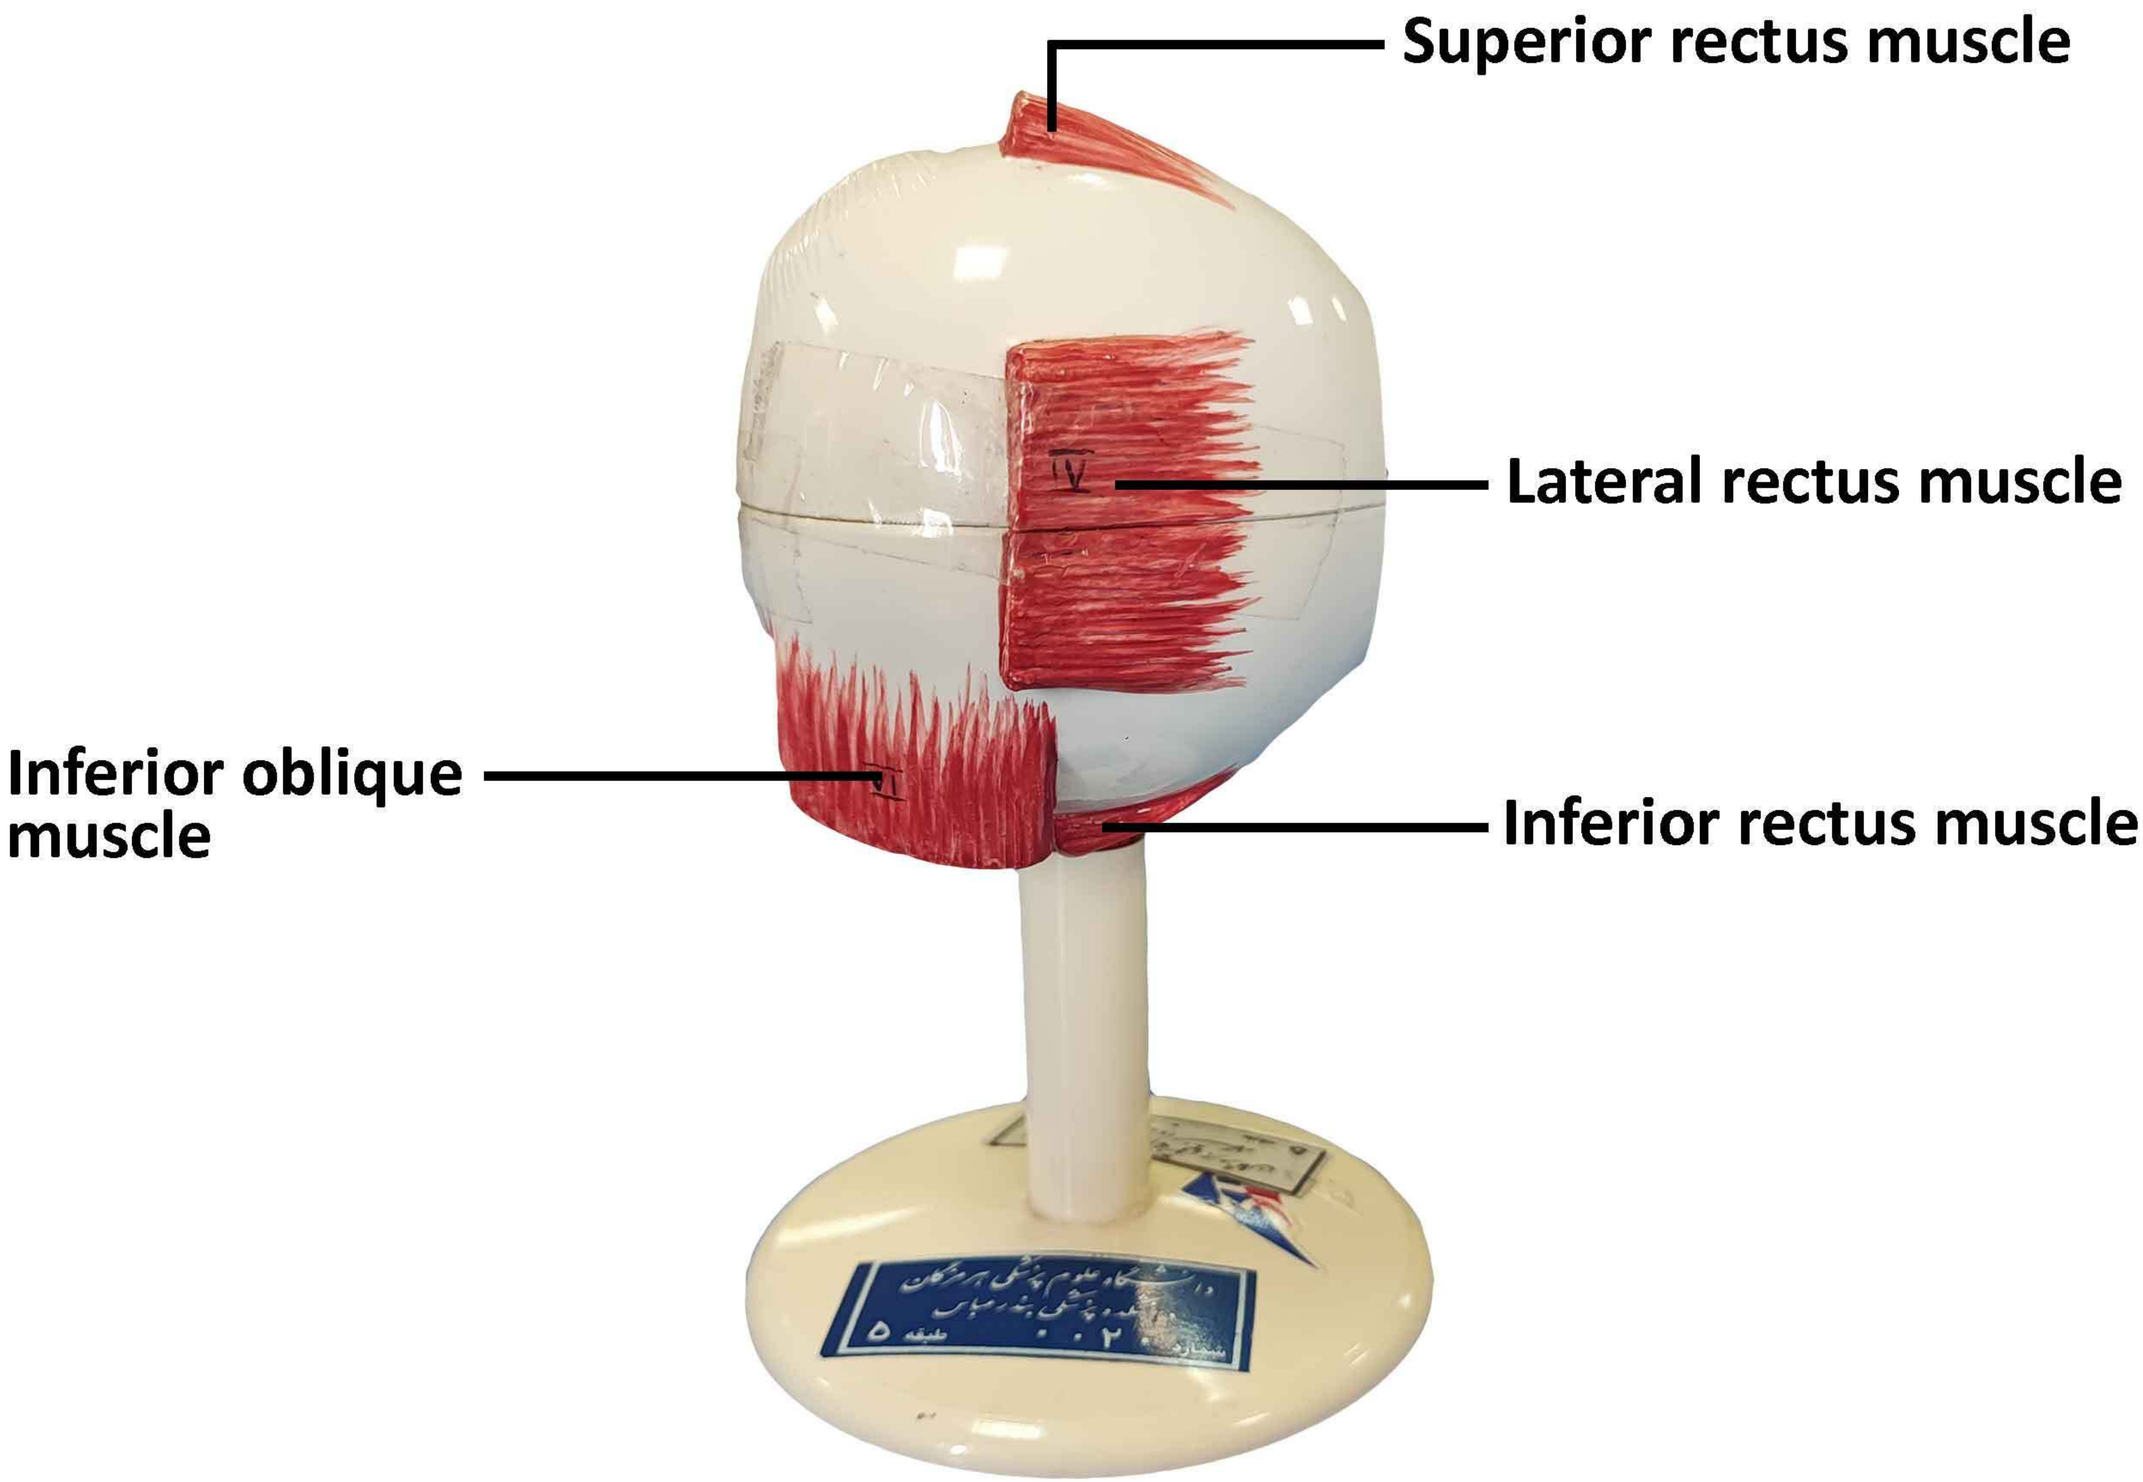

Medial rectus muscle
Trochlea
Superior oblique muscle
Trochlear nerve
(CN IV)
Inferior rectus muscle
Inferior oblique muscle

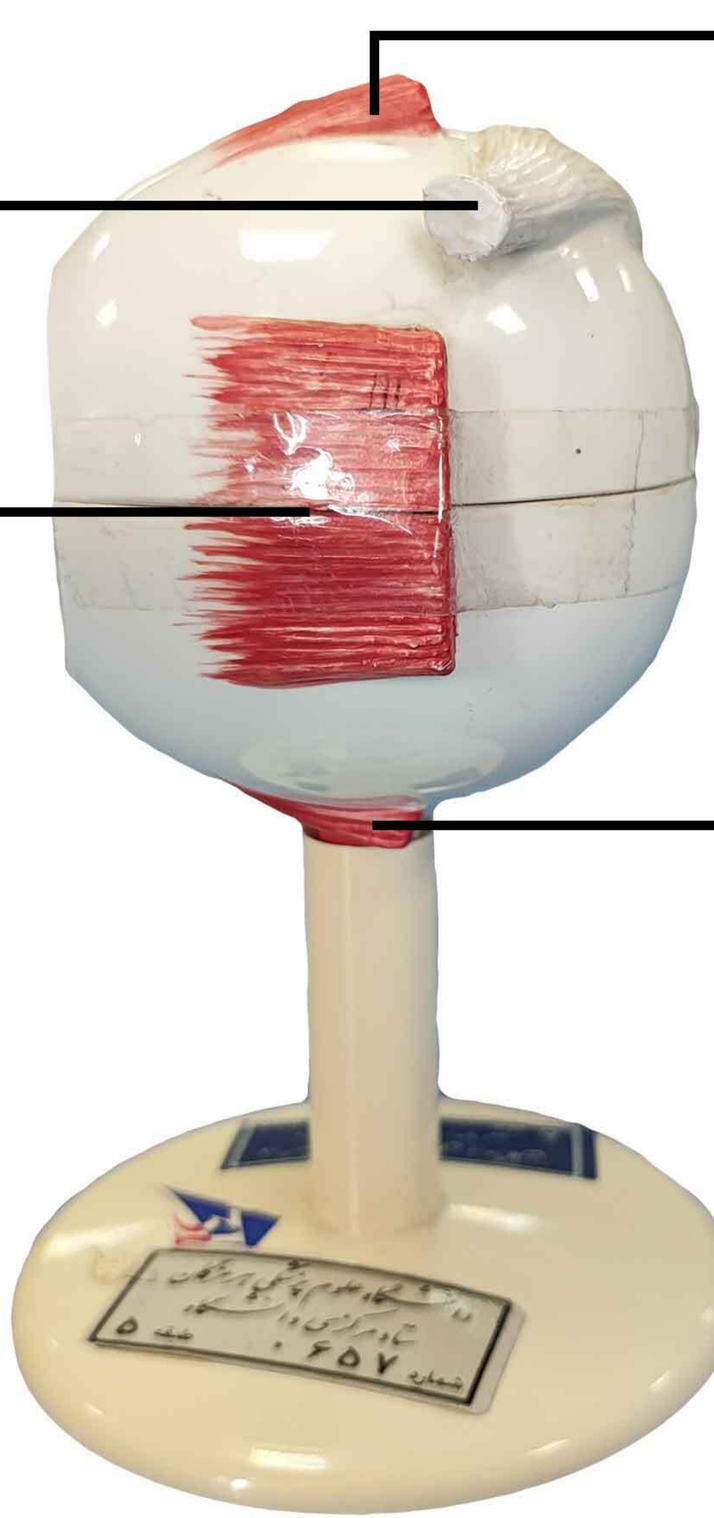

Frontal nerve
Ophthalmic nerve
(CN V1)
Supratrochlear nerve
Lacrimal nerve
Trochlear nerve
(CN IV)
Superior rectus muscle
Superior oblique muscle
Lacrimal gland
Infratrochlear nerve
Supraorbital nerve
Levator palpebrae superioris muscle

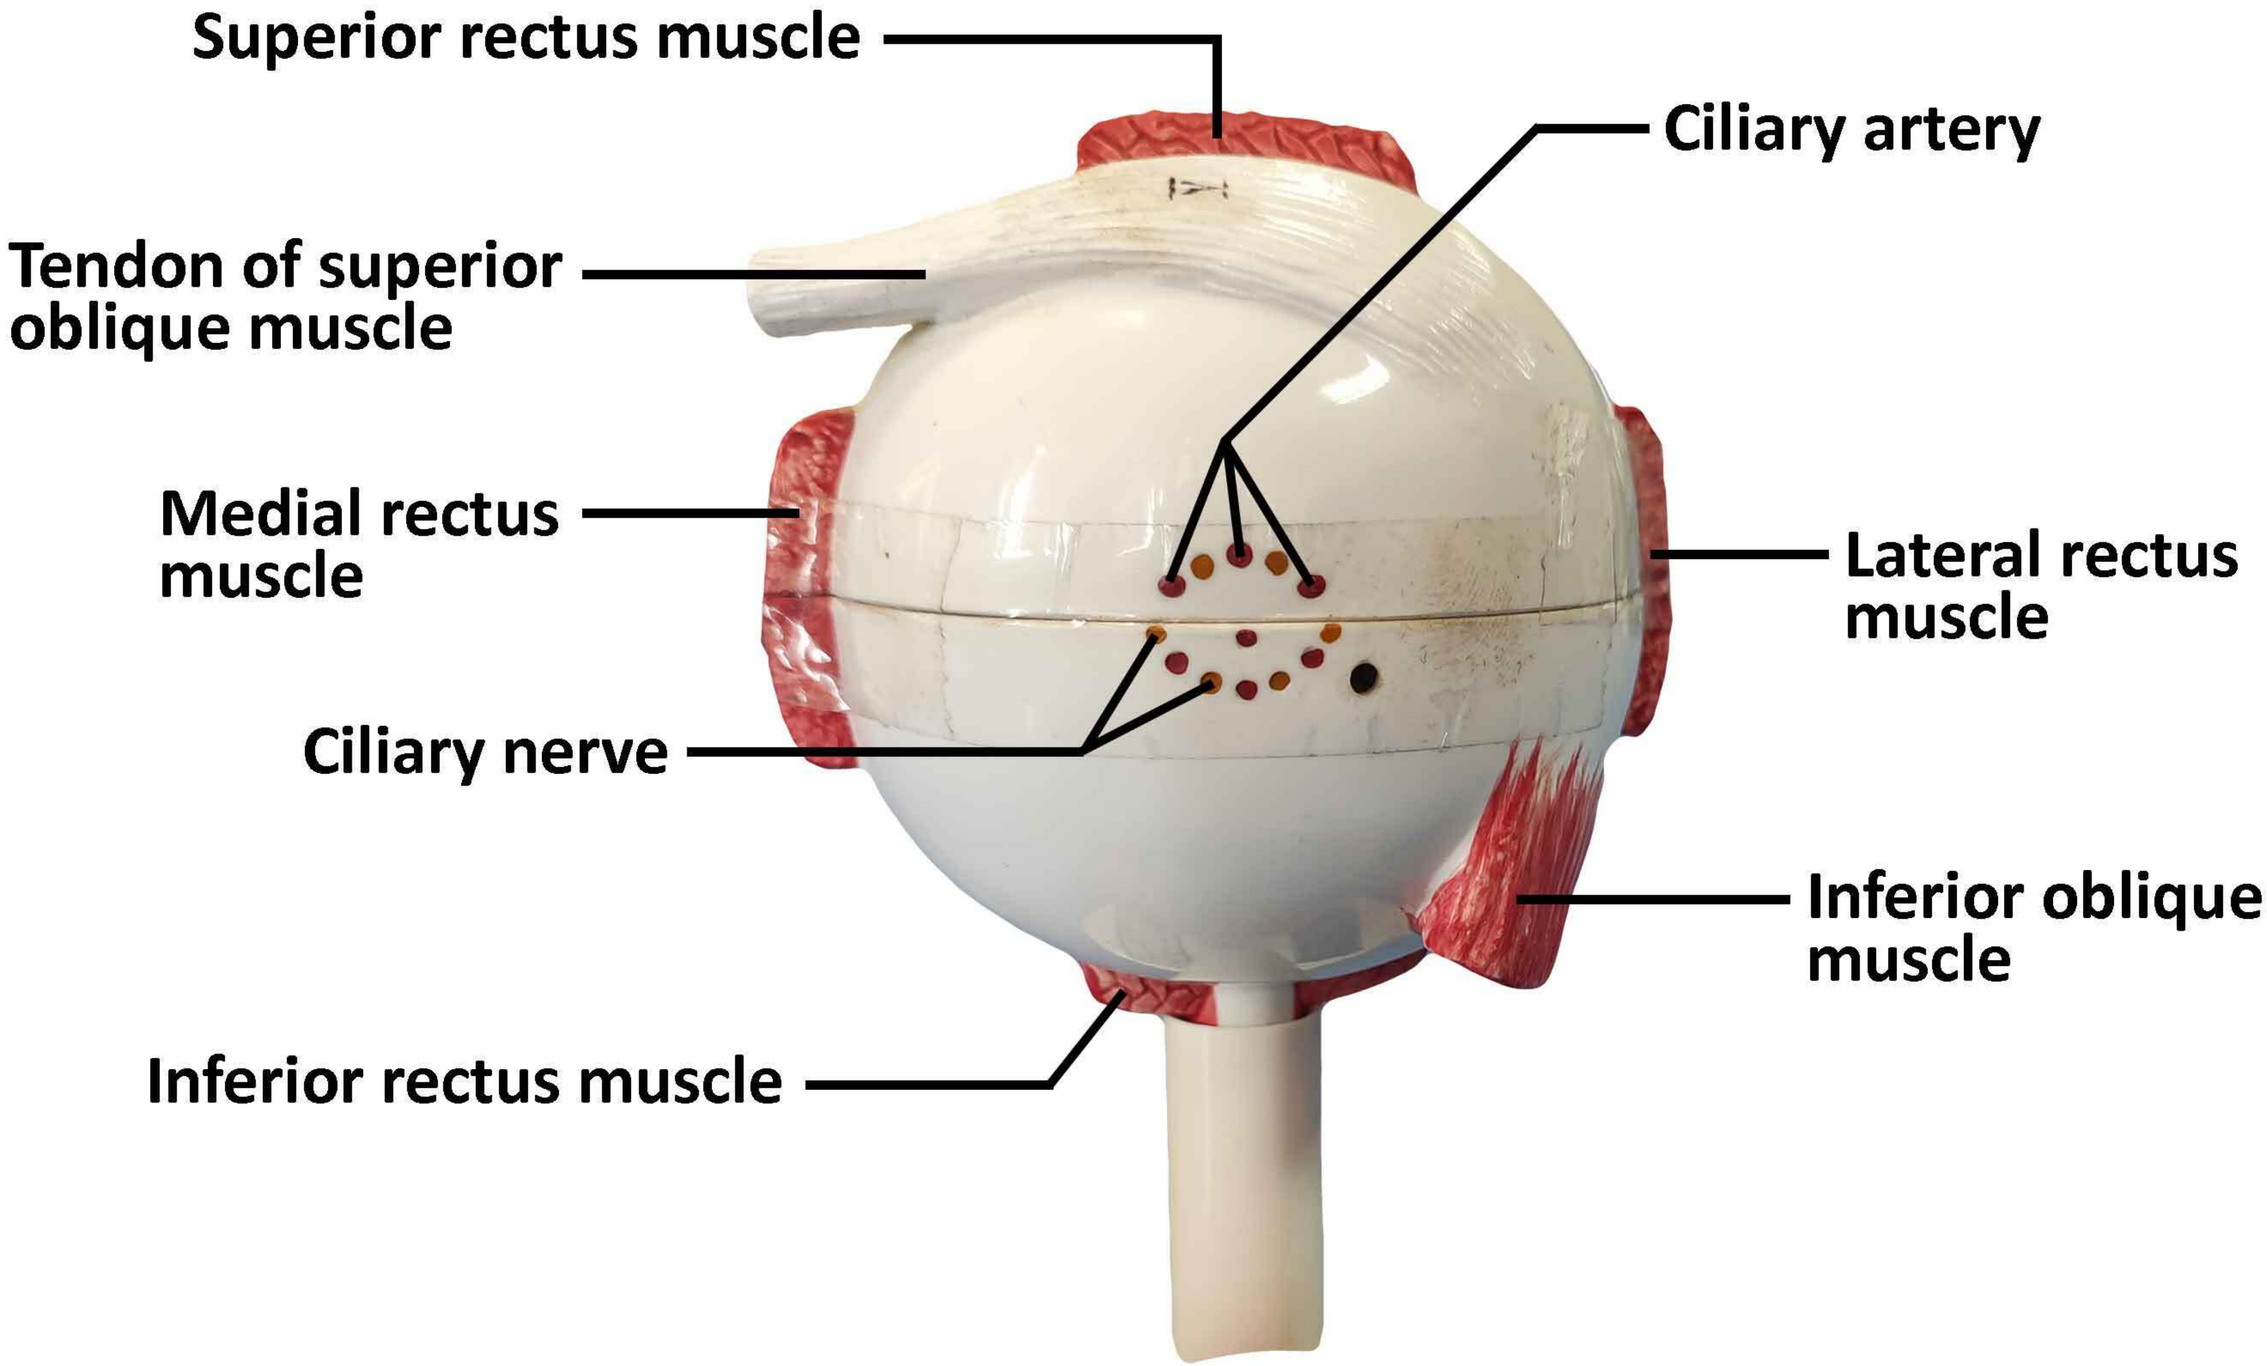

Inferior oblique muscle
Lacrimal gland
Lateral rectus muscle
Inferior rectus muscle
Communicating branch of the zygomatic nerve
Lateral rectus muscle

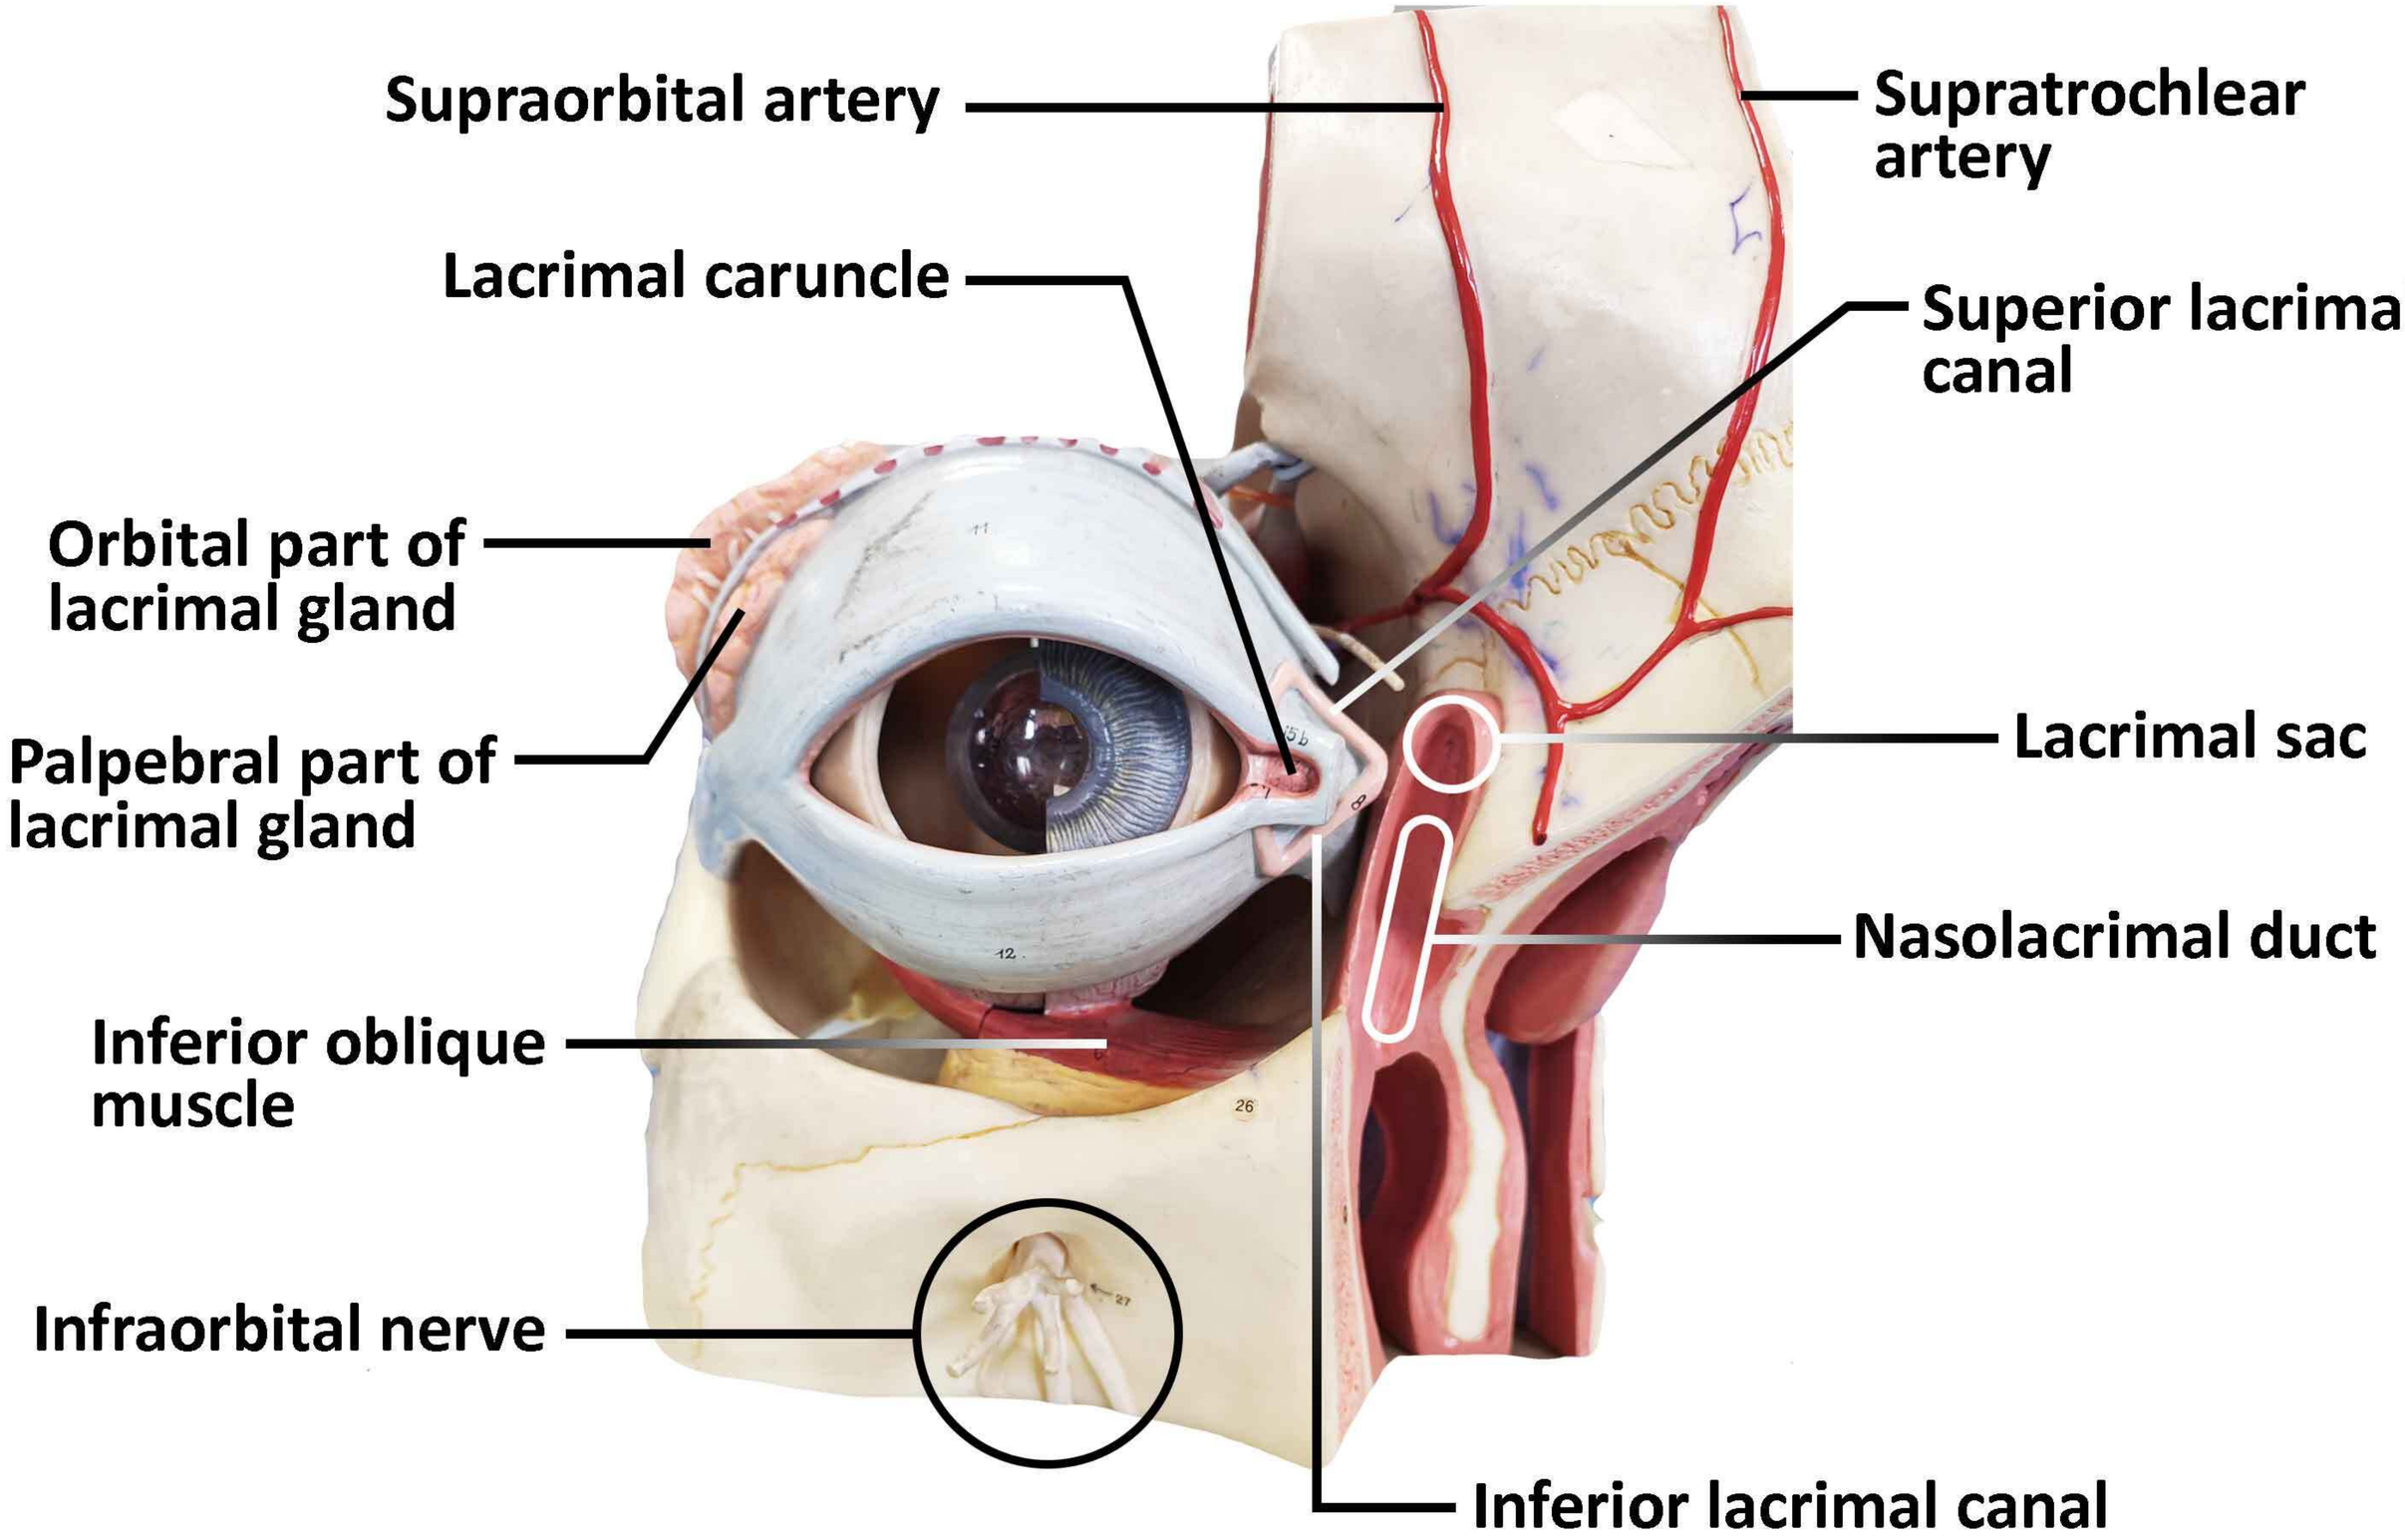

Levator palpebrae superioris muscle
Oculomotor nerve (CN III)
Lacrimal gland
Superior lacrimal canal
Superior tarsus
Lacrimal sac
Inferior tarsus
Lacrimal caruncle
Nasolacrimal duct
Inferior lacrimal canal

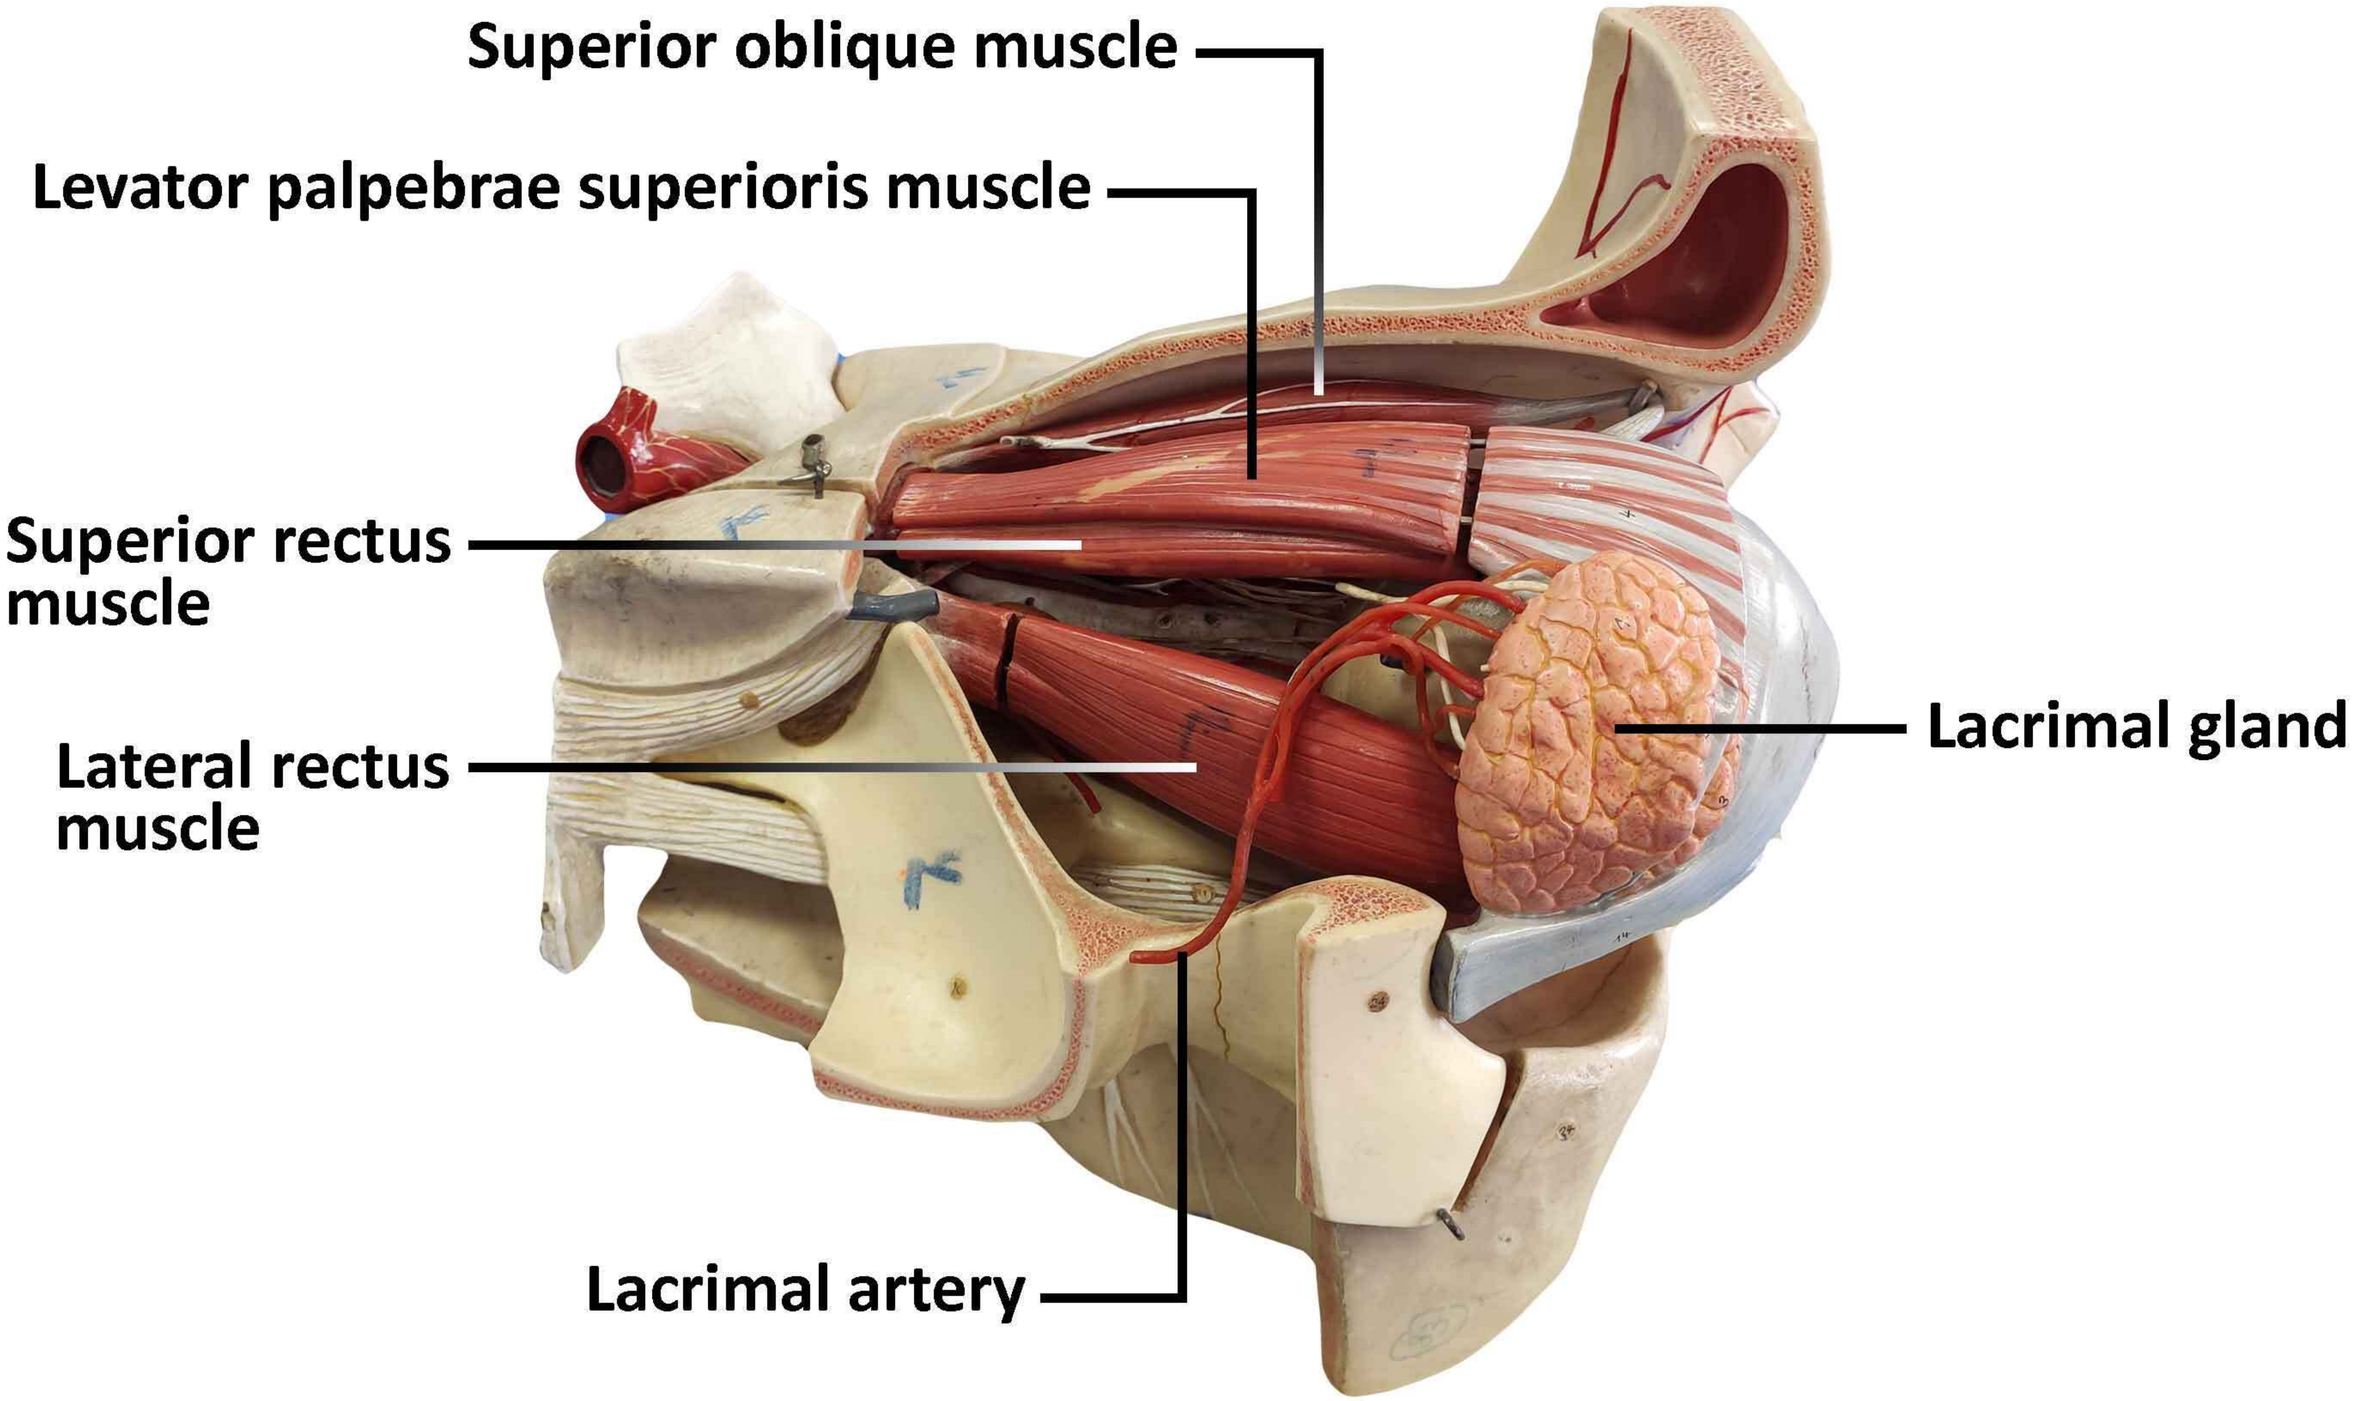

Superior rectus muscle
Sclera
Tendon of superior oblique muscle
Iris
Lateral rectus muscle
Medial rectus muscle
Pupil
Cornea
Inferior rectus muscle

Superior rectus muscle
Lateral rectus muscle
Inferior oblique muscle
Inferior rectus muscle

Superior rectus muscle
Tendon of superior oblique muscle
Medial rectus muscle
Inferior rectus muscle

Superior rectus muscle
Ciliary artery
Tendon of superior oblique muscle
Medial rectus muscle
Lateral rectus muscle
Ciliary nerve
Inferior oblique muscle
Inferior rectus muscle

Supraorbital artery
Supratrochlear artery
Lacrimal caruncle
Superior lacrimal canal
Orbital part of lacrimal gland
Palpebral part of lacrimal gland
Lacrimal sac
Nasolacrimal duct
Inferior oblique muscle
Infraorbital nerve
Inferior lacrimal canal

Superior oblique muscle
Levator palpebrae superioris muscle
Superior rectus muscle
Lateral rectus muscle
Lacrimal gland
Lacrimal artery

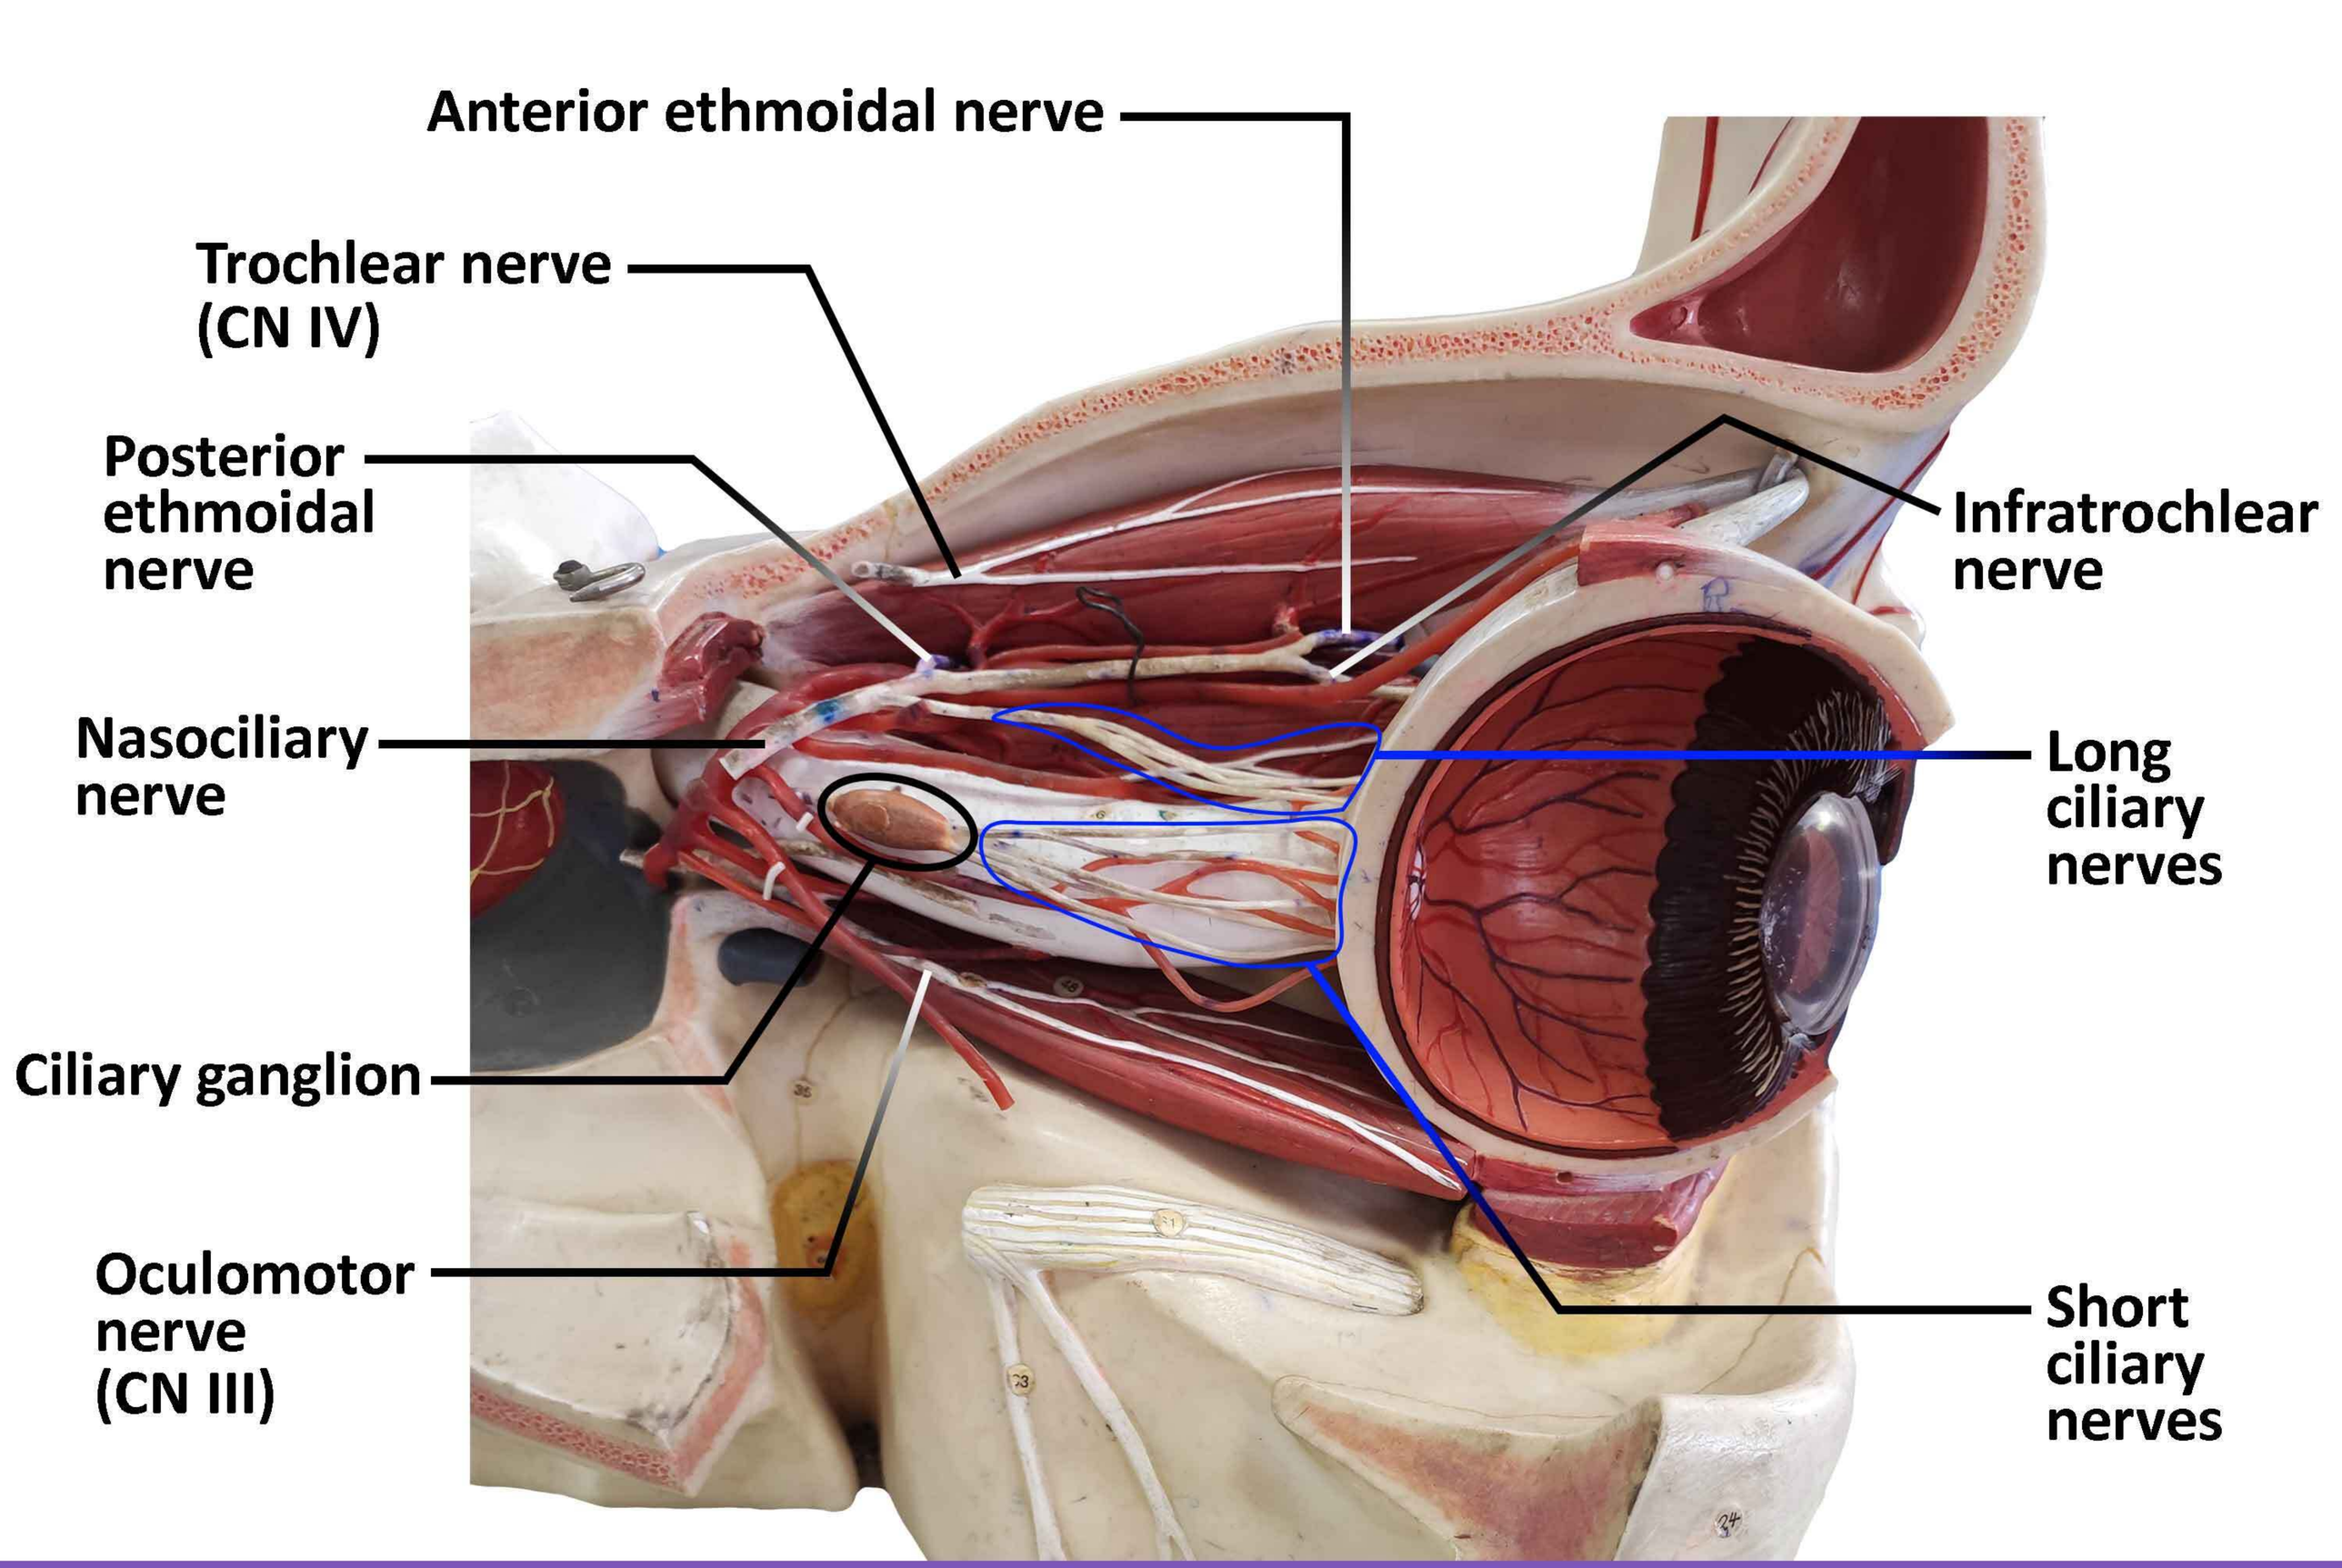

Supraorbital artery

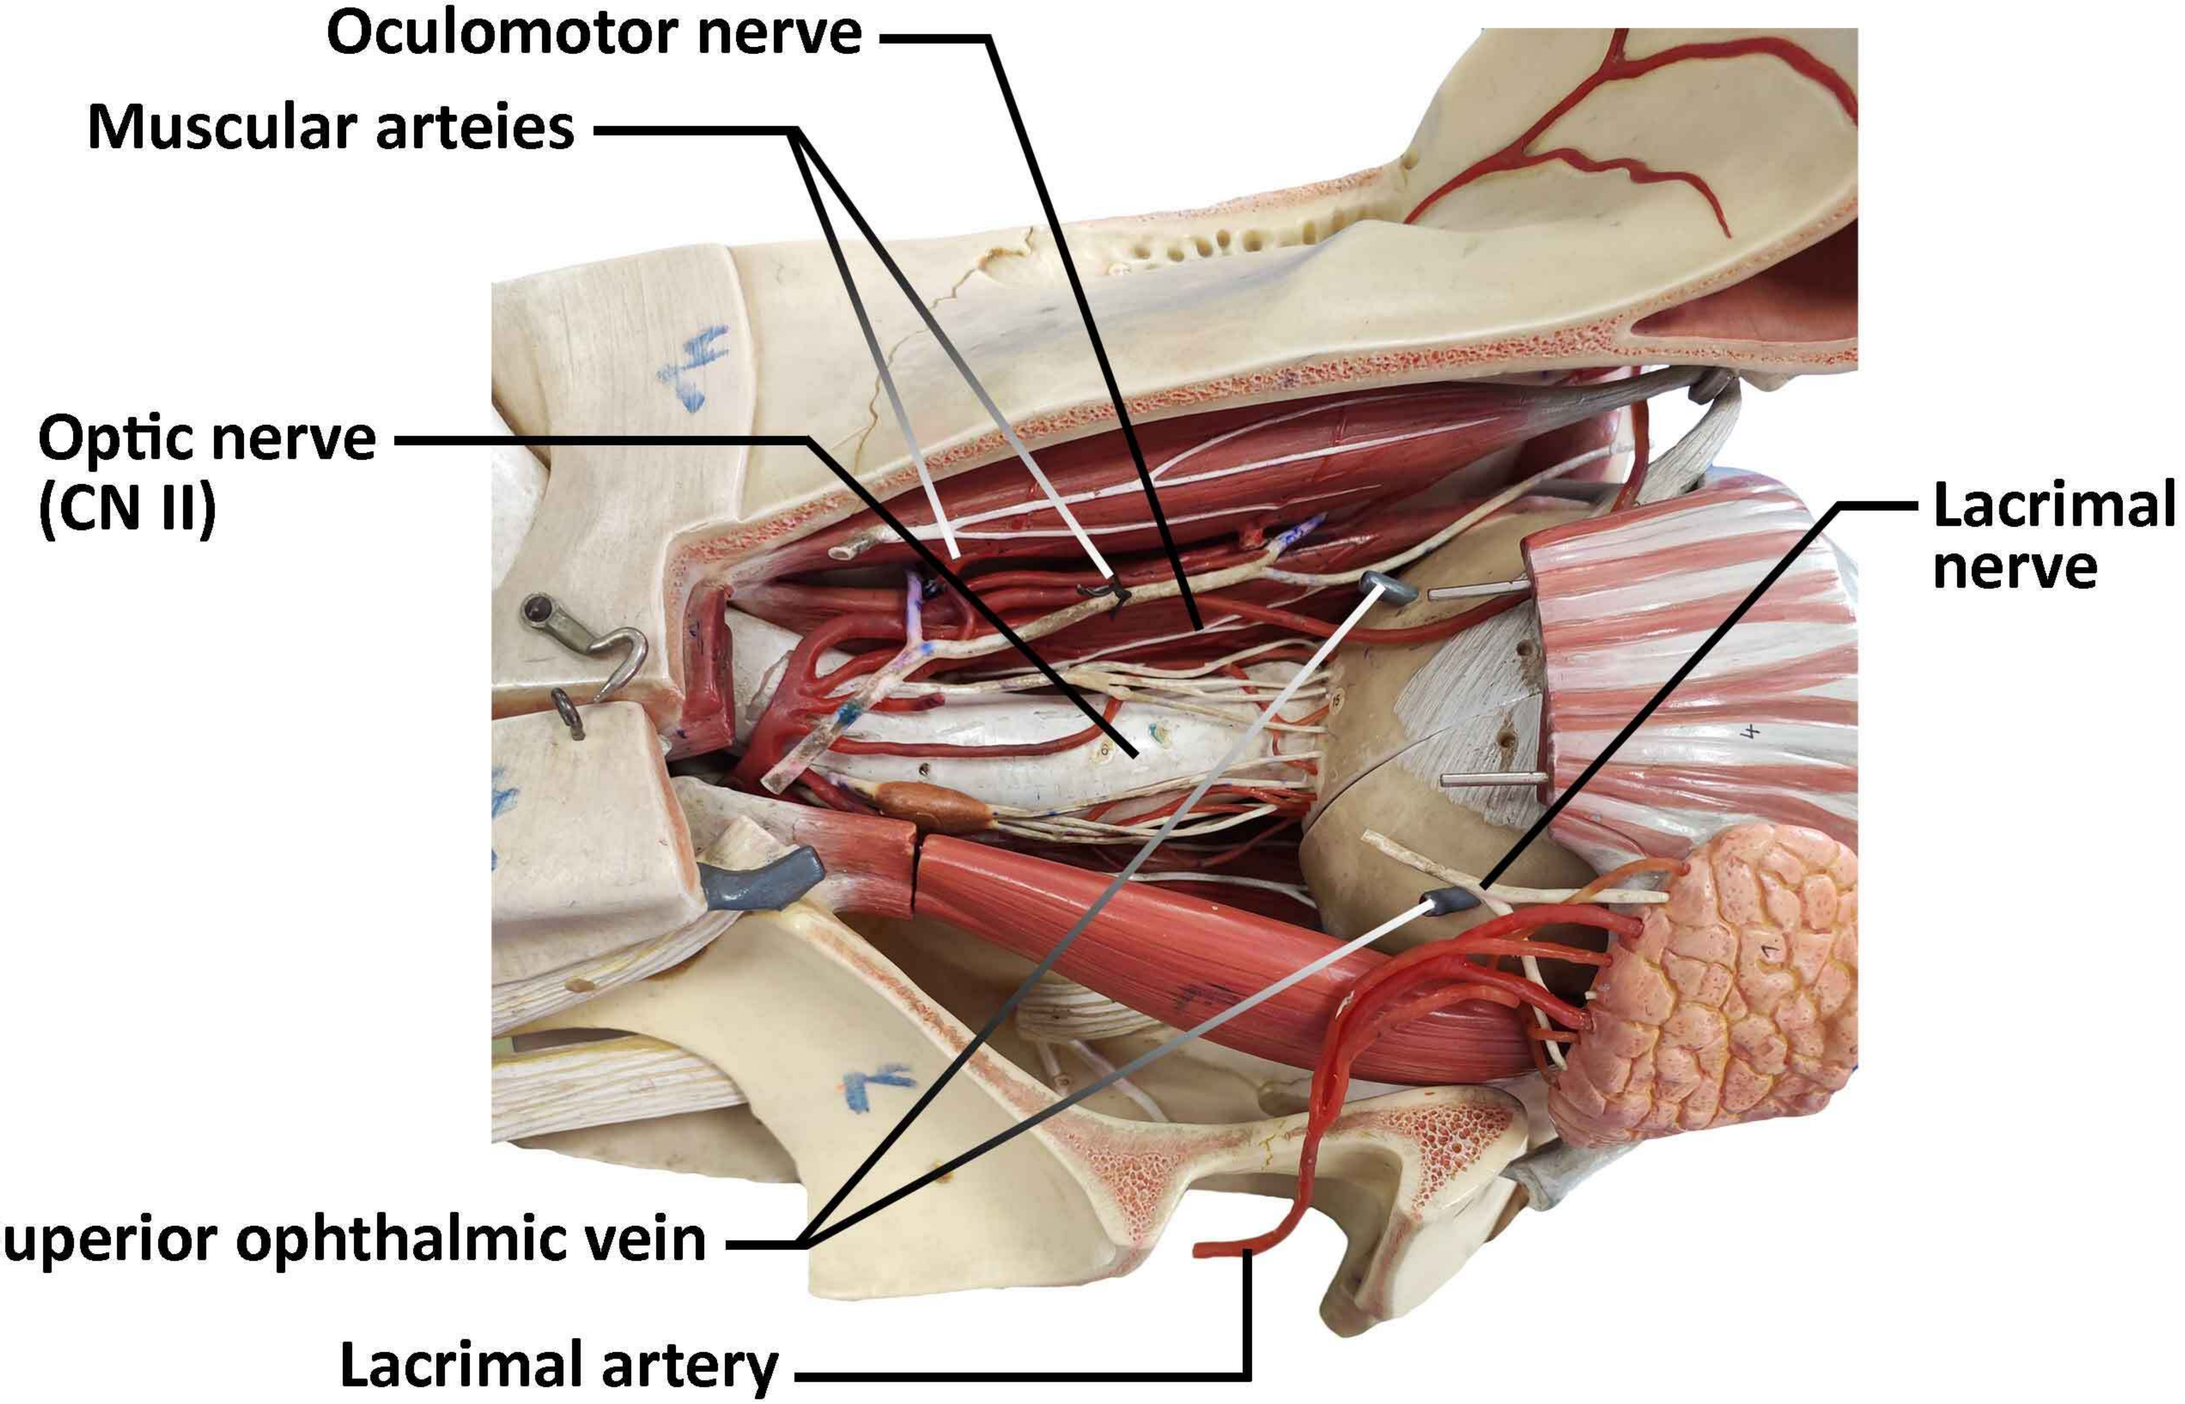

Long posterior ciliary artery

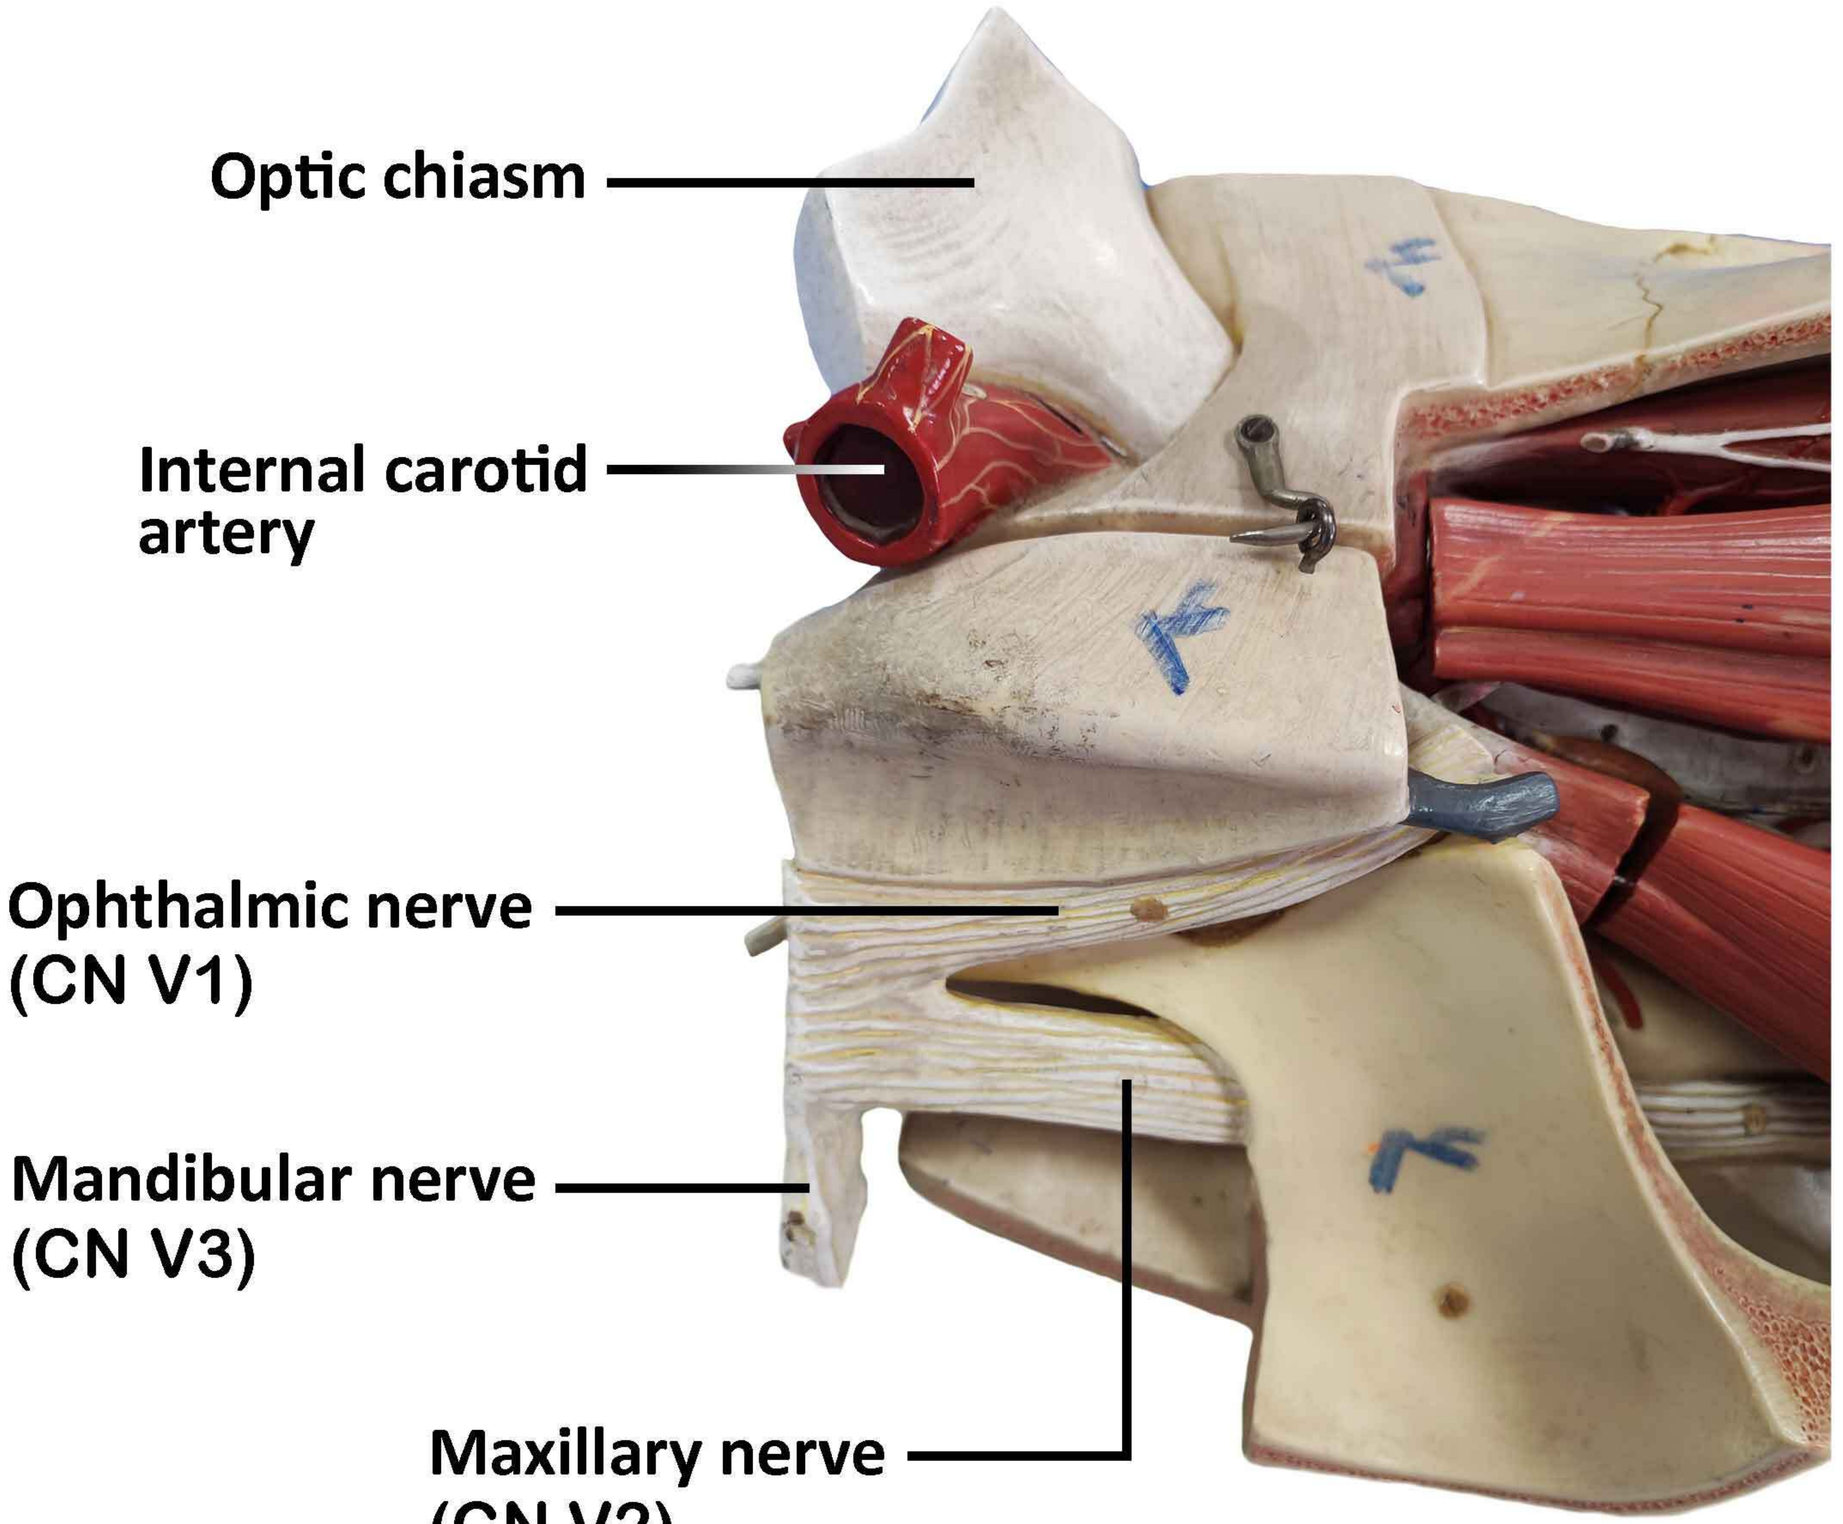

Ophthalmic artery

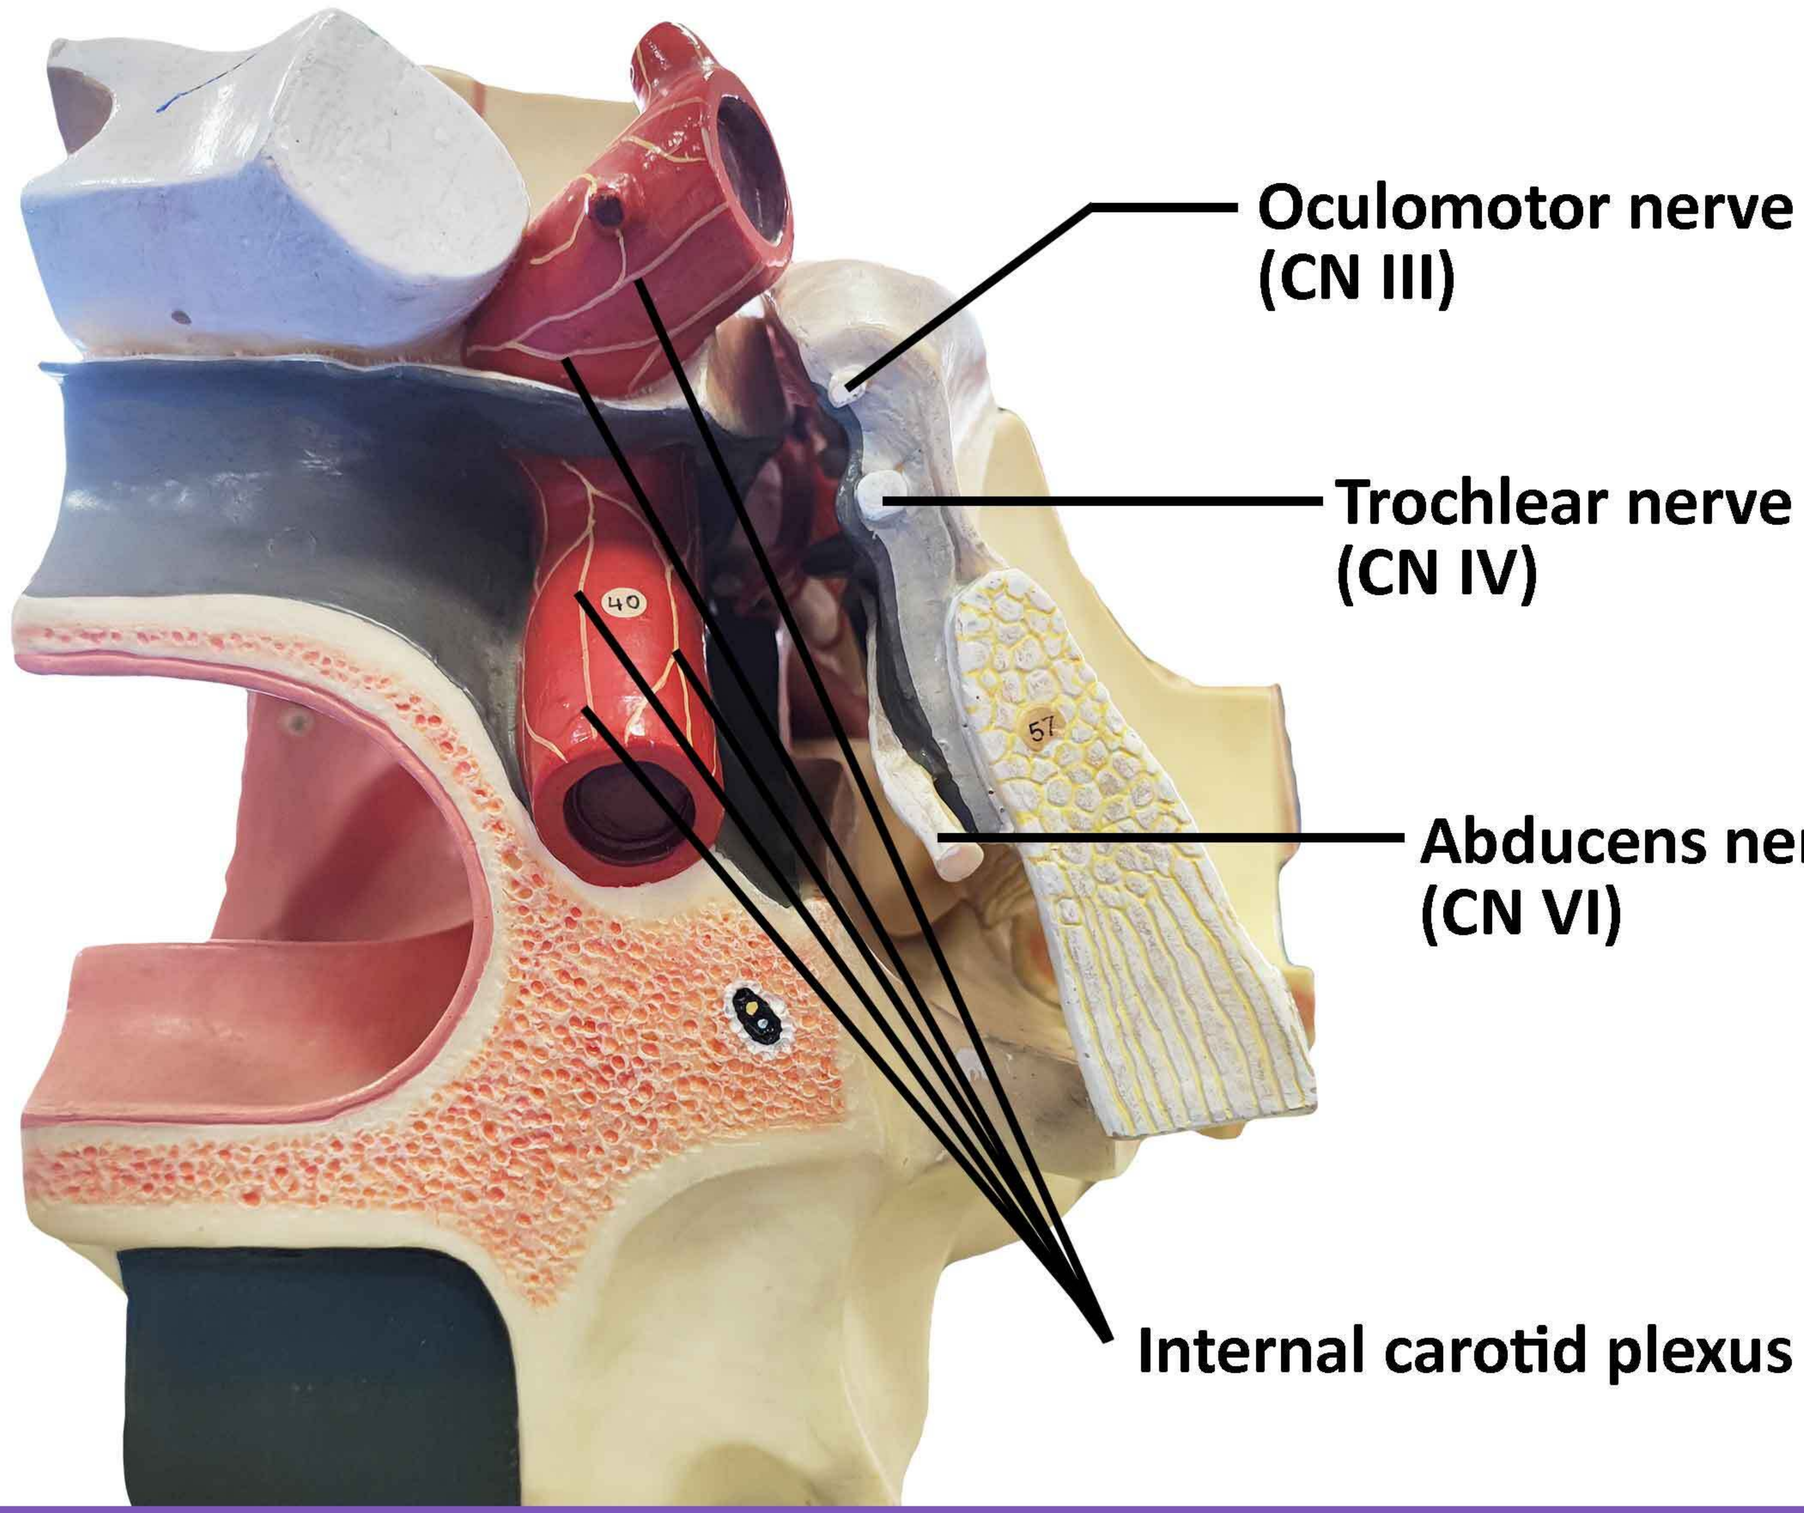

Lacrimal artery

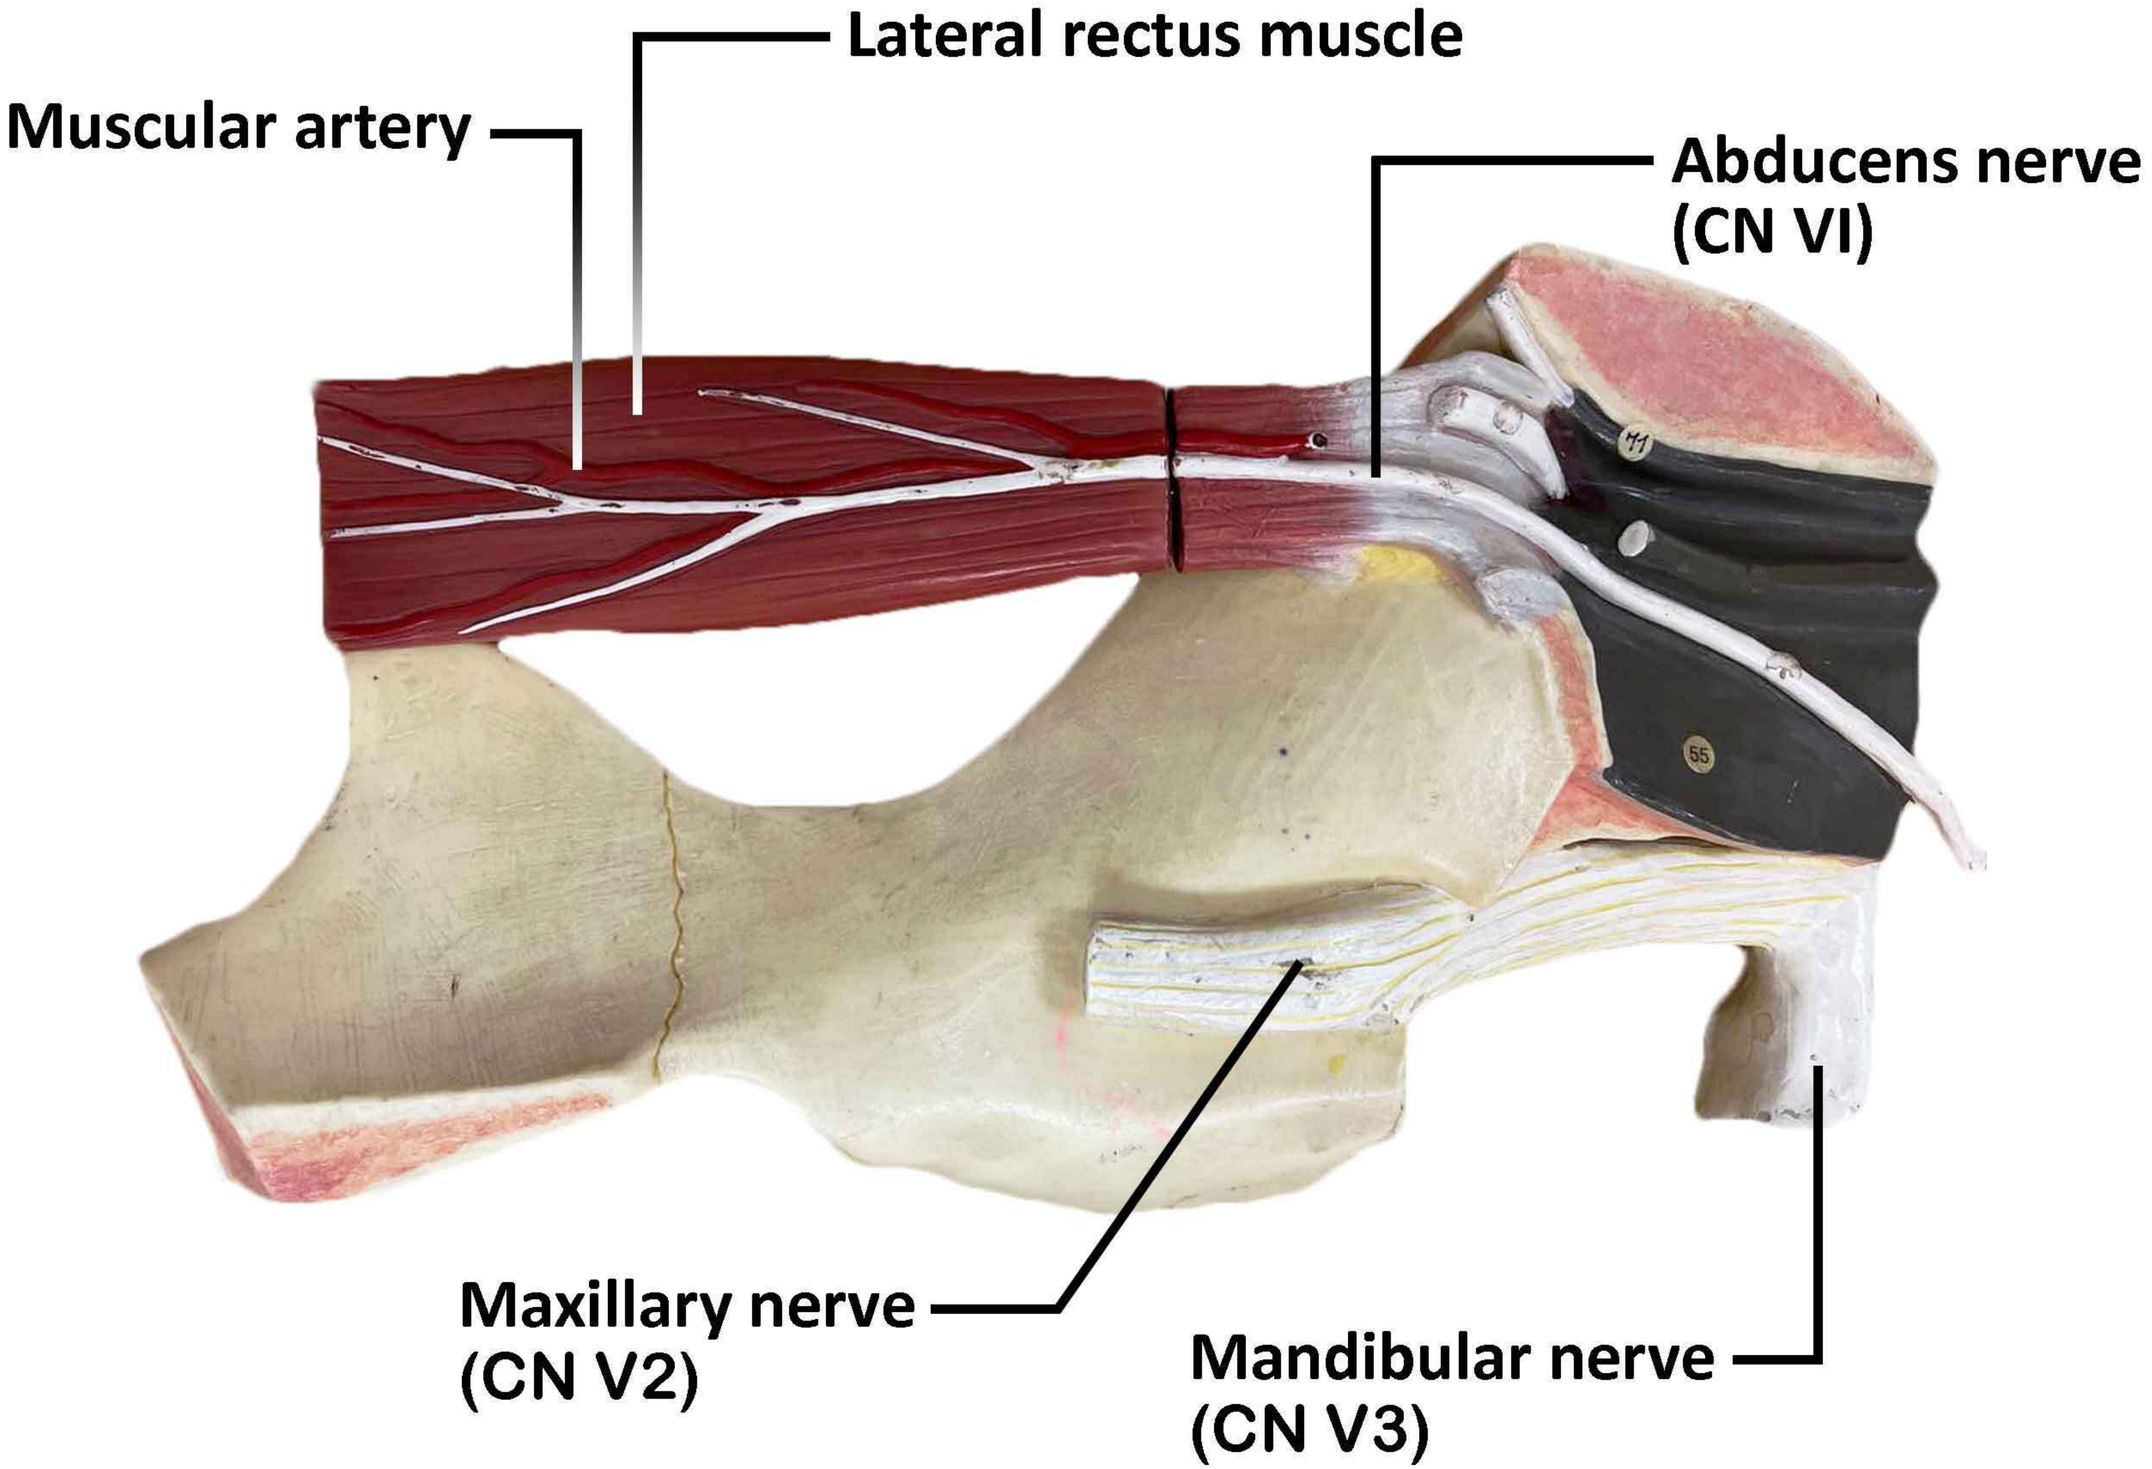

Short posterior ciliary artery

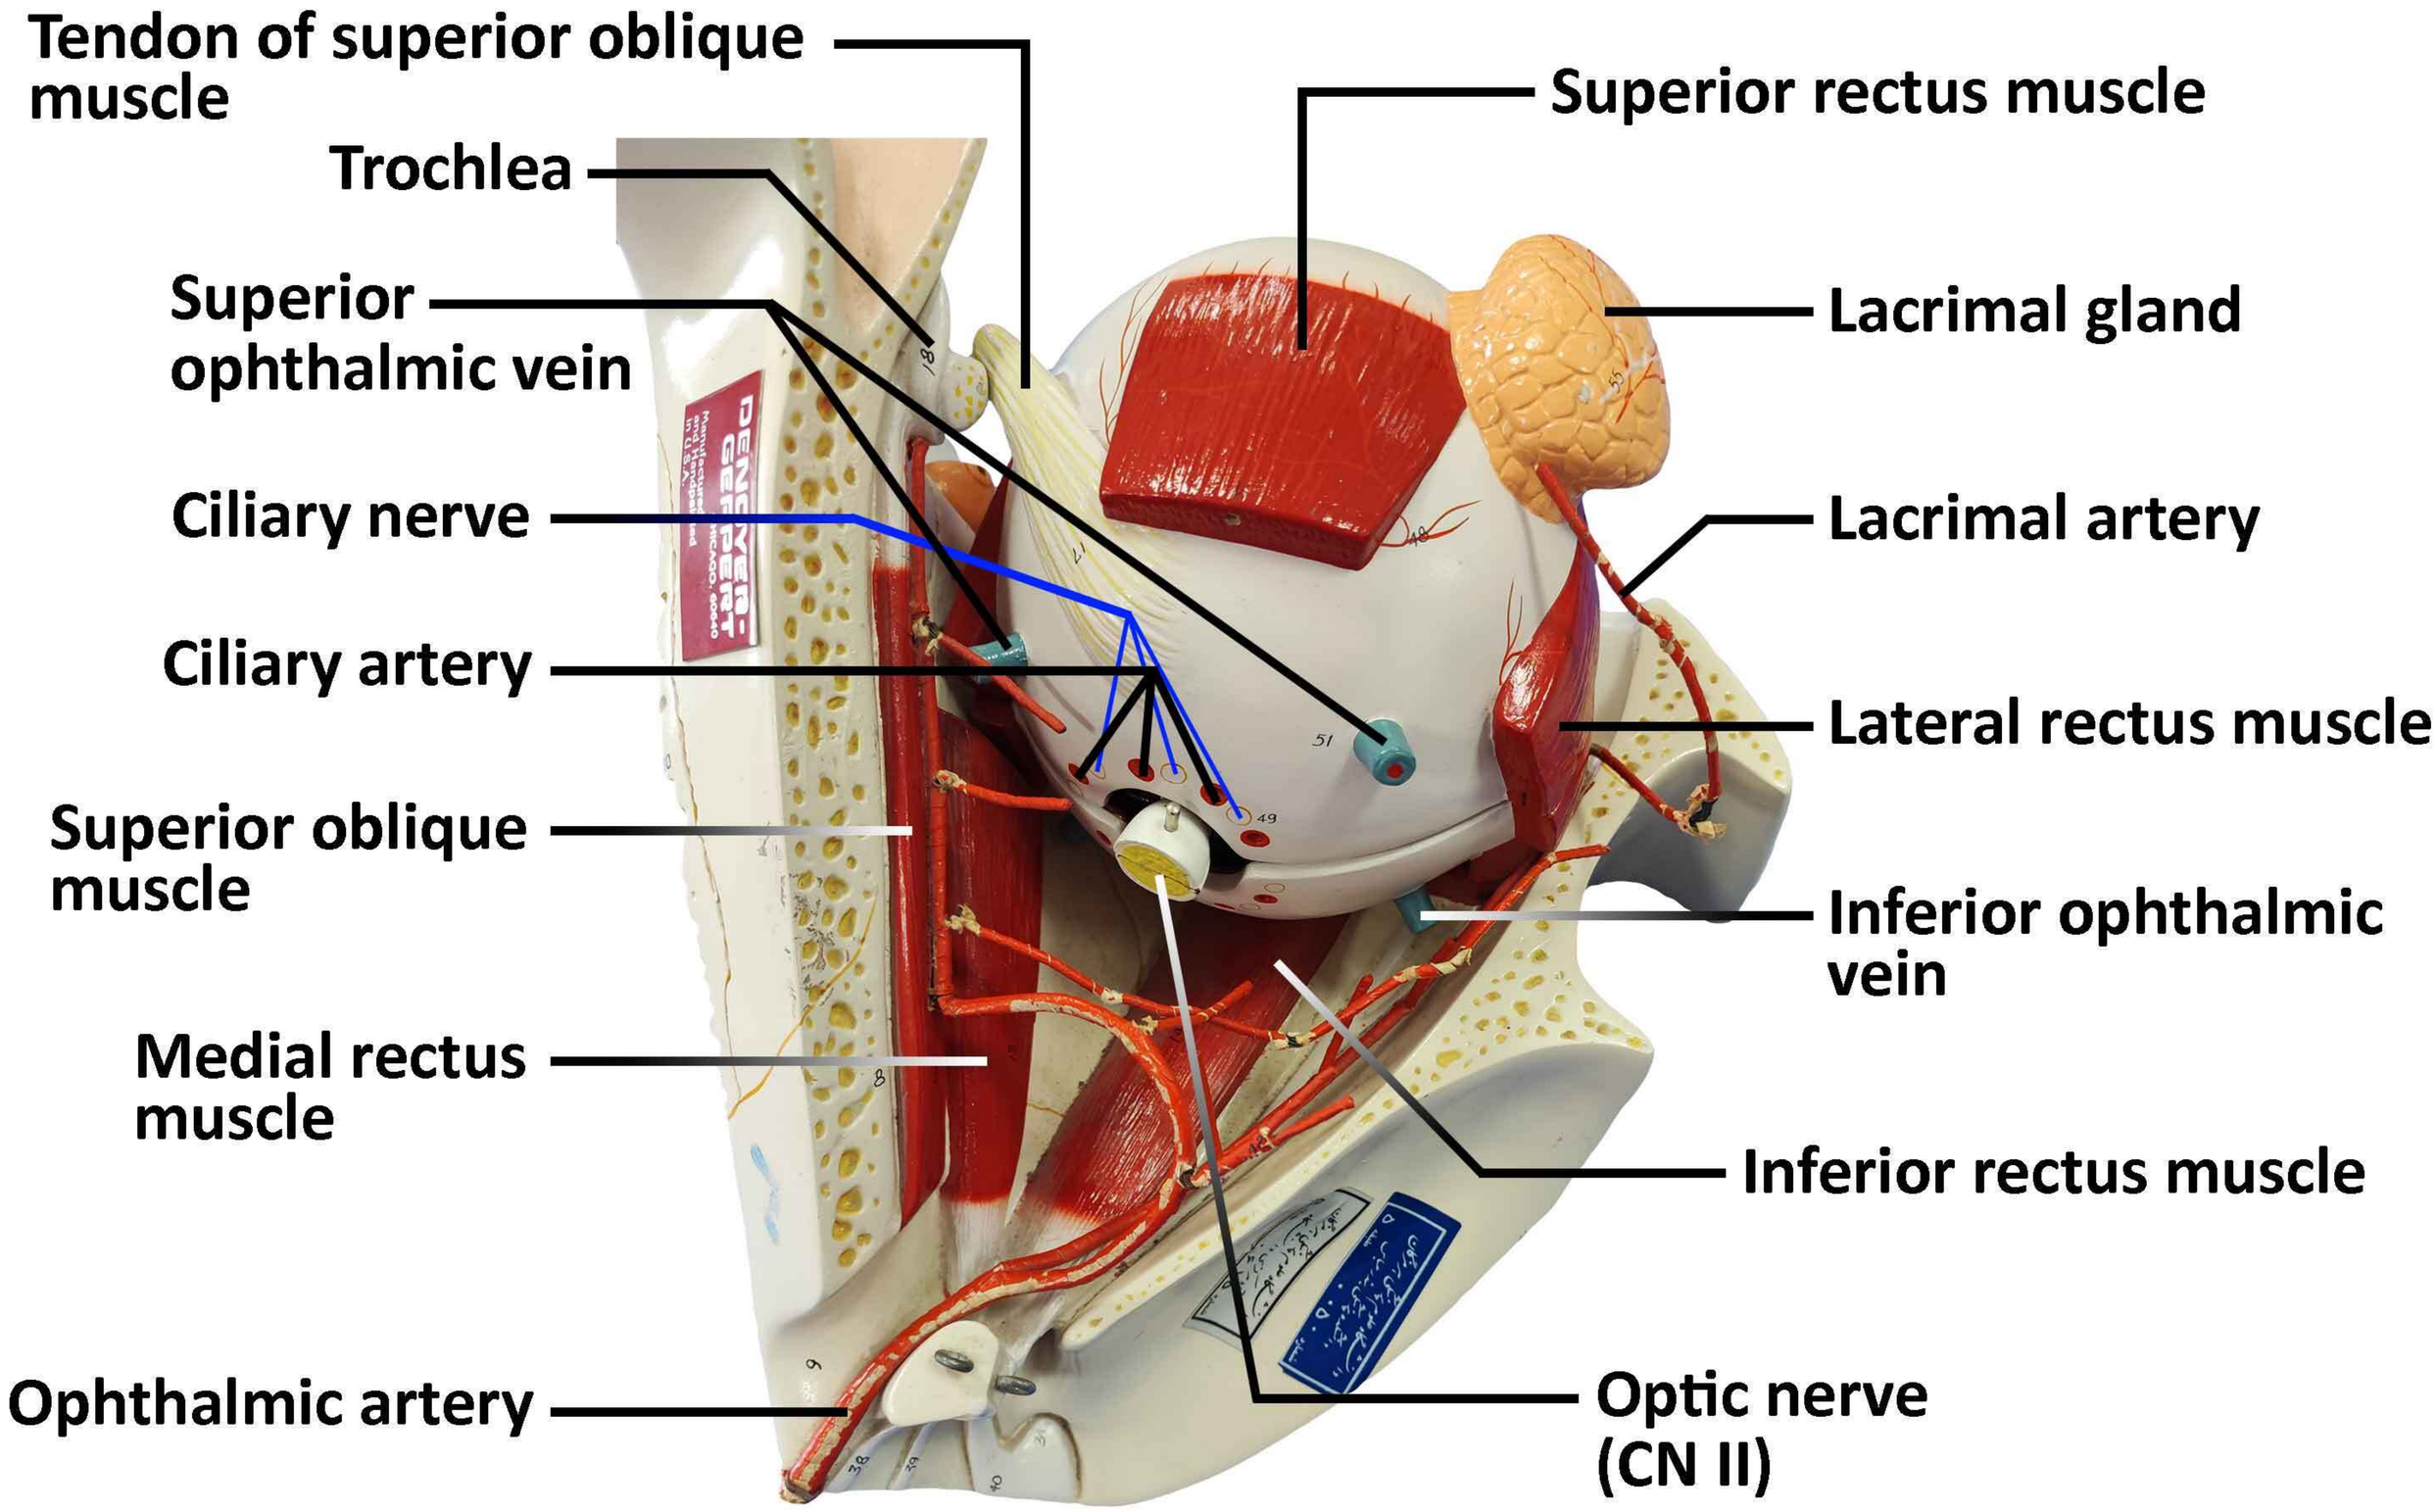

Anterior ethmoidal nerve
Trochlear nerve (CN IV)
Posterior ethmoidal nerve
Infratrochlear nerve
Nasociliary nerve
Long ciliary nerves
Ciliary ganglion
Oculomotor nerve (CN III)
Short ciliary nerves

Oculomotor nerve
Muscular arteies
Optic nerve
(CN II)
Lacrimal
nerve
Superior ophthalmic vein
Lacrimal artery

Optic chiasm
Internal carotid artery
Ophthalmic nerve (CN V1)
Mandibular nerve (CN V3)
Maxillary nerve (CN V2)

Oculomotor nerve
(CN III)
Trochlear nerve
(CN IV)
Abducens nerve
(CN VI)
Internal carotid plexus

Lateral rectus muscle
Muscular artery
Abducens nerve
(CN VI)
Maxillary nerve
(CN V2)
Mandibular nerve
(CN V3)

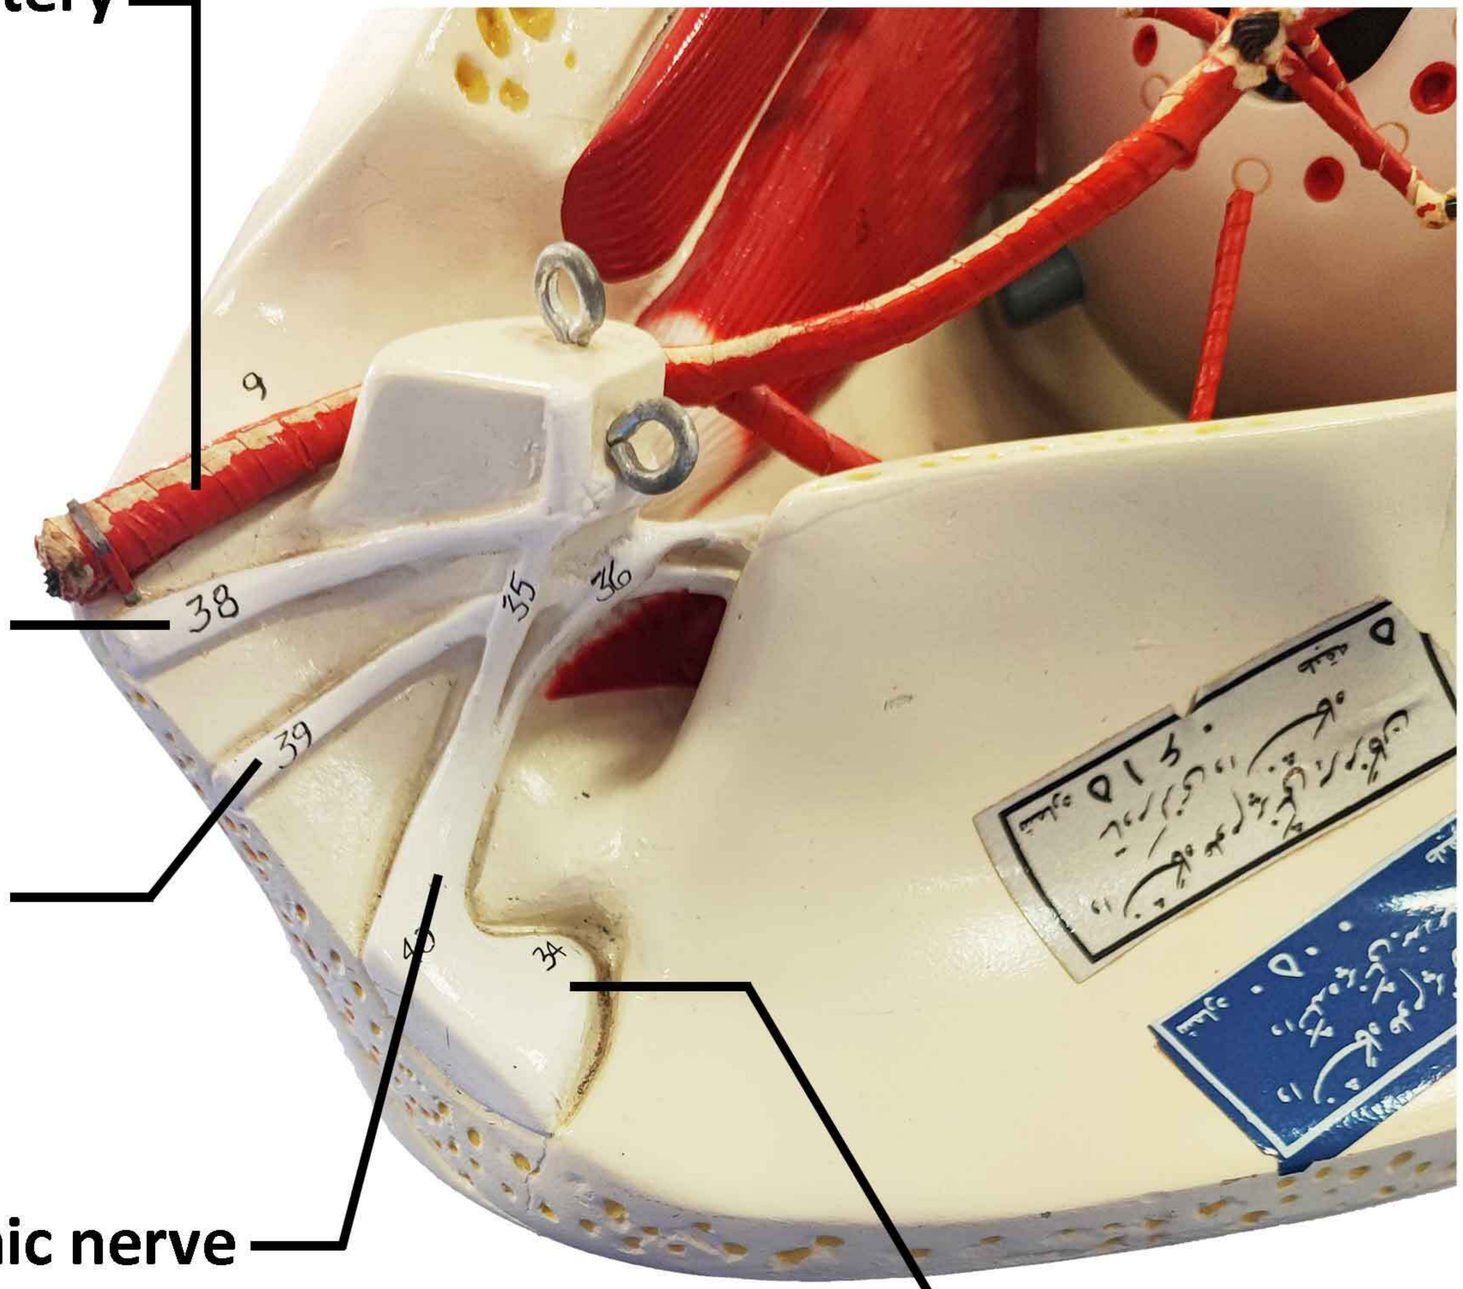

Tendon of superior oblique muscle
Trochlea
Superior ophthalmic vein
Ciliary nerve
Ciliary artery
Superior oblique muscle
Medial rectus muscle
Ophthalmic artery
Superior rectus muscle
Lacrimal gland
Lacrimal artery
Lateral rectus muscle
Inferior ophthalmic vein
Inferior rectus muscle
Optic nerve (CN II)

Ophthalmic artery

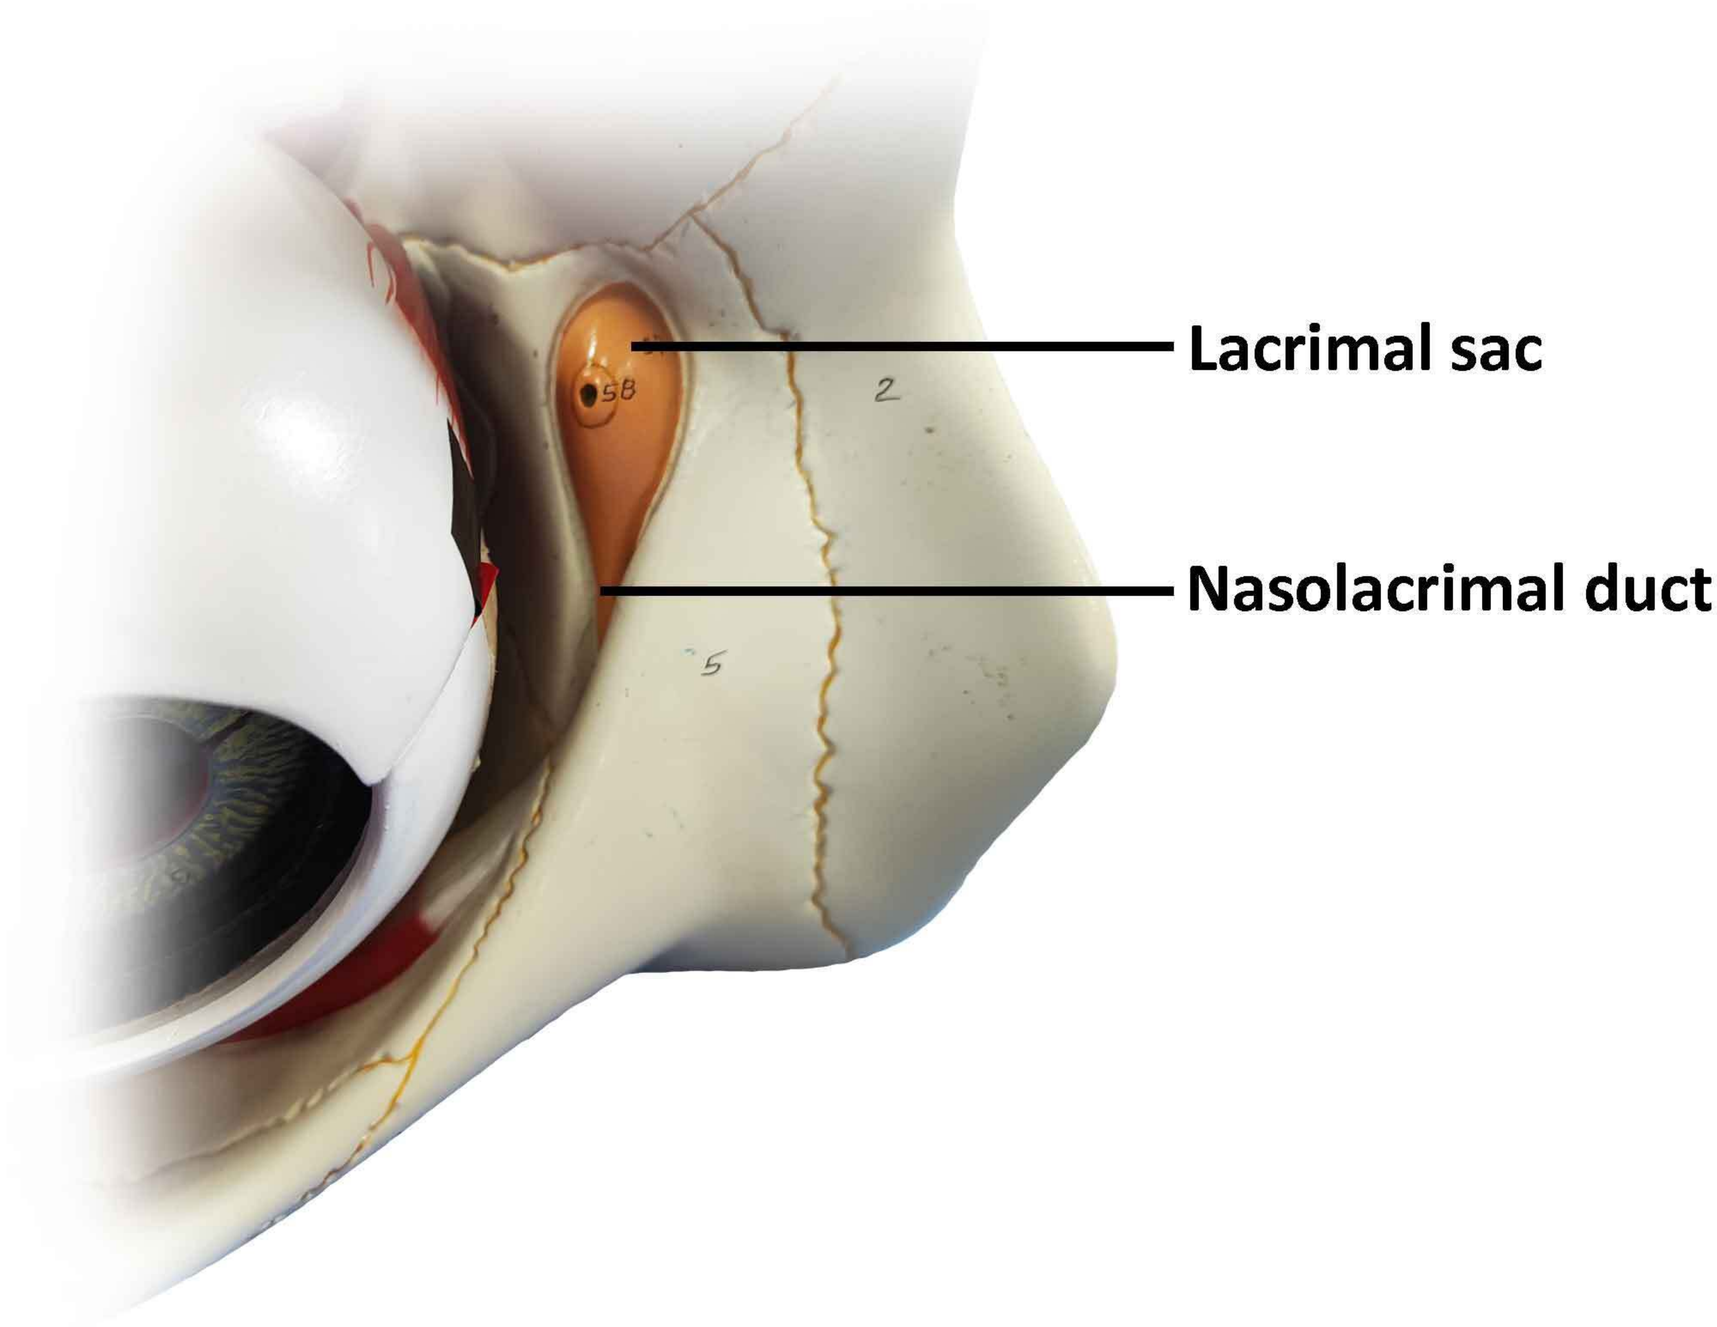

Oculomotor nerve (CN III)

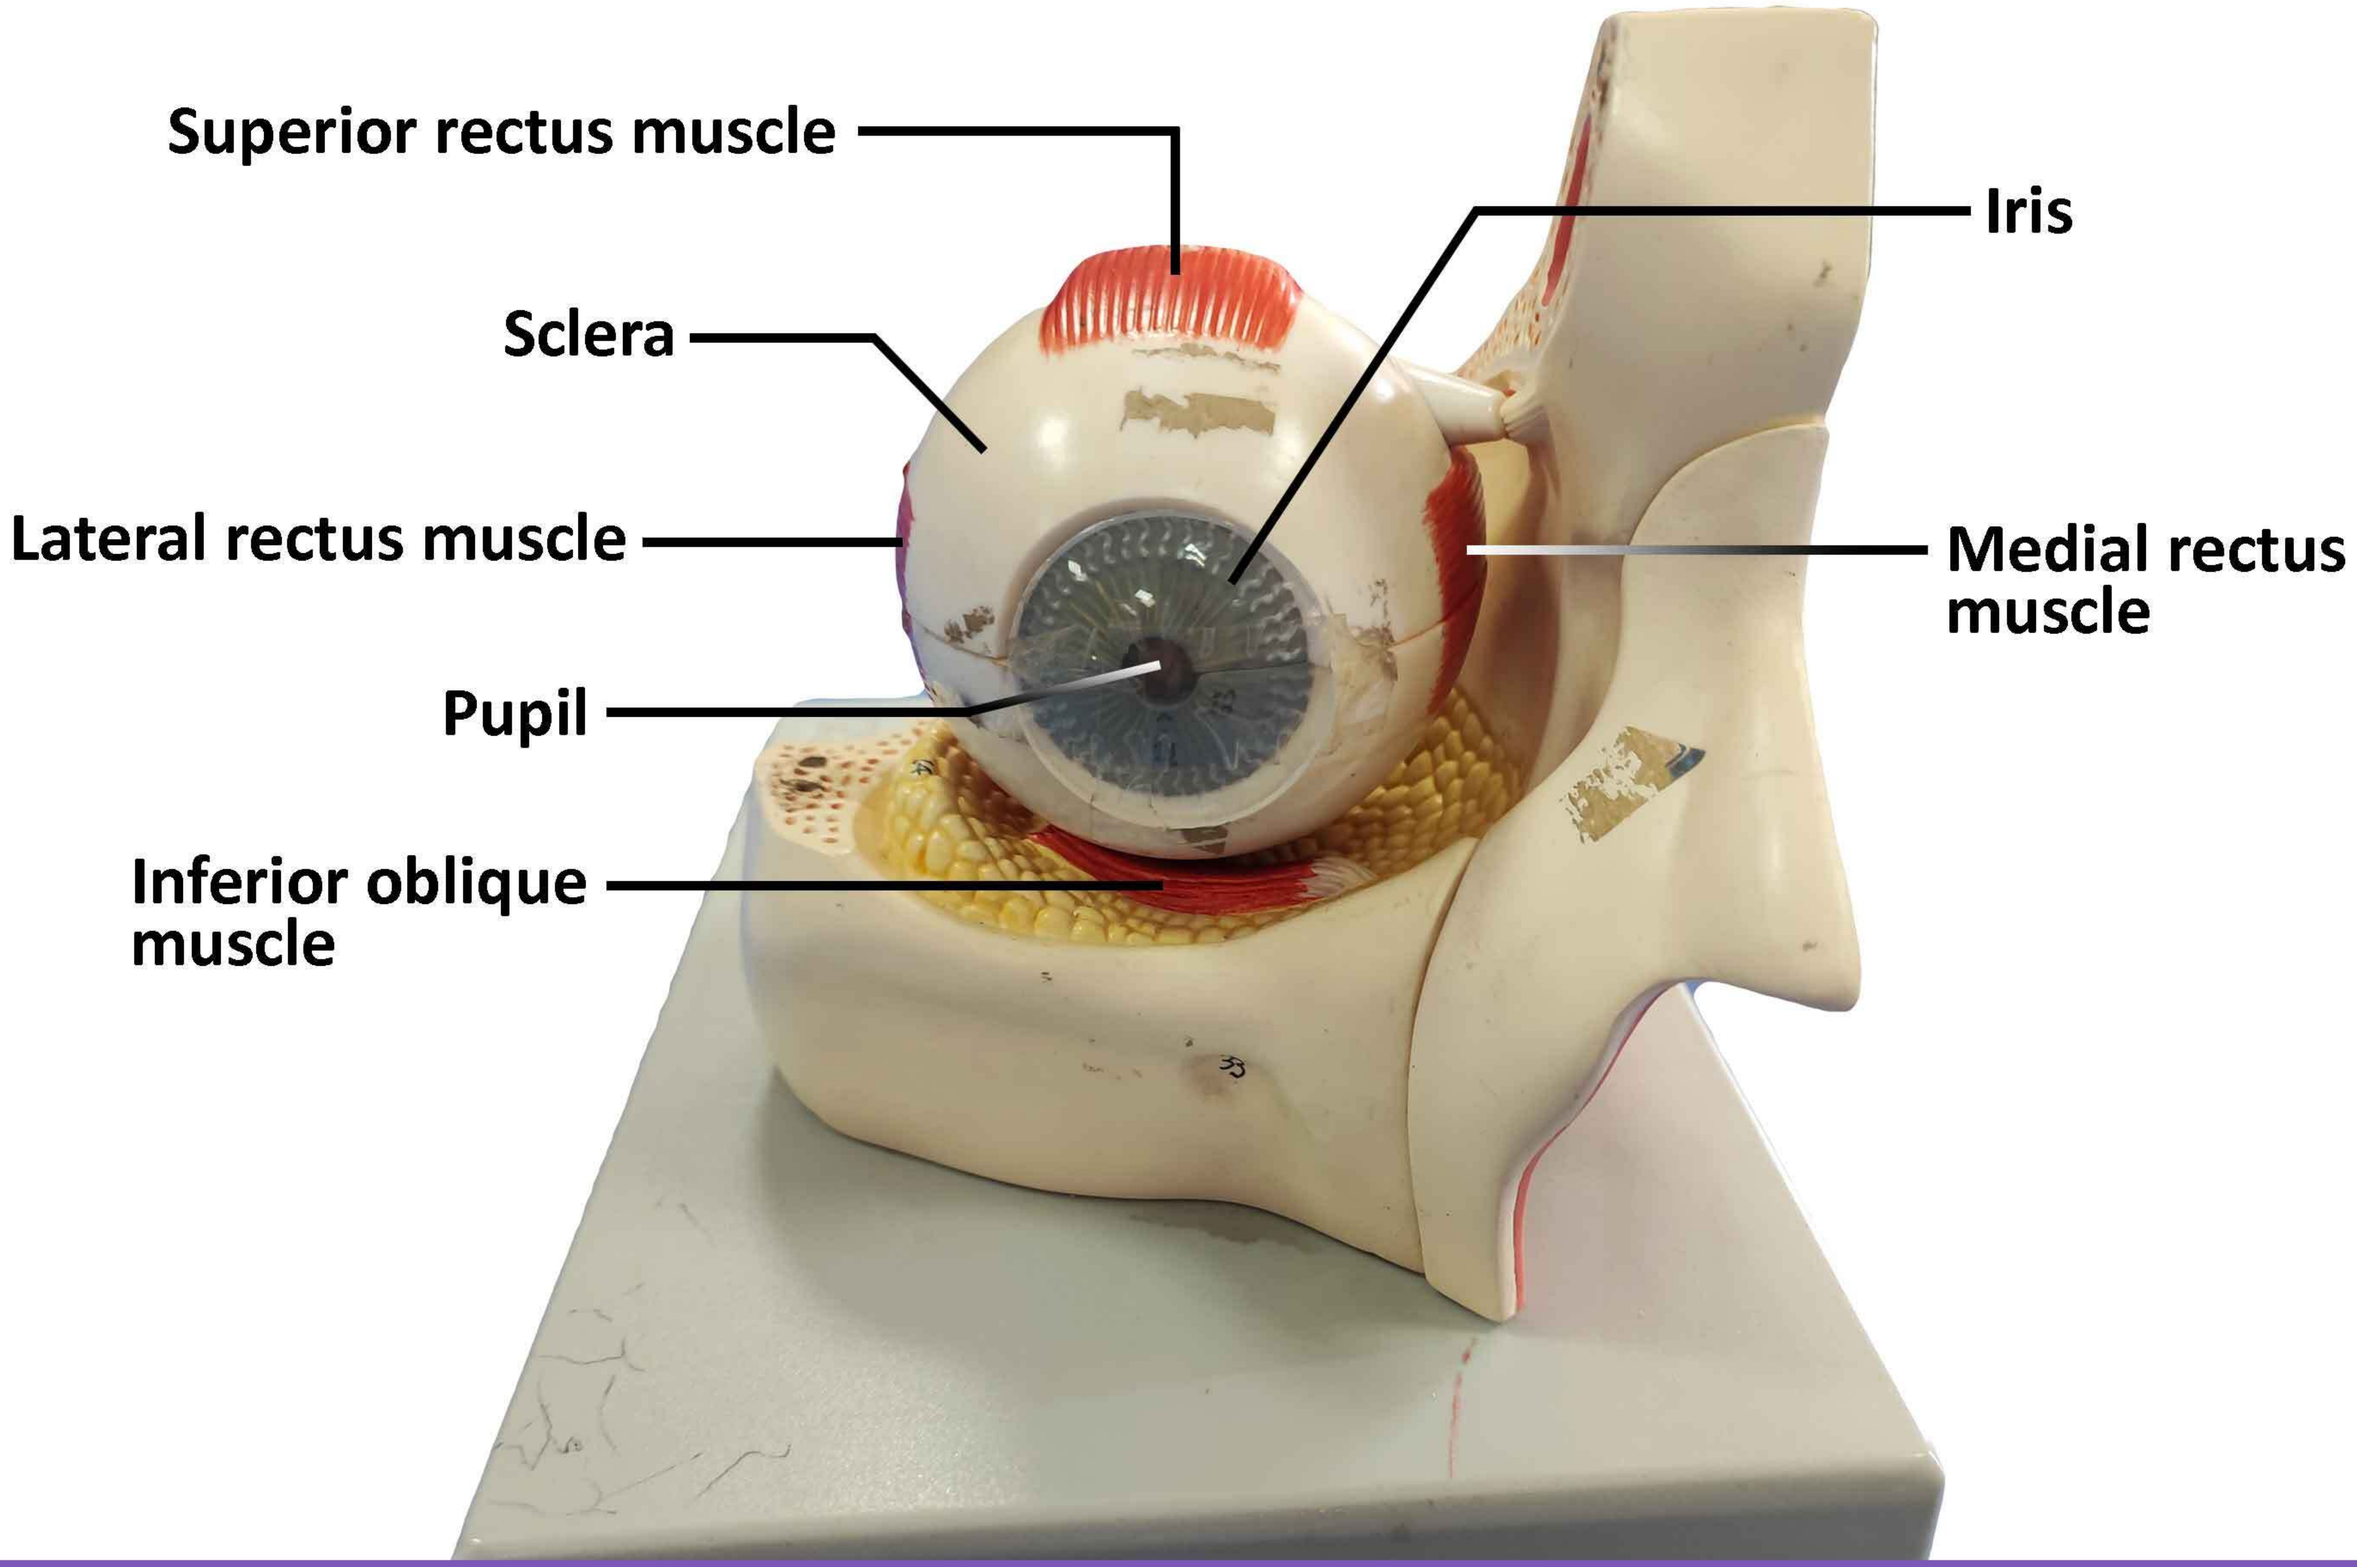

Trochlear nerve (CN IV)

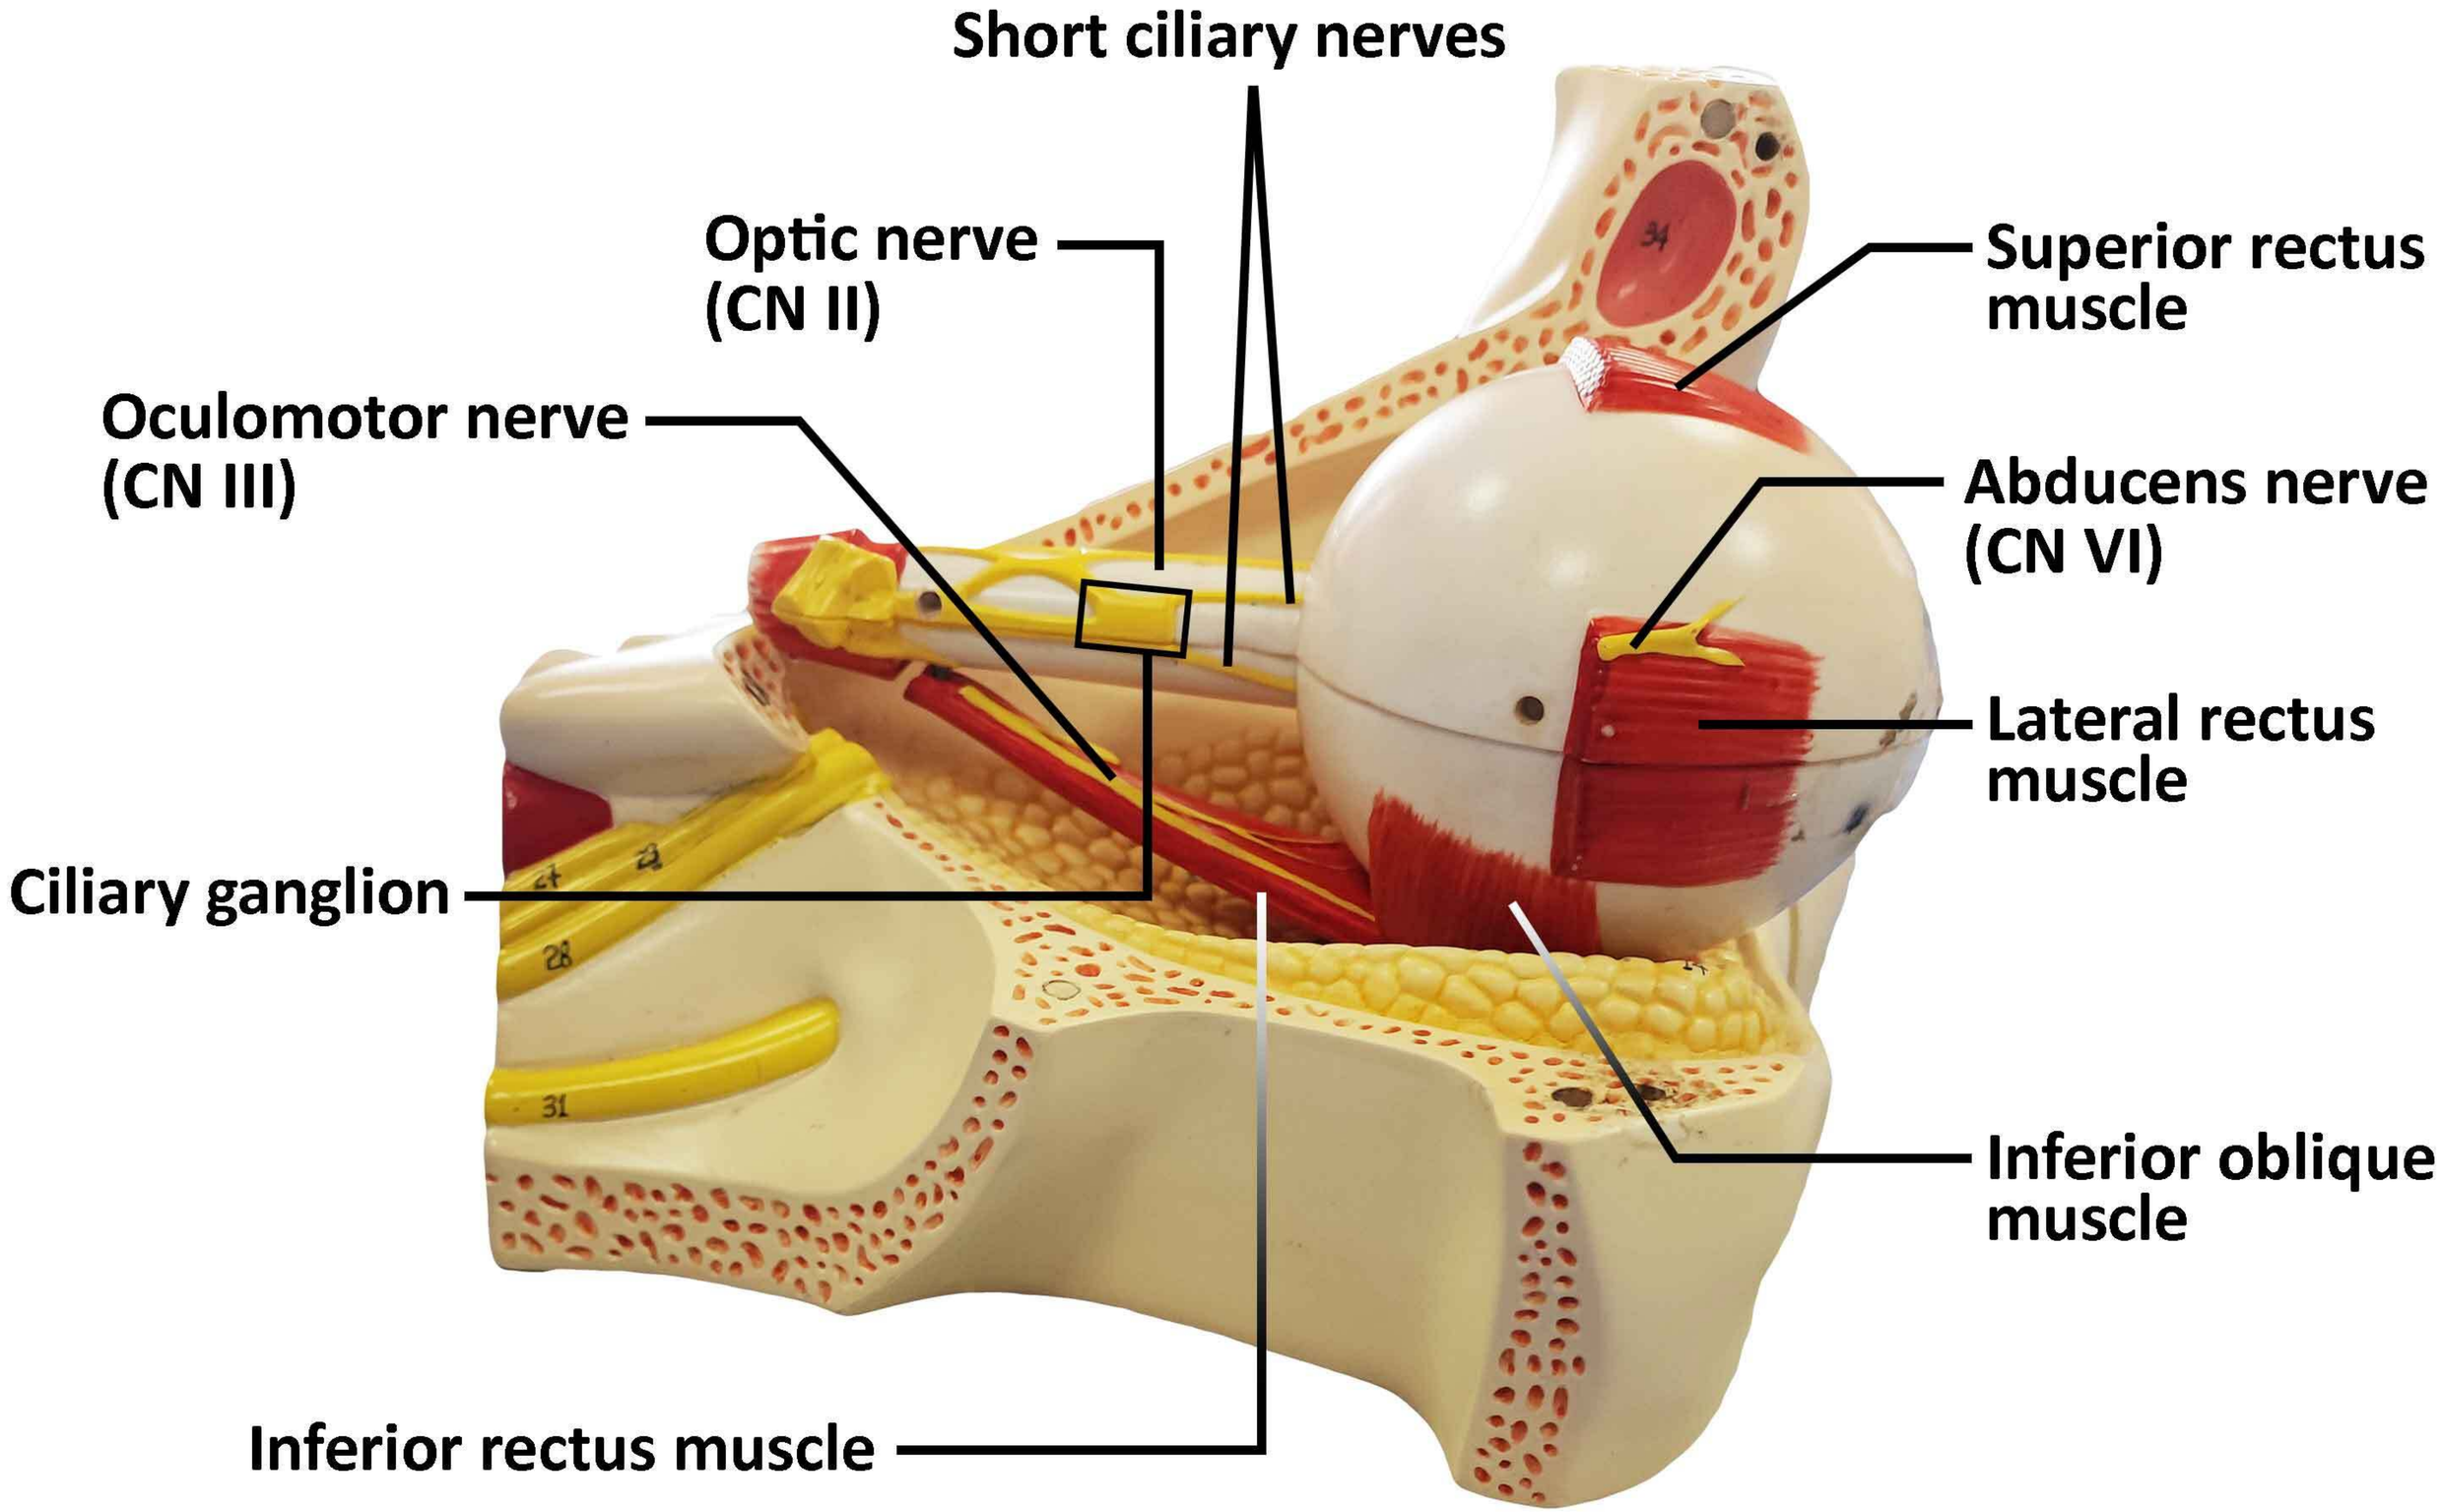

Ophthalmic nerve (CN V1)

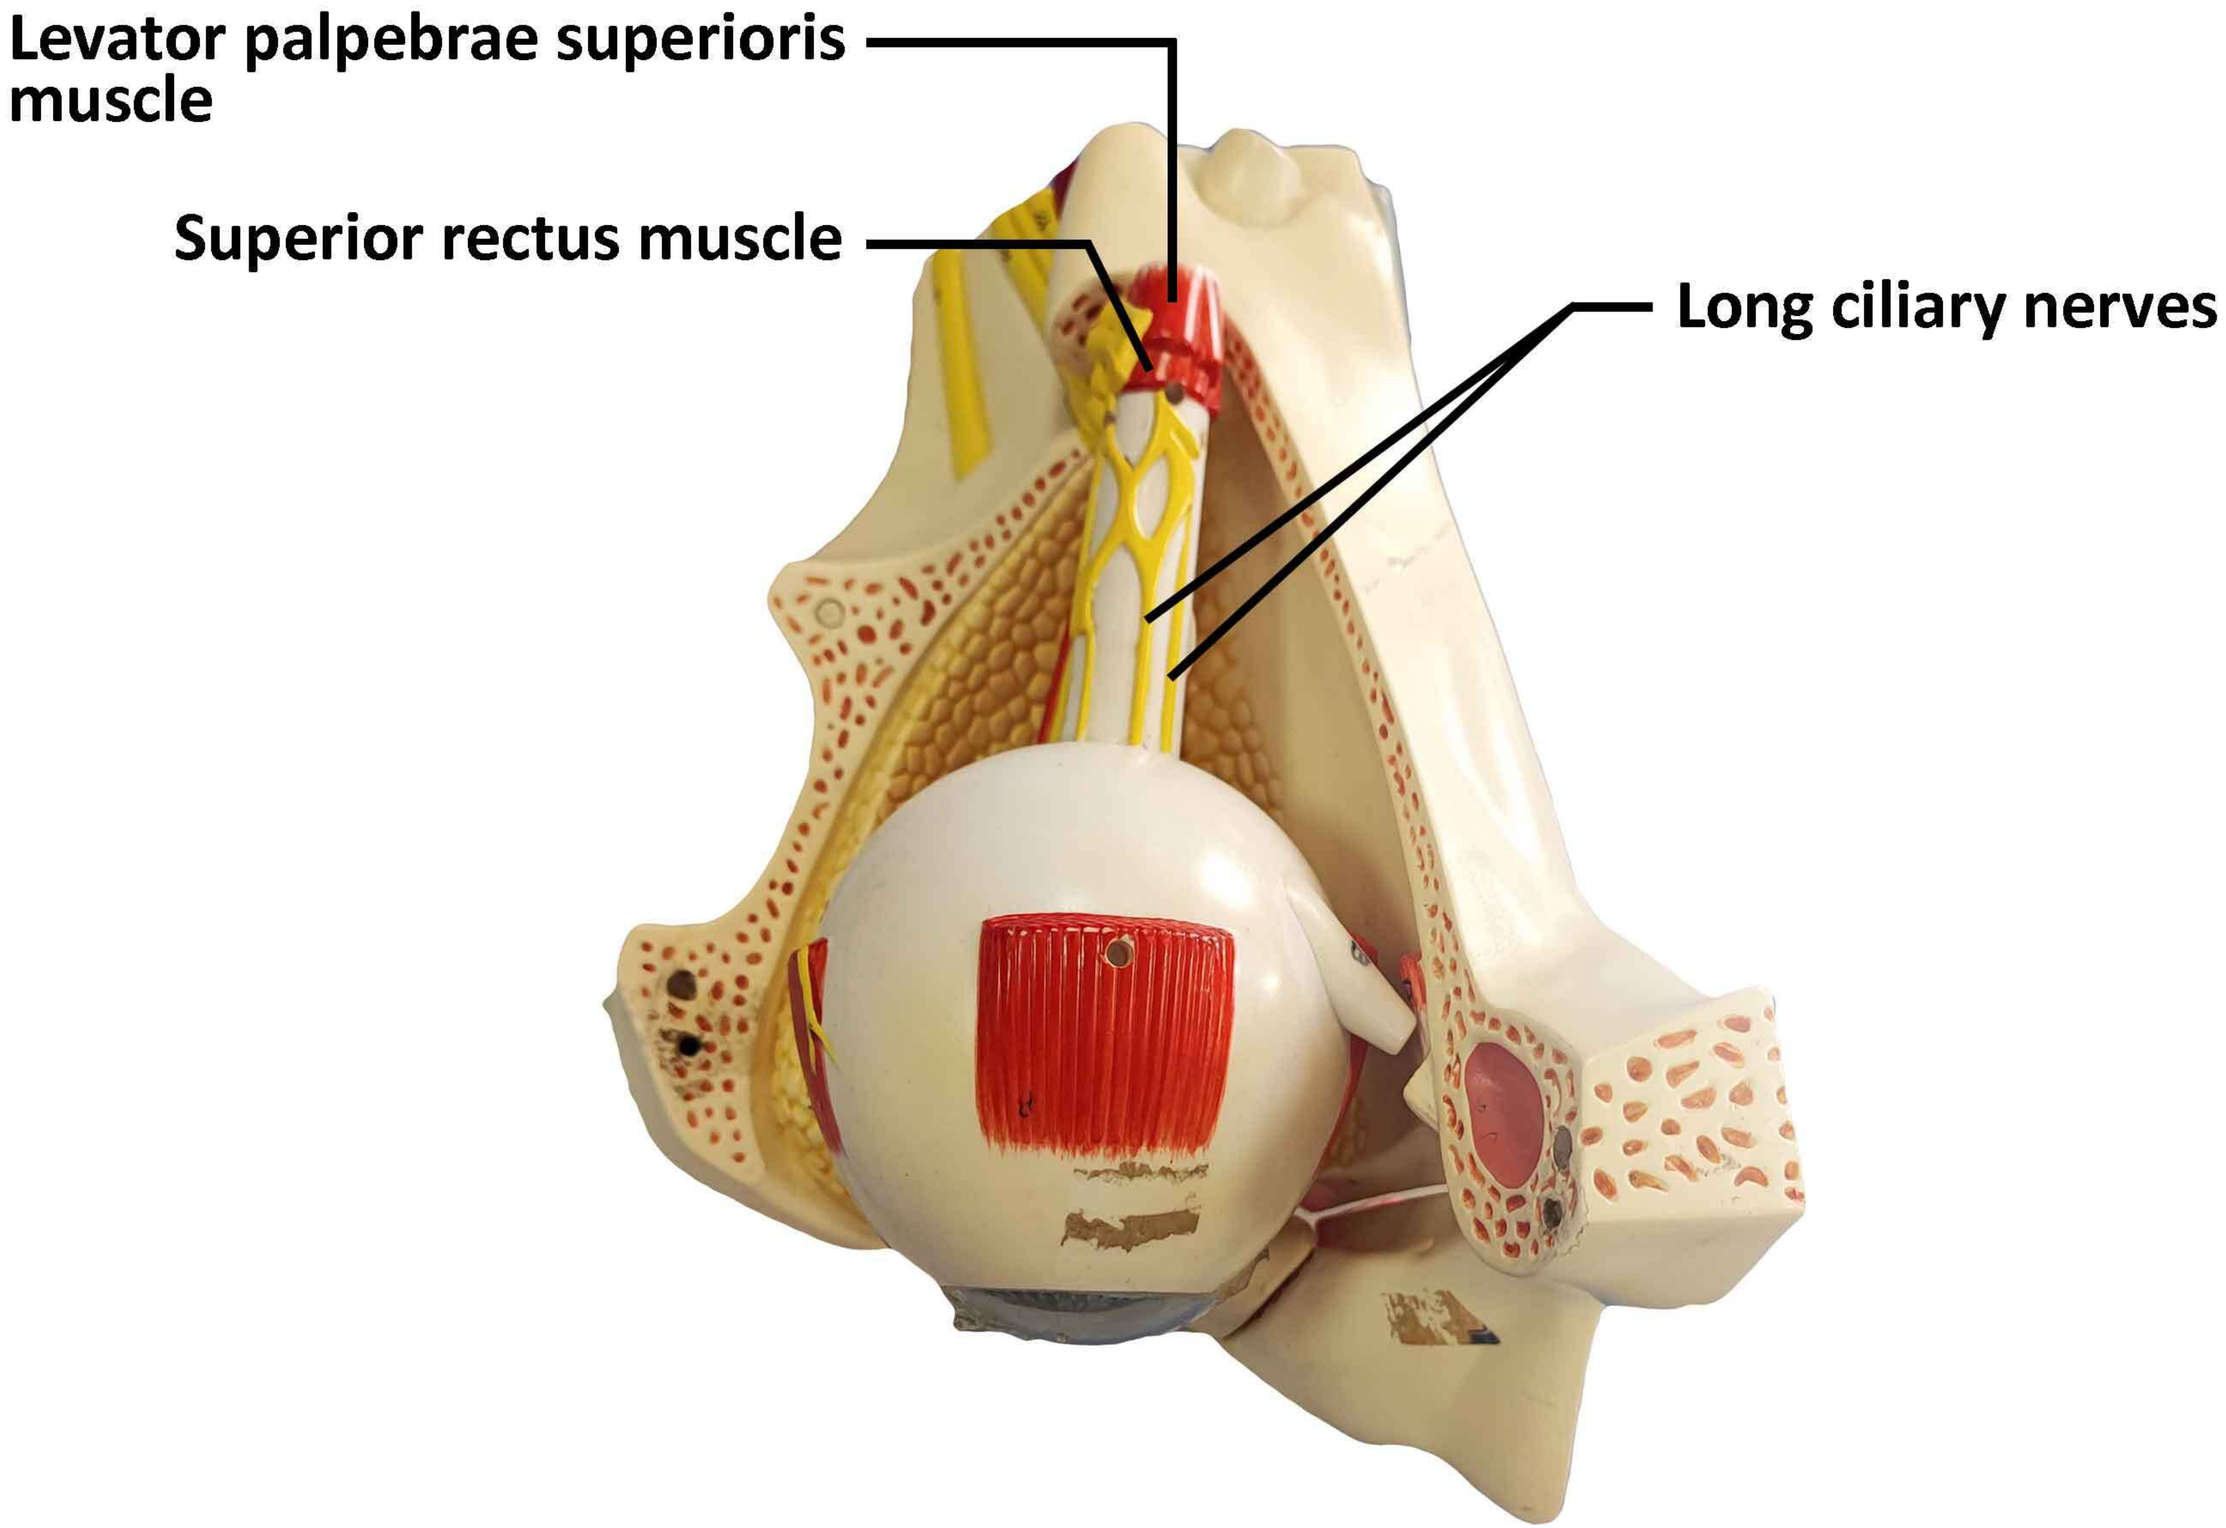

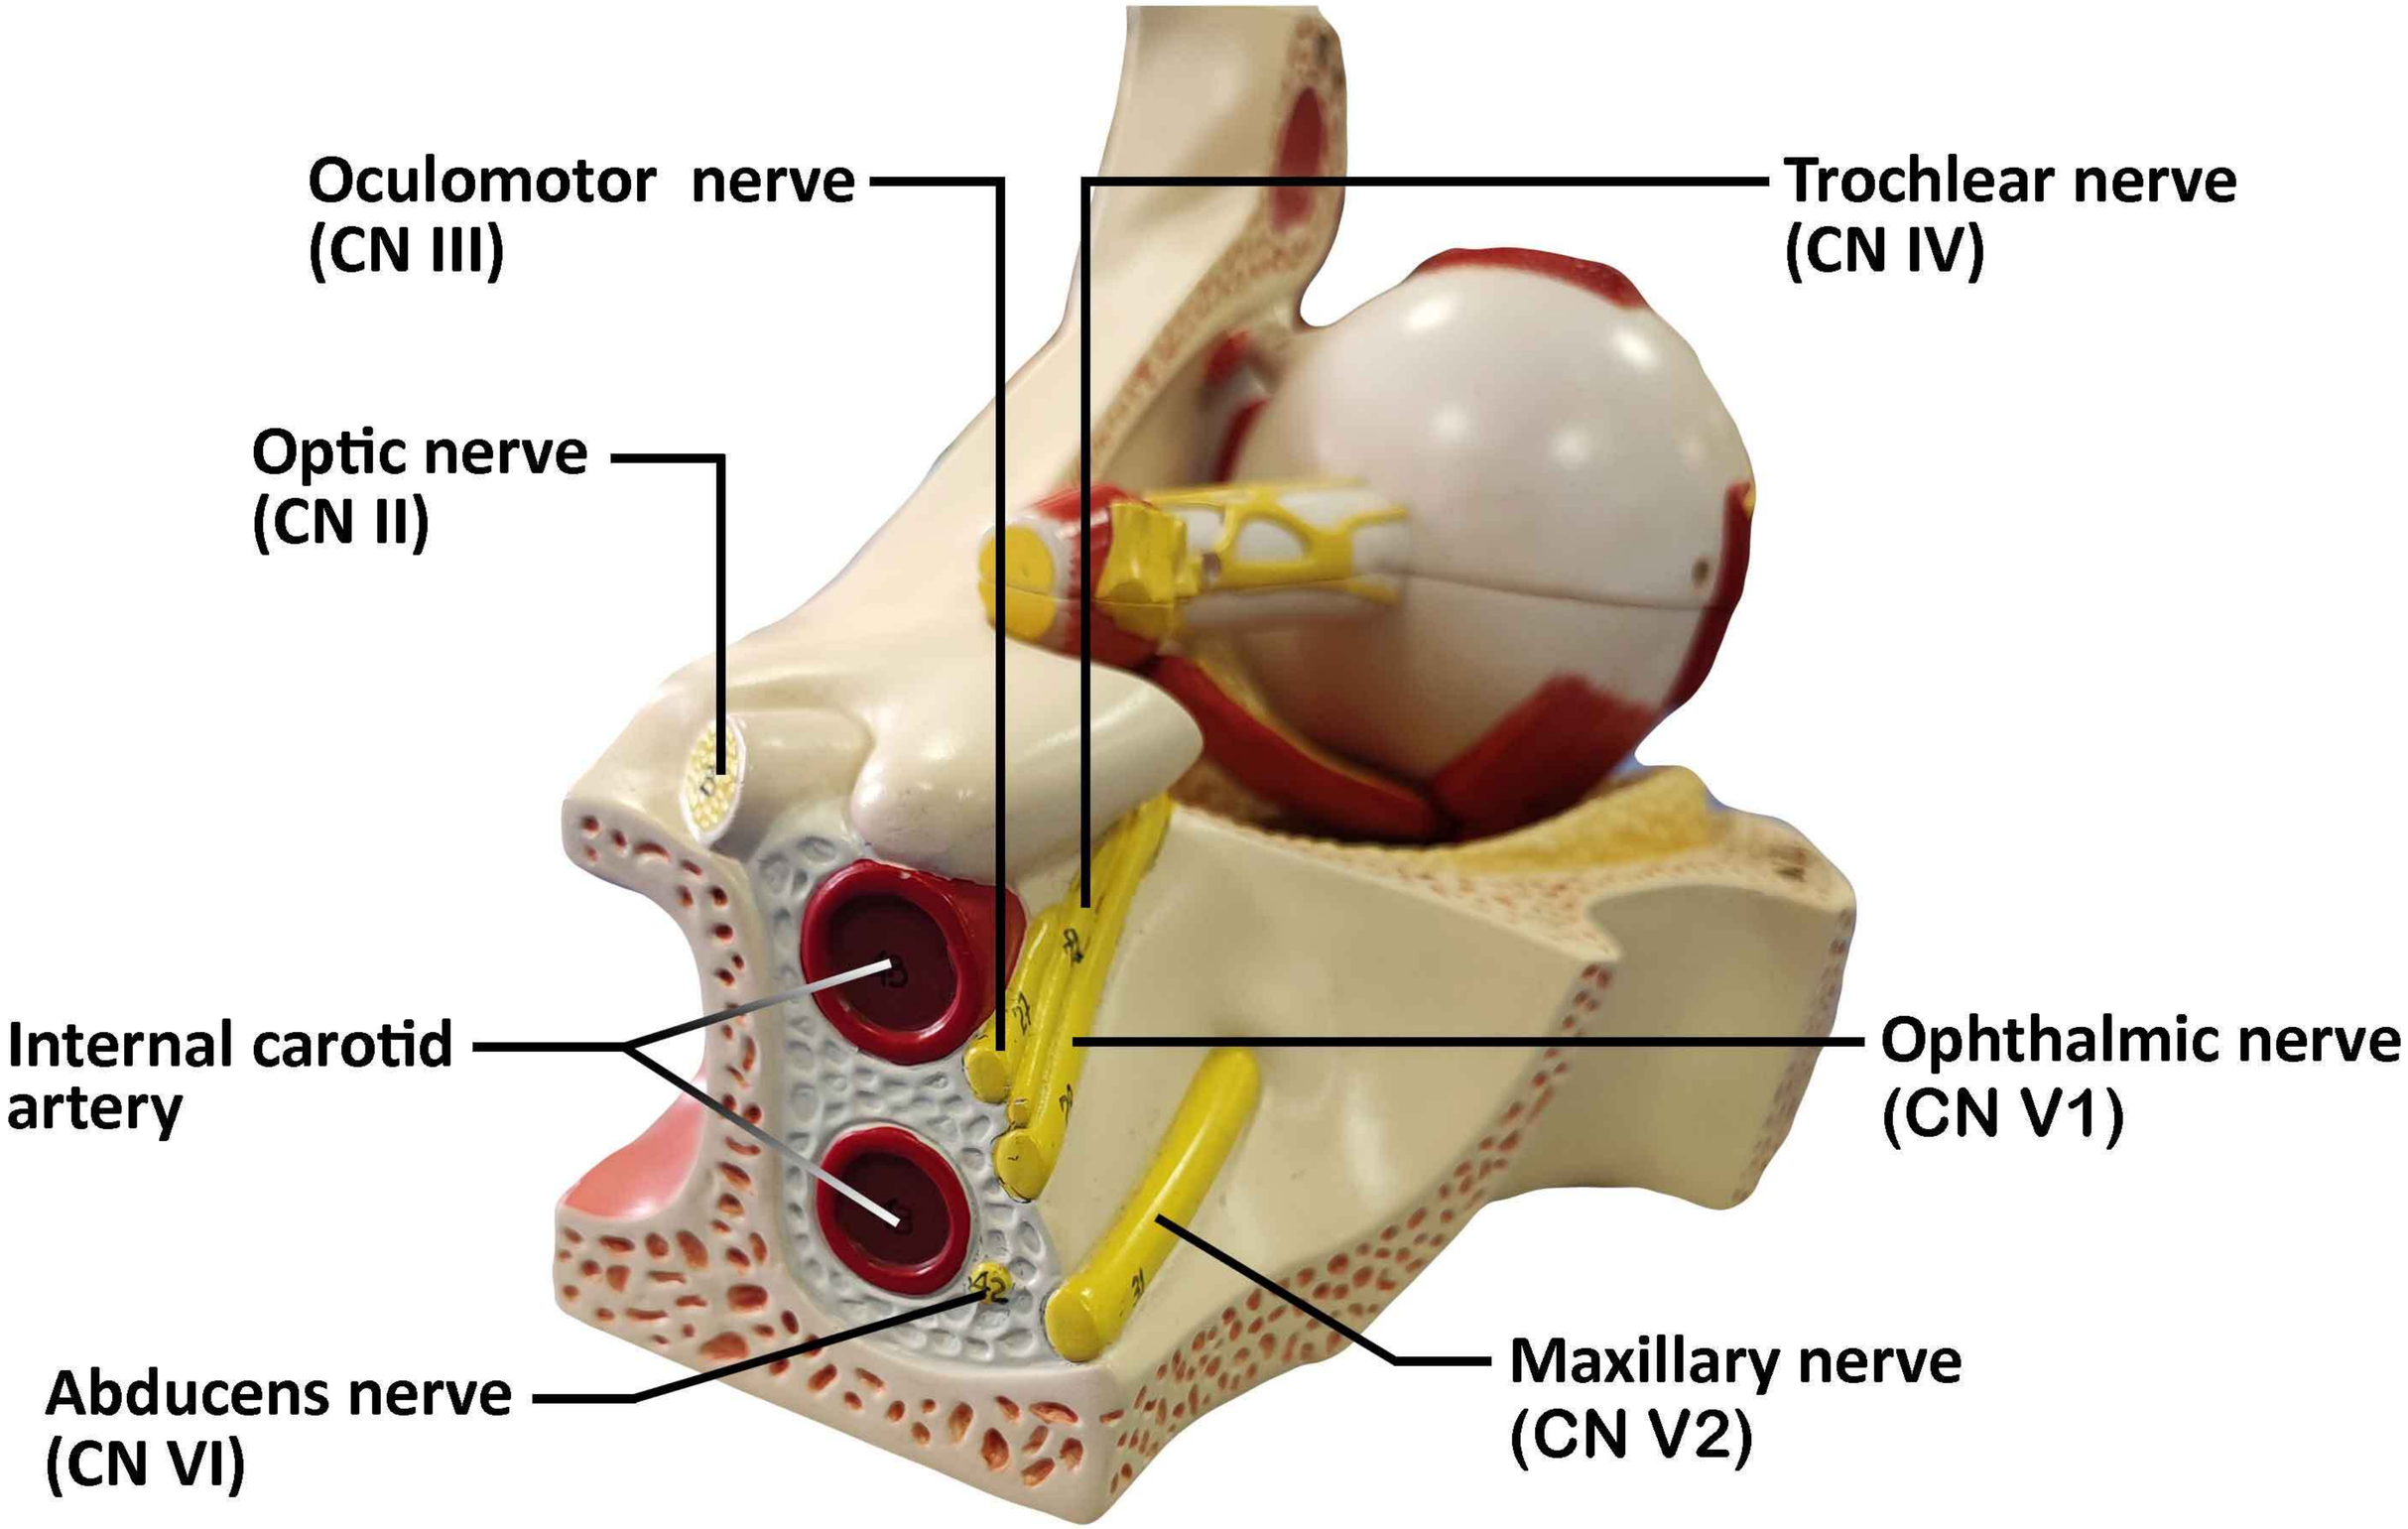

Maxillary nerve (CN V2)

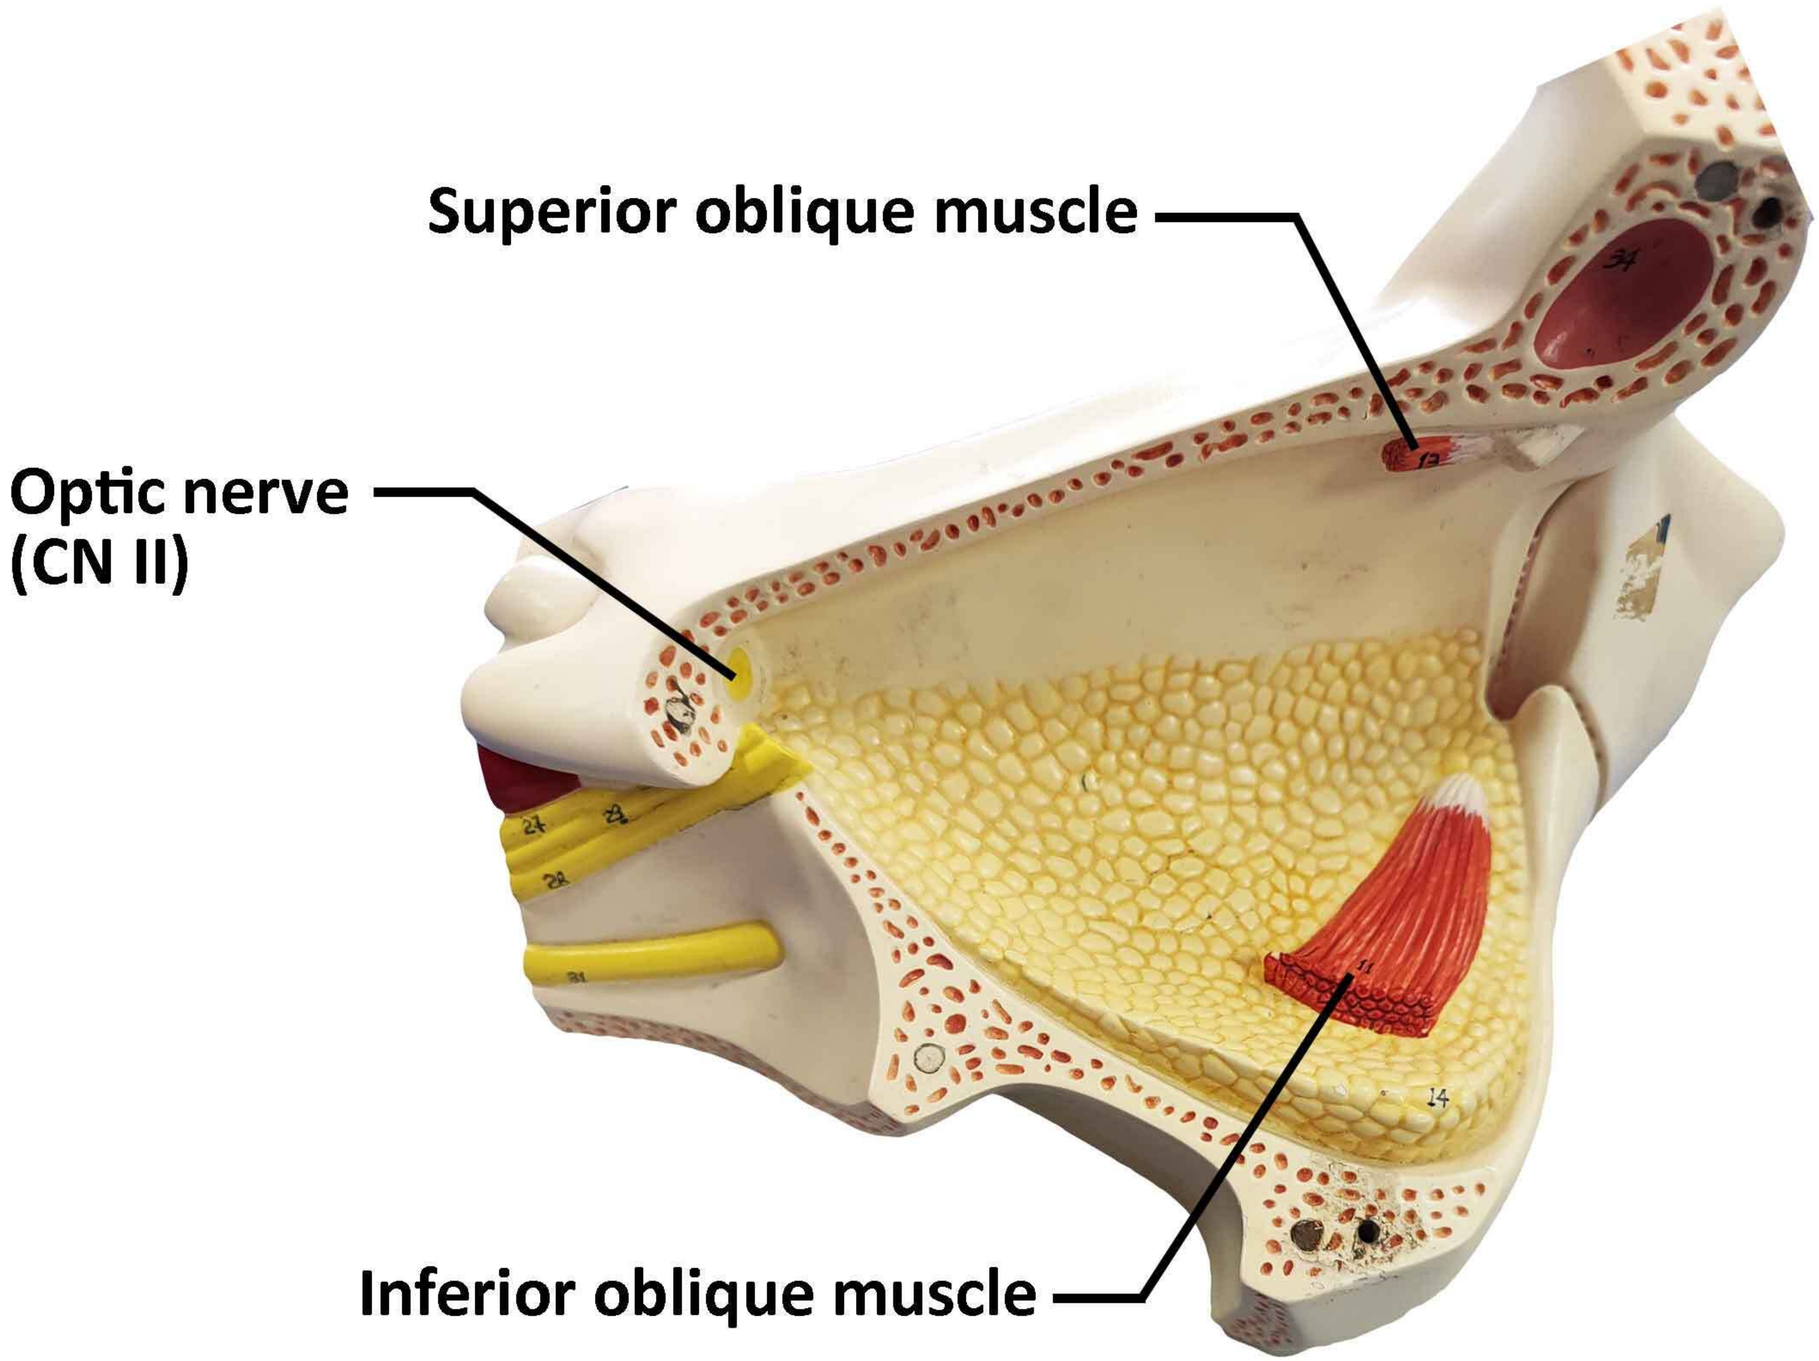

Lacrimal sac
Nasolacrimal duct

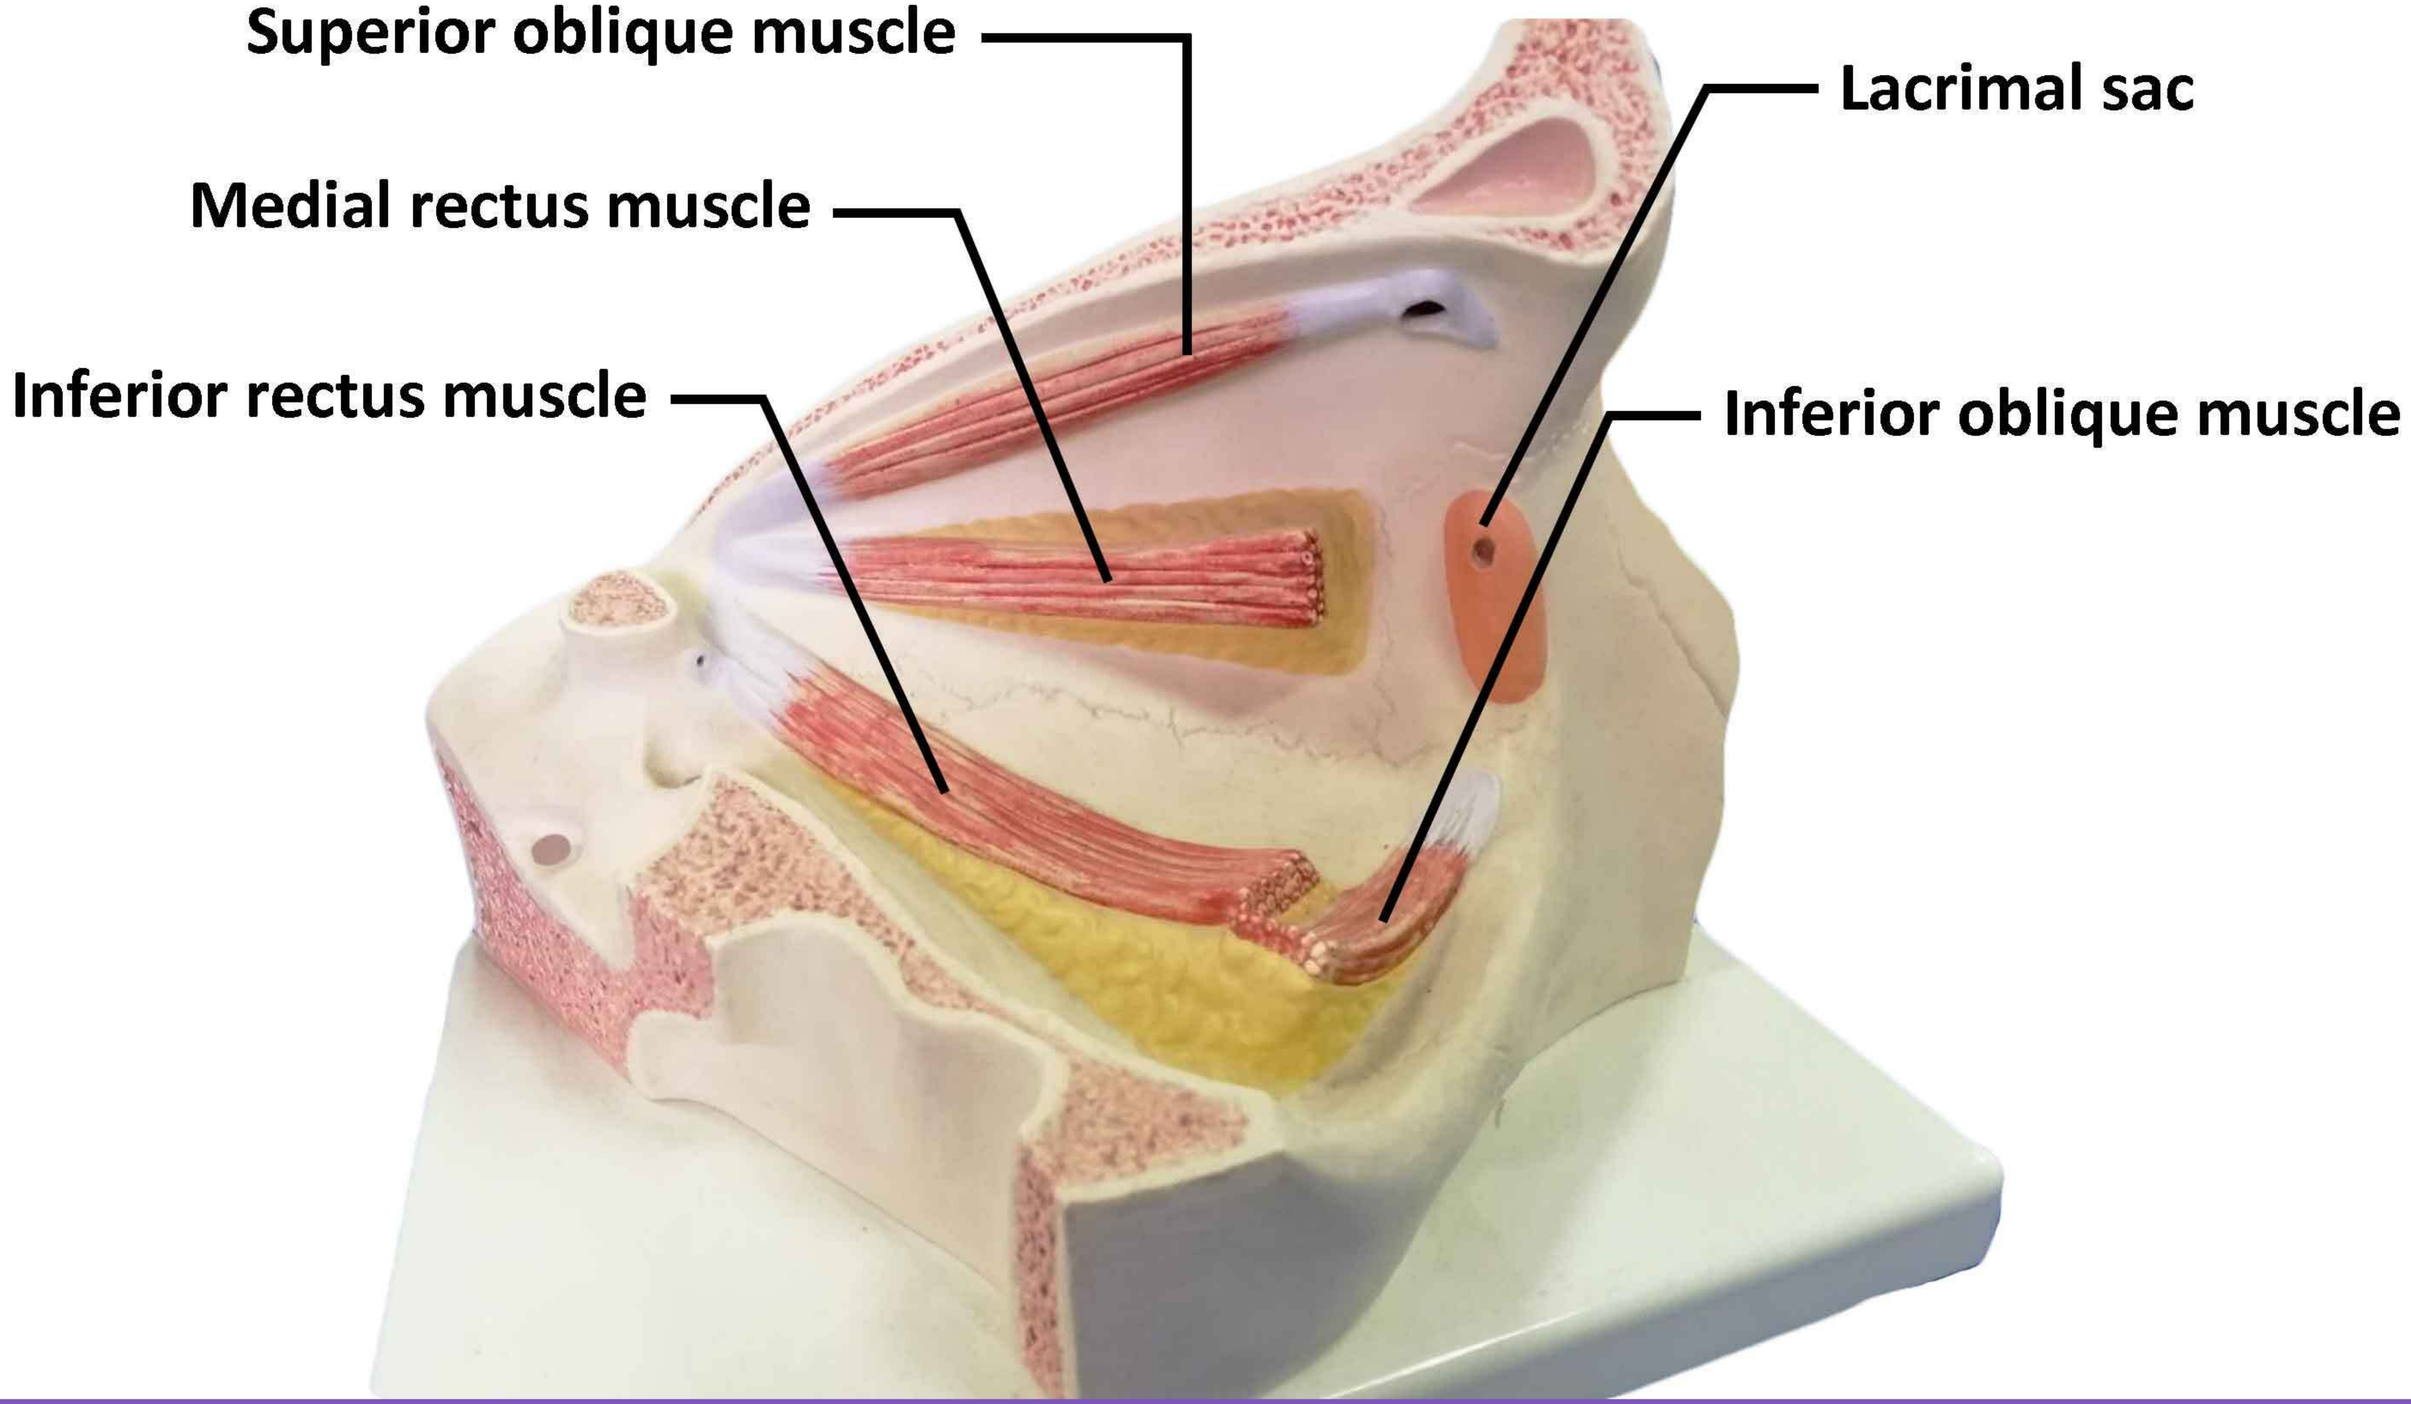

Superior rectus muscle
Sclera
Lateral rectus muscle
Pupil
Inferior oblique muscle
Iris
Medial rectus muscle

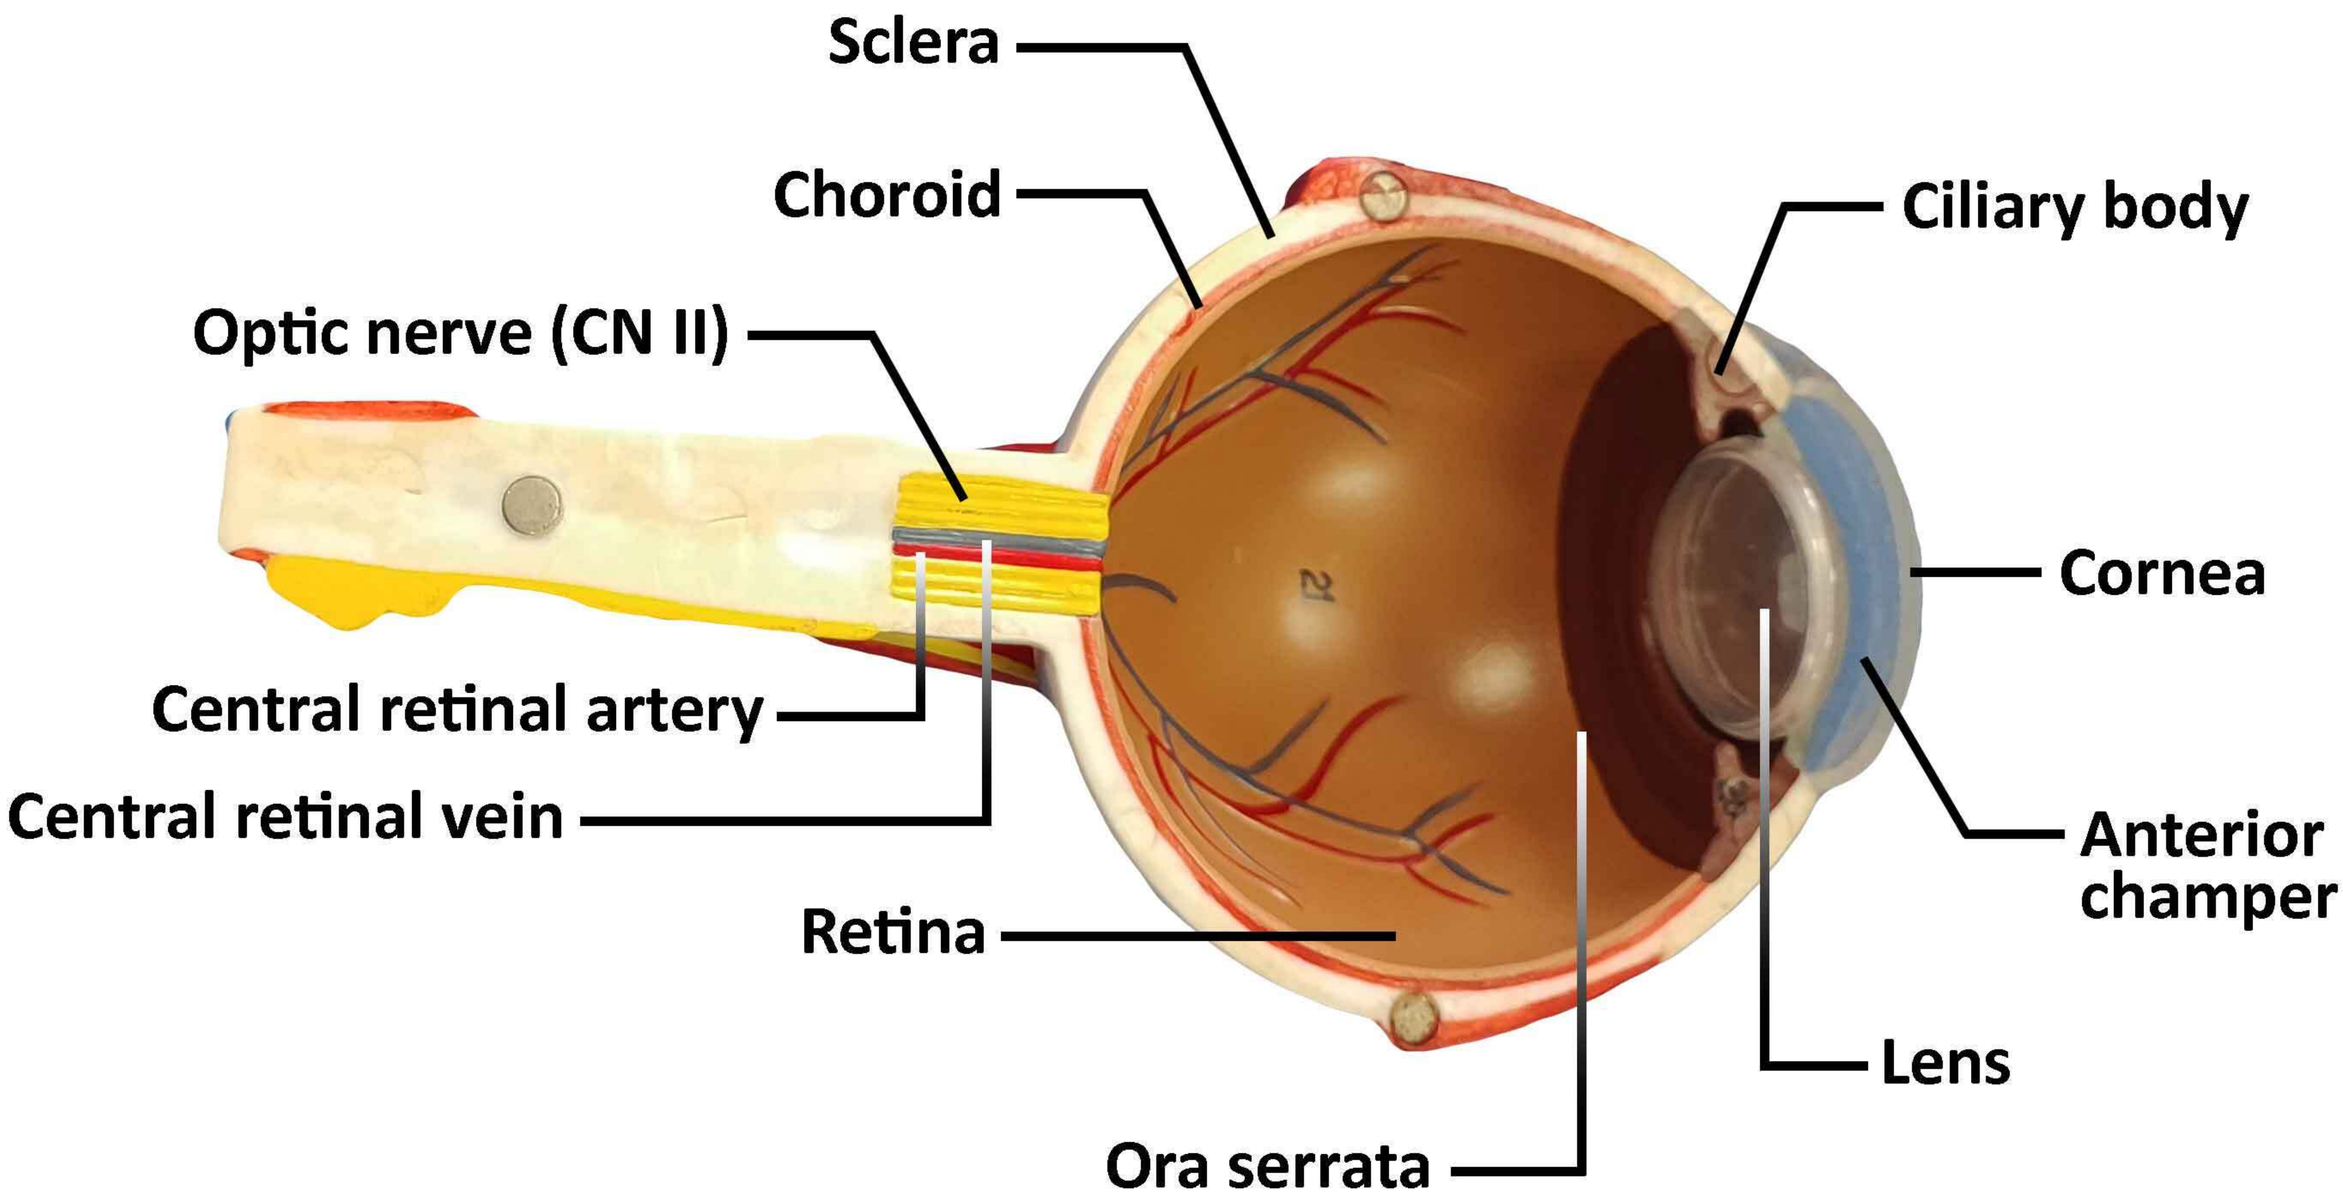

Short ciliary nerves
Optic nerve (CN II)
Oculomotor nerve (CN III)
Ciliary ganglion
Inferior rectus muscle
Superior rectus muscle
Abducens nerve (CN VI)
Lateral rectus muscle
Inferior oblique muscle

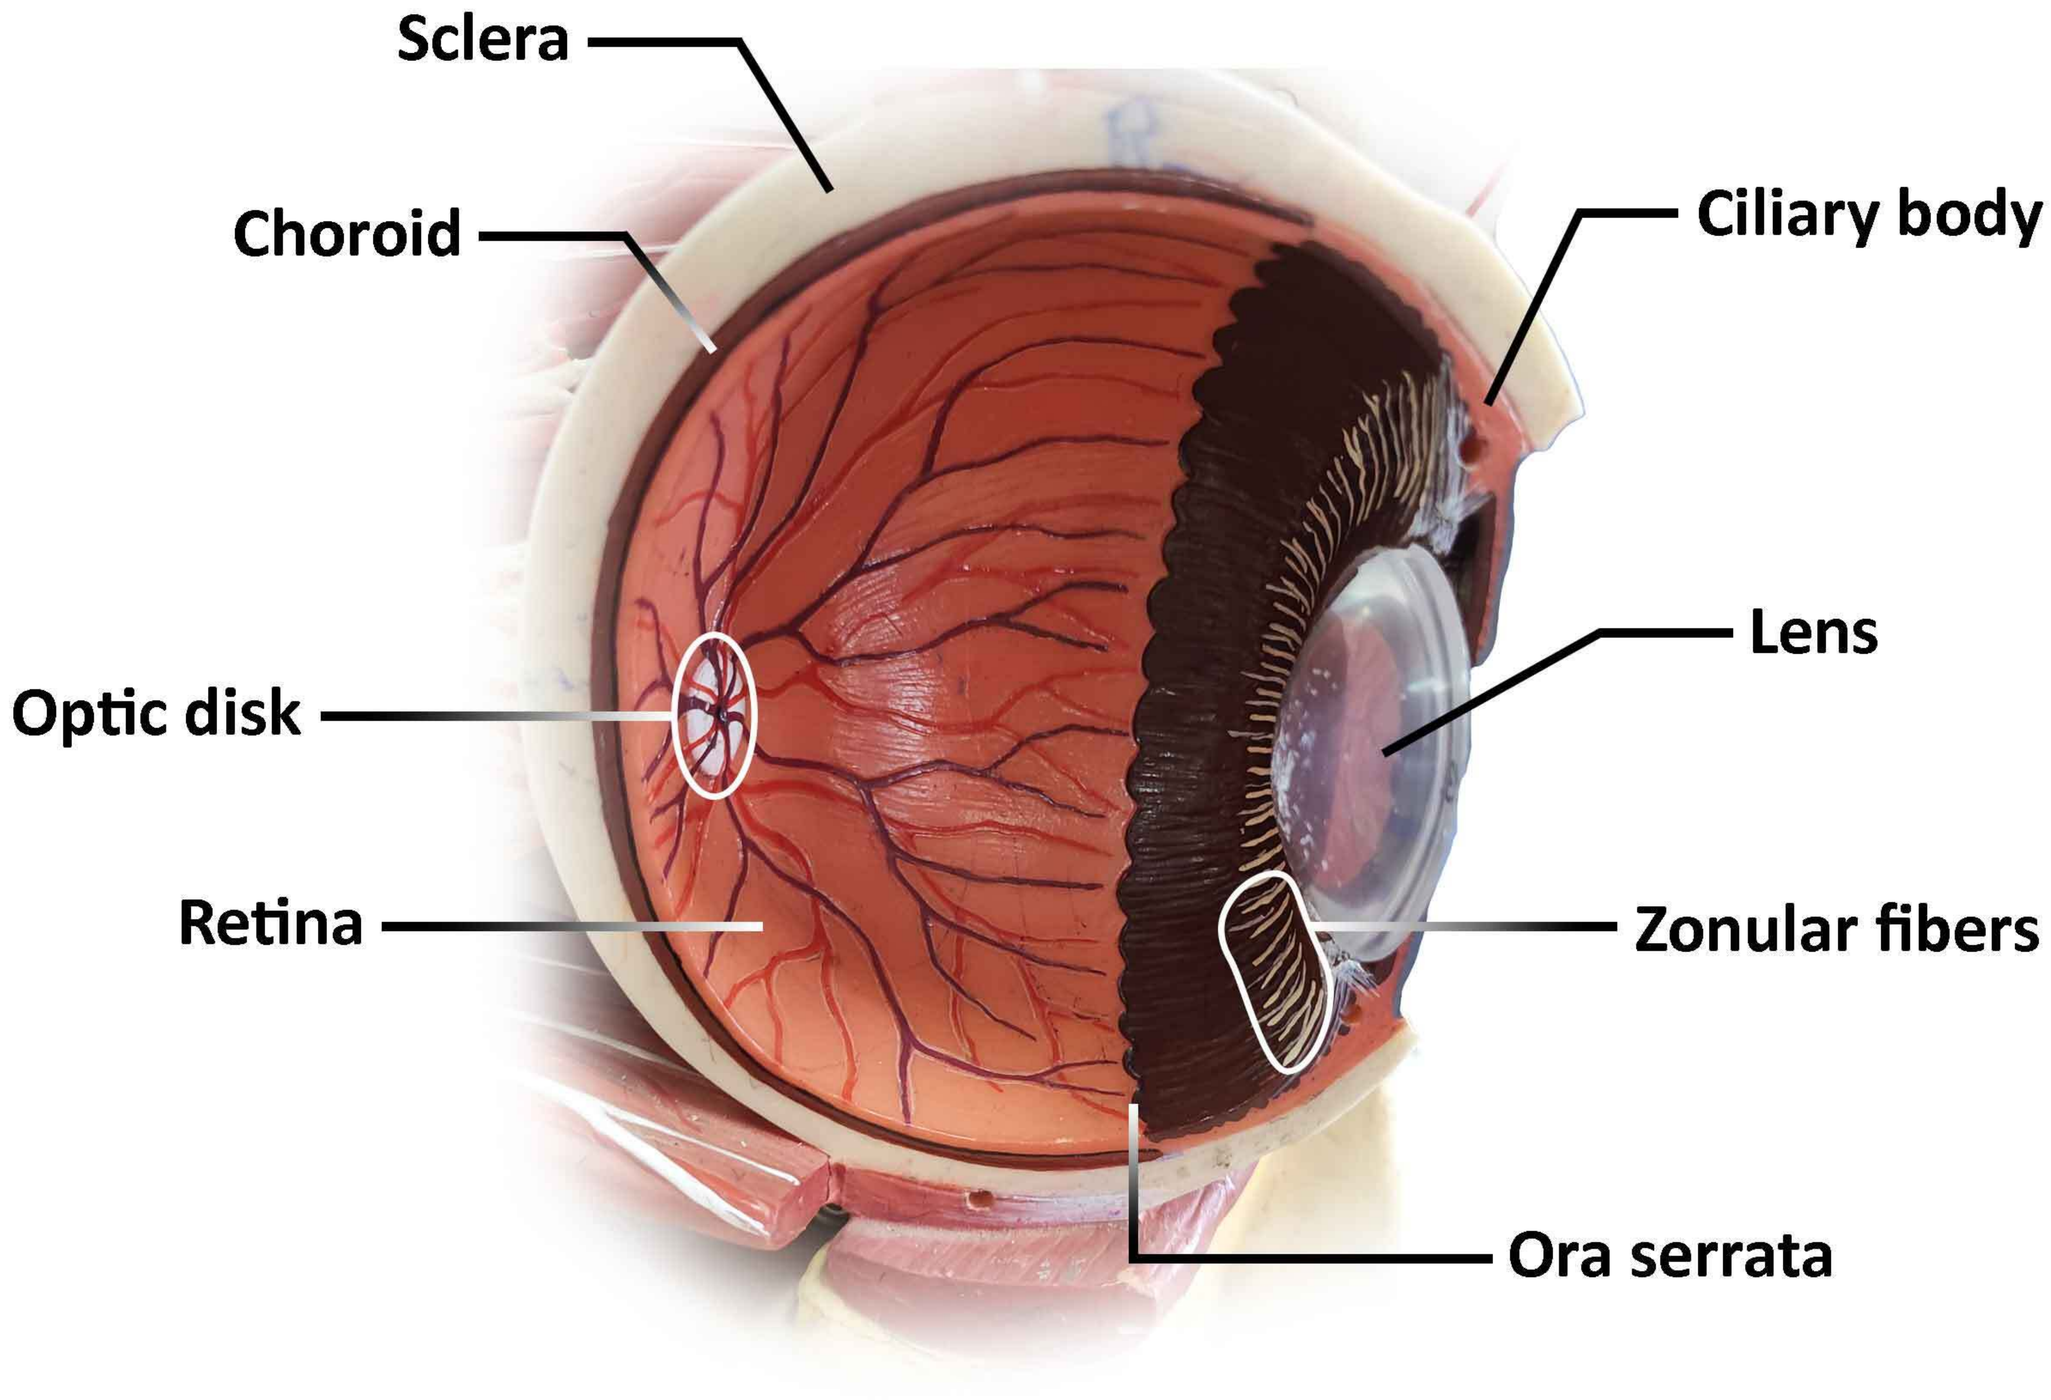

Levator palpebrae superioris muscle
Superior rectus muscle
Long ciliary nerves

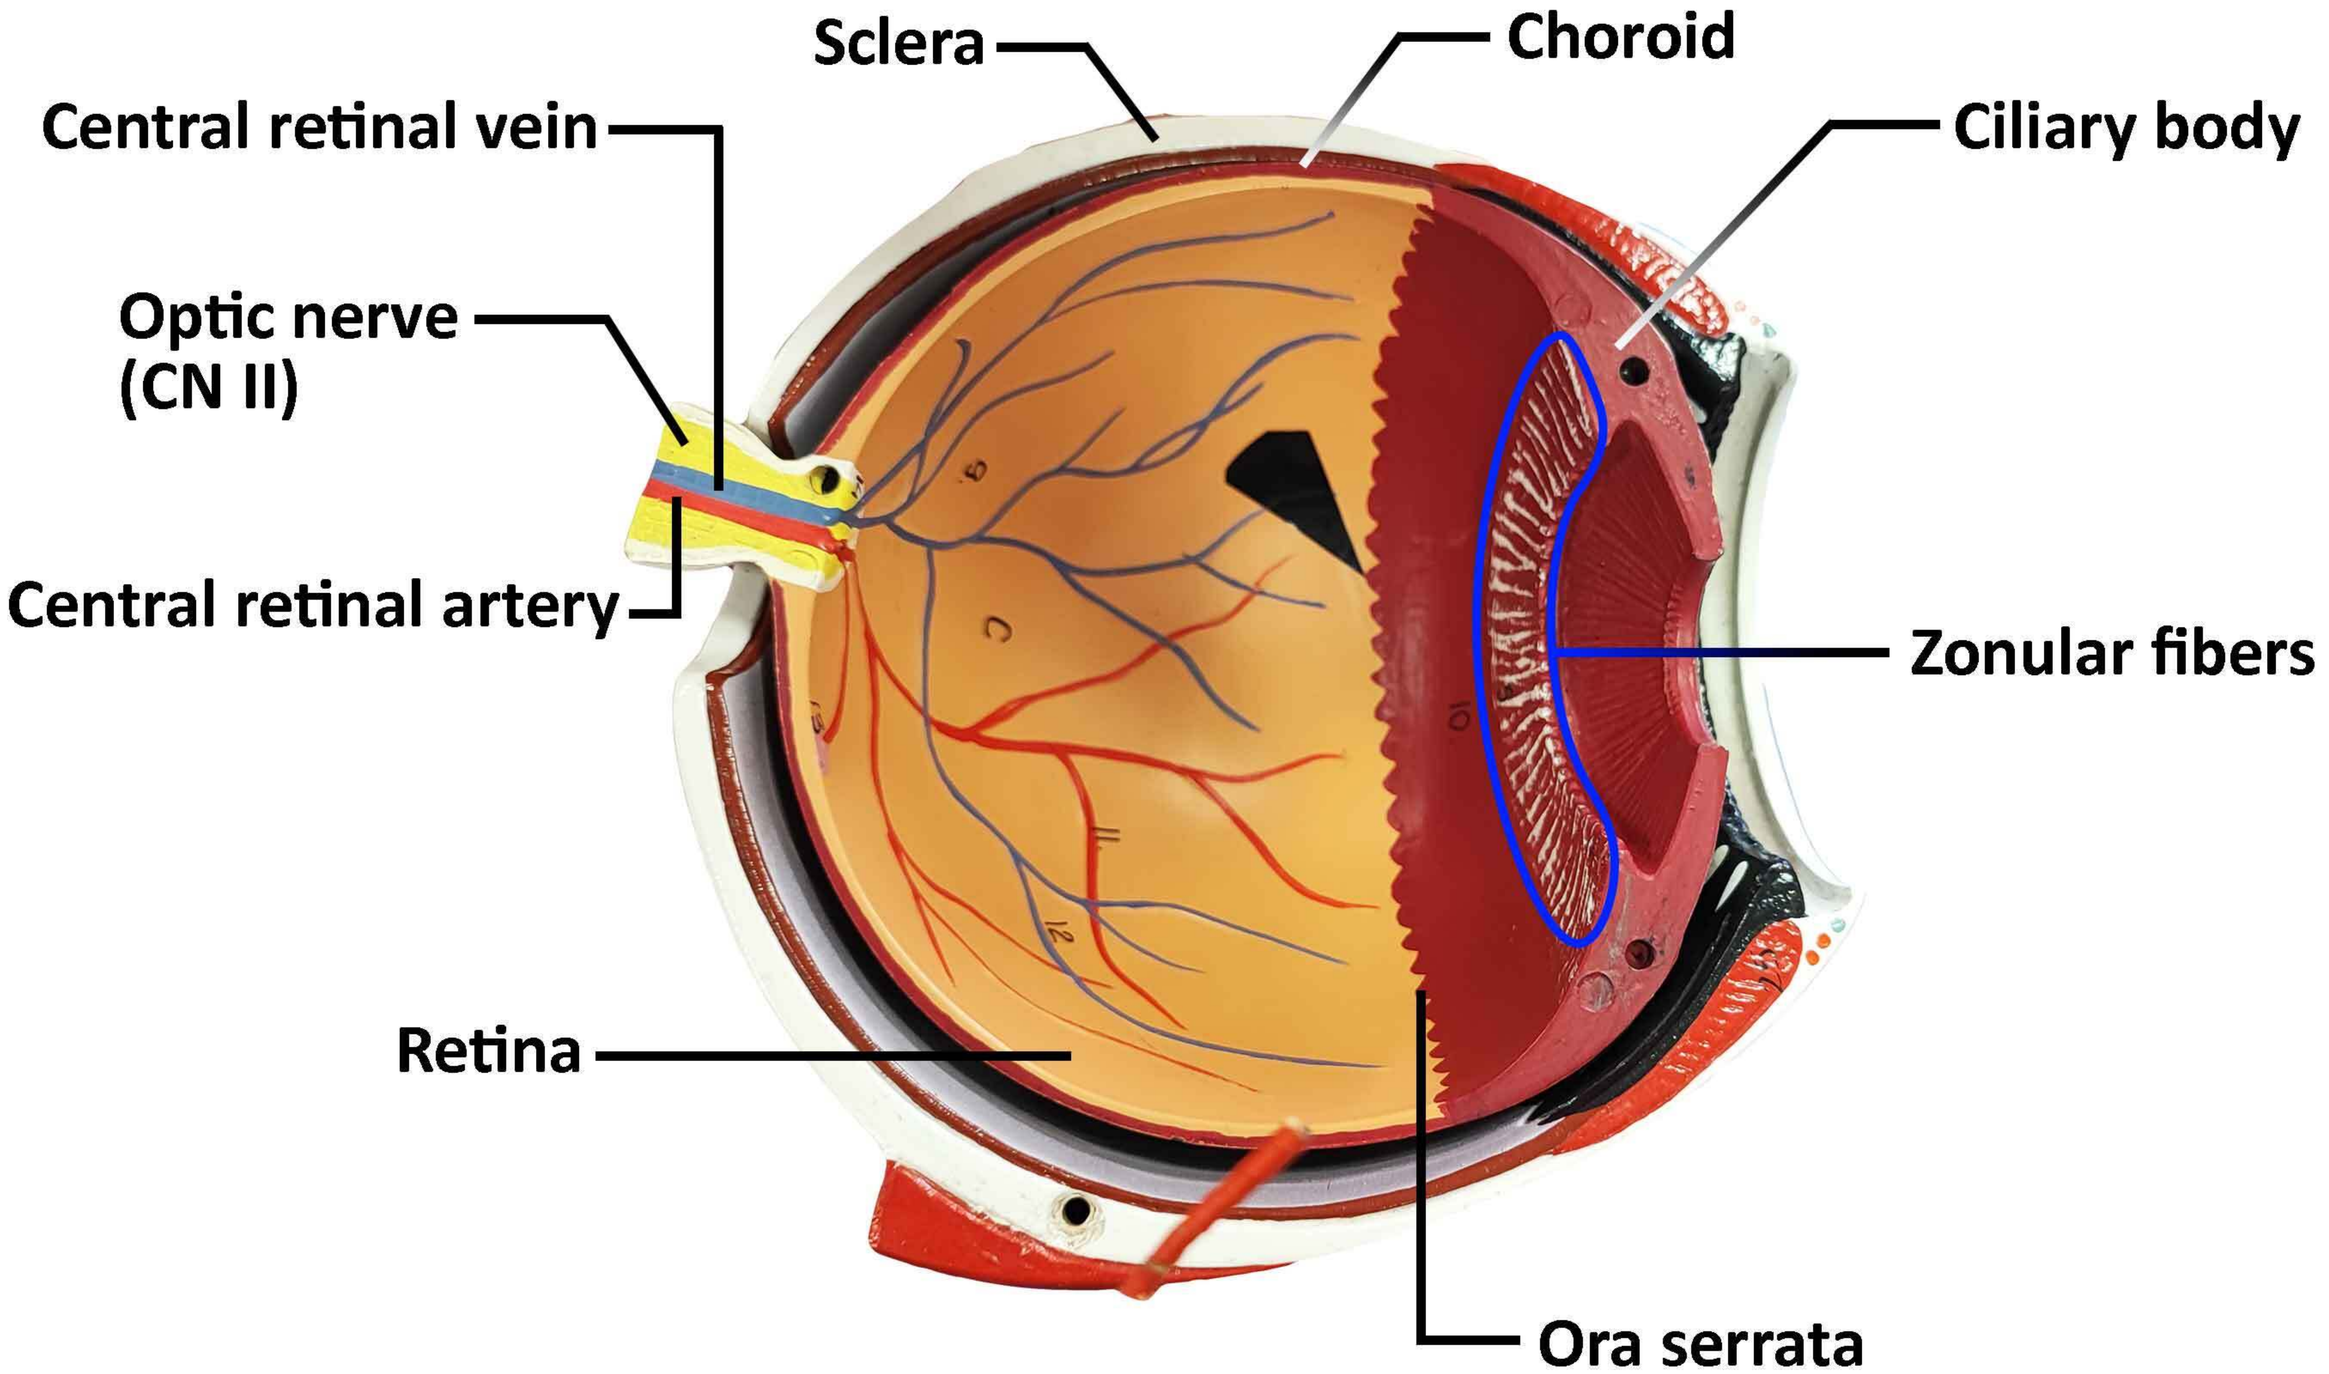

Oculomotor nerve
(CN III)
Trochlear nerve
(CN IV)
Optic nerve
(CN II)
Internal carotid
artery
Ophthalmic nerve
(CN V1)
Abducens nerve
(CN VI)
Maxillary nerve
(CN V2)

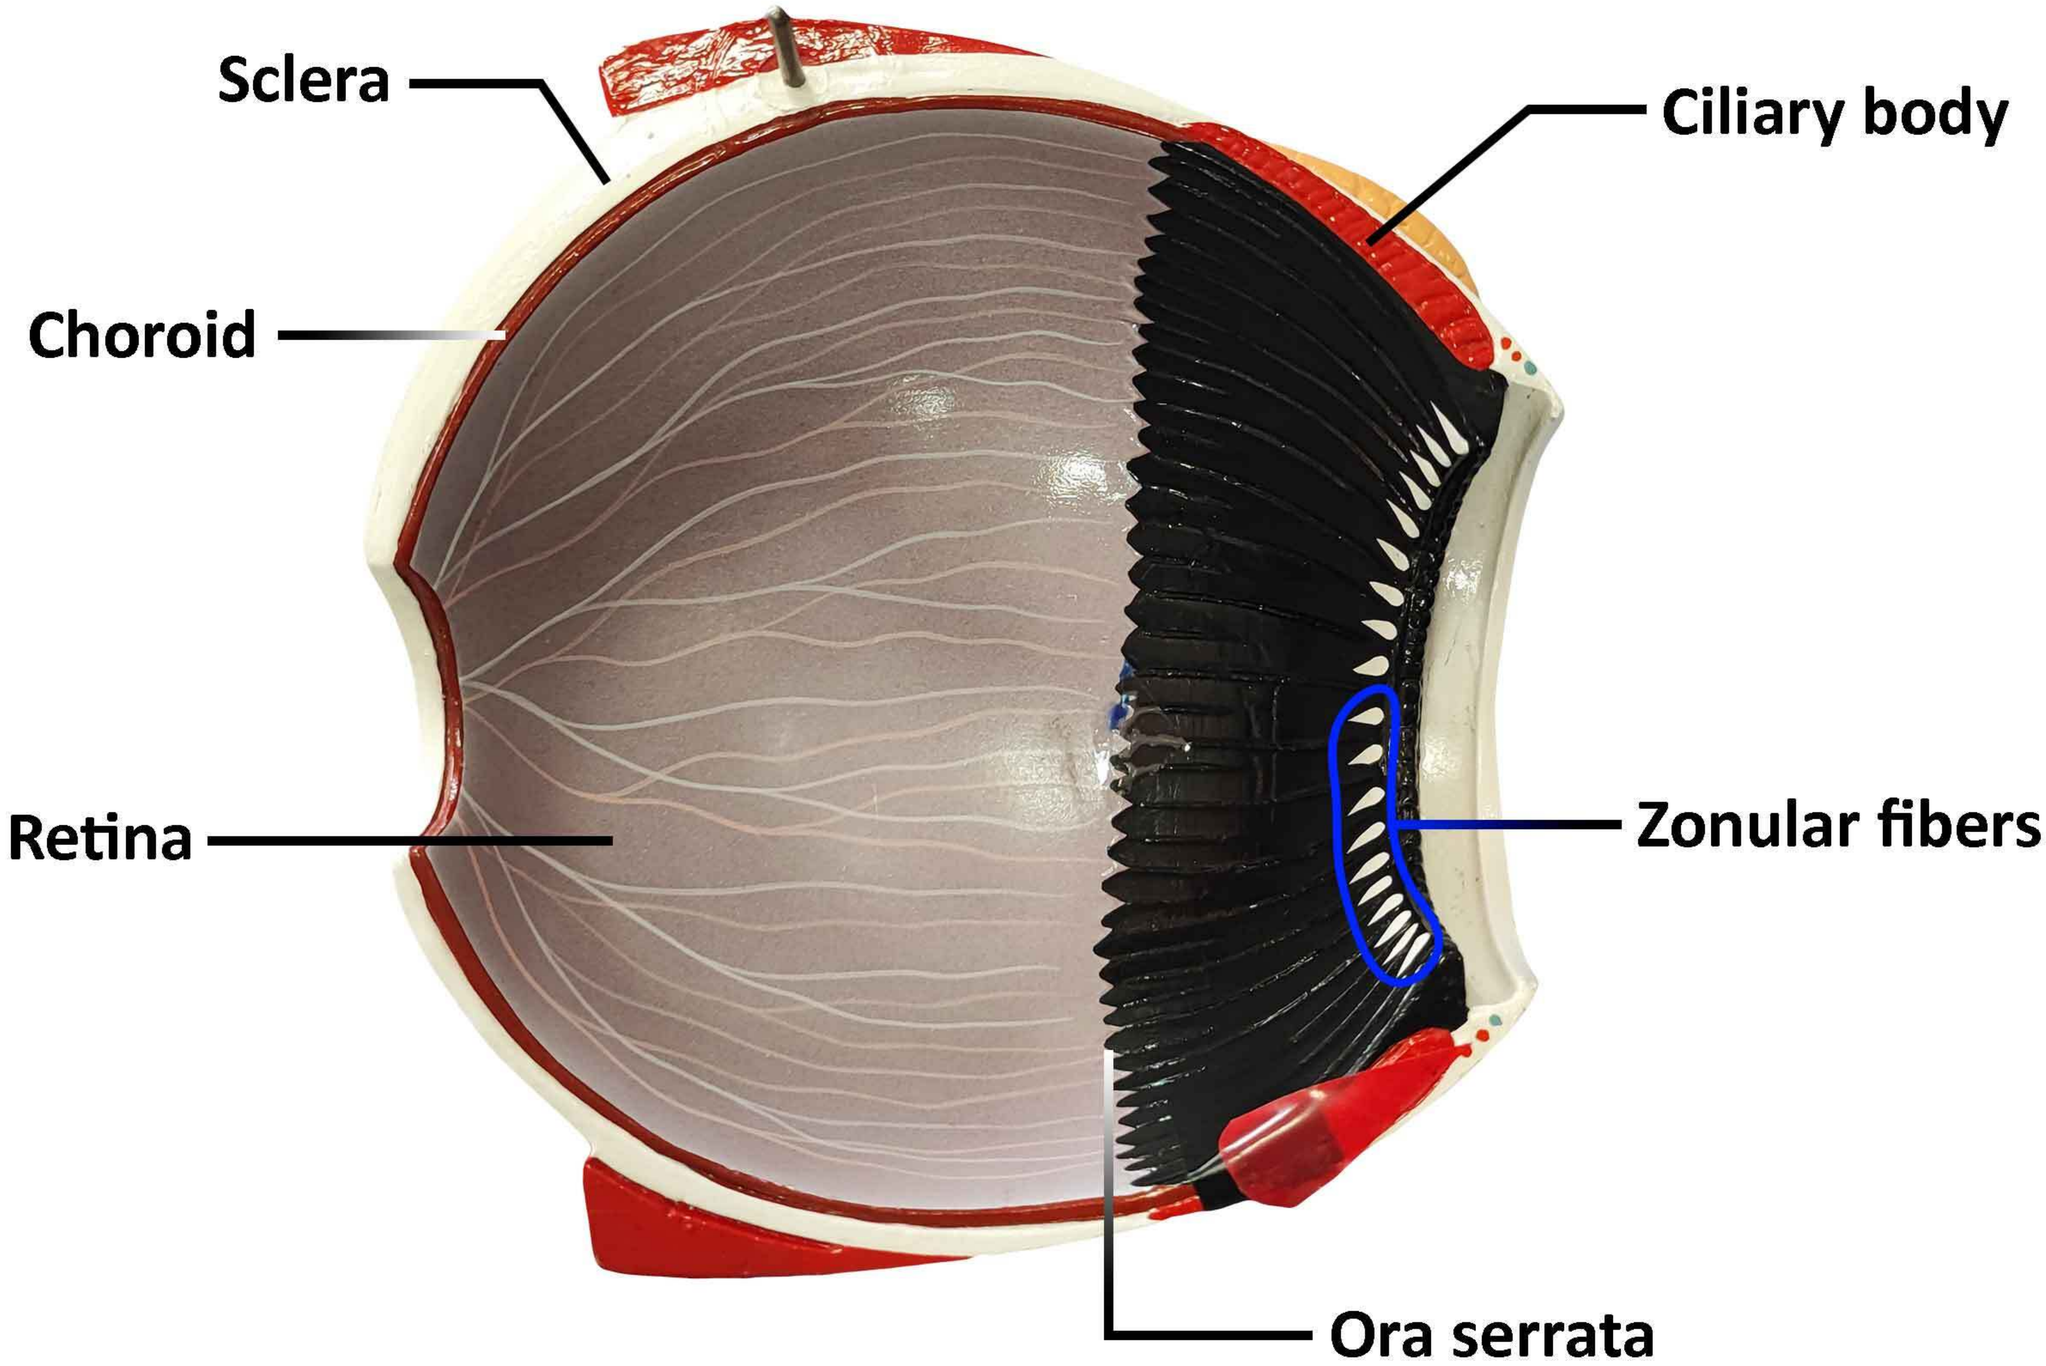

Superior oblique muscle
Optic nerve
(CN II)
Inferior oblique muscle

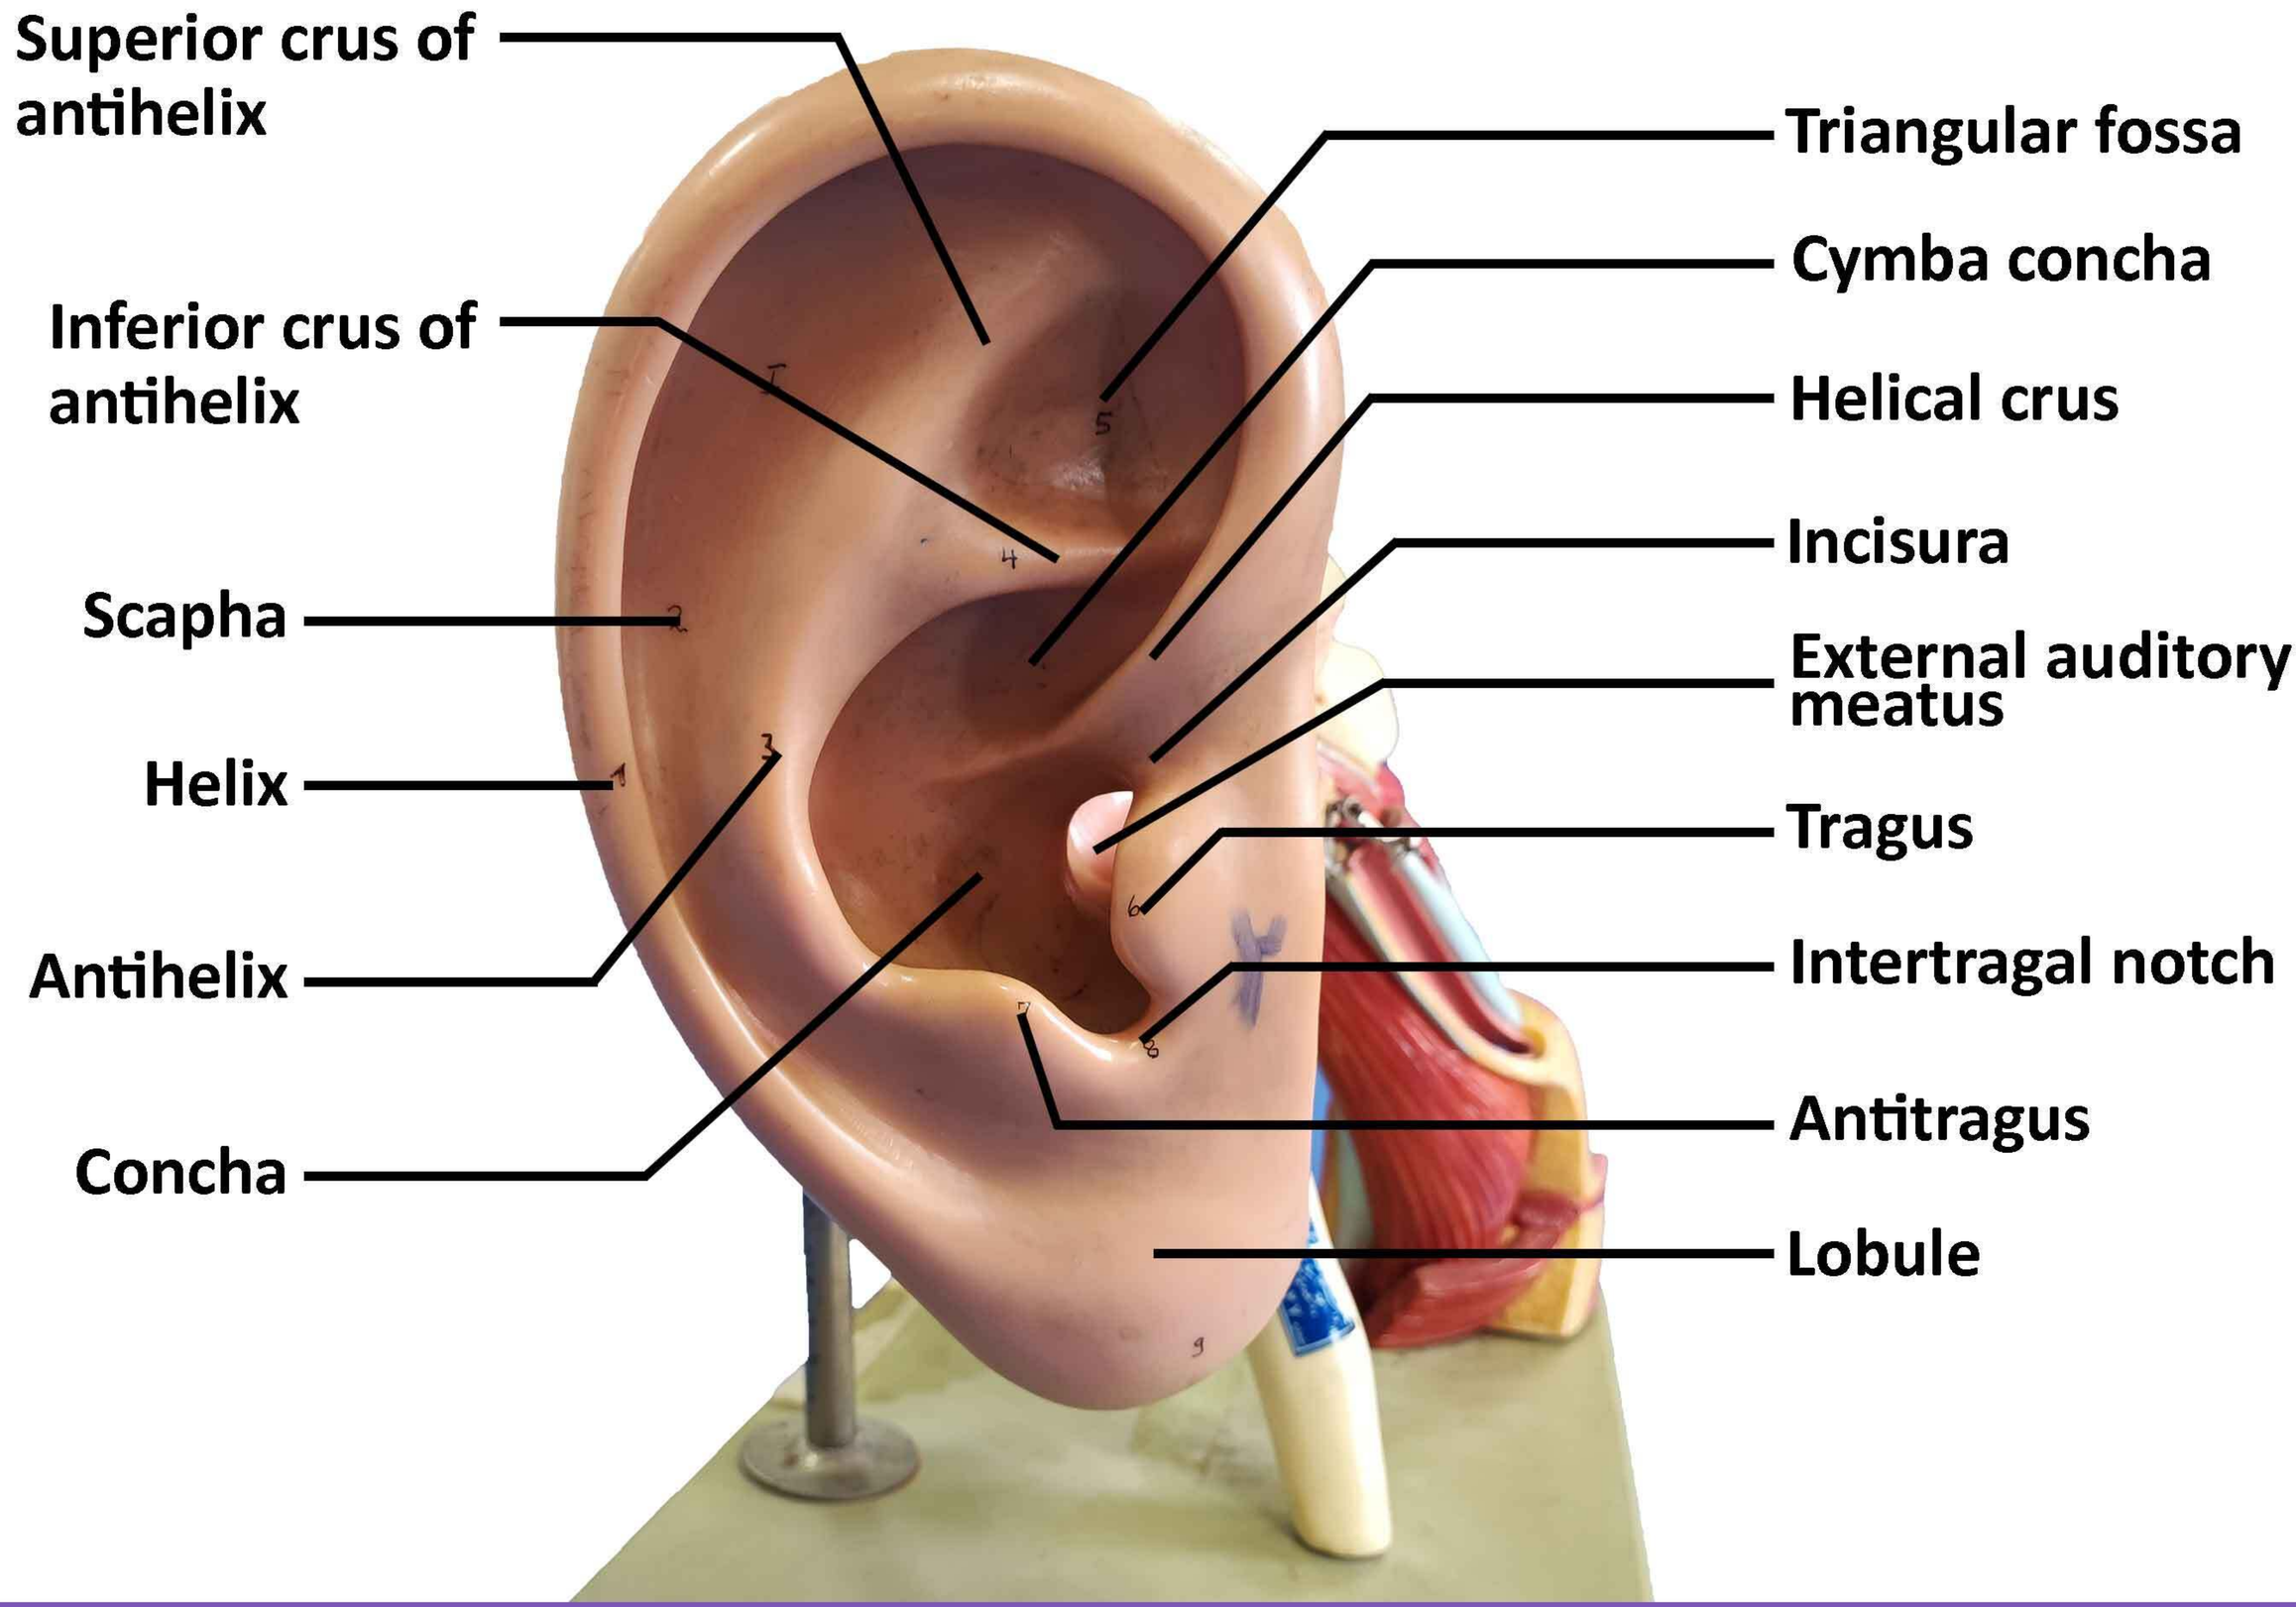

Superior oblique muscle
Medial rectus muscle
Inferior rectus muscle
Lacrimal sac
Inferior oblique muscle

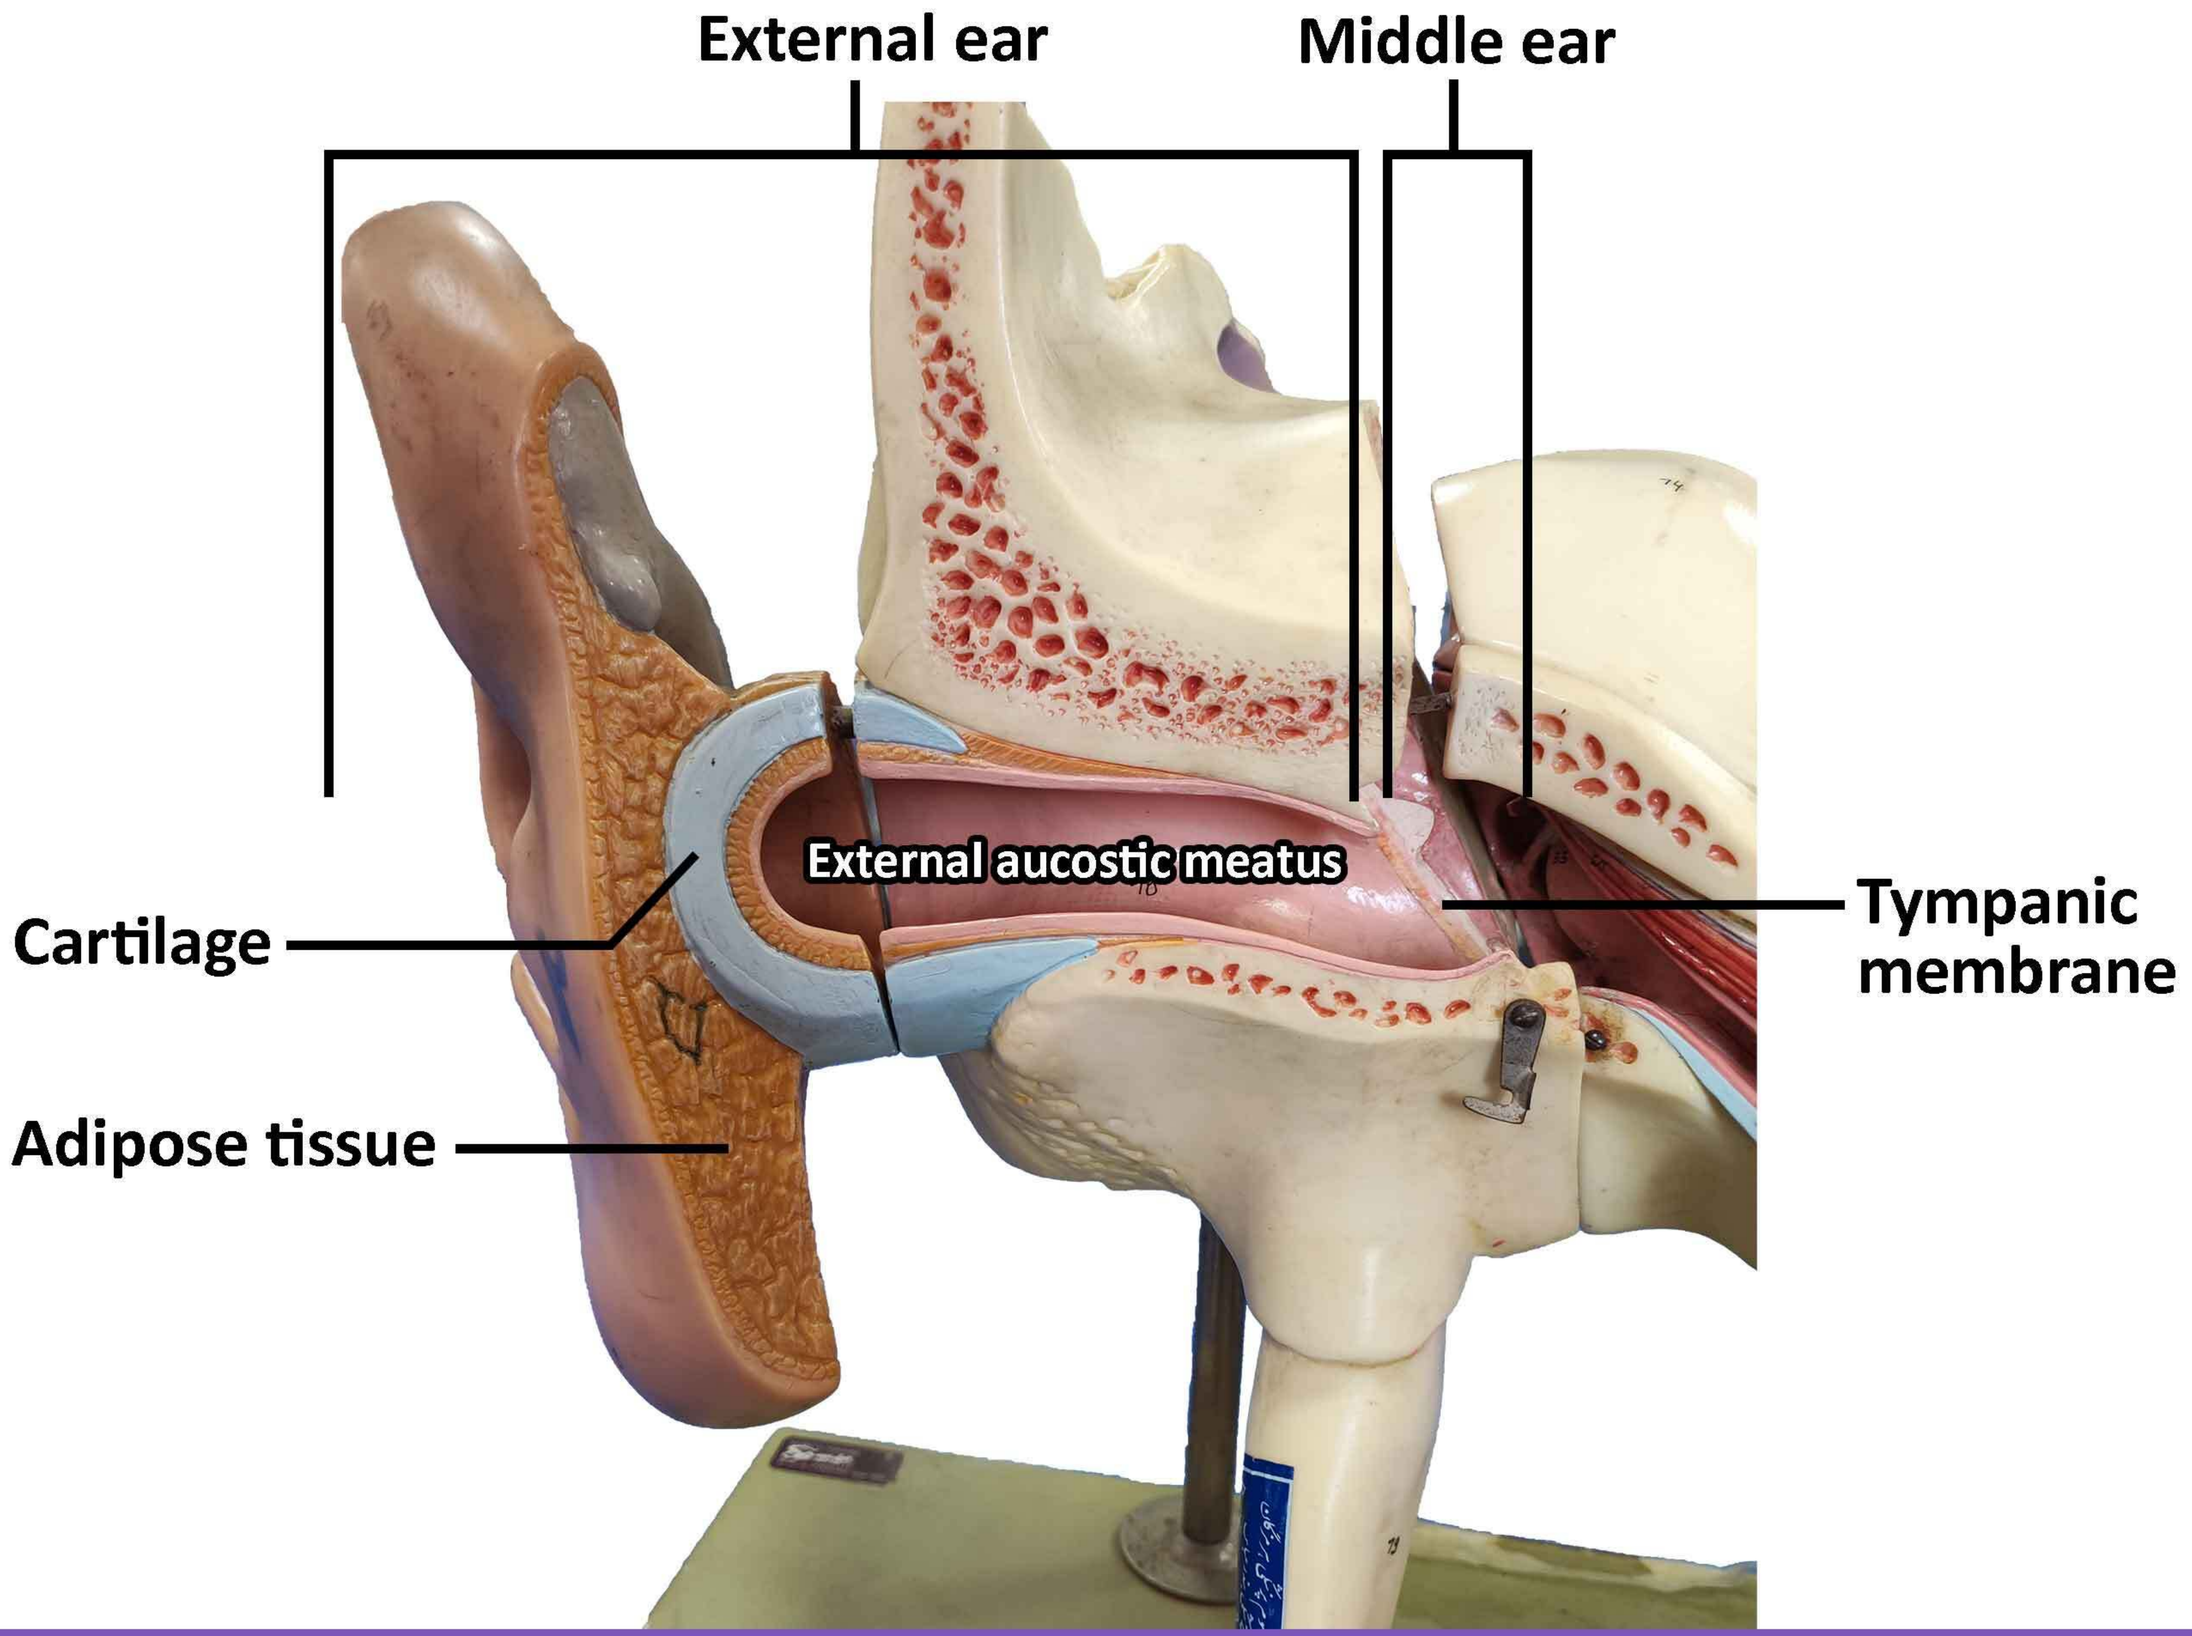

Sclera
Choroid
Optic nerve (CN II)
Ciliary body
Cornea
Central retinal artery
Central retinal vein
Retina
Anterior champer
Lens
Ora serrata

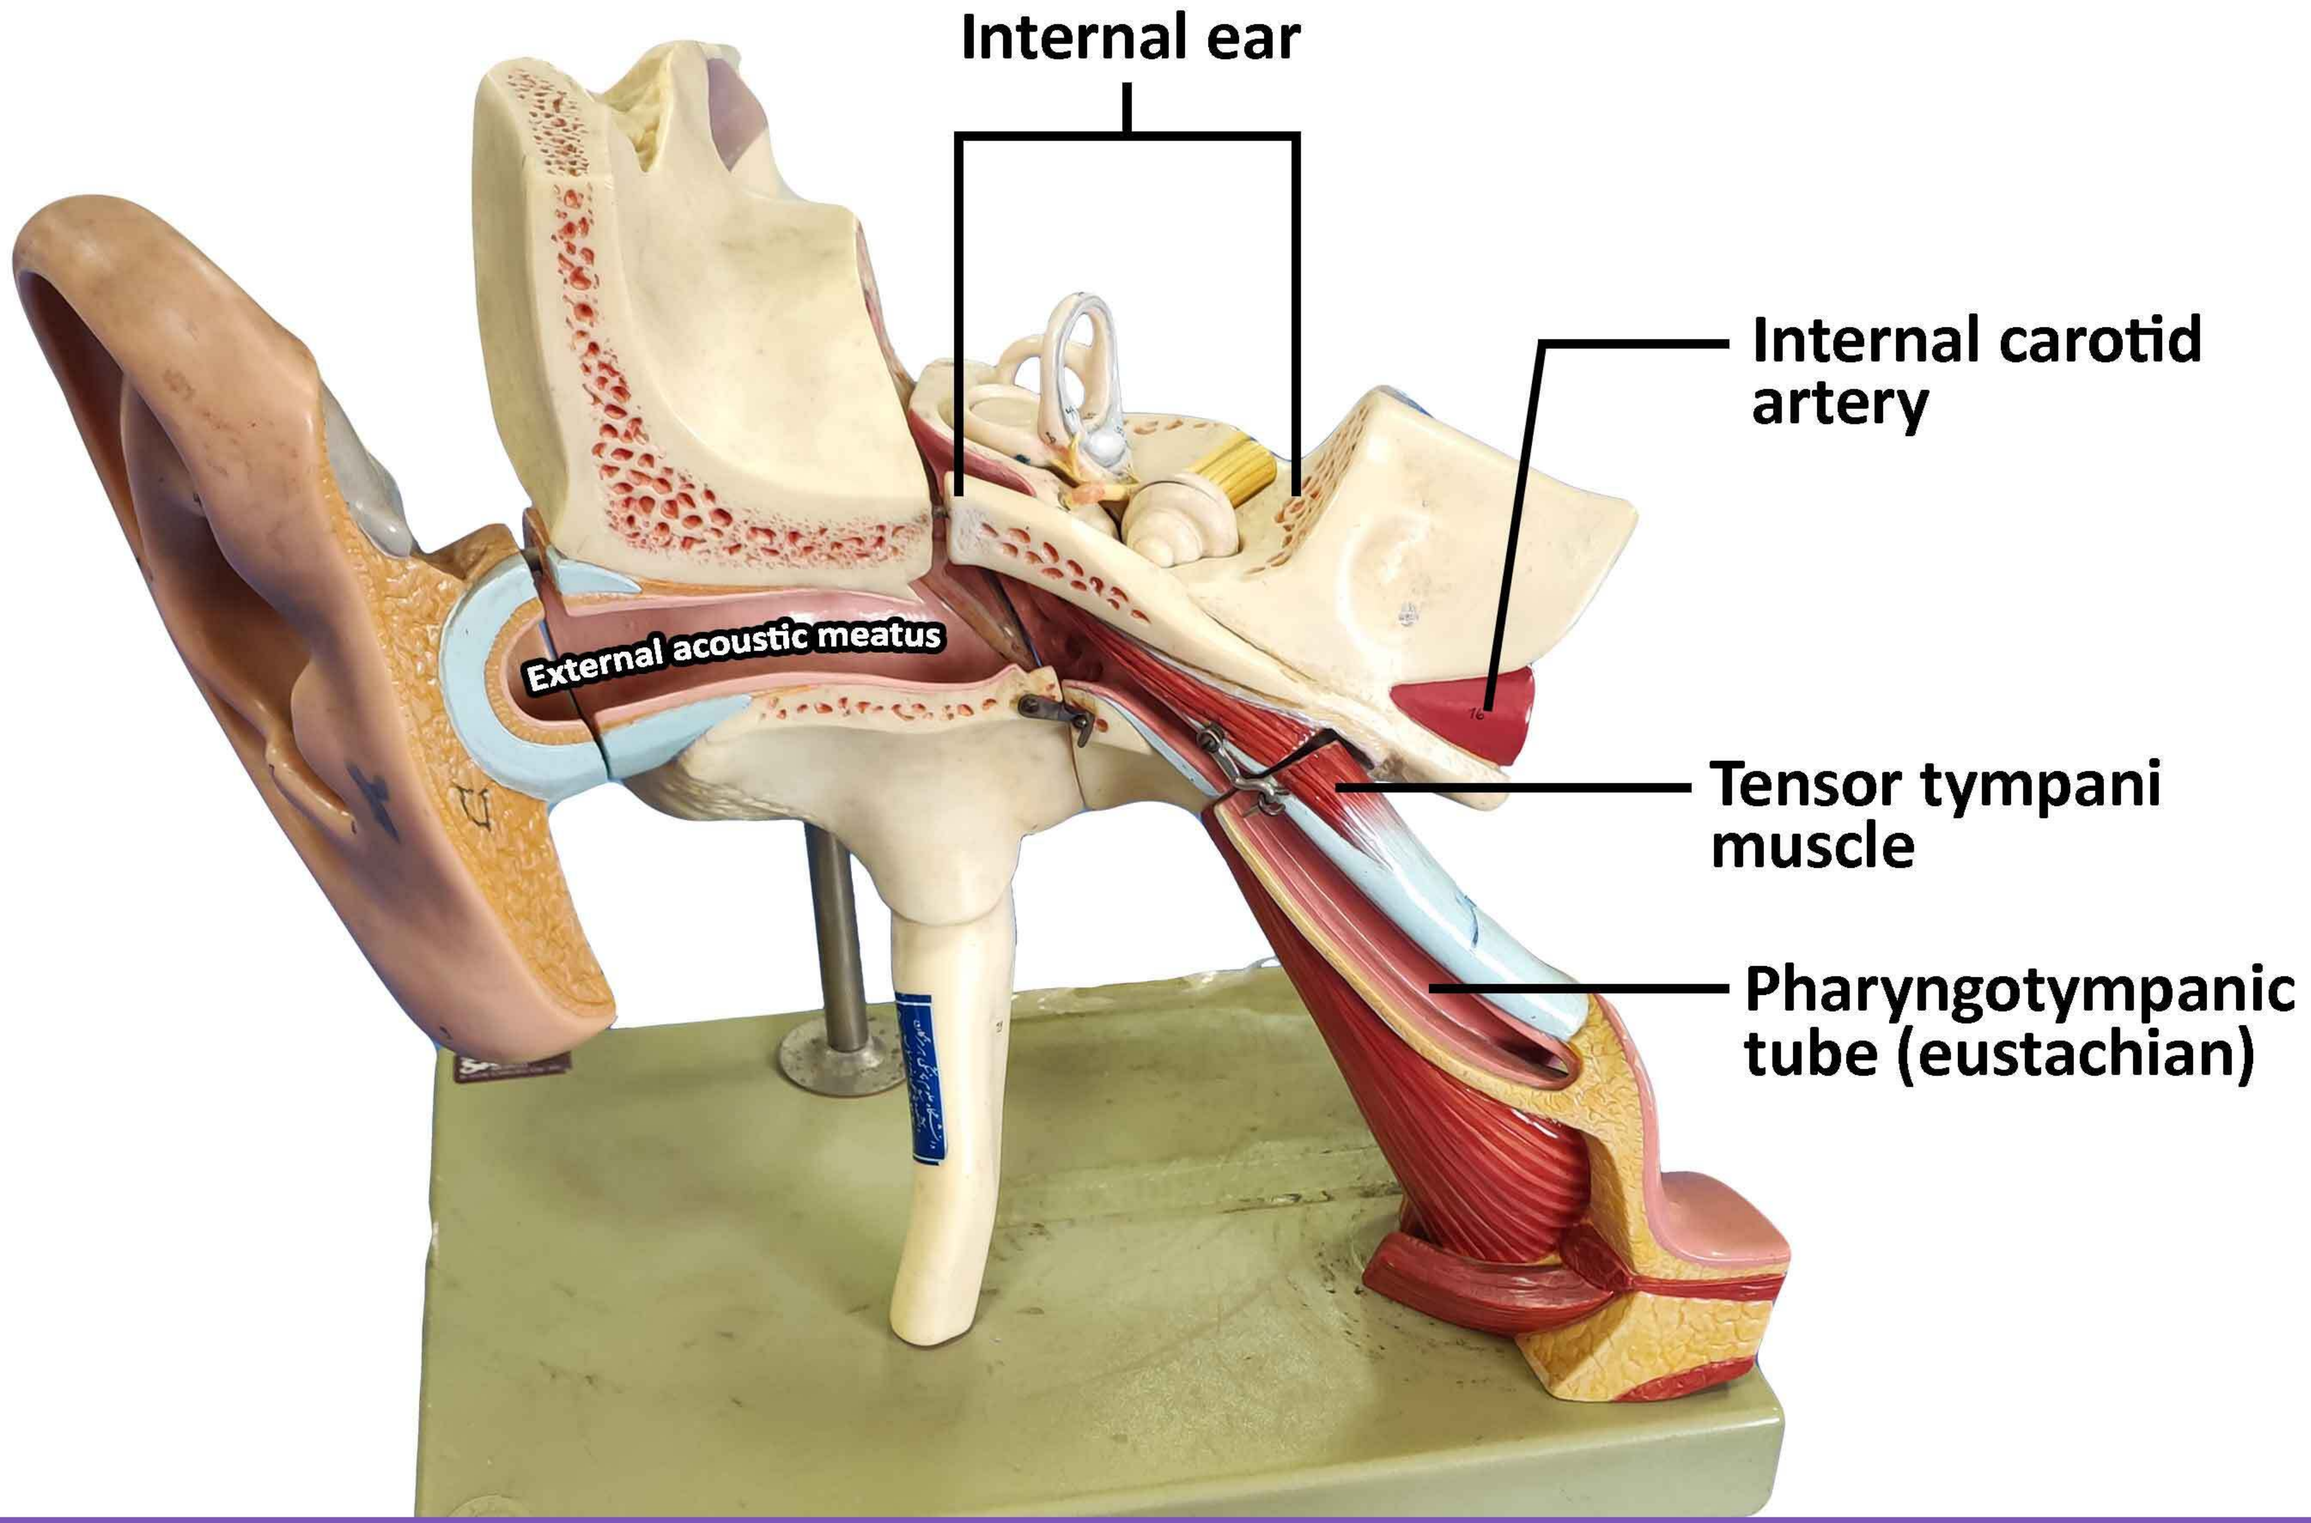

Sclera
Choroid
Ciliary body
Optic disk
Lens
Retina
Zonular fibers
Ora serrata

Sclera
Choroid
Central retinal vein
Ciliary body
Optic nerve
(CN II)
Central retinal artery
Zonular fibers
Retina
Ora serrata

Sclera
Ciliary body
Choroid
Retina
Zonular fibers
Ora serrata

Superior crus of antihelix
Inferior crus of antihelix
Scapha
Helix
Antihelix
Concha
Triangular fossa
Cymba concha
Helical crus
Incisura
External auditory meatus
Tragus
Intertragal notch
Antitragus
Lobule

External ear
Middle ear
External aucostic meatus
Tympanic membrane
Cartilage
Adipose tissue

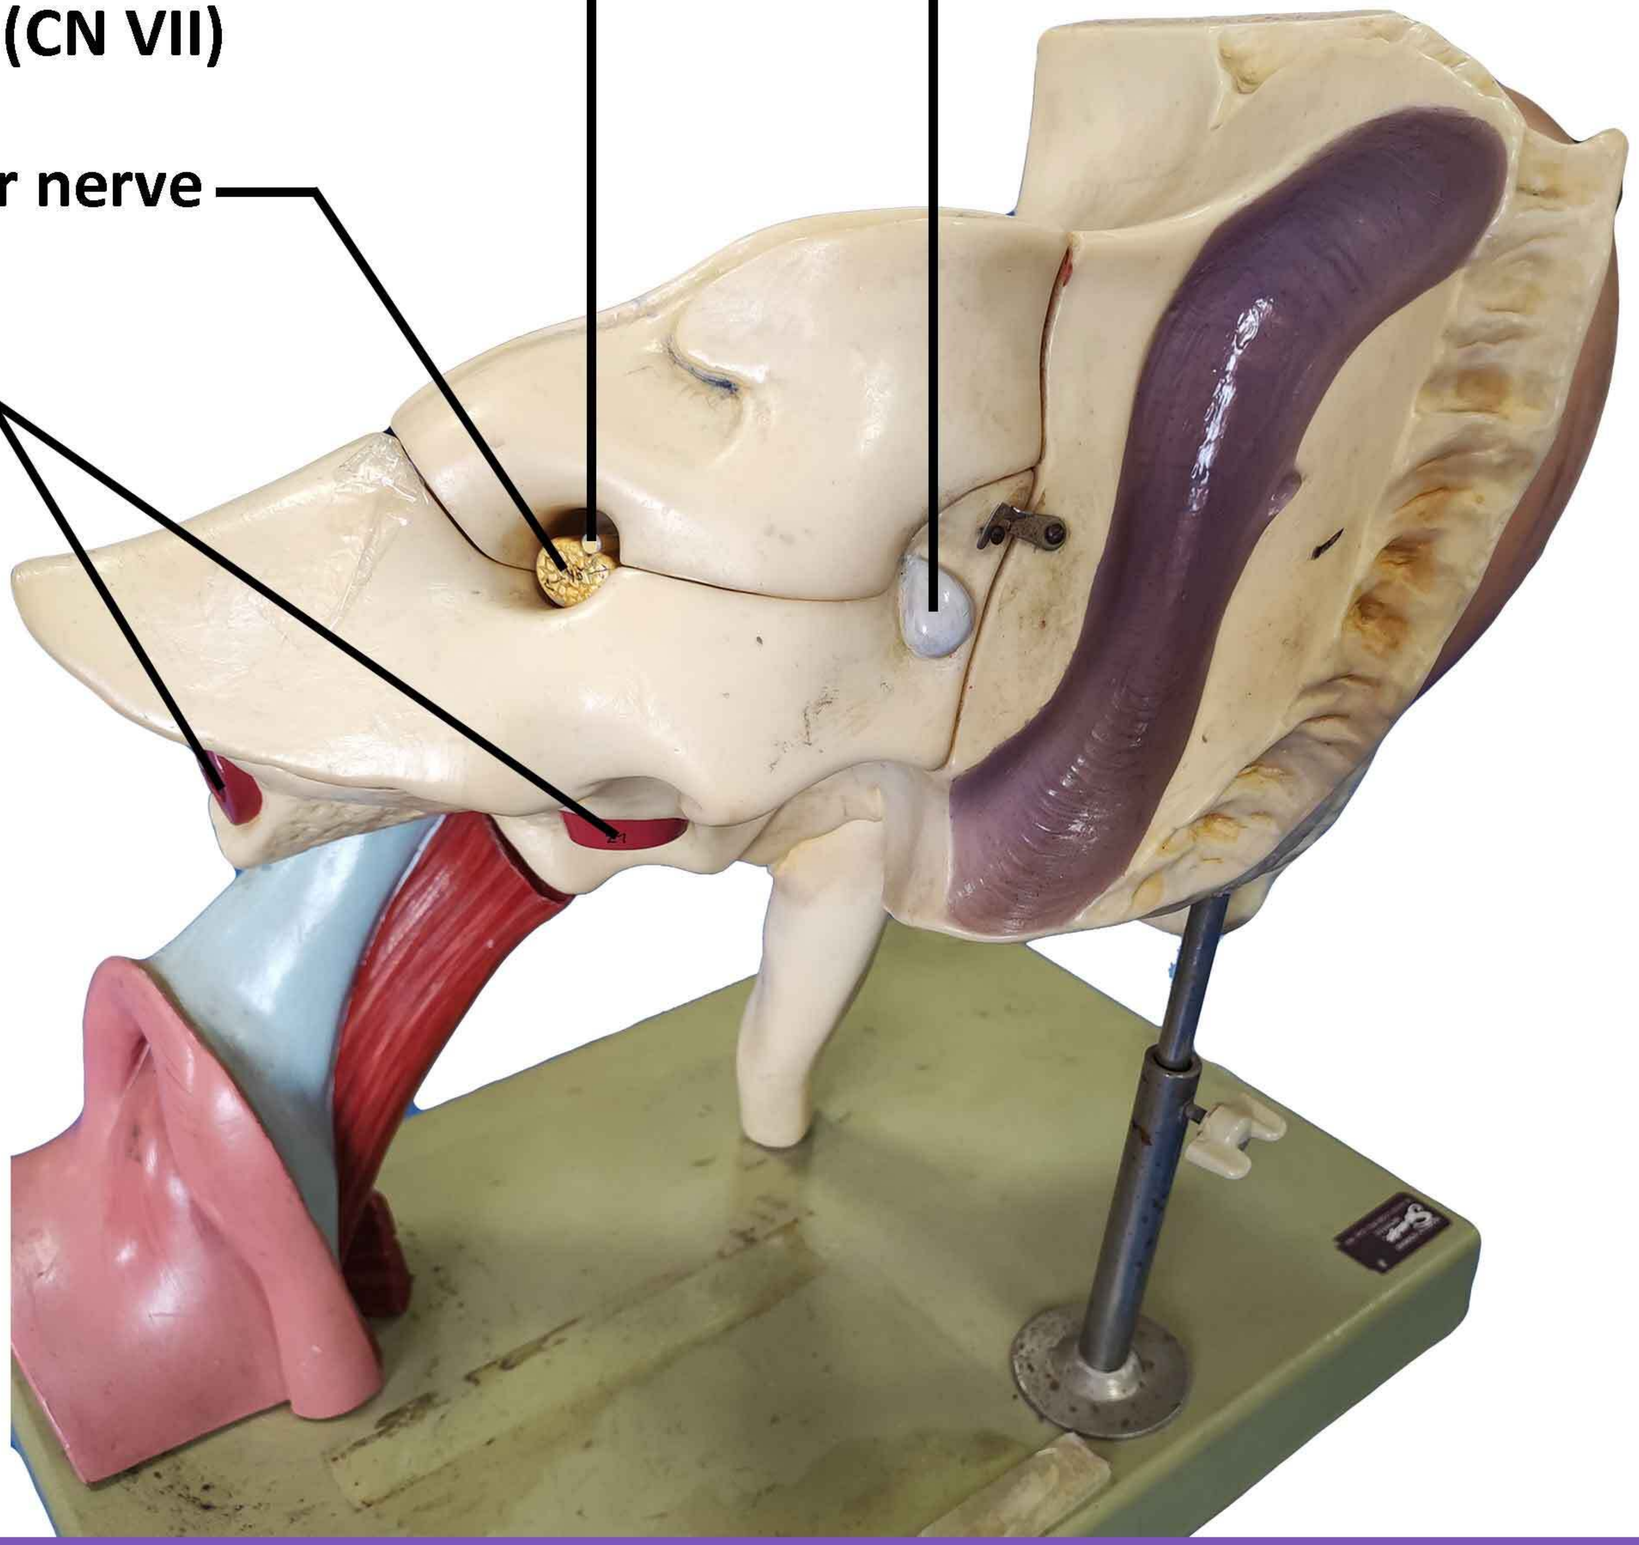

Internal ear
Internal carotid artery
External acoustic meatus
Tensor tympani muscle
Pharyngotympanic tube (eustachian)

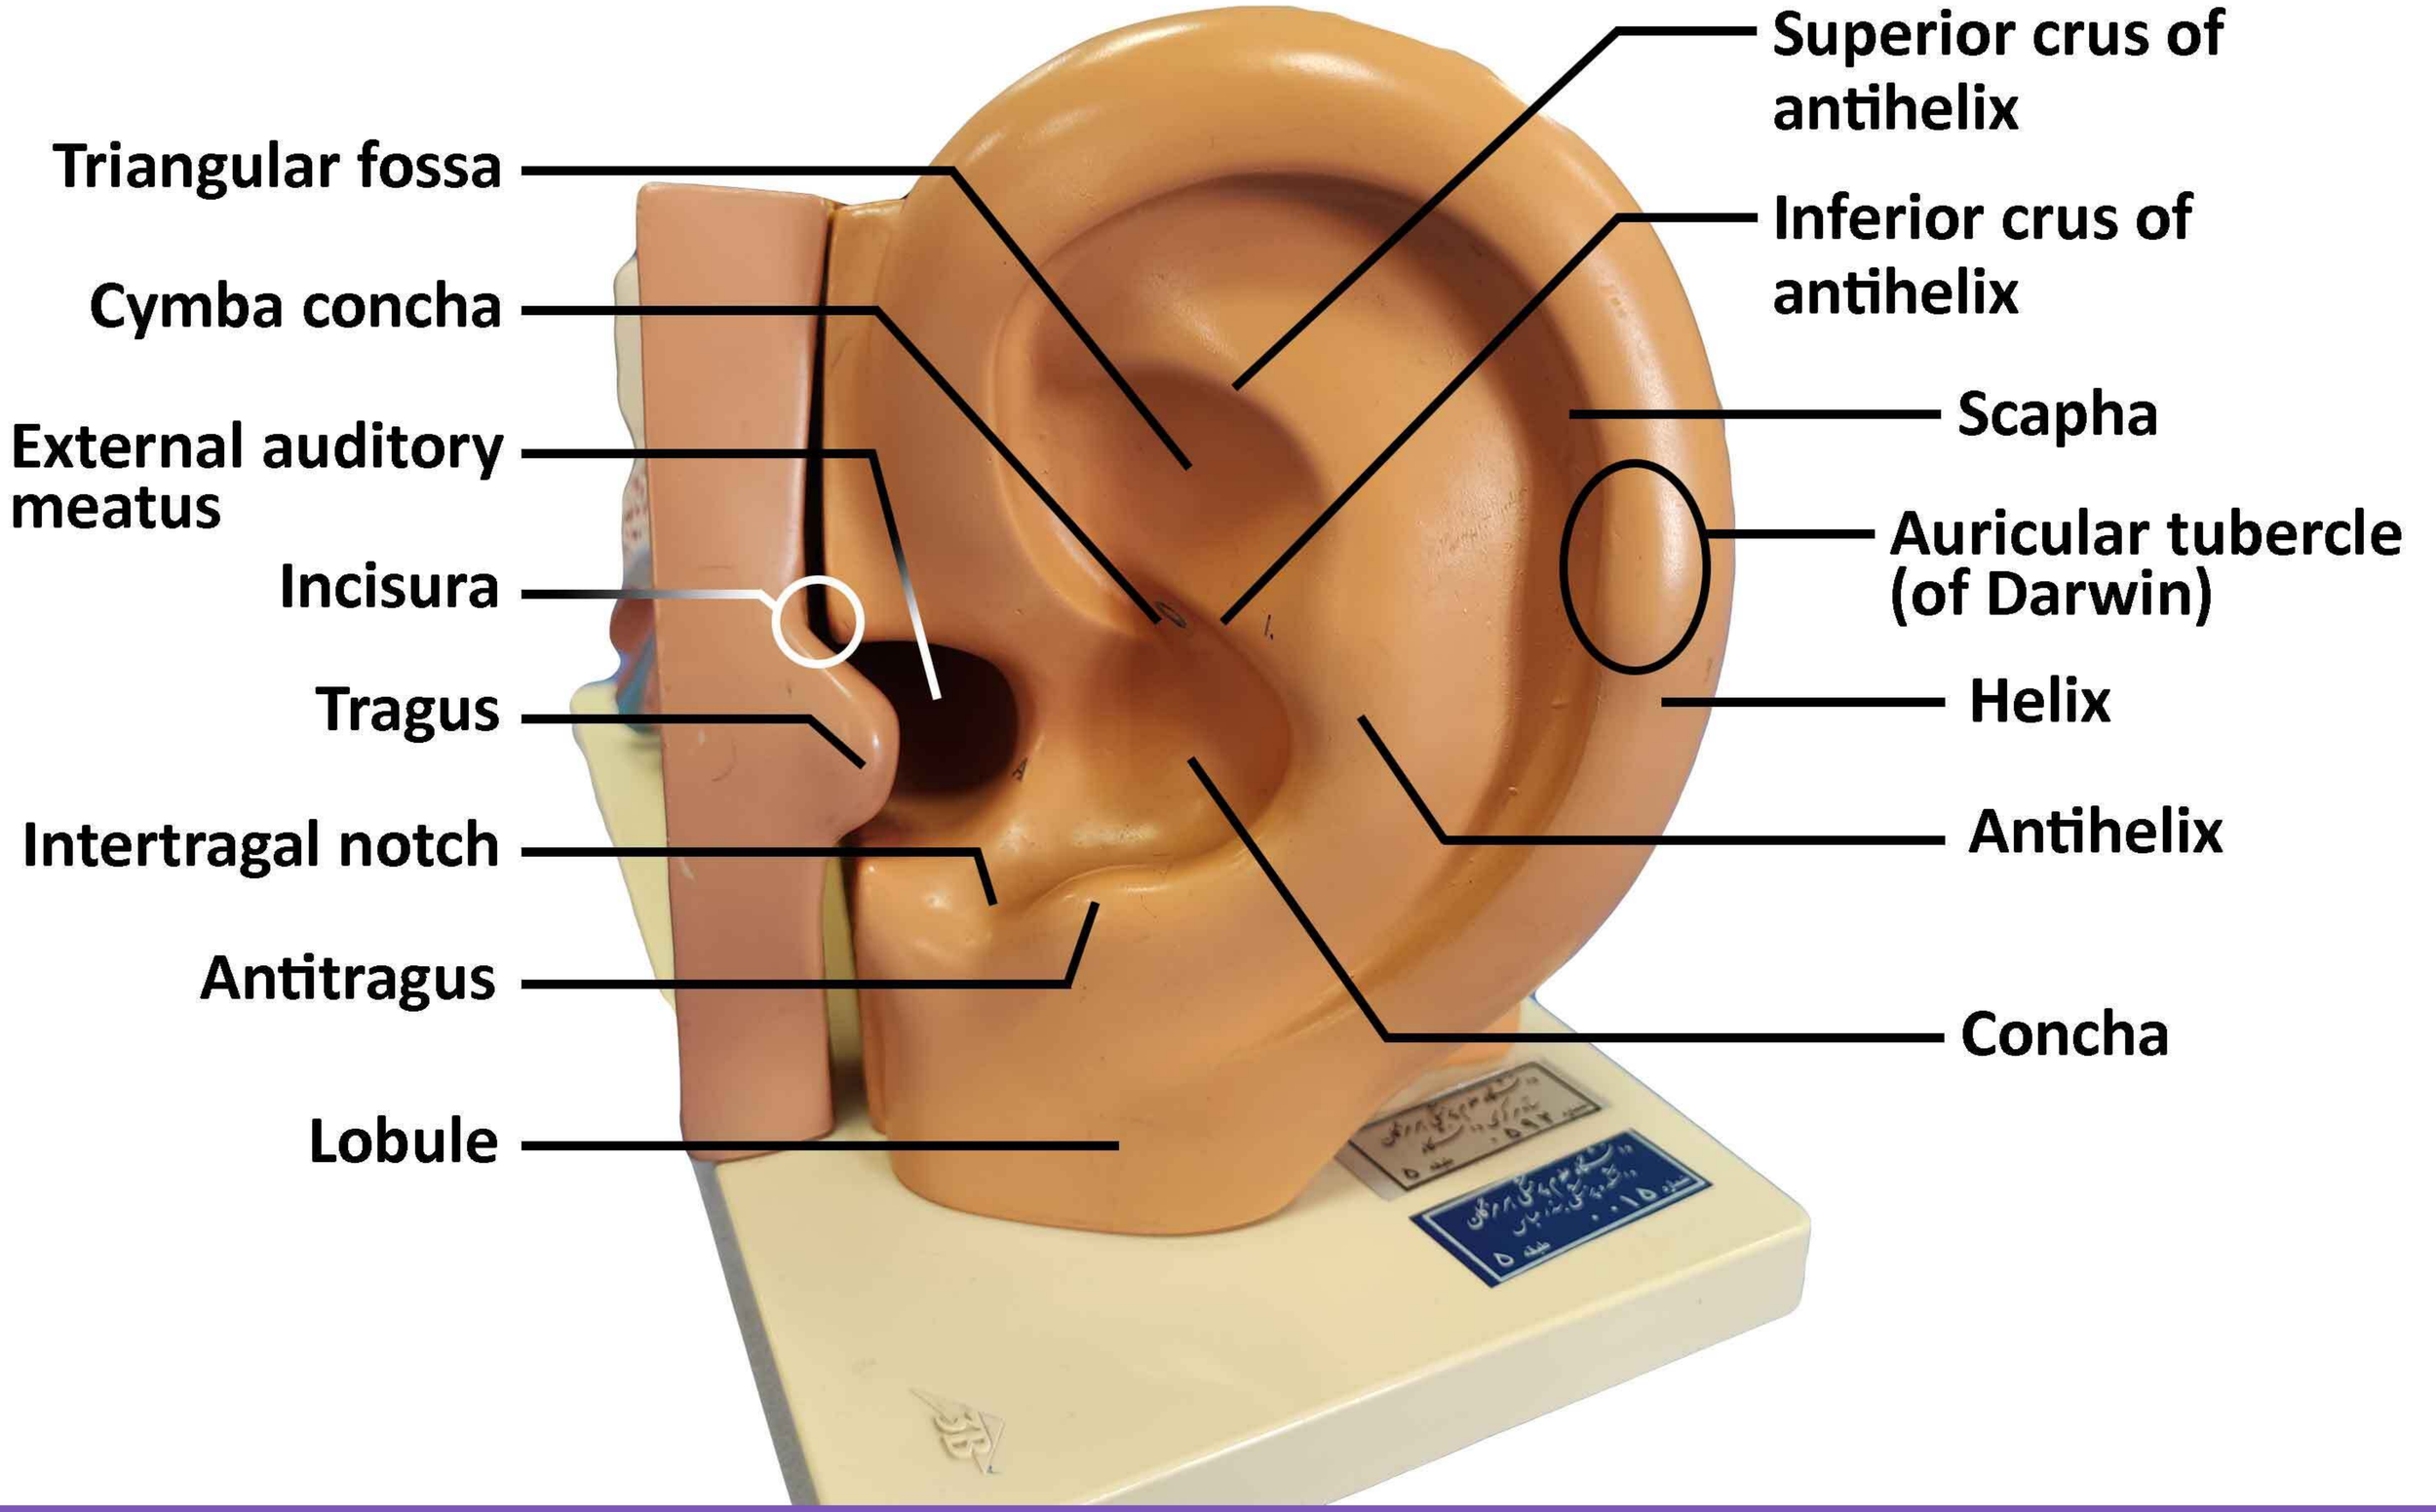

Facial nerve
(CN VII)

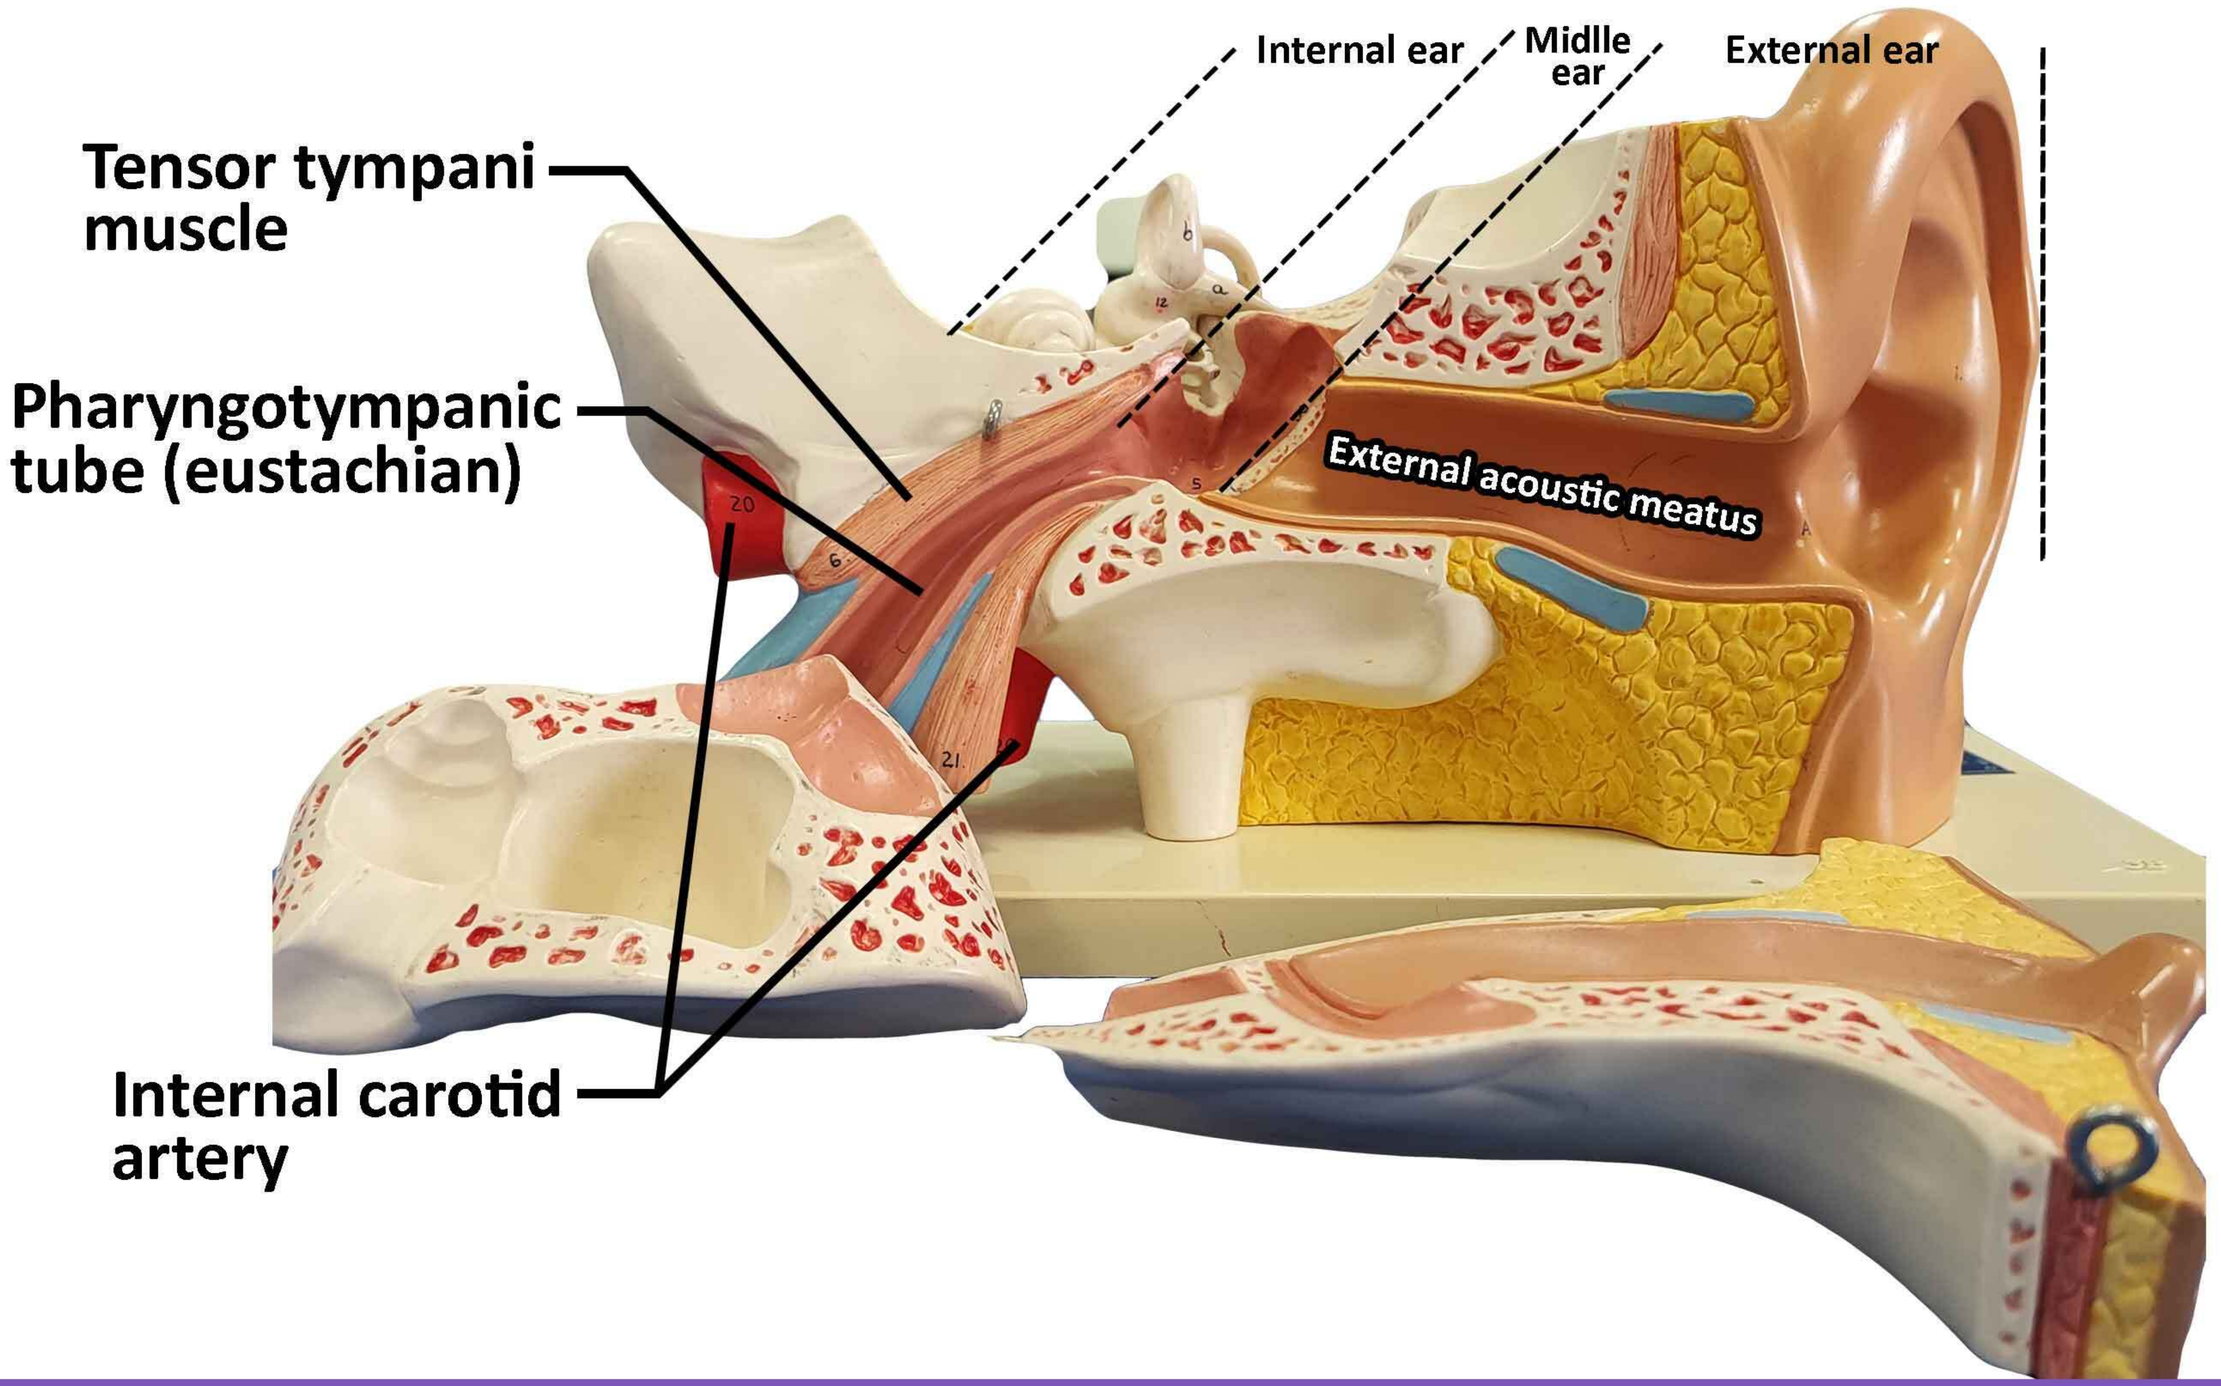

Endolymph

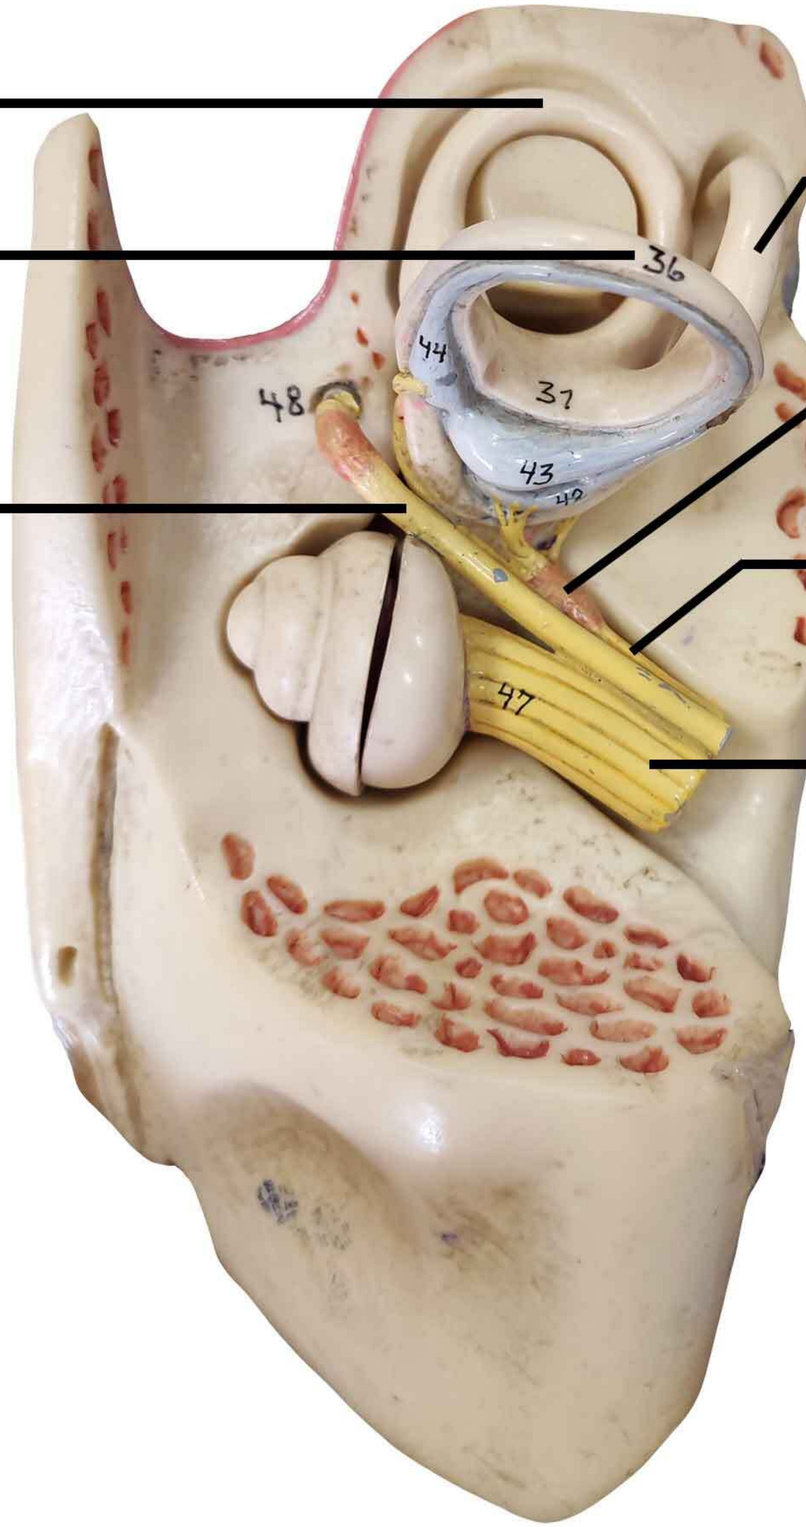

Vestibolucochlear nerve
(CN VIII)

Internal carotid
artery

Triangular fossa
Cymba concha
External auditory meatus
Incisura
Tragus
Intertragal notch
Antitragus
Lobule
Superior crus of antihelix
Inferior crus of antihelix
Scapha
Auricular tubercle (of Darwin)
Helix
Antihelix
Concha

Internal ear
Midlle ear
External ear
Tensor tympani muscle
Pharyngotympanic tube (eustachian)
External acoustic meatus
Internal carotid artery

Horizontal semicircular canal

Superior semicircular canal

Facial nerve (CN VII)

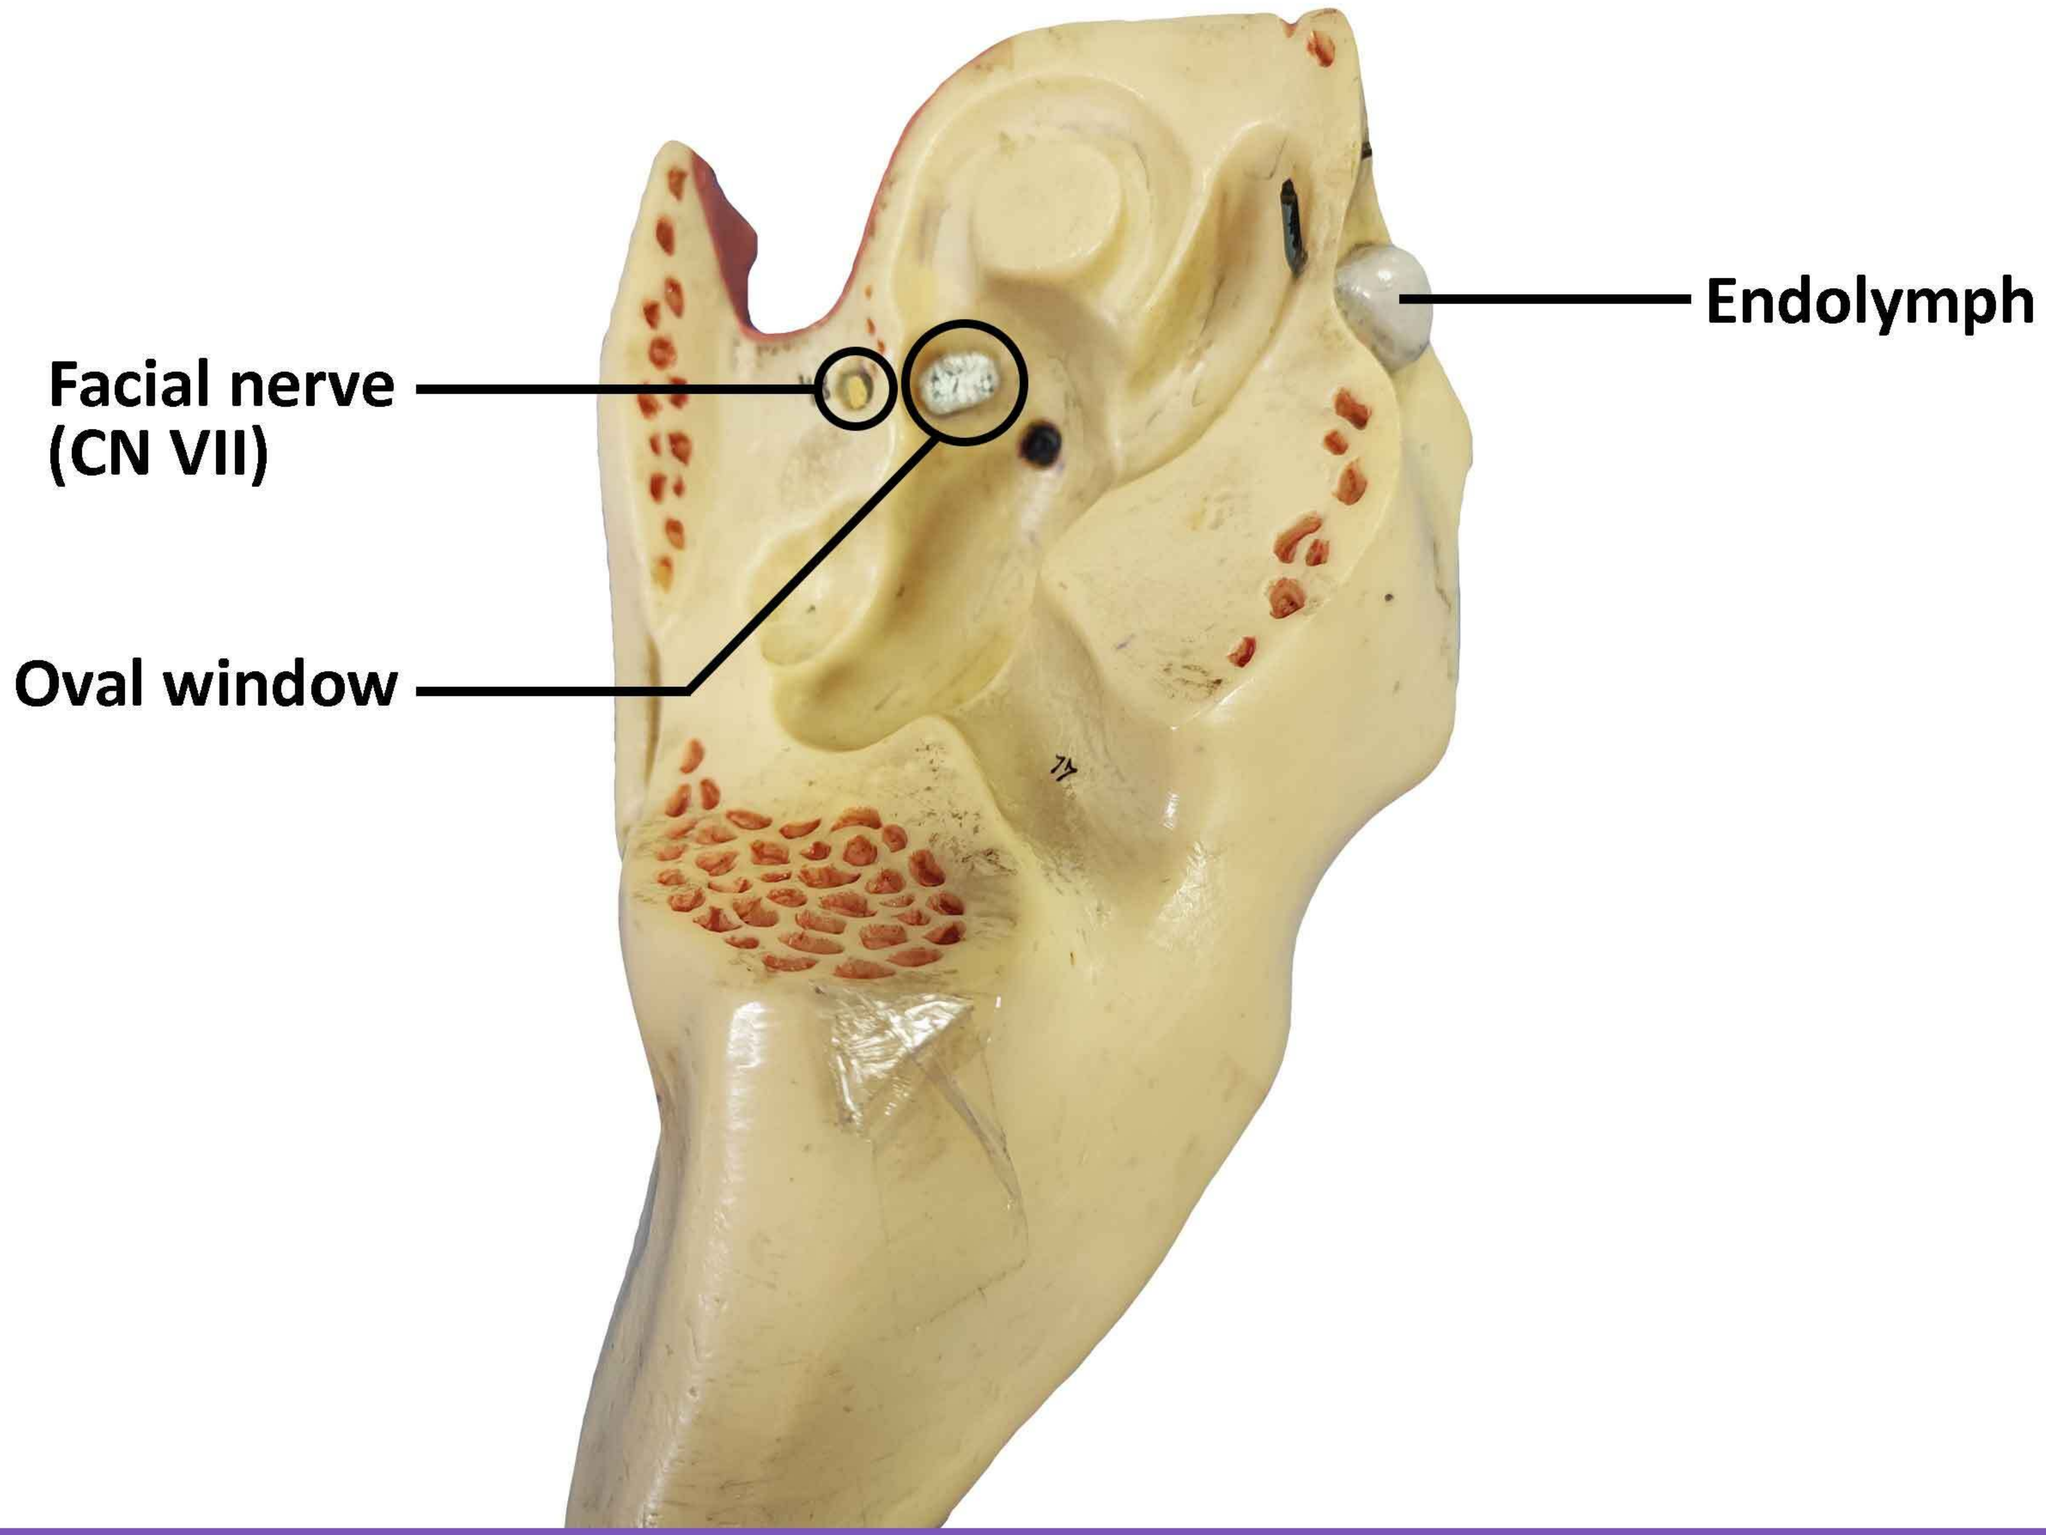

Posterior semicircular canal

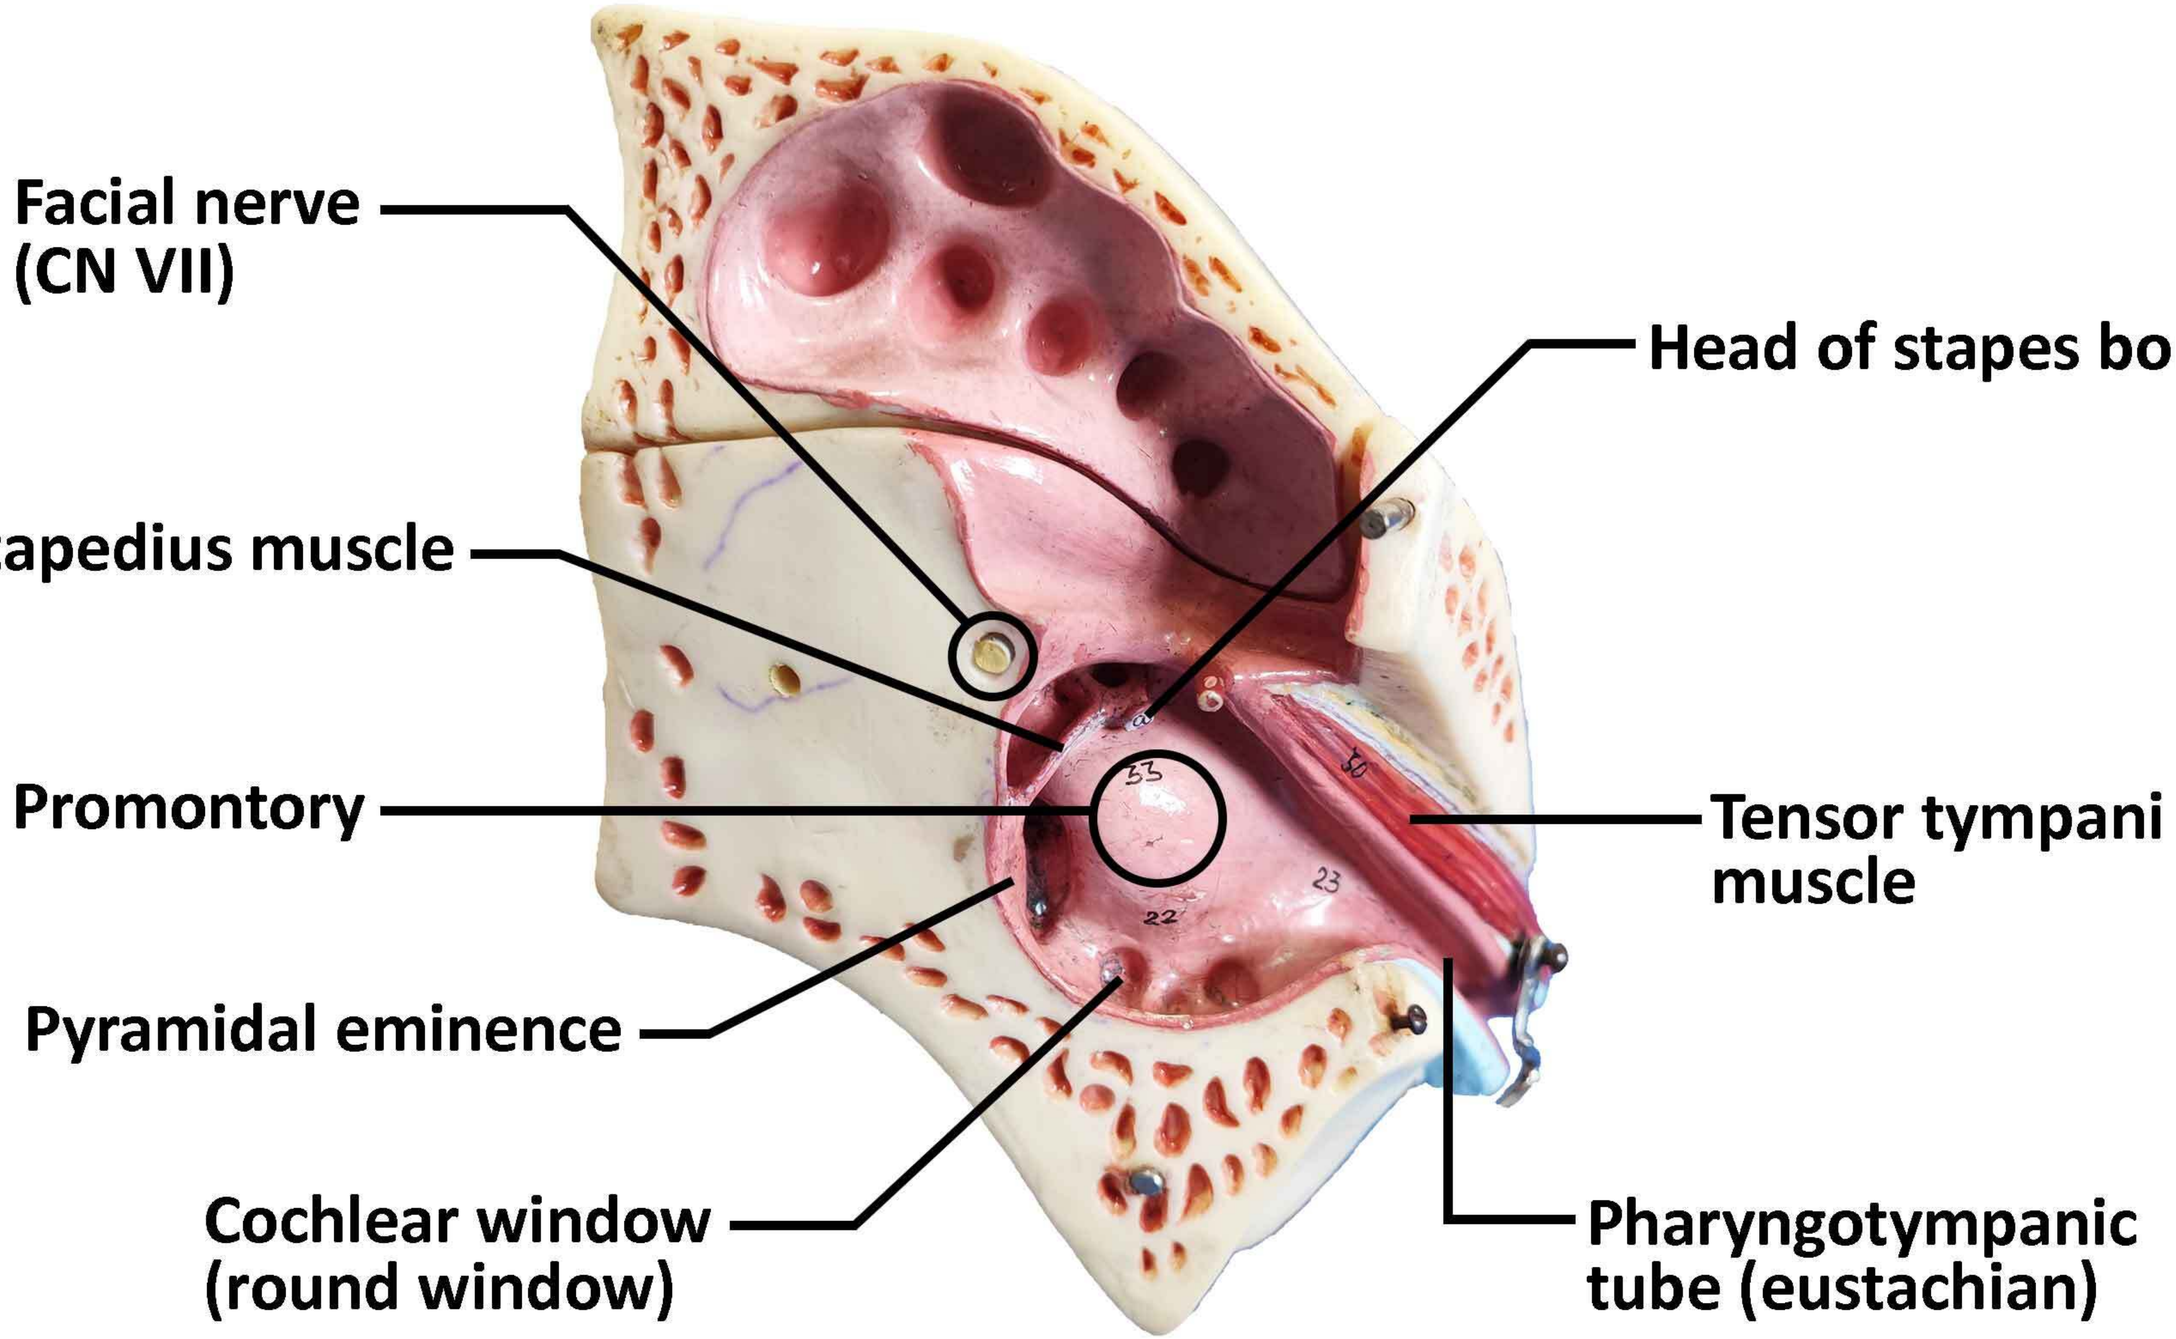

Vestibular ganglia

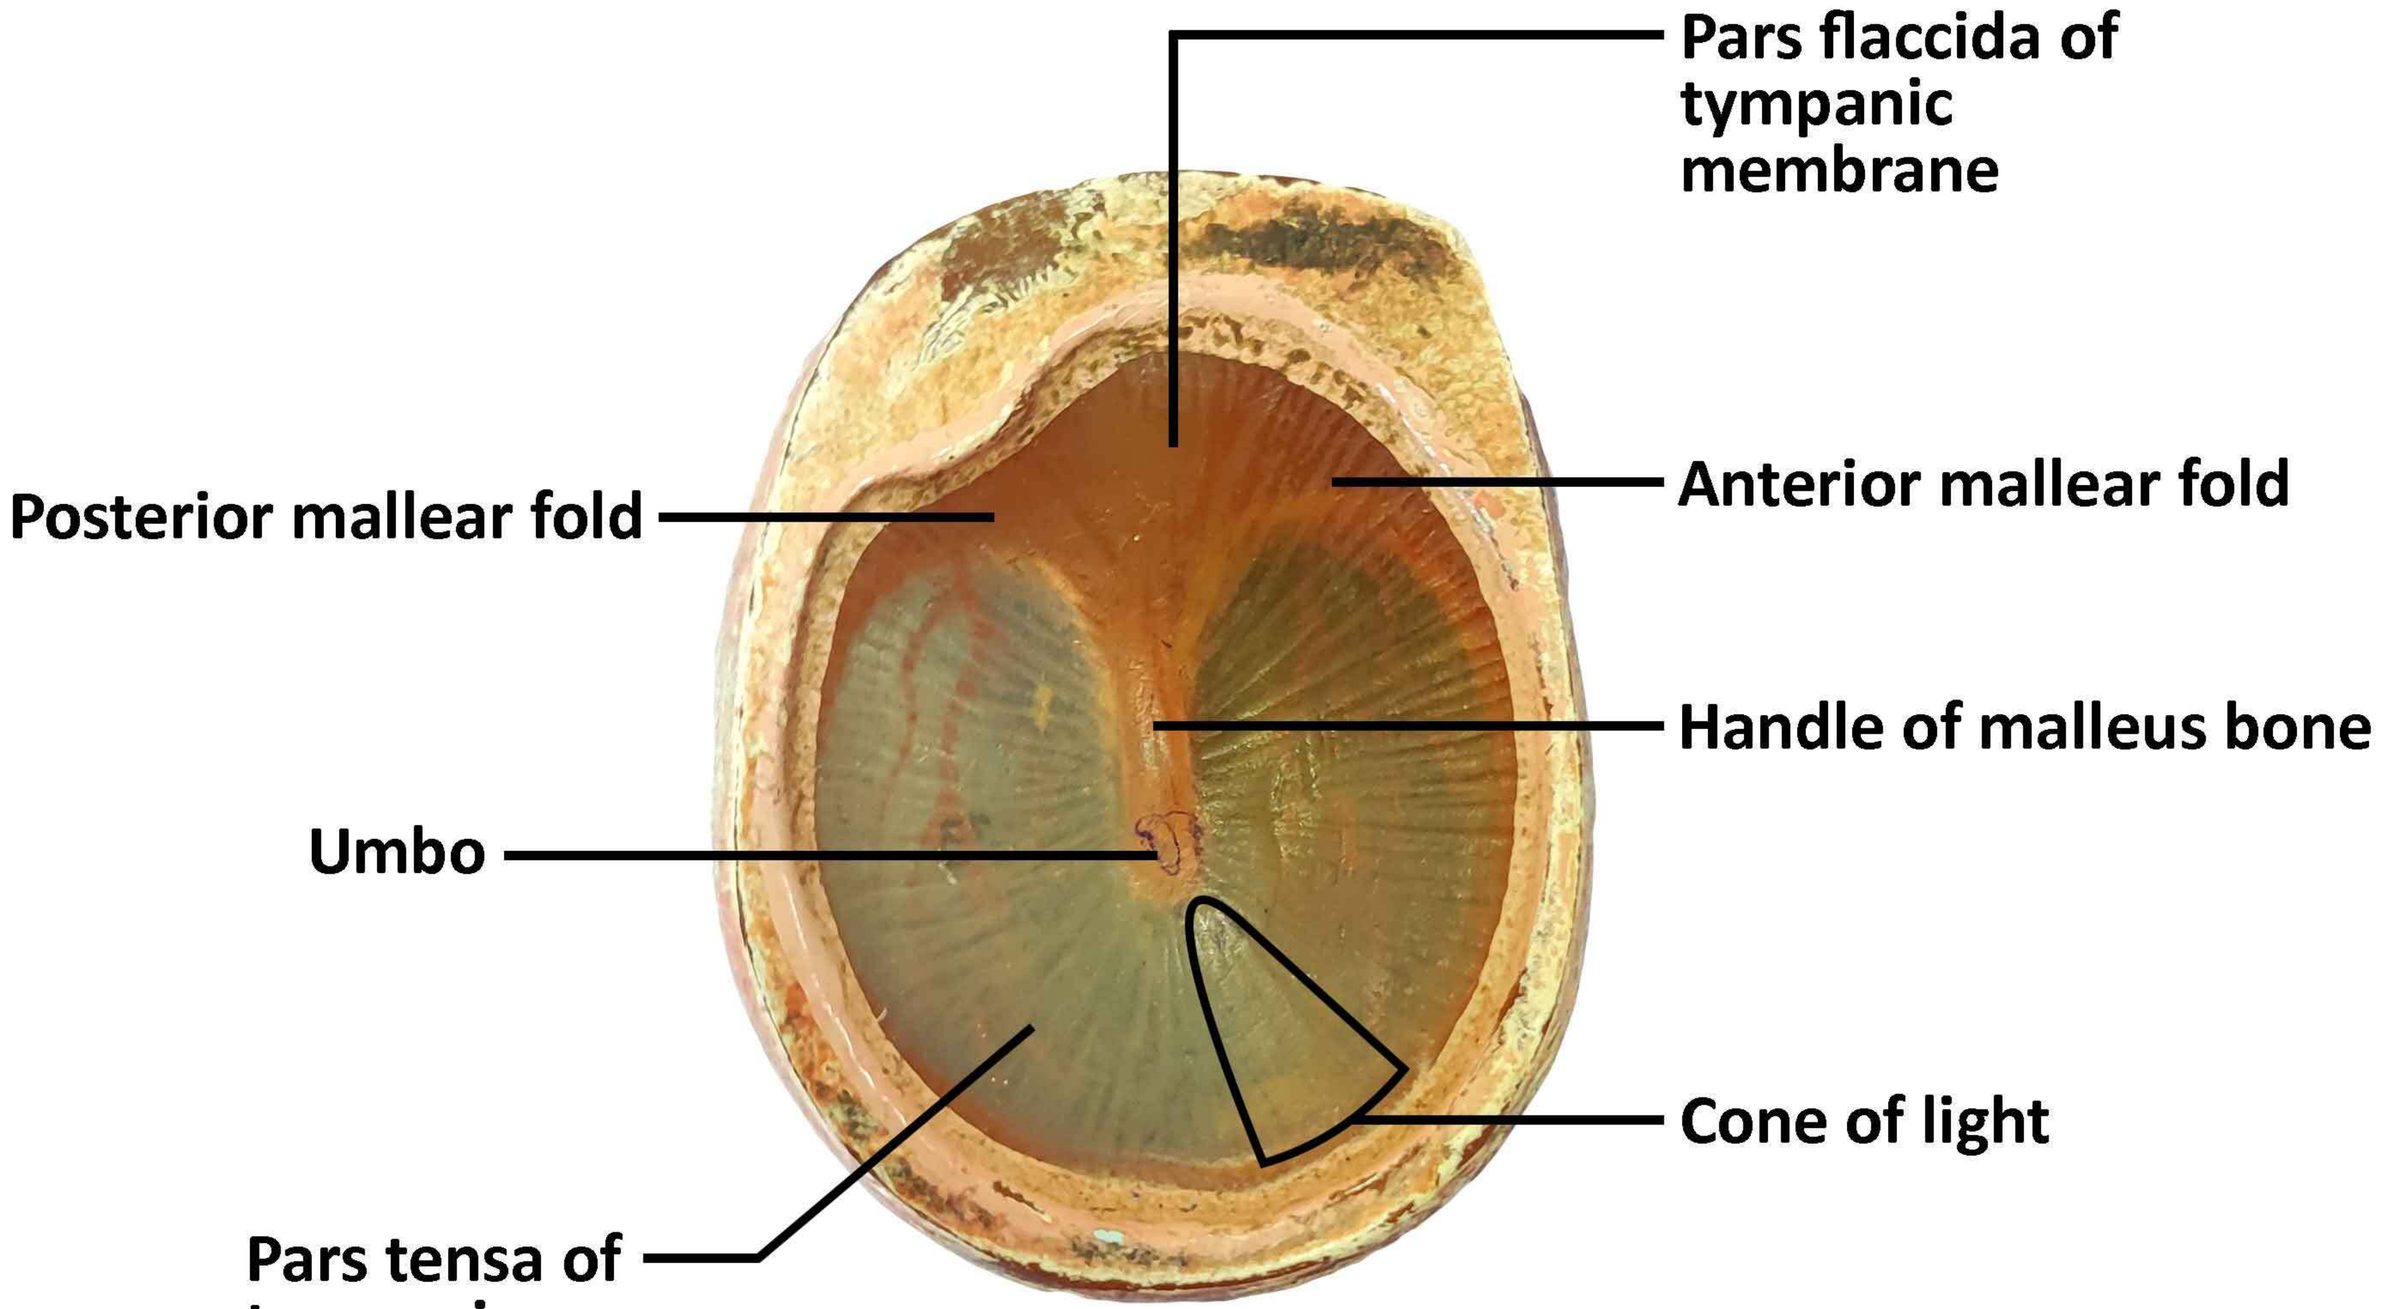

Vestibular nerve

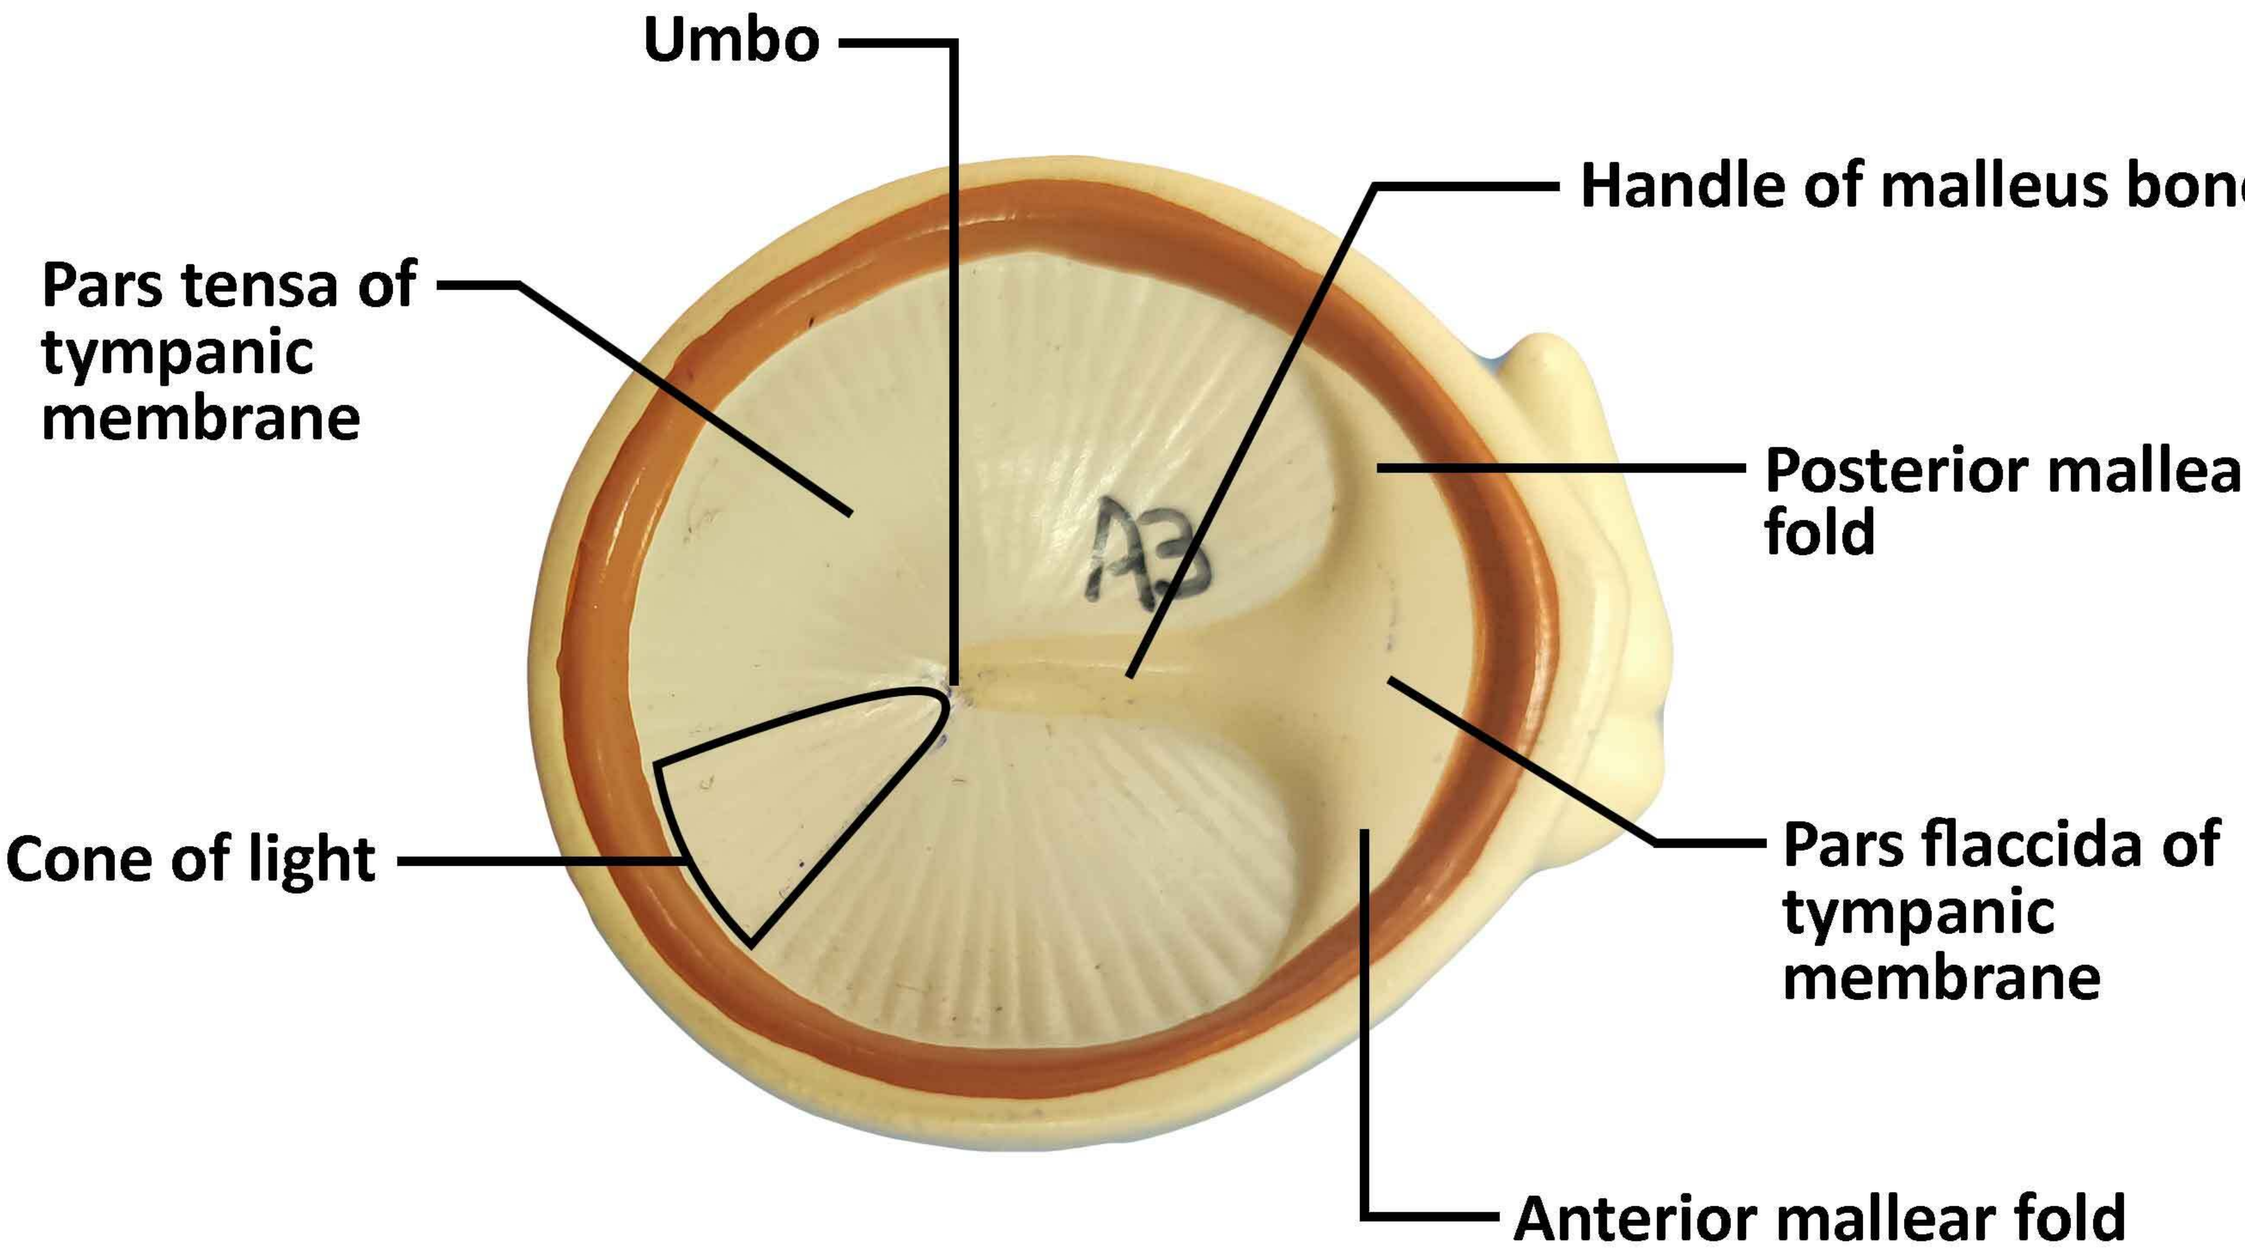

Cochelar nerve

Vestibolucochlear nerve (CN VIII)

Facial nerve
(CN VII)
Oval window
Endolymph

Facial nerve
(CN VII)
Stapedius muscle
Promontory
Pyramidal eminence
Cochlear window
(round window)
Head of stapes bone
Tensor tympani
muscle
Pharyngotympanic
tube (eustachian)

Pars flaccida of tympanic membrane
Anterior mallear fold
Posterior mallear fold
Handle of malleus bone
Umbo
Cone of light
Pars tensa of tympanic membrane

Umbo
Handle of malleus bone
Pars tensa of tympanic membrane
Posterior mallear fold
Cone of light
Pars flaccida of tympanic membrane
Anterior mallear fold

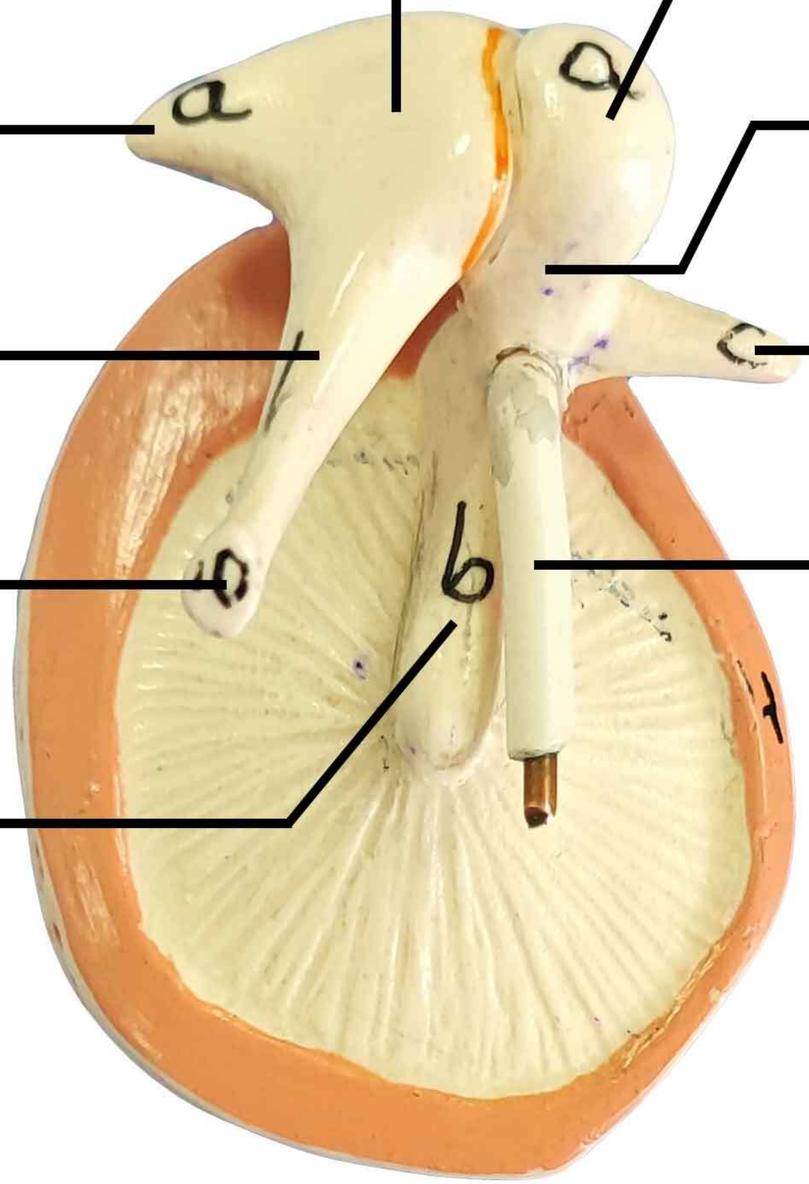

Body of incus bone

Short process of incus bone

Long process of incus bone

Lenticular process of incus bone

Handle of malleus bone

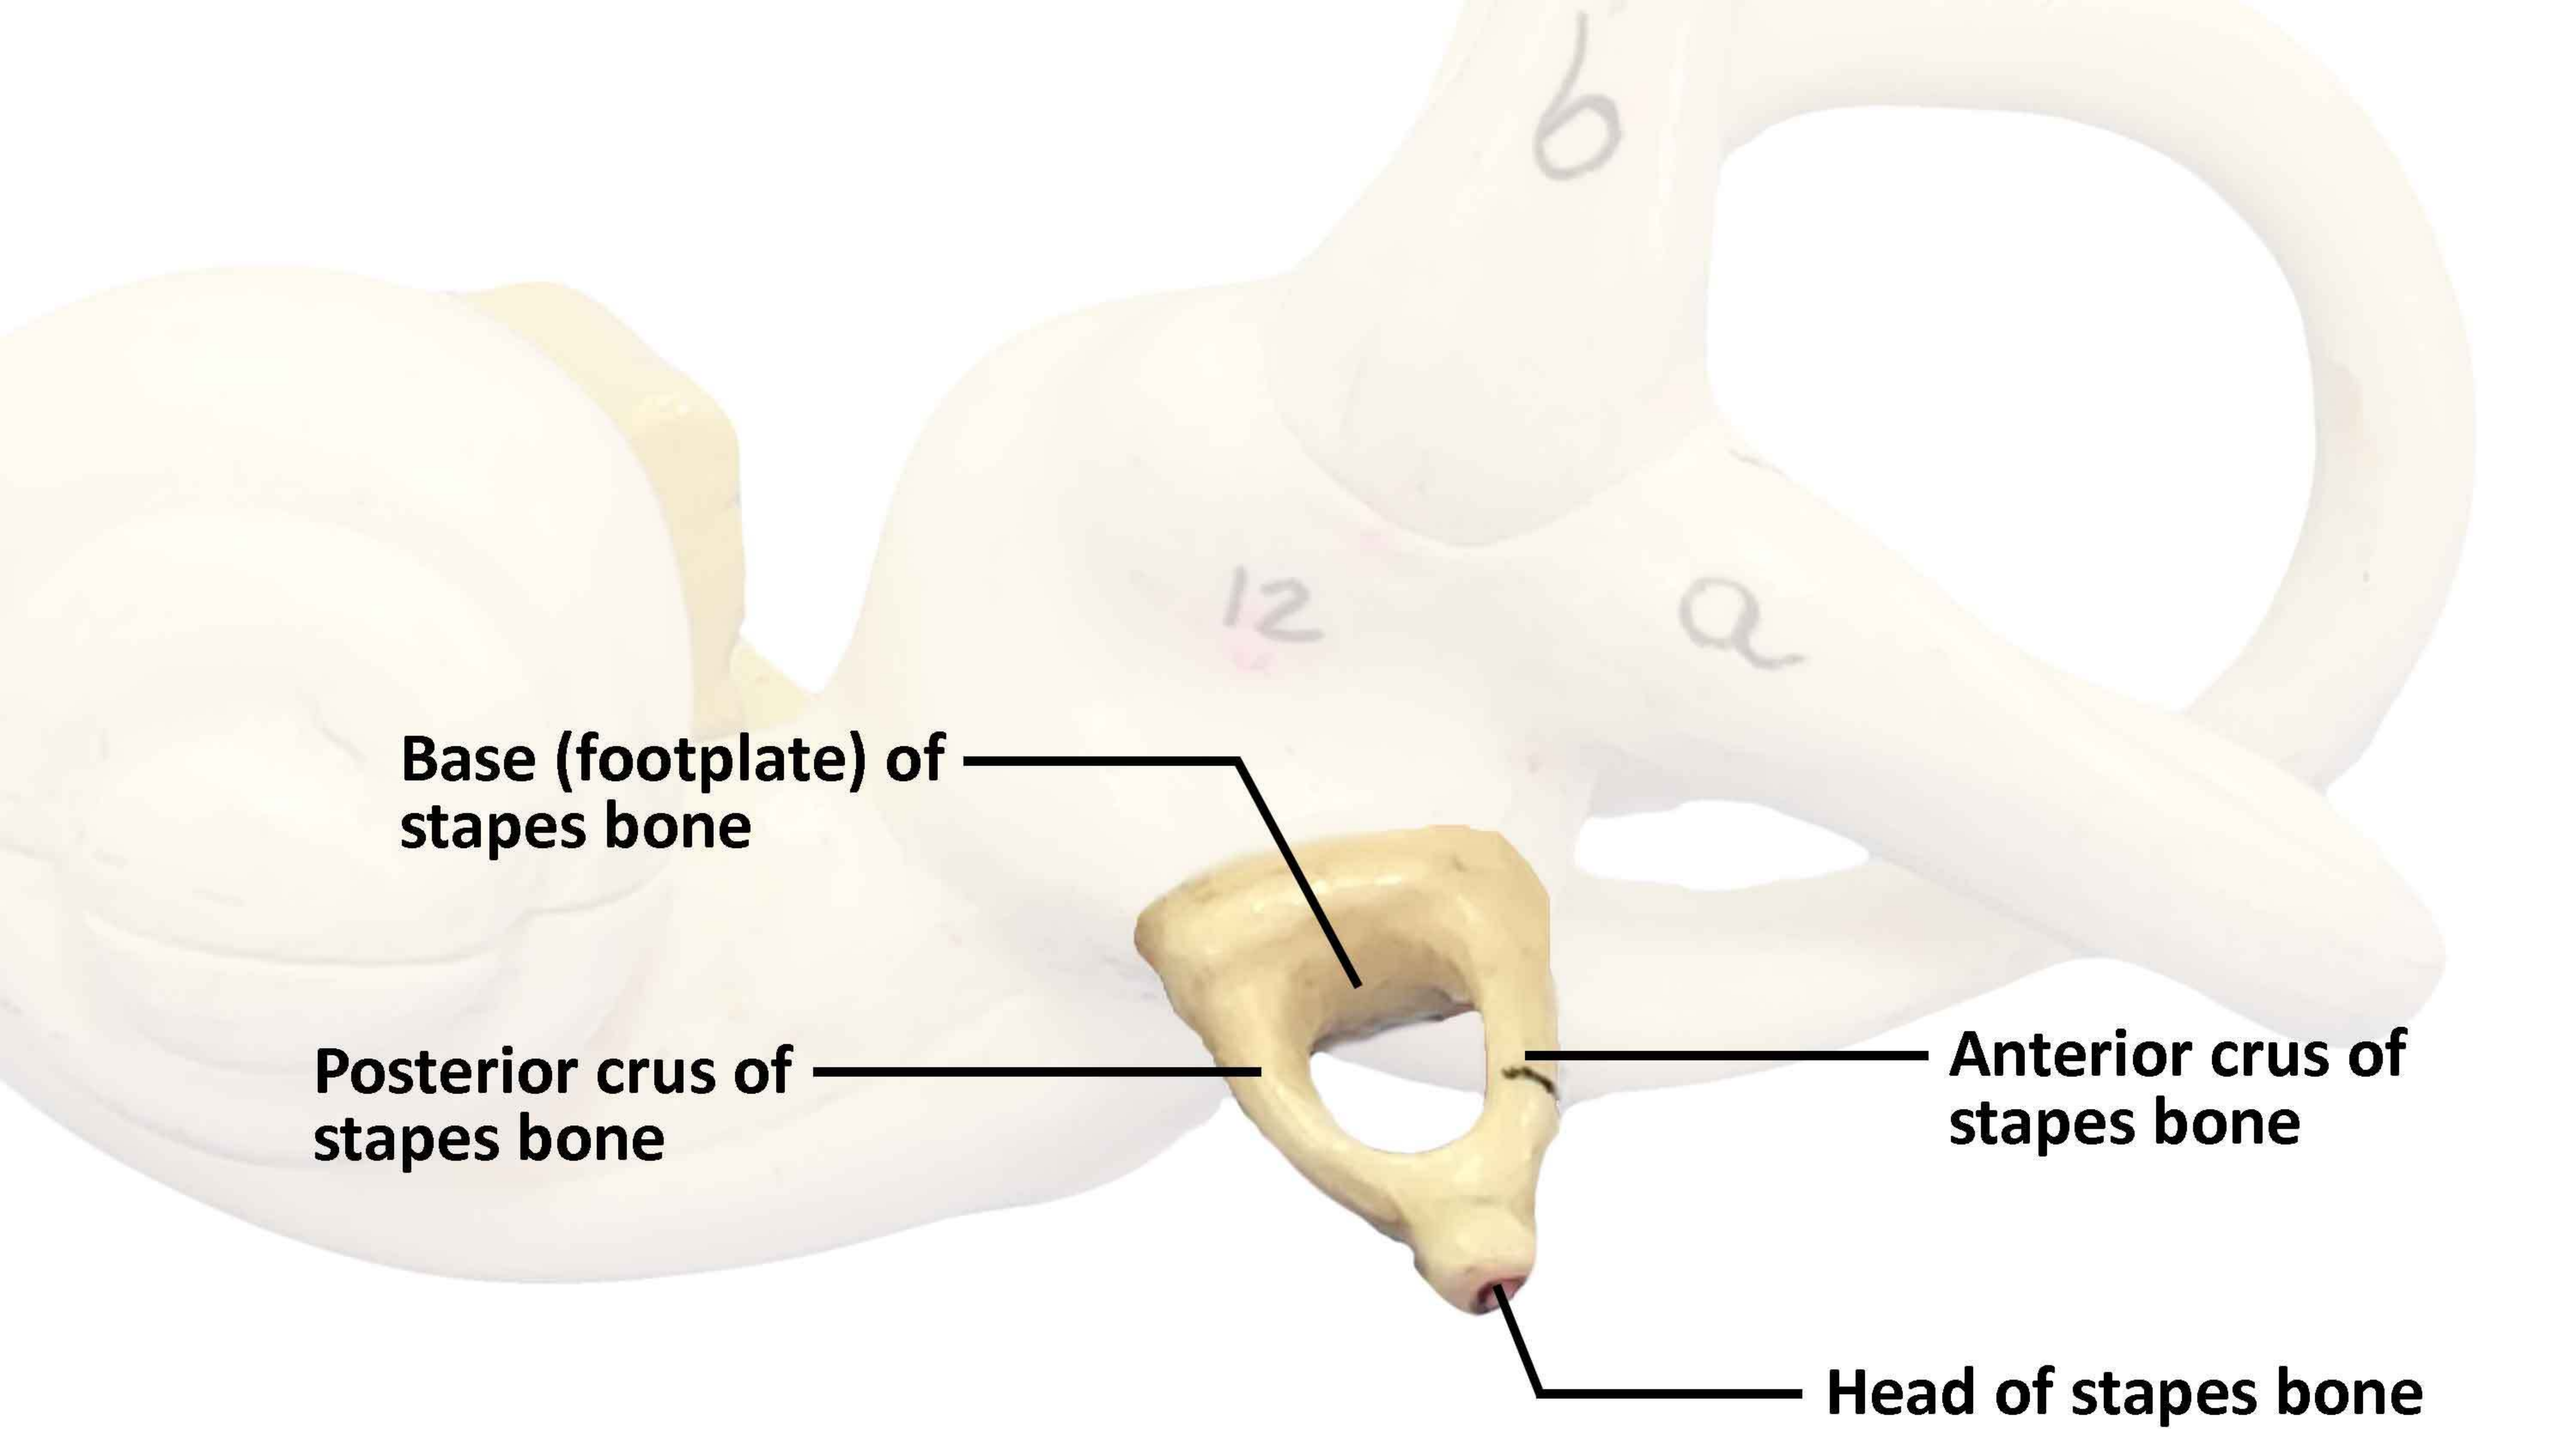

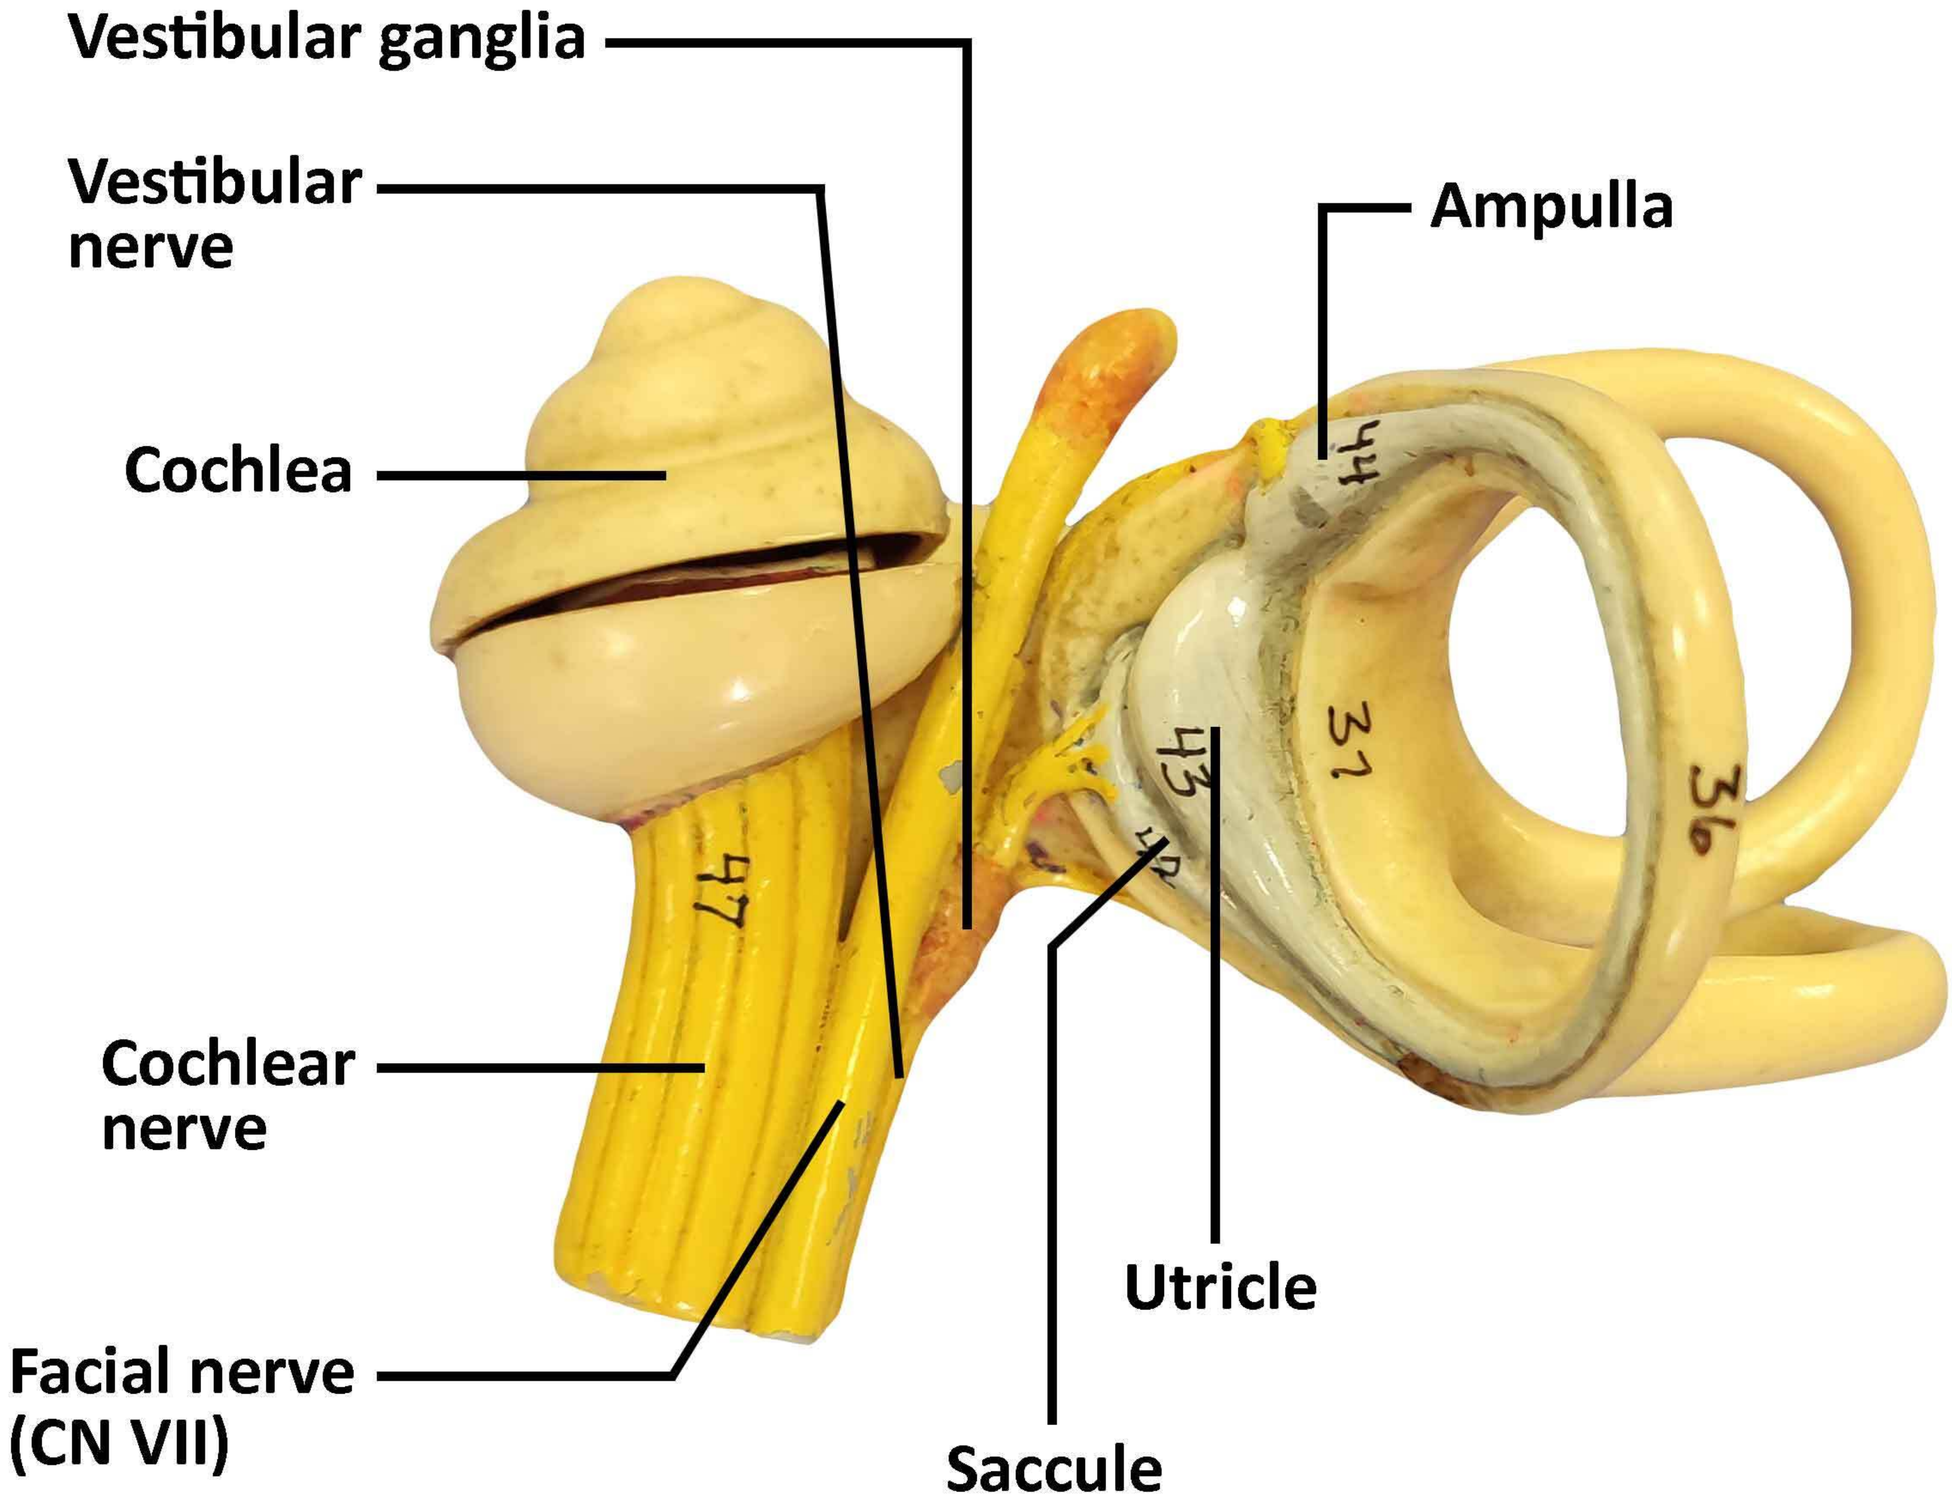

Head of malleus bone

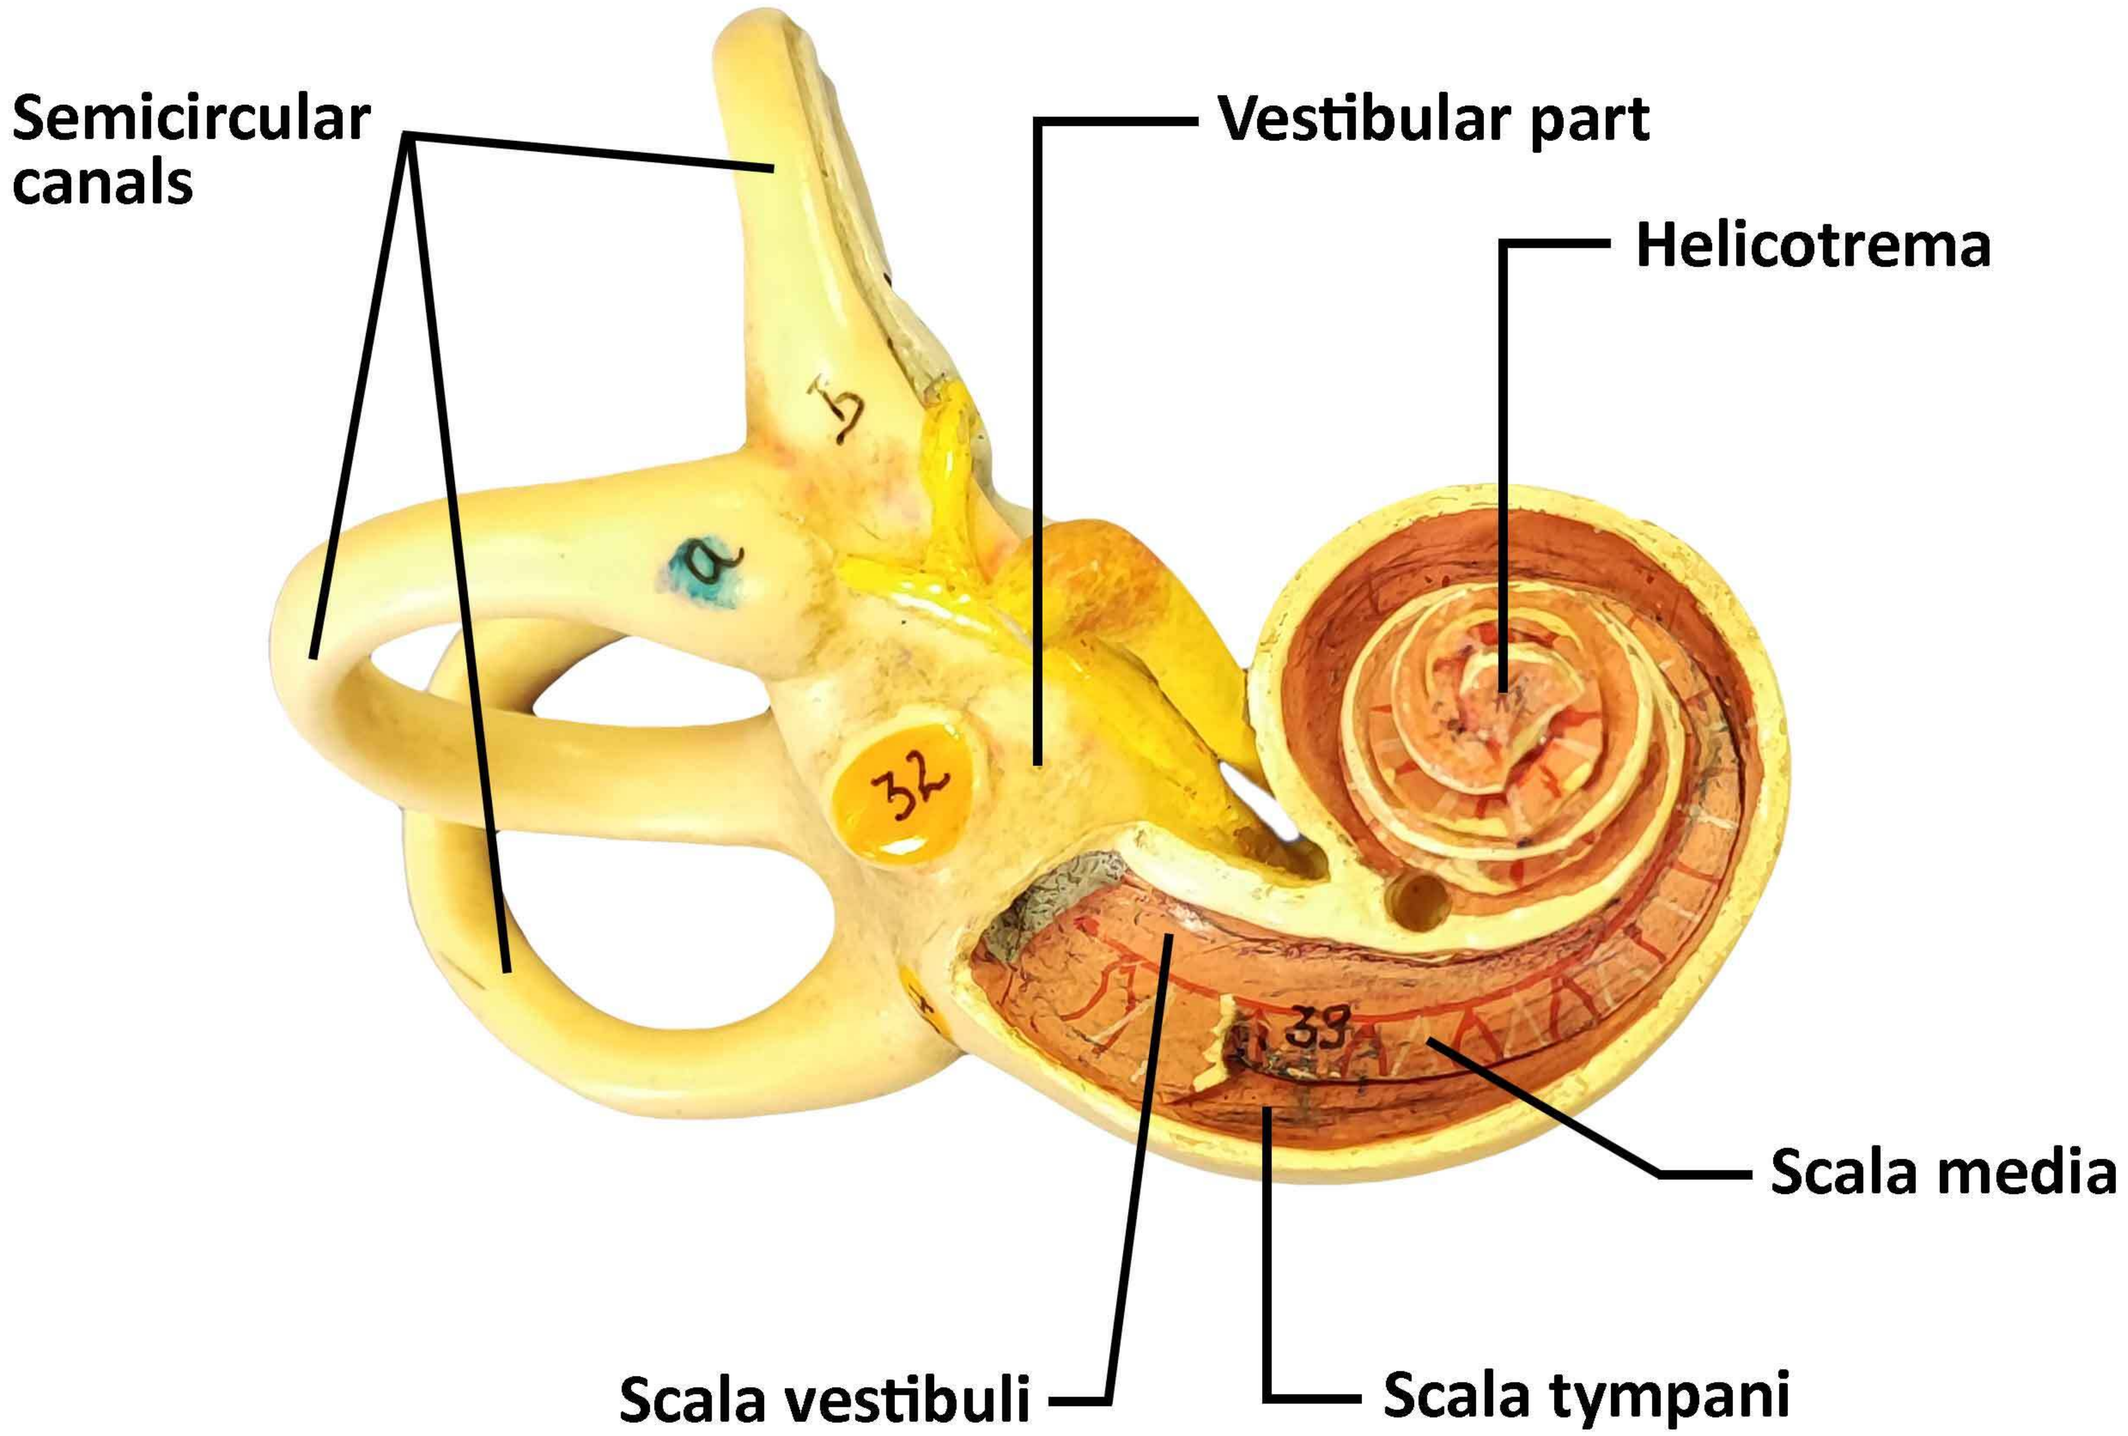

Neck of malleus bone

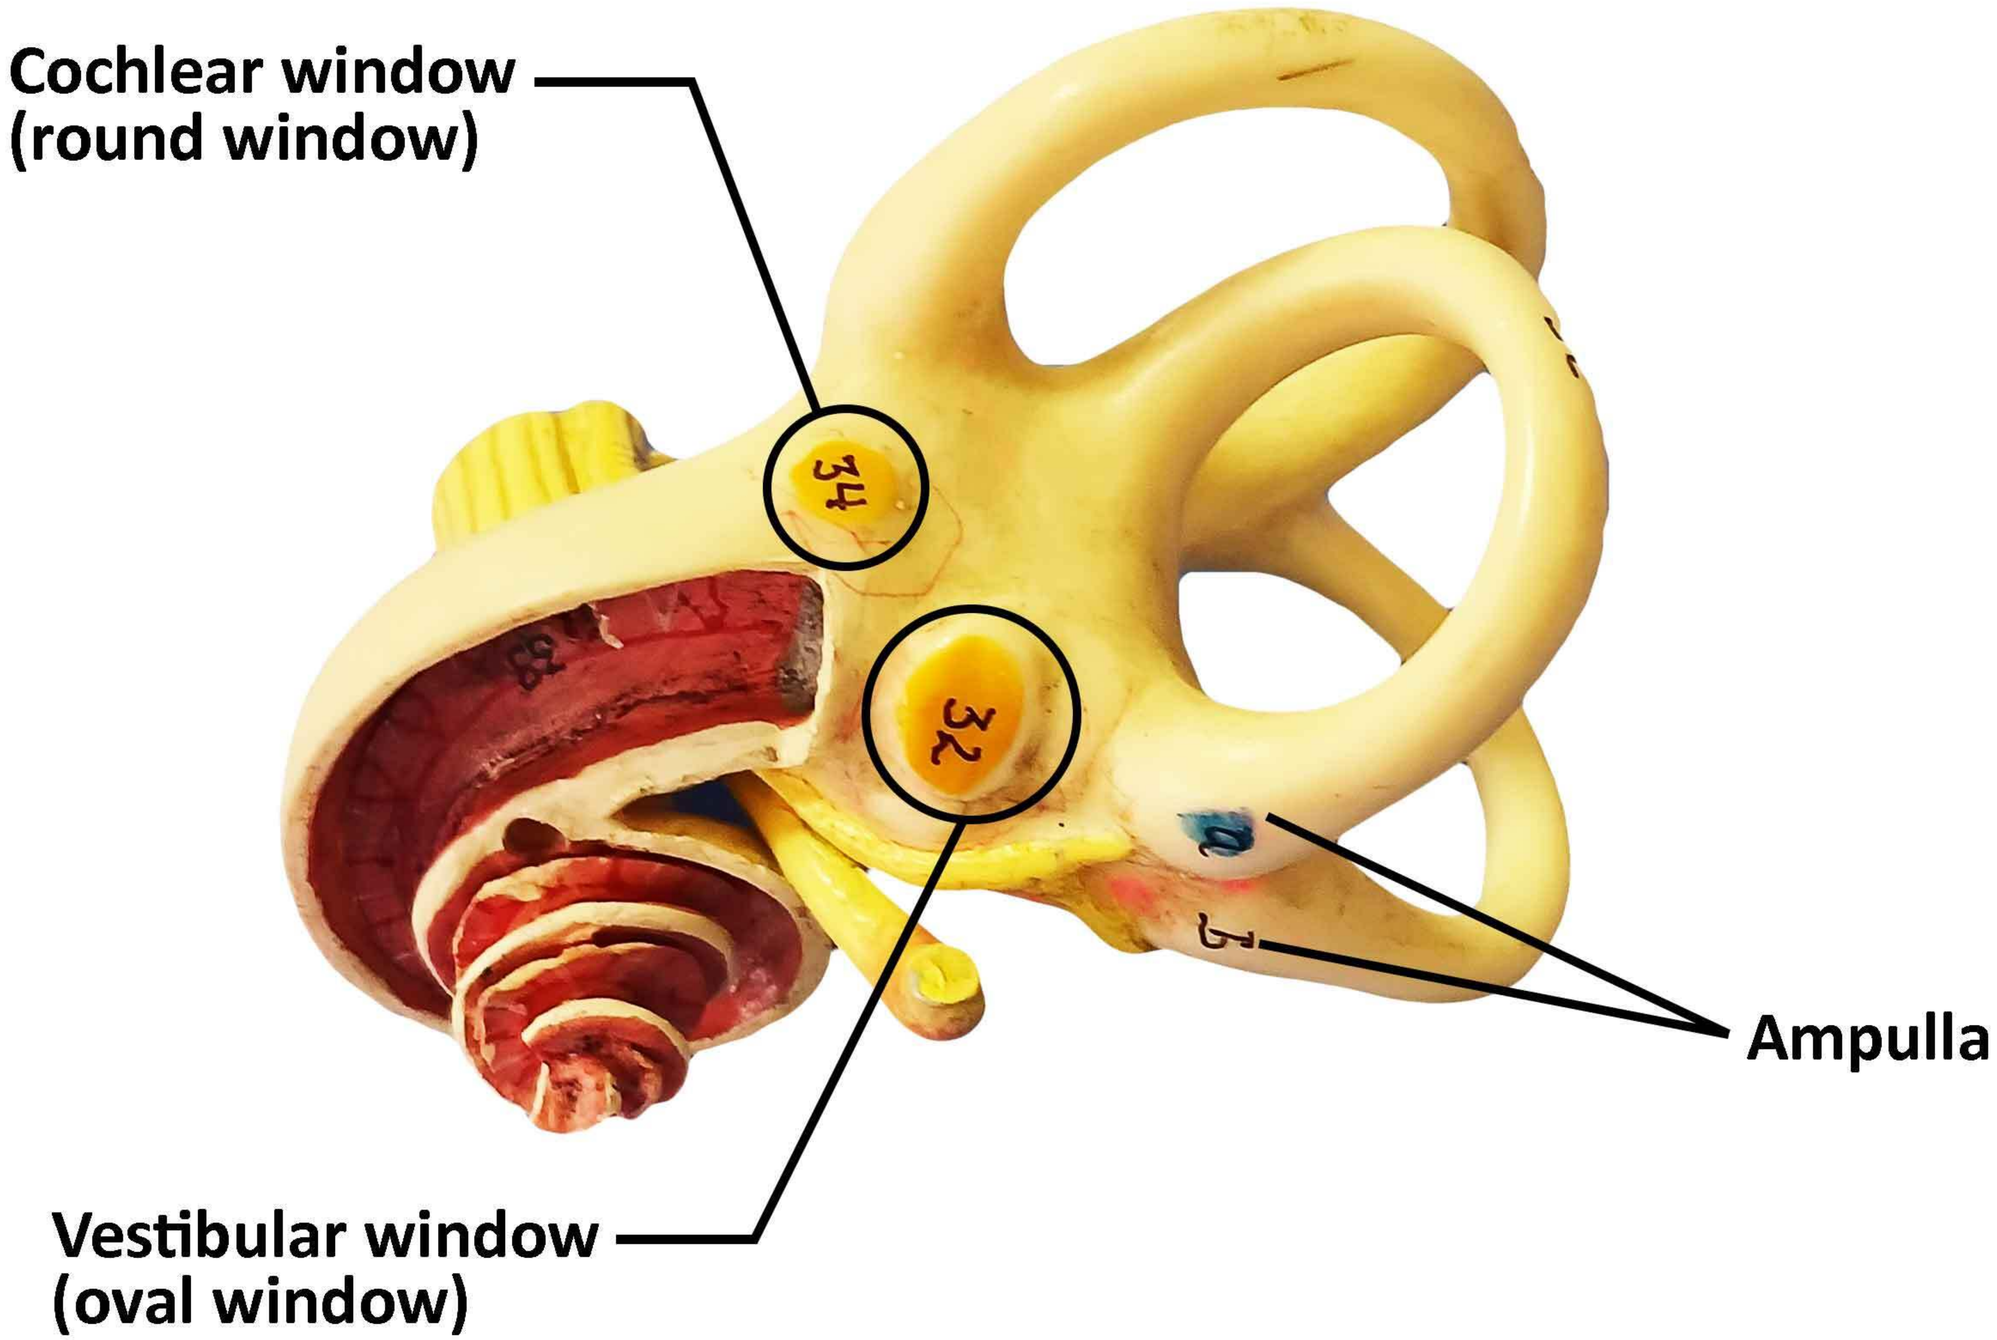

Anterior process of malleus bone

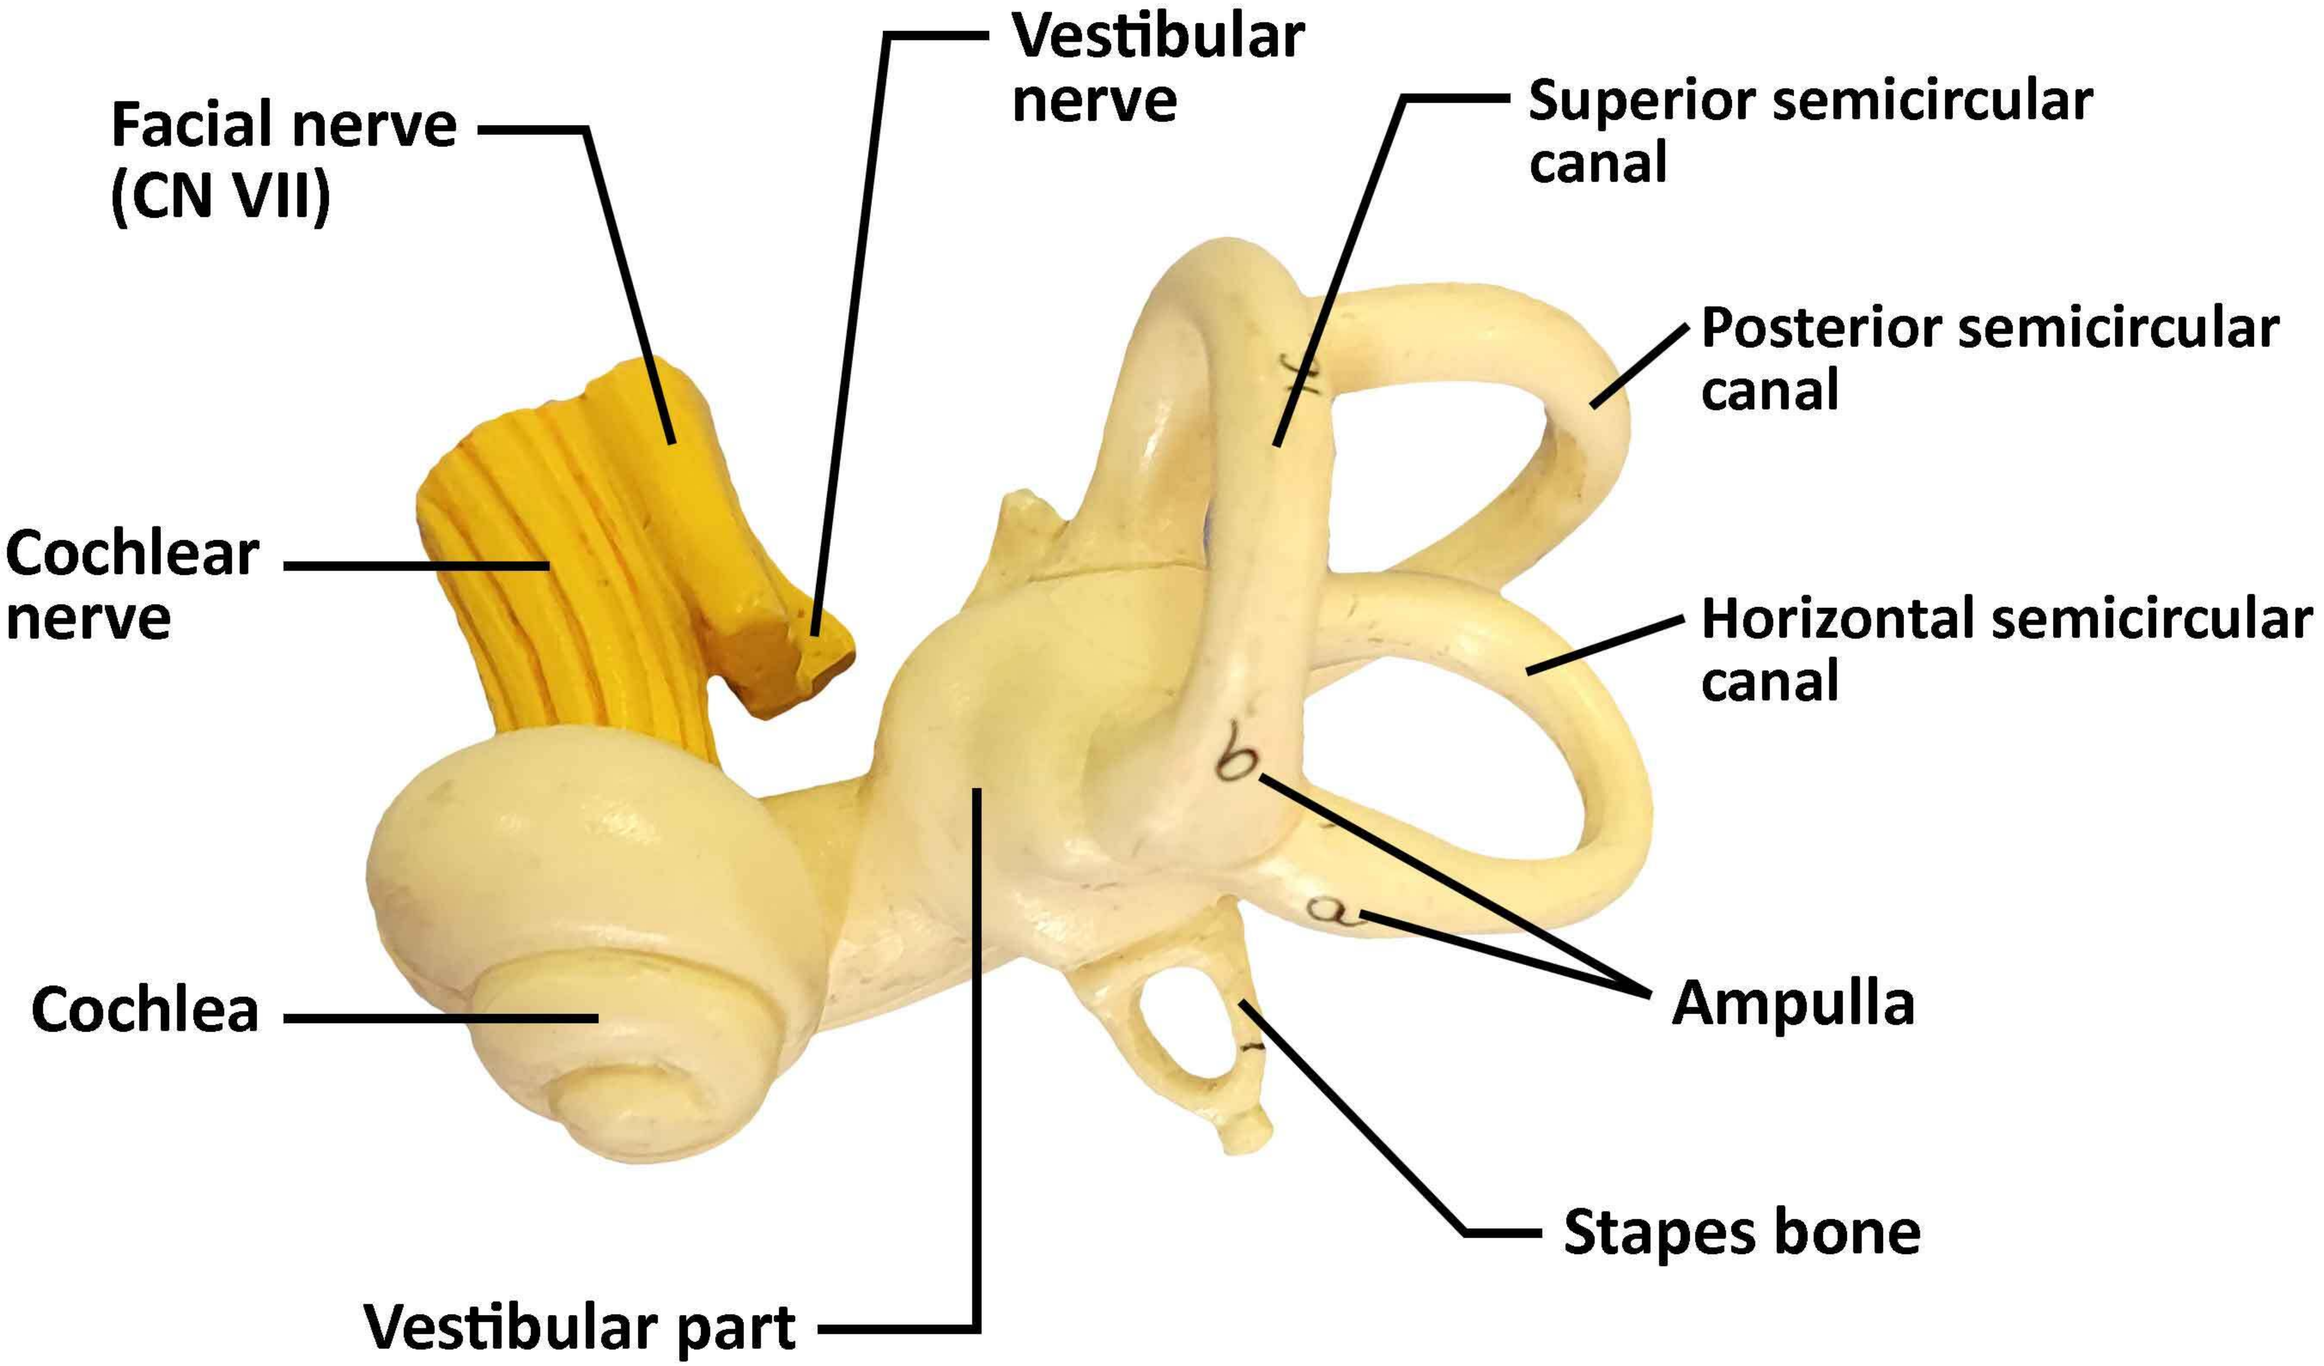

Tendon of tensor tympani muscle

Base (footplate) of stapes bone
Posterior crus of stapes bone
Anterior crus of stapes bone
Head of stapes bone

Vestibular ganglia
Vestibular nerve
Cochlea
Ampulla
Cochlear nerve
Facial nerve (CN VII)
Saccule
Utricle

Semicircular canals
Vestibular part
Helicotrema
Scala media
Scala vestibuli
Scala tympani

Cochlear window
(round window)
34
33
32
